EXHIBIT “Q”

Description: Original Copy “Operating Instructions”

MICROWAVE OVEN

Operating Instructions

Model: **DMW119BLS**
DMW119W
DMW119BL

Before operating this oven, please read these instructions completely.

PRECAUTIONS TO AVOID POSSIBLE EXPOSURE TO EXCESSIVE MICROWAVE ENERGY.

(a) Do not attempt to operate this oven with the door open since open-door operation can result in harmful exposure to microwave energy. It is important not to defeat or tamper with the safety interlocks.

(b) Do not place any objects between the oven front face and door or allow soil or cleaner residue to accumulate on sealing surfaces.

(c) Do not operate the oven if it is damaged.
this is particularly important that the oven door close properly and that there is no damage to the:
(1) door (bent), (2) hinges and latches (broken or loose), (3) door seals and sealing surfaces.

(d) The oven should not be adjusted or repaired by anyone except properly qualified service personnel.

This ISM apparatus meets all requirements of the Canadian Interference Causing Equipment Regulations

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances basic safety precautions should be followed, including the following:

WARNING - To reduce the risk of burns, electric shock, fire, injury to persons or exposure to excessive microwave energy:

- 1 Read all instructions before using the appliance.
- 2 Read and follow the specific "PRECAUTIONS TO AVOID POSSIBLE EXPOSURE TO EXCESSIVE MICROWAVE ENERGY" found on page 1.
- 3 This appliance must be grounded. Connect only to properly grounded outlet. See "GROUNDING INSTRUCTIONS" found on page 3.
- 4 Install or locate this appliance only in accordance with the provided installation instructions.
- 5 Some products for example such as whole eggs and sealed containers and closed glass jars may explode and should not be heated in this oven.
- 6 Use this appliance only for its intended use as described in this manual.
- 7 As with any appliance, close supervision is necessary when used by children.
- 8 Do not operate this appliance if it has:
 - a) Damaged electrical cord
 - b) Damaged electrical plug
 - c) Damaged cabinet
 - d) Damaged door
- 9 This appliance should be serviced only by qualified service personnel. Contact the nearest authorized service facility for examination, repair or adjustment.
- 10 Do not cover or block any openings on the appliance.
- 11 Do not use outdoors.
- 12 Do not immerse cord or plug in water.
- 13 Keep cord away from heated surfaces.
- 14 Do not let cord hang over edge of table or counter.
- 15 When cleaning surfaces of door and oven that come together on closing the door, use only mild, non-abrasive soaps or detergents applied with a sponge or soft cloth.
- 16 To reduce the risk of fire in the oven cavity:
 - (a) Do not overcook food. Carefully attend appliance if paper, plastic, or other combustible materials are placed inside the oven to facilitate cooking.
 - (b) Remove wire twist-ties from paper or plastic bags before placing in oven.
 - (c) If materials inside the oven should ignite, keep oven door closed, turn oven off, and disconnect the power cord, or shut off power to the fuse or circuit breaker panel.
- 17 Do not use this microwave oven to heat corrosive chemicals (for example, sulfides and chlorides). Vapors from such corrosive chemicals may interact with the contacts and springs of the safety interlocks switches thereby rendering them inoperable.

CAUTION: Always set short cooking times and check the food frequently.
If recommended cooking times are exceeded, food can be spoiled.
In extreme circumstances overcooking foods with high oil or fat content, could catch fire.

SAVE THESE INSTRUCTIONS

SAFETY PRECAUTIONS

GENERAL USE

- 1 DO NOT attempt to tamper with or make any adjustments or repairs to door, control panel or any other part of the oven. DO NOT remove outer case from oven. Repairs should only be done by a qualified service person.
- 2 DO NOT operate the oven empty. The microwave energy will reflect continuously throughout the oven if food or water is not present to absorb energy.
- 3 If a fire occurs in the oven, touch the STOP/CLEAR pad and LEAVE THE DOOR CLOSED. Disconnect the power cord, or shut off the power at the fuse or circuit breaker panel.
- 4 DO NOT attempt to dry clothes, newspaper, or other materials in oven. They may catch on fire.
- 5 DO NOT use recycled paper products, as they may contain impurities which may cause sparks and or fire when used.
- 6 DO NOT hit or strike control panel. Damage to controls may occur.
- 7 AVOID inserting nails, wire, etc. through any holes in the unit while operating the oven. Never insert a wire, nail or other metal objects through holes on the cavity or in any other holes or gaps, because such objects may cause electrical shock and/or damage the microwave oven.

UTENSILS

- 1 METAL CONTAINERS or dishes with metallic rims should not be used. Arching may occur.
- 2 METAL TWIST-TIES should not be used in the microwave oven.
- 3 DO NOT use SEALED JARS or NARROW NECK bottles for cooking or reheating. They may shatter.
- 4 DO NOT use CONVENTIONAL THERMOMETERS in microwave oven. They may cause arching.
- 5 Remove PLASTIC STORE WRAPS, before cooking or defrosting in the oven.
- 6 When using foil, skewers, warming rack or utensils made of metal in the oven, allow at least one inch space between metal material and interior oven walls. If arching (sparking) occurs remove metal material (skewers, etc.) and/or transfer to a nonmetallic container.

- 7 For FURTHER INFORMATION on proper cooking utensils, refer to the Introduction in the Microwave Cooking Guide.

FOOD

- 1 Never use your microwave oven for HOME CANNING. The oven is not designed to permit proper canning. Improperly canned food may spoil and be dangerous to consume.
- 2 COOKING TIMES given in the cooking guide are APPROXIMATE. Factors that may affect cooking are: starting temperature, altitude, volume, size and shape of foods and utensils used. As you become familiar with the oven, you will be able to adjust for these factors.
- 3 Its better to UNDERCOOK RATHER THAN OVERCOOK foods. If food is undercooked, it can always be returned to the oven for further cooking. If the food is overcooked nothing can be done. Always start with minimum cooking times.
- 4 SMALL QUANTITIES of food or foods with LOW MOISTURE content can burn, dry out or catch on fire if cooked to long.
- 5 DO NOT boil eggs in their shell. Pressure may build up and the eggs will explode.
- 6 Potatoes, apples, egg yolks, whole acorn squash and sausage are examples of food with NON-POROUS SKINS. These must be pierced before cooking to prevent bursting.
- 7 POPCORN must be popped in a microwave corn popper. Microwave popped corn produces a lower yield than conventional popping. Do not pop popcorn unless popped in a microwave approved popcorn utensil or unless it's commercially packaged and recommended especially for microwave ovens. Do not use oil unless specified by the manufacturer.
- 8 DO NOT attempt to deep fat fry in your oven.
- 9 HEATED LIQUIDS can ERUPT if not mixed with air. Do not heat liquids in your microwave without first stirring.

FEDERAL COMMUNICATIONS COMMISSION

RADIO FREQUENCY INTERFERENCE

STATEMENT (U.S.A. ONLY)

WARNING:

This equipment generates and uses ISM frequency and if not installed and used properly, that is in the strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type-tested and found to comply with limits for an ISM Equipment pursuant to part 18 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following:

- Reorient the receiving antenna of radio or television.
- Relocate the microwave oven with respect to the receiver.
- Move the microwave oven away from the receiver.
- Plug the microwave oven into a different outlet so that the microwave oven and receiver are on different branch circuits.

THE MANUFACTURER is not responsible for any radio or TV interference caused.

It is the responsibility of the user to correct such interference.

GROUNDING INSTRUCTIONS

This appliance must be grounded. In the event of an electrical short circuit, grounding reduces the risk of electric shock by providing an escape wire for the electric current. This appliance is equipped with a cord having a grounding wire with a grounding plug. The plug must be plugged into an outlet that is properly installed and grounded.

WARNING: Improper grounding can result in a risk of electrical shock.

Consult a qualified electrician or serviceman if the grounding instructions are not completely understood, or if doubt exists as to whether the appliance is properly grounded. If it is necessary to use an extension cord, use only a 3-wire extension cord that has a 3-prong grounding plug, and a 3-slot receptacle that will accept the plug on the appliance. The marked rating of the extension cord shall be equal to or greater than the electrical rating of the appliance.

INSTALLATION

1 Sturdy, flat location

This microwave oven should be set on a flat, sturdy surface.

2 Leave space behind and all sides of the microwave oven

All air vents should be kept clear. If all vents are covered during operation, the oven will overheat and, eventually, cause oven failure.

3 Keep away from radio and TV sets

Poor television reception and radio interference may result if the oven is located close to a TV, radio, or antenna feeder etc. Place the oven as far from them as possible.

4. Keep away from heating appliances and water taps

Keep the oven away from sources of heat and water installations.

The insulation might be adversely affected resulting in breakdowns.

5 Power supply

- Check your local power source.

This microwave oven requires a current of approximately 15 amperes, 120 Volts, 60Hz grounded outlet.

- Power supply cord is about 1.0 meter long (3 ft.).

1. A short power-supply cord is provided to reduce the risks of becoming entangled, or tripping over a longer cord.

2. Longer cord sets or extension cords are available and may be used if care is exercised in their use.

3. If a longer cord or extension cord is used, (1) the marked electrical rating of the cord set or extension cord shall be equal to or greater than the electrical rating of the appliance. (2) the extension cord must be a grounding-type 3-wire cord, and have a 3-prong plug (3) the longer cord should be arranged so that it will not drape over the countertop or tabletop where it can be pulled by children or tripped over accidentally.

6. Examine the oven after unpacking for any damage such as:

Dents, a misaligned door, broken door, a dent in the cavity.

If any of the above are visible, DO NOT INSTALL, and notify dealer immediately.

When using a 3-pronged plug

When using a grounding adapter, make sure the receptacle box is properly grounded.

FEATURES

- 3-stage programmable cooking for automatically changing from one stage to the other at the programmable time.
- Smart control panel with flat membrane electric touch-control keys.
- Tone signal sounds when a key is touched to confirm operation.
- Oven lamp and door viewing screen allow automatic monitoring of the cooking process.

SPECIFICATIONS

Power supply	120 Volts AC 60Hz Only
Power consumption	1348 W
Microwave output power	1000 W
Microwave frequency	2,450 MHz
Outside dimensions	W 20 1/2" (52.1cm) X D 16 3/4" (42.5cm) X H 11 1/2" (29.2cm)
Cavity volume (cu. ft./litres)	1.1 cu. ft./ (31.1 L)
Weight (lbs./kg.)	41.8 lbs./19.0 kg
Timer	Digital. 99 minutes 99 seconds

* Specifications subject to change without notice.

CARE OF YOUR MICROWAVE OVEN

- 1 Turn the oven off before cleaning.
- 2 Keep the inside of the oven clean. When the food splatters or spilled liquids adhere to oven walls, wipe with a damp cloth. Mild detergent may be used if the oven gets very dirty. The use of harsh detergent or abrasives is not recommended.
- 3 The outside oven surface should be cleaned with soap and water, rinsed and dried with a soft cloth. To prevent damage to the operating parts inside the oven, water should not be allowed to seep into the ventilation openings.
- 4 If the control panel becomes wet, clean with a soft, dry cloth. Do not use harsh detergents or abrasives on control panel.
- 5 If steam accumulates inside or around the outside of the oven door, wipe with a soft cloth. This may occur when the microwave oven is operating under high humidity conditions and in no way indicates malfunction of the unit.

- 6 It is occasionally necessary to remove the glass tray for cleaning. Wash the tray in warm sudsy water or in a dishwasher.

- 7 The roller guide and oven cavity floor should be cleaned regularly to avoid excessive noise. Simply wipe the bottom surface of the oven with mild detergent or window cleaner and dry. The roller guide may be washed in mild sudsy water or in a dishwasher.

ROLLER GUIDE

1. The ROLLER GUIDE and oven floor should be cleaned frequently to prevent excessive noise.
2. The ROLLER GUIDE MUST ALWAYS be used for cooking together with the Glass Tray.

GLASS TRAY

1. DO NOT operate the oven without the Glass Tray in place.
2. DO NOT use any other Glass Tray with this oven.
3. If the Glass Tray is hot, ALLOW IT TO COOL before cleaning or placing it in water.
4. DO NOT cook directly on the Glass Tray.

HOW TO USE YOUR MICROWAVE OVEN SAFELY

Although your oven is provided with safety features, it is important to observe the following:

- a) It is important not to defeat or tamper with safety interlocks.
- b) Do not place any objects between the oven front face and the door or allow residue to accumulate on sealing surfaces. Wipe the sealing area frequently with a mild detergent, rinse and wipe dry. Never use abrasive powders or pads.
- c) When opened, the door must not be subject to strain, for example, a child hanging on an open door or any load could cause the oven to fall forward causing injury and also damage to the door. Do not operate the oven if it is damaged, until it has been repaired by a qualified service person. It is particularly important that the oven closes properly and there is no damage to the:
 - i) Door (bent)
 - ii) Hinges and Latches (broken or loosened)
 - iii) Door seals and sealing surfaces
- d) The oven should not be adjusted or repaired by anyone other than properly qualified service personnel.

Note: It is quite normal for steam to be emitted around the door during the cooking cycle.

The door is not intended to seal the oven cavity completely, but its special design contributes to the complete safety of the appliance.

Caution: 1. Do not attempt to operate the oven while empty as this will cause damage.

2. As the exhaust is located at the rear of the oven, install the oven so as not to block the outlet.

BEFORE YOU CALL FOR SERVICE

Refer to the following checklist, you may prevent an unnecessary service call.

* The oven doesn't work;

- 1. Check that the power cord is securely plugged in.
- 2. Check that the door is firmly closed.
- 3. Check that the cooking time is set.
- 4. Check for blown circuit fuse or tripped main circuit breaker in your home.

* Sparking in the cavity;

- 1. Check that utensils are not metal, containers or dishes have no metal trim.
- 2. Check that metal skewers are not touching the interior walls of the microwave oven cavity.

If there is still a problem, notify the closest authorized service agent.

DO NOT ATTEMPT TO SERVICE THE OVEN YOURSELF!

FEATURE DIAGRAM

1. Door latch-When the door is closed it will automatically lock shut. If the door is opened while the oven is operating the microwave will automatically shut off.
2. Door seal-The door seal maintains the microwaves within the oven cavity and prevents leakage.
3. Oven cavity
4. Splatter shield-Protects the microwave outlet from splashes of cooked foods.
5. Safety interlock system-Prevents the oven from operating while the door is open.
6. Door release button-Pushing this button stops oven operation and opens the door.
7. Glass cooking tray-The tray must always be in proper position before operating. Do not cook food directly on the tray.
8. Roller guide-Supports the glass cooking tray.
9. Door screen-Allows viewing of food. The screen is designed so that light can pass through, but not the microwaves.
10. Number pads-Used to set the cooking time and present time.
11. LED Display-Cooking time, power level, present time are displayed.
12. Speedy cook-Touch to set any desired reheat setting.
13. Popcorn-Used to cook popcorn.
14. Muffin-Used to cook a muffin.
15. Baked potato-Used to cook baked potato.
16. Dinner plate-Used to reheat dinner plate.
17. Soup-Used to reheat soup.
18. Beverage-Used to reheat beverage.
19. Frozen pizza-Used to reheat frozen pizza.
20. Fresh vegetables-Used to blanch fresh vegetables.
21. More-Used to increase one touch cooking. (10 & 20 second increments only)
22. Less-Used to reduce one touch cooking. (10 & 20 second increments only)
23. Auto defrost-Used to defrost foods.
24. Power-Used to set power level.
25. Clock/A.start-Used to set clock & set auto start.
26. Stop/Clear-Used to stop the oven operation or to delete the cooking data.
27. Start-Used to start selected operation.

OPERATION PROCEDURE

This section includes useful information about oven operation.

1. Plug power supply cord into a standard 3-pronged 15 Amp, 120V AC 60Hz power outlet socket.
2. After placing the food in a suitable container, open the oven door and put it on the glass tray.
The tray must always be in place during cooking.
3. Shut the door. Make sure that it is firmly closed.

- 1 The interior light illuminates only when the microwave is operational. The interior light does not illuminate when the door is opened.
- 2 The oven door can be opened at any time during operation by touching the door release button on the control panel. The oven will automatically shut off. To restart the oven, close the door and then touch START.
- 3 Each time a pad is touched, a BEEP will sound to acknowledge the selection.
- 4 The oven automatically cooks on full power unless set to a lower level.
- 5 The display will show ":0" when the oven is plugged in.
- 6 Time clock returns to the present time when the oven turns off.

- 7 When the STOP/CLEAR pad is touched during the oven operation, the oven stops cooking and all information is retained.
To erase all information (except the present time), touch the STOP/CLEAR pad once more. If the oven door is opened during the oven operation, all information is retained.
- 8 If the START pad is touched and the oven does not operate, check the area between the door and door seal for obstructions and make sure the door is closed securely.
The oven will not start cooking until the door is completely closed or the program has been reset.

Make sure the oven is properly installed and plugged into the electrical outlet.

Wattage output chart

- The power-level is set by pressing the POWER pad. The chart shows the display, the power level and the percentage of power.

Touch Power Pad, One Touch	Power Level (Display)	Approximate Percentage of Power
POWER	P-HI	100%
9	P-90	90%
8	P-80	80%
7	P-70	70%
6	P-60	60%
5	P-50	50%
4	P-40	40%
3	P-30	30%
2	P-20	20%
1	P-10	10%
0	P-0	0%

CONTROLS

SETTING THE CLOCK

When the oven is first plugged in, the display will flash “:0” and a beep will sound. If the AC power ever goes off, the display will flash “:0” when the power comes back on.

DO THIS...

THIS HAPPENS...

**CLOCK/A.
START**

1.Touch CLOCK/A. START pad.

This is a 12 hour clock system.

**CLOCK/A.
START**

2.Touch CLOCK/A. START pad once more.

This is a 24 hour clock system.

NOTE: This oven has a dual clock system. If you want a 12 hour clock system, omit this step.

1 2 3 0

3.Enter the correct time of day by touching the numbers in sequence.

The display will then begin blinking.

**CLOCK/A.
START**

4.Touch CLOCK/A. START pad.

The display will stop blinking, and the colons start blinking. If you selected the 12 hour clock system, this digital clock allows you to set from 1:00 to 12:59.

If you selected 24 hour clock system, the digital clock allows you to set from 0:00 to 23:59.

NOTE: If you attempt to enter an incorrect time, the time will not be set and an error signal tone will sound.
Touch the CLOCK/A START pad re-enter the same time.

WEIGHT DEFROSTING

WEIGHT DEFROSTING lets you easily defrost food by eliminating guesswork in determining defrosting time. The minimum weight for WEIGHT DEFROST is 0.5 pounds. The maximum weight for WEIGHT DEFROST is 6.0 pounds. Follow the steps below for easy defrosting.

DO THIS...

THIS HAPPENS...

**AUTO
DEFROST**

1. Touch AUTO DEFROST pad.

The WEIGHT DEFROST indicator lights up and "0" is displayed. And the 1b indicator starts blinking.

1 5

2. Touch number pad for the defrost weight you want.

The display will show the numbers you pressed in the order you touched.

START

3. Touch START pad.

WEIGHT DEFROST begins. The defrosting time is automatically determined by the weight entered.

The 1b indicator goes off and the WEIGHT DEFROST indicator blinks and the defrost time counts down in the display window.

The oven beeps during the defrosting cycle to signal that the food needs to be turned or rearranged.

When the defrosting time ends, you will hear 3 beeps.

NOTE: To prevent overdefrosting, thin areas or edges can be shielded with strips of aluminum foil.

TIME DEFROSTING

When TIME DEFROST is selected, the automatic cycle divides the defrosting time into periods of alternating defrost and stand times by cycling on and off.

DO THIS...

THIS HAPPENS...

**AUTO
DEFROST**

1. Touch AUTO DEFROST pad.

The WEIGHT DEFROST indicator light and ":0" is displayed and the 1b indicator starts blinking.

**AUTO
DEFROST**

2. Touch AUTO DEFROST pad once more.

The TIME DEFROST indicator lights and ":0" is displayed.

2 7 1 0

3. Touch number pads for the defrosting time.

The display will show the numbers you pressed in the order you touched.

START

4. Touch START pad.

When you touch START pad, the TIME DEFROST indicator lights starts blinking to show the oven is in the TIME DEFROST mode. The display counts down the time to show you how much defrosting time is left in the TIME DEFROST mode. The oven beeps during the defrost cycle to signal that the food needs to be rearranged. When the defrost time ends, you will hear 3 beeps.

NOTE: To prevent overdefrosting, thin areas and edges can be shielded with stripes of aluminum foil.

COOKING IN ONE STAGE

DO THIS...

THIS HAPPENS...

POWER

1. Touch POWER pad.

The STAGE 1 indicator lights and "p-" is displayed.

3

2. Touch the number pad for the power level you want.

The display will show what you touched. This example shows power level 3.

NOTE: If steps 1 and 2 are omitted, the oven will cook at full power.

5

3

0

3. Touch number pads for the cooking time.

The display will show the numbers you pressed in the order you touched.

START

4. Touch START pad.

When you touch START pad, the STAGE 1 indicator light starts blinking to show the oven is cooking.
The display counts down the time to show you how much cooking time is left.
When the cooking time ends, you will hear 3 beeps.

NOTE: Using lower power levels increase the cooking time which is recommended for foods such as cheese, milk and slow cooking of meats.

COOKING IN TWO STAGES

For the best results, some recipes call for one Power Level for a certain length of time and another Power Level for a different length of time.

Your microwave oven can be set to change from one to another.

DO THIS...

THIS HAPPENS...

5 **3** **0**

1. Touch number pad for the cooking time you want in the first stage.

The STAGE 1 indicator lights and "p-" is displayed.

POWER

2. Touch the POWER pad once more

The STAGE 2 indicator lights and "P-" is displayed.

8

3. Touch number pads for the power level you want in the second stage.

The display will show what you touched.

4 **2** **0**

4. Touch number pad for the cooking time you want in the second stage.

The display will show the number you pressed in the order you touched.

This example shows 4 minutes, 20 seconds at power level 8.

START

5. Touch START pad.

When you touch START pad, both STAGE 1 & 2 indicator lights starts blinking to show the oven is cooking the first of two cook stages.

The display counts down the time to show you how much cooking time is left..

The oven beeps during the cycle to signal that the food needs to be rearranged.

When the cooking time ends, you will hear 3 beeps.

WEIGHT DEFROSTING AND COOKING IN TWO STAGES

Some recipes require frozen foods to be thawed before cooking.
This oven can be programmed to automatically defrost foods before cooking.

DO THIS...

THIS HAPPENS...

**AUTO
DEFROST**

1. Touch AUTO DEFROST pad.

The WEIGHT indicator lights and "0.0" is displayed. And the 1b indicator starts blinking.

1 5

2. Touch the number pad for the defrosting weight you want.

The display will show the numbers you pressed in the order you touched.

POWER

3. Touch POWER pad.

The STAGE 1 indicator lights and "P-" is displayed.

POWER

4. Touch POWER pad once more.

"P-HI" will appear in the display. This example shows full power (100%).

5 3 0

5. Touch number pads for the cooking time you want in the first stage.

The display will show the numbers you pressed in the order you touched. This example shows 5 minutes 30 seconds at full power.

DO THIS...

THIS HAPPENS...

POWER

6. Touch POWER pad.

The STAGE indicator lights and "P-" is displayed.

8

7. Touch the number pad for the power level you want in the second stage.

The display will show you what you touched.

4

2

0

8. Touch the number pads for the cooking time you want in the second stage.

The display will show the numbers you pressed in the order you touched. This example shows 4 minutes 20 seconds at power level 8.

START

9. Touch START pad.

When you touch START pad, the WEIGHT DEFROST, STAGE 1 and STAGE 2 indicators come on to confirm the power levels selected. The WEIGHT DEFROST indicator starts blinking to show you that the oven is in WEIGHT DEFROST mode. The display counts down the time remaining in the WEIGHT DEFROST mode. Turn over, break apart and redistribute when the beep signal sounds. At the end of the WEIGHT DEFROST mode, the oven will beep and start stage 1. The WEIGHT DEFROST indicator goes off and the stage 1 indicator starts blinking. The display counts down the time remaining in stage 1. At the end of stage 1, the oven will beep and start stage 2. The stage 1 indicator goes off and the stage 2 indicator starts blinking. The display counts down the time remaining in stage 2 when stage 2 ends, you will hear 3 beeps.

AUTO START

Allows you to program cooking to start at a time you select.
The food will automatically start cooking at the desired time.
program has 2 stages (excluding DEFROST).

DO THIS...

THIS HAPPENS...

1. Program the desired power level and cooking time.

CLOCK/A START

2. Touch CLOCK/A.START
pad.

The AUTO START indicator
lights and "0" is displayed.

1 1 3 0

3. Enter the desired start
time by pressing the
number pads.

The display will show the
numbers you pressed in
the order you touched.
This example shows 11:30.

START

4. Touch START pad.

When you touch START pad, the present time appears
in the display and the cooking program indicators
come on.

The AUTO START indicator and the colon start blinking.
When the selected start time arrives the oven begins
operating and the oven light turns on. The AUTO START
indicator goes off and the next stage indicator begins
to blink.

When the cooking is completed you will hear 3 beeps.
The oven turns off and the present time appears in the
display.

NOTE: AUTO START can be used for time cooking, if the clock is set. If the oven door is opened after programming AUTO START, it is necessary to touch the START pad for the time of day to appear in the readout so that the oven will automatically begin programmed cooking at the chosen AUTO START time.

Before setting, check to make sure the clock is showing the correct time of day.

TO CHECK AUTO START TIME

Once you have correctly programmed oven for AUTO START , the present time will appear on the display.

DO THIS...

THIS HAPPENS...

CLOCK/A. START

The programmed AUTO START time will appear on the display for 3 seconds.

1.Touch CLOCK/A. START pad.

SPEEDY COOK

SPEEDY COOK allows you to reheat for 30 seconds at 100% (full power) by simply touching the **SPEEDY COOK** pad.

By repeatedly touching the **SPEEDY COOK** pad, you can also extend reheating time to 5 minutes by 30 second increments.

DO THIS...

THIS HAPPENS...

SPEEDY COOK

1.Touch SPEEDY COOK pad.

When you touch **SPEEDY COOK**, ":30" is displayed.
After 1.5 seconds, the oven starts reheating.

ONE TOUCH COOKING

One touch cook allows you to cook or reheat many of your favorite foods by touching just one pad. To increase quantity, touch chosen pad until number in display is same as desired quantity to cook. (except for MUFFINS & DINNER PLATE)

DO THIS...

THIS HAPPENS...

POPCORN

1.Touch POPCORN pad.

When you touch POPCORN pad, "3.5" is displayed. After the 1.5 seconds, the display changes to cooking time of quantity and the oven starts cooking.

POPCORN

- 3.5 oz Touch POPCORN once.
- 1.75 oz Touch POPCORN twice within 1.5 seconds.

- NOTE:**
1. Use pre-packaged room-temperature microwave popcorn.
 2. Place oven bag in oven according to manufacturer's directions.
 3. Pop only one bag at a time.
 4. After popping, open the bag carefully, popcorn and steam is extremely hot.
 5. Do not reheat unpopped kernels or reuse bag.
 6. Do not leave oven unattended while popping popcorn.

CAUTION: If pre-packaged popcorn is of a different weight than the recommended weight, do not use the popcorn setting, or an inadequate popping or fire may occur. Follow the manufacturer's instructions.

DO THIS...

THIS HAPPENS...

FROZEN PIZZA

1.Touch FROZEN PIZZA pad.

When you touch FROZEN PIZZA, "7" is displayed. After 1.5 seconds, the display changes to cooking time of quantity and the oven starts cooking.

FROZEN PIZZA

- 7 oz Touch FROZEN PIZZA once.
- 10 oz Touch FROZEN PIZZA twice within 1.5 seconds.

- NOTE:**
1. Use only one frozen pizza at a time.
 2. Use only frozen pizza for microwave oven.
 3. If the cheese on frozen pizza does not melt sufficiently, cook a few seconds longer.
 4. Some brands of frozen pizza may require more or less cooking time.

DO THIS...

BEVERAGE

1. Touch BEVERAGE pad.

THIS HAPPENS...

When you touch BEVERAGE pad, "1" is displayed.

After 1.5 seconds, the display changes to cooking time of quantity and the oven starts cooking.

BEVERAGE (250 ml/cup)

- 1 cup (mug) Touch BEVERAGE once.
- 2 cup (mug) Touch BEVERAGE twice within 1.5 seconds.
- 3 cup (mug) Touch BEVERAGE three times within 1.5 seconds.

- NOTE:**
1. This setting is good for restoring cooled beverage to a better drinking temperature.
 2. Stir after cooking.

DO THIS...

THIS HAPPENS...

DINNER PLATE

1. Touch DINNER PLATE pad.

When you touch DINNER PLATE pad, "11" is displayed.
After the 1.5 seconds, the display changes to cooking time of quantity and the oven starts cooking.

NOTE: For best results, consult a cookbook.

DO THIS...

THIS HAPPENS...

MUFFIN

1. Touch MUFFIN pad.

When you touch MUFFIN pad, "5" is displayed.
After the 1.5 seconds, the display changes to cooking time of quantity and the oven starts cooking.

NOTE: For best results, consult a cookbook.

DO THIS...

THIS HAPPENS...

SOUP

1. Touch SOUP pad.

When you touch SOUP pad, "8" is displayed.
After the 1.5 seconds, the display changes to cooking time of quantity and the oven starts cooking.

SOUP

- 8oz Touch SOUP once.
- 12 oz Touch SOUP twice within 1.5 seconds.

NOTE: For best results, consult a cookbook.

DO THIS...

THIS HAPPENS...

FRESH VEGETABLE

1. Touch FRESH VEGETABLE once.

When you touch FRESH VEGETABLE pad, "8" is displayed. After the 1.5 seconds, the display changes to cooking time of quantity and the oven starts cooking.

FRESH VEGETABLE

- 8oz Touch FRESH VEGETABLE once.
- 12oz Touch FRESH VEGETABLE twice within 1.5 seconds.

NOTE: For best results, consult a cookbook.

DO THIS...

THIS HAPPENS...

BAKED POTATO

1. Touch BAKED POTATO pad.

When you touch BAKED POTATO pad, "1" is displayed. After the 1.5 seconds, the display changes to cooking time of quantity and the oven starts cooking.

BAKED POTATO (5.5oz ~ 6.5oz / ea.)

- For 1 Touch BAKED POTATO once.
- For 2 Touch BAKED POTATO twice within 1.5 seconds.
- For 3 Touch BAKED POTATO three times within 1.5 seconds.

NOTE: For best results, consult a cookbook.

MORE, LESS TOUCH PAD

MORE Adds 10 second increments to time.(maximum 20 seconds)

LESS Reduces 10 second increments to time.(maximum 20 seconds)

These pads only work with one touch cooking mode.

CHILD SAFETY LOCK

The child lock feature prevents oven operation by small children.

To activate this feature proceed as follows;

1. Press the start key pad once.
2. Press the "O"key pad 3 times.
3. The lock indicator light inside the display window illuminates;
confirming the child lock feature is activated.

NOTE: No signal(beep) is heard until the last(3rd)depression of the "O" key pad.

To cancel the child lock feature repeat the above same steps in the exact same sequence.The lock indicator light will disappear from the window display confirming the child lock feature is deactivated.

NOTE:No signal (beep) is heard until the last (3rd)depression of the "O"key pad.

TO STOP THE OVEN WHILE THE OVEN IS IN OPERATION

1. press STOP/CLEAR pad.
 - You can restart the oven by touching START pad.
 - Touch STOP/CLEAR once more to erase all instructions.
 - You must enter in new instructions
2. Open the door.
 - You can restart the oven by closing the door and touching START

NOTE: The oven stops operating when the door is opened.

QUESTIONS AND ANSWERS

Q: I accidentally ran my microwave oven without any food in it. Is it damaged?

A: We do not recommend operating the microwave oven without any food, however, running the oven empty for a short time will not damage the oven.

Q: Can I open the door when the oven is operating?

A: The door can be opened anytime during the cooking operation. Microwave energy will be instantly switched off and time setting will be maintained until the door is closed.

Q: Can the oven be used with the glass tray or roller guide removed?

A: No. Both the glass tray and roller guide must be positioned correctly in the oven before cooking.

Q: My microwave oven causes interference with my TV. Is this normal?

A: Some radio and TV interference might occur when you cook with the microwave oven. This interference is similar to the interference caused by small appliances such as mixers, vacuums, blow dryers, etc. It does not indicate a problem with your oven.

Q: How can we know whether microwaves are being generated?

A: Microwaves are generated only when the door is closed, timer is on and the operation of fan motor is on at the same time as the Magnetron.

Q: Why does my oven light dim?

A: When cooking with a power level other than HIGH, the oven must cycle to obtain the lower power levels. The oven light dims and clicking noises can be heard when the oven cycles. (This is normal)

Q: When I turn on my oven, there is noise coming from the glass tray.

A: This noise occurs when the roller guide and oven bottom are dirty. Frequent cleaning of these parts should eliminate or reduce the noise.

Q: Why does steam accumulate on the oven door?

A: During cooking, steam is given off from the food. Most of the steam is removed from the oven by the air, which circulates in the oven cavity. However, some steam will condense on cooler surfaces such as the oven door. (This is normal)

Q: Sometimes warm air comes from the oven vents. Why?

A: The heat given off from the cooking food warms the air in the oven cavity. This warmed air is carried out of the oven by the airflow pattern in the oven. There are no microwaves in the air. The oven vents should never be blocked during cooking.

Q: Does microwave energy pass through the viewing screen in the door?

A: No. The metal screen bounces back the energy to the oven cavity. The holes are made to allow light to pass through. They do not let microwave energy pass through.

Q: When is the oven light on and off?

A: The oven light is on only when the door is closed and the oven is cooking.

Danby[®]

LIMITED PRODUCT WARRANTY

MICROWAVE OVENS

Carry-in service only.

This quality product is warranted to be free from manufacturer's defects in material and workmanship, provided that the unit is used under the normal operating conditions intended by the manufacturer.

This warranty is available only to the person to whom the unit was originally sold by Danby or by an authorized distributor of Danby, and is non-transferable.

TERMS OF WARRANTY

Any electrical parts of this product found to be defective will be repaired or replaced, including labour, at warrantor's option for the ORIGINAL purchaser, covering service listed below. Consumable parts (ie. light bulbs, glass, porcelain) are not warranted or guaranteed for any length of time.

Parts

One (1) year

Labor

One (1) year

Extended Magnetron Parts Replacement (No Labor)

Sixty-five (65) month

For all appliances which are covered under our carry-in service warranty, it is the consumer's responsibility to deliver the unit to our nearest authorized service depot. Any and all transportation charges incurred are the responsibility of the consumer and are not included within this warranty.

TO OBTAIN SERVICE: Contact your dealer from whom your unit was purchased, or contact your nearest authorized Danby service depot, where service must be performed by a qualified service technician. If service is performed on the units by anyone other than an authorized service depot, **or the unit is used for commercial application, all obligations of Danby under this warranty shall be at an end.**

EXCLUSIONS

Save as herein provided, Danby Products Limited (Canada) or Danby Products Inc. (U.S.A.), there are no other warranties, conditions, representations or guarantees, express or implied, made or intended by Danby Products Limited (Canada) or Danby Products Inc. (U.S.A.) or its authorized distributors and all other warranties, conditions, representations or guarantees, including any warranties, conditions, representations or guarantees under any Sale of Goods Act or like legislation or statute is hereby expressly excluded.

Save as herein provided, Danby Products Limited (Canada) or Danby Products Inc. (U.S.A.), shall not be responsible for any damages to persons or property, including the unit itself, howsoever caused or any consequential damages arising from the malfunction of the unit and by the purchase of the unit, the purchaser does hereby agree to indemnify and save harmless Danby Products Limited (Canada) or Danby Products Inc. (U.S.A.) from any claim for damages to persons or property caused by the unit.

GENERAL PROVISIONS

No warranty or insurance herein contained or set out shall apply when damage or repair is caused by any of the following:

- 1) Power failure.
- 2) Damage in transit or when moving the appliance.
- 3) Improper power supply such as low voltage, defective house wiring or inadequate fuses.
- 4) Accident, alteration, abuse or misuse of the appliance such as inadequate air circulation in the room or abnormal operating conditions, (extremely high or low room temperature).
- 5) Use for commercial or industrial purposes.
- 6) Fire, water damage, theft, war, riot, hostility, acts of God such as hurricanes, floods etc.
- 7) Service calls resulting in customer education.

Proof of purchase date will be required for warranty claims; so, please retain bill of sale. In the event warranty service is required, present this document to our AUTHORIZED SERVICE DEPOT or contact Danby at one of the addresses/telephone numbers below.

Please complete and return the enclosed registration card within thirty days for warranty coverage.
