● Learning Code Pairing: Within 30 seconds after power on, press and hold Button 2 & 5 at the same time for 5 seconds. The light will signify pairing is done. Light will on when it was off, vice versa.

Note: Install the 12-volt battery(not included) to the remote control.

OPERATION INSTRUCTION

Note: The receiver(inside the motor)provides the function of multiplicative protection.

- 1.Lock position: The DC motor has a built-in safety feature against obstruction during operation. If this occurs, the motor will discontinue operation within 3 seconds of interruption. To reset, simply disable power supply to the fan motor and re-start.
- 2.Over 80W protection: When the receiver detects power consumption is greater the 80W, the receiver power will immediately discontinue. To reset, simply disable power supply to the fan motor and re-start.
- 3.Blade setup of motor is arrange according to loading condition; please only install approved blades from a certified dealer or this may avoid the factory warranty.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1)This device may not cause harmful interference.
 - (2)This device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and use in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- 1.Reorient or relocate the receiving antenna.
- 2.Increase the separation between the equipment and receiver.
- 3.Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- 4.Consult the dealer or an experienced radio/TV technician for help..

- Products shall be subject to any changes without additional notices due to DawnSun will keep innovation and optimization on the products.
