WARNING				
RISK OF ELECTRICAL SHOCK, DO NOT OPEN				
<p>Operating precaution</p> <ul style="list-style-type: none">- Do not expose the unit to water or moisture.- Do not disturb the heat radiation from the rear, top and side of the unit.- Do not display for a long time such as a fixed pattern including PIP. It causes the Image Sticking.- Do not open the cabinet which has potentially dangerous high voltage components inside. There is a serious risk of electric shock.				

The lightning flash with the arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute an electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.
