Connection

Listen to your Bluetooth - enabled music player:

1. Turn on the Atom, the Bluetooth should start seeking.
2. Go to Settings/Bluetooth and pair with the 'Divoom Atom'
3. Once connected, you can start to play music
4. Touch the 'Play' button to play/pause your music, press + / - to adjust volume, and hold the volume buttons to change 'Prv . Track' or 'Next Track'

When there is an incoming call:

Touch 'Play' button to pick up the call, and press again to end the call. Hold 'Play' Bluetooth button to hang up the call

Switching between paired devices:

Switch between your current connected devices to another mobile device by following these steps

1. Hold the "Play" button
2. Saturn will enter the 'Bluetooth seeking' mode
3. Search and connect the Atom on the other mobile device.

Link with another Divoom Atom:

When you have two Divoom Atom ,and you want to link them up together to play the same music simultaneously from the same mobile device; please follow these steps:

1. Power on both Divoom Atom together.
2. Touch the Double up pairing button on one of the ATOM, and touch the same button on the 2nd ATOM. The two ATOM will pair together.
 - Once successfully linked, there will be a chime sound.
 - Please make sure place them within a closer range for the link up
3. Search and connect the ATOM on the mobile device.
 - There will be only one available ATOM.
 - Please make sure that the two ATOM are within each other's range (cannot exceed the sufficient Bluetooth signal range).

4. After the pairing, both ATOM will play the same music simultaneously from the same source.
 - When you want to break the pair, please long touch the Double up pairing button on the ATOM, and the two units will be separated.

Listen to your non-Bluetooth-enabled audio device

Insert one end of 3.5mm audio connector into the AUX port on the Atom. Insert the other end of audio connector to your audio device. Turn on your audio device and start to play music.

This device meets the requirements of the following EC directive R&TTE 1999/5/EG:

CE Directive 1999/5/EC of the European Parliament and of the Council of 9 March 1999 on radio equipment and telecommunications terminal equipment and the mutual recognition of their conformity

 The waste container symbol with the X through it on the device indicates that the device must be disposed of separately from normal domestic waste at an appropriate waste disposal facility at the end of its useful service life

Limited Warranty

1. If within 12 months of purchase this device or any part thereof is proven to be defective by reason of faulty workmanship or defects in materials, we will at our option repair or replace the same free of charge of labor or materials on condition that:
2. The original invoice or sales receipt with the date of purchase, or stamp from the dealer is presented together with the defective unit.
3. The warranty does not cover product failures which have been caused by use of accessories other peripheral devices which are not DIVOOM branded original accessories intended for use with the product.
4. The warranty does not cover product failures caused by: Modification, repaired, and disassembled by any person who is not authorized by the manufacturer. Any defective unit or part shall become property of the manufacturer. The warranty does not cover any damage caused by misuse, drop, hit or neglect.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential

installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee

that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help
