Rev. A00

Before Using Your Dell device

Read all safety and operating instructions before using your Dell™ device to avoid injury. For detailed operating instructions, the latest *User's Manual*, and updates to the safety and regulatory information, see support.dell.com/manuals.

Product Safety Information

Distraction — While Driving

It is recommended not to use your Dell device (even with a hands free kit) while driving as it may cause distractions and may lead to an accident. You must comply with local laws and regulations restricting the use of wireless devices while driving.

Product Handling

General Statement on Handling and Use

- You must always switch off your Dell device wherever the use of a cell phone or other wireless device is prohibited.
- Always treat your Dell device and its accessories with care and keep it in a clean and dust-free place.
- Please check local regulations for disposal of electronic products.
- Do not expose your Dell device or its accessories to open flames or lit tobacco products.
- Do not expose your Dell device or its accessories to liquid, moisture, or high humidity.
- Do not drop, throw, or try to bend your Dell device or its accessories.

- Do not use harsh chemicals, cleaning solvents, or aerosols to clean the device or its accessories.
- Do not paint your Dell device or its accessories.
- Do not attempt to disassemble your Dell device or its accessories. Only qualified personnel must service or repair the Dell device or its accessories.
- Do not expose your Dell device or its accessories to extreme temperatures. The recommended operating temperature is minimum: -10°C and maximum: +55°C.
- Do not carry your Dell device in your back pocket as it could break when you sit.

Choking Hazard for Small Children

WARNING: If this device is broken or disassembled, small parts may pose a choking hazard to small children.

Do not leave your Dell device and its accessories within the reach of small children or allow them to play with it.

Demagnetization

To avoid the risk of demagnetization, do not allow electronic devices or magnetic media close to your Dell device for a long time.

Eye Strain, Seizures, and Blackouts

Certain games and videos may be designed to produce flashing lights or light patterns. If you have a history of blackouts or seizures with exposure to flashing lights or light patterns, it is recommended that you consult a physician before you play games or watch videos on your Dell device.

To prevent eye strain, avoid viewing the screen for prolonged duration.

Repetitive Strain

To minimize the risk of Repetitive Strain Injury (RSI), when texting or playing games with your Dell device:

- Do not grip the Dell device too tightly
- Press the buttons lightly
- Take breaks to stretch and relax

Emergency Communication

You may not be able to use your device for emergency communication in conditions where radio signals are low or unavailable.

Loud Noise

WARNING: Your Dell device is capable of producing loud noises which may damage your hearing permanently. Set the volume to a safe level.

Electrical Safety

Accessories

Use only Dell approved accessories and battery pack with your Dell device. Your Dell device and the charger may become warm during charging. Ensure that the devices are properly ventilated while charging.

Take care not to touch or allow metal objects, such as coins or key rings, to contact or short-circuit the battery terminals.

Device Battery Safety

 **WARNING:** Using an incompatible battery may increase the risk of fire or explosion. Replace the battery only with a compatible battery purchased from Dell that is designed to work with your Dell device. Do not disassemble the battery.

Faulty and Damaged Products

Do not use the Dell device, charger, and accessories if they are damaged.

Do not attempt to disassemble your Dell device or its accessories. Only qualified personnel must service or repair the Dell device or its accessories.

Pacemakers

 **WARNING:** To avoid potential interference with the pacemaker it is recommended that you maintain a minimum separation of 15 - 20 cm between your Dell device and a pacemaker. Ensure that you use your device on the opposite side to your pacemaker and do not carry it in a breast pocket.

Hospitals

Switch off your Dell device when requested to do so in hospitals, clinics, or health care facilities. These requests are designed to prevent possible interference with sensitive medical equipment.

Explosive Environments

Petrol Stations and Explosive Atmospheres

In locations with potentially explosive atmospheres, obey all posted signs to turn off wireless devices such as your Dell device or other radio equipment.

FCC Radiation Exposure Statement

WARNING: The Dell device radiates radio frequency energy at a level below the United States FCC radio frequency exposure limits. Nevertheless, this device should be used in such a manner that the potential for human contact during normal operation is minimized. For body worn operation, this phone has been tested and meets FCC RF exposure guidelines when used with an accessory that contains no metal and that positions the handset a minimum of 1.5 cm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. Details of the authorized configurations can be found at <https://fjallfoss.fcc.gov/oetcf/eas/reports/GenericSearch.cfm> by entering the FCC ID number on the device.

15.21

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

15.105(b)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- this device may not cause harmful interference and
- this device must accept any interference received, including interference that may cause undesired operation of the device.

Radio Frequency Exposure

Your mobile device contains a transmitter and a receiver. When it is on, it receives and transmits Radio Frequency (RF) energy. When you communicate with your mobile device, the system handling your connection controls the power level at which your mobile device transmits.

Specific Absorption Rate (SAR)

Your mobile device is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The guidelines use a unit of measurement known as the Specific Absorption Rate (SAR). The ICNIRP SAR limit for mobile devices is 2 W/kg over 10 g of tissue and the FCC SAR limit for mobile device is 1.6 W/kg over 1 g of tissue. The highest SAR values for this device when tested in normal usage and body worn are as follows:

- FCC 1g SAR: 1.39 W/kg
- CE 10g SAR: 0.71 W/kg

As SAR is measured utilizing the device's highest transmitting power, the actual SAR of this device while operating is typically below the limits specified earlier. This is due to automatic changes to the power level of the device to ensure that it only uses the minimum power required to communicate with the network.

Limiting Exposure to Radio Frequency Fields

For individuals concerned about limiting their exposure to RF fields, the World Health Organization (WHO) provides the following advice:

Precautionary measures — Present scientific information does not indicate the need for any special precautions for the use of your mobile device. If individuals are concerned, they might choose to limit their own or their children's RF exposure by limiting the length of connections, or using 'hands-free' devices to keep your mobile device away from the head and body.

Further information on this subject can be obtained from the WHO home page www.who.int/peh-emf (WHO Fact sheet 193: June 2000).

Environmental Considerations

Recycling Information

Dell recommends that customers dispose of their used computer hardware, monitors, printers, and other peripherals in an environmentally sound manner. Potential methods include reuse of parts or whole products and recycling of products, components, and/or materials.

For specific information on Dell's worldwide recycling programs, see www.dell.com/recyclingworldwide.

Waste Electrical and Electronic Equipment (WEEE) Directive

In the European Union, this label indicates that this product should not be disposed of with household waste. It should be deposited at an appropriate facility to enable recovery and recycling. For information on how to recycle this product in your country, please visit: www.euro.dell.com/recycling.

Battery Disposal

WARNING: Do not dispose of the battery in a fire or with household waste. Contact your local waste disposal agency for the address of the nearest battery deposit site.

Batteries Directive

In the European Union, this label indicates that the batteries in this product should be collected separately and not be disposed of with household waste. Substances in batteries can have a potential negative impact on health and environment and you have a role in recycling waste batteries, thus contributing to the protection, preservation, and improvement of the quality of the environment. You should contact your local authority or retailer for details of the collection and recycling schemes available. Alternatively, visit: www.euro.dell.com/recycling.

Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH)

REACH is the European Union (EU) chemical substances regulatory framework. Information on substances of very high concern contained in Dell products in a concentration above 0.1% weight by weight (w/w) can be found at www.dell.com/reach.

Perchlorate Material

This product's battery may contain perchlorate and may require special handling when recycled or disposed of. See www.dtsc.ca.gov/hazardouswaste/perchlorate.

Regulatory Notices

For Electromagnetic Compatibility (EMC), additional regulatory information, and safety best practices, see the Regulatory Compliance homepage on www.dell.com at the following location: www.dell.com/regulatory_compliance.

Export Regulations

Customer acknowledges that these Products, which may include technology and software, are subject to the customs and export control laws and regulations of the United States ("U.S.") and may also be subject to the customs and export laws and regulations of the country in which the Products are manufactured and/or received. Customer agrees to abide by those laws and regulations. Further, under U.S. law, the Products may not be sold, leased or otherwise transferred to restricted end-users or to restricted countries. In addition, the Products may not be sold, leased or otherwise transferred to, or utilized by an end-user engaged in activities related to weapons of mass destruction, including without limitation, activities related to the design, development, production or use of nuclear weapons, materials, or facilities, missiles or the support of missile projects, and chemical or biological weapons.

Additional Country-Specific Safety, Regulatory, and Environmental Information

Restrictions of Usage Information

For Products With Wireless LAN/802.11 Interfaces

Products that fall into this category are denoted by inclusion of the Class 2 identifier symbol (exclamation mark in a circle) accompanying the CE Mark on the product's regulatory label, or on the 802.11 plug-in card, example below:

NOTE: The Notified Body number denoted by 'NBnr' will only be present when required and has no bearing on the usage restriction whether present or not.

France

For Mainland France

- 2.400 - 2.4835 GHz (Channels 1-13) authorized for indoor use
- 2.400 - 2.454 GHz (Channels 1-7) authorized for outdoor use

For Guiana and Reunion

- 2.400 - 2.4835 GHz (Channels 1-13) authorized for indoor use
- 2.420 - 2.4835 GHz (Channels 5-13) authorized for outdoor use

For all French Territories

- Only 5.15 - 5.35 GHz authorized for 802.11a

Italy

A general authorization is requested for outdoor use in Italy. The use of this equipment is regulated by:

- D.Lgs 1.8.2003, n. 259, article 104 (activity subject to general authorization) for outdoor use and article 105 (free use) for indoor use, in both cases for private use.
- D.M. 28.5.03, for supply to public of RLAN access to networks and telecom services.

Other Country Specific Information

European Union

Abbreviated R&TTE Directive 1999/5/EC Compliance Statement

Hereby, Dell Inc. declares that all CE Marked Dell products incorporating Radio and Telecoms Terminal Equipment functionality are in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

Turkey ROHS

EEE complies with Directive 'Regulation on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment'.

根據 NCC 低功率電波輻射性電機管理辦法規定：

第十二條 經型式認證合格之低功率射頻電機，非經許可，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。

第十四條 低功率射頻電機之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。

前項合法通信，指依電信法規定作業之無線電通信。低功率射頻電機須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

減少電磁破影響，請妥適使用

SAR 標準值 2.0W/Kg；送測產品實測值為：XXXX W/Kg

Printed in China.
