Do not hit or beat the product

Do not use in very humid and high temperature environments, product performance will degrade when it is used in extreme environment.

Do not throw the product into fire.

Please contact us when the product is broken, do not disassemble by yourself.

It's not covered under warranty when the product has metal of rust, surface spoiling and other natural oxidation, or man-made damage.

9. Common problems

1. What devices can connect with the Magicbox?

Answer: Any mobile devices or PC with Bluetooth function. For IMAC or other Apple computer, please upgrade to OS X Mavericks.

2. Sometimes the sound will be interrupted, what is the reason?

Answer: Ideally, the Bluetooth connection range is 10 meters in straight line. Any high power wireless devices close to the speaker or the smart phones will highly degrade the performance.

The battery should be fully charged. If it is connected with iPad/Iphone, the remaining power could be monitored with the icon on the top right side of the screen.

3. Why do some songs not sound very well?

Please cancel the pairing first, check the original sound quality.

10. Warranty (One year limited warranty)

When purchasing this product, please fill in this card and be properly preserved.

12. FCC Compliance statement

1. FCC ID: 2ABPGDK-MBOX-030. The information about the Bluetooth speaker is on file with the FCC and can be found under the display grant section of <http://www.fcc.gov/oet/ea/fccid> after searching on FCC ID: 2ABPGDK-MBOX-030

2. This device complies with Part 15 of the FCC Rules. Operation is subject of the following two condition:

(1) This device may not cause harmful interference

(2) This device must accept any interference received, including interference that may cause undesired operation.

3. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Caution:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
