

DENON DJ

Professional Media Player and Controller

DN-HD2500

Ever since a needle hit vinyl, DJs have been setting the standard for what is hot. Denon comes from that same philosophy and passion – leading the way and creating the path for DJ evolution. That path has led to the DN-HD2500. A hard-drive based, professional media player and controller offering a total all-in-one “nerve centre” that addresses a DJ’s ever changing needs. Flexible and packed with features, the DN-HD2500 is built for any event where professional-quality and flawless performance is expected. Check it out online at www.denon.dj/hd2500

Advanced Features

- Internal 40GB Hard Disc Drive**
 The built-in 40GB HDD is large enough to store thousands of the most requested songs, allowing the DN-HD2500 to be used as a primary “plug and play” full-featured compact system or as a backup system for DJ’s currently using laptops (C.P.S. Systems).
- External USB Device Support**
 Supports multiple external USB mass storage class devices direct or via a USB 2.0 hub (sold separately). Connect an iPod®, Jump Drive and large USB Hard Drives for easy access to small or extensive MP3/WAV libraries.* Simply plug in devices to obtain powerful on-board features such as, Instant Start, Seamless Looping Scratching and File Searching, just to name a few. *Up to 4 storage devices can be connected at once.
- DN-D4500 / DN-D4000 Drive Support**
 The most popular dual CD/MP3 players, the DN-D4000 and DN-D4500, are supported natively by the DN-HD2500 and can be easily upgraded. The DN-HD2500 acts as a controller and media centre with CD media, internal HDD and external devices all available at your fingertips.
- Keyboard Support & Intuitive File Navigation System**
 Supports any standard (Qwerty) USB keyboard for simplified Playlist/Category creation and song search of: Artist, Album, Title, Genre, Year, and BPM.
- 4 Superb Built-in Effects**
 Easily activate and have full parameter control with a unique Dry/Wet mix control of the four effects: Flanger, Filter (High-Mid-Low), Echo and world’s first Echo/Loop. Setting the mood on the dance floor and remixing live has never been so easy.
- 3 Platter Effects**
 - Brake (adjustable in real-time)
 - Dump (reverse sound without losing true forward time, like a radio edit)
 - Reverse (plays your music backwards)
- Pitch Range and Deep Pitch Resolution**
 For long mix transitions that require high pitch resolution. A .02% for the 4% pitch range and .05% for the 10/16% pitch range as well as 24%/50%/100% ranges are also available.

Other Features

• Playlist Creation

Powerful on-board playlist function allows you to create, edit and save up to 3 different types of playlist categories.

- Top 40 (load Top 40 hits in this category)
- Favourite (load 99 most requested hits in this category)
- Traditional (find your playlists by name or sub category!)

• Software Upgradeable by USB

New Plug-ins are free and made available at www.denondj.com.

• Next File Function with Cross Fade World's First!

Search for your next file by any criteria (without interrupting playback) and crossfade seamlessly to that file for a smooth non-stop mix upon your command. Cross fade time is user adjustable.

• Multi-Function "Touch Sensitive" Jog Disc

- File Searching
- Scratch Effect
- Pitch Bend
- Frame Search

• 4-Way BPM Counter

- Auto Beat Detection
- Manual TAP
- Manual BPM Input
- Reads MP3/WAV BPM Metadata (if available)

• Memo Function

Cue point, BPM, Pitch Setting and Range, Pitch ON/OFF, Key Adj ON/OFF, and Seamless Loop A and B data can be stored directly to the file for later recall.

• Key Adjust: Keeps vocals and music sounding true even when track speed is adjusted.

• Two Hot Starts and Seamless Looping: (A1 and A2) can be made on the fly and easily turned into Seamless Loops and used as Stutter points as well.

• Loop A/B Trim: The A or B point for the seamless loops can be easily adjusted on-the-fly.

• Power On Play: Unattended playback is possible upon power up. Each drive can be used independently for a two zone application.

• Relay Play: Unattended playback is possible between both drives.

• 2-way Pitch Bend (Jog disc or buttons)

• Large 3.8" Display

Easy-to-follow bright display provides visual text feedback of modes and parameters making it very intuitive for first-time users to navigate without having to read the manual.

• Quick Jump: Jump around within a track/file by precise user-adjustable increment time steps.

• Two-Way CUE Search System: Supports traditional Denon Cueing method as well as another popular style.

• Fader Start (compatible with all Denon DJ Mixers).

• Digital Outputs

• Dimensions: 19.0" (w) x 5.2" (h) x 5.0" (d)

• Preloaded Demo Music from 2-Travelers
