

# 5G PPP Call 2

## “Trusted Partnership”

5G PPP Phase 2 Info Day and Stakeholders Event  
18<sup>th</sup> May, 2016, Warsaw

# What InterInnov Brings To A 5G PPP Phase 2 Project

CONNECT

Identify and engage the most relevant stakeholders

DRIVE

We are a fully committed partner, we lead work packages and tasks

COMMUNICATE

We build the PR material (brochures, flyers, videos, etc.), we organise events and workshops, training sessions...

COMMUNICATE  
Brochures, Flyers, Videos...

5G empowering vertical industries

5G VERTICAL SECTORS

With 5G, networks will be transformed into intelligent orchestration platforms.

By connecting strong relationships between end-users, operators and verticals, 5G will open the field to new business value propositions.

Use cases originating from verticals should be considered as drivers of 5G requirements from the onset with high priority and entered in the early phases of the standardisation process.

5G PPP - THE CONTRIBUTION OF THE 5G PPP PROJECTS TO 5G

# What is the “Trusted Partnership”?

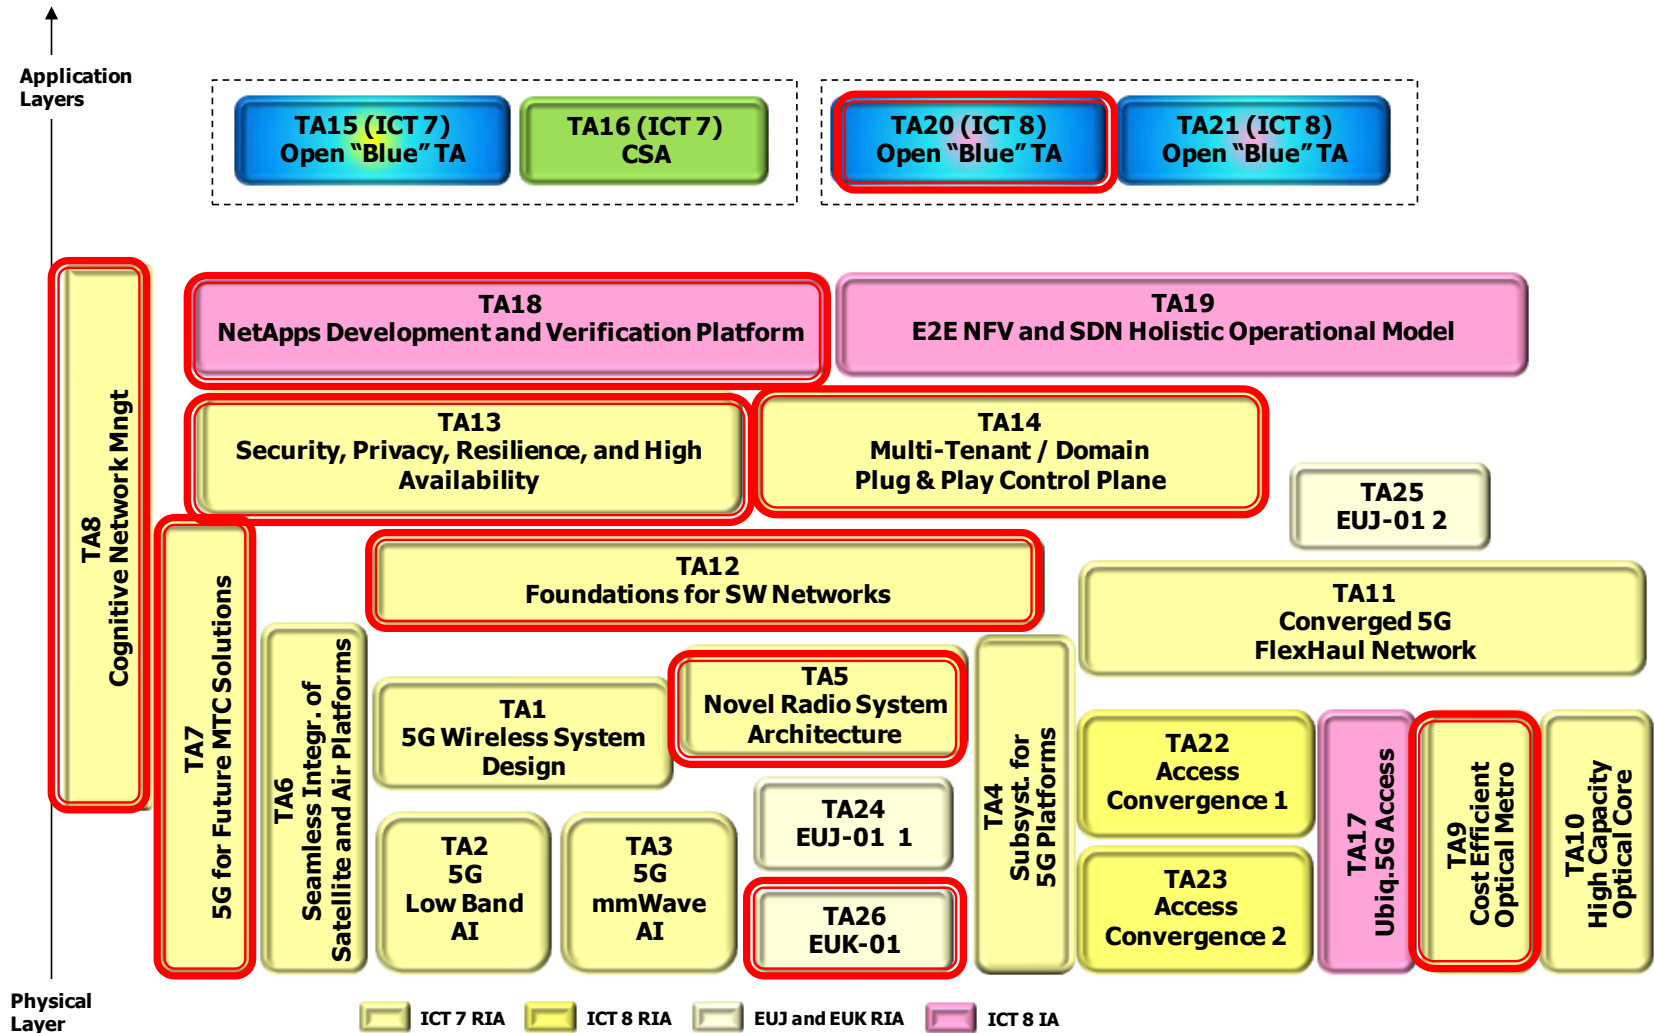

- ▶ A set of “**trusted partners**” gathered around InterInnov
- ▶ Providing **complementary expertise** in service and technology and in several vertical sectors

- ▶ InterInnov
- ▶ 5 SMEs
- ▶ 1 Industry
- ▶ All interested in being part of a trusted combined **offer to 5G PPP Call 2 projects / consortia**

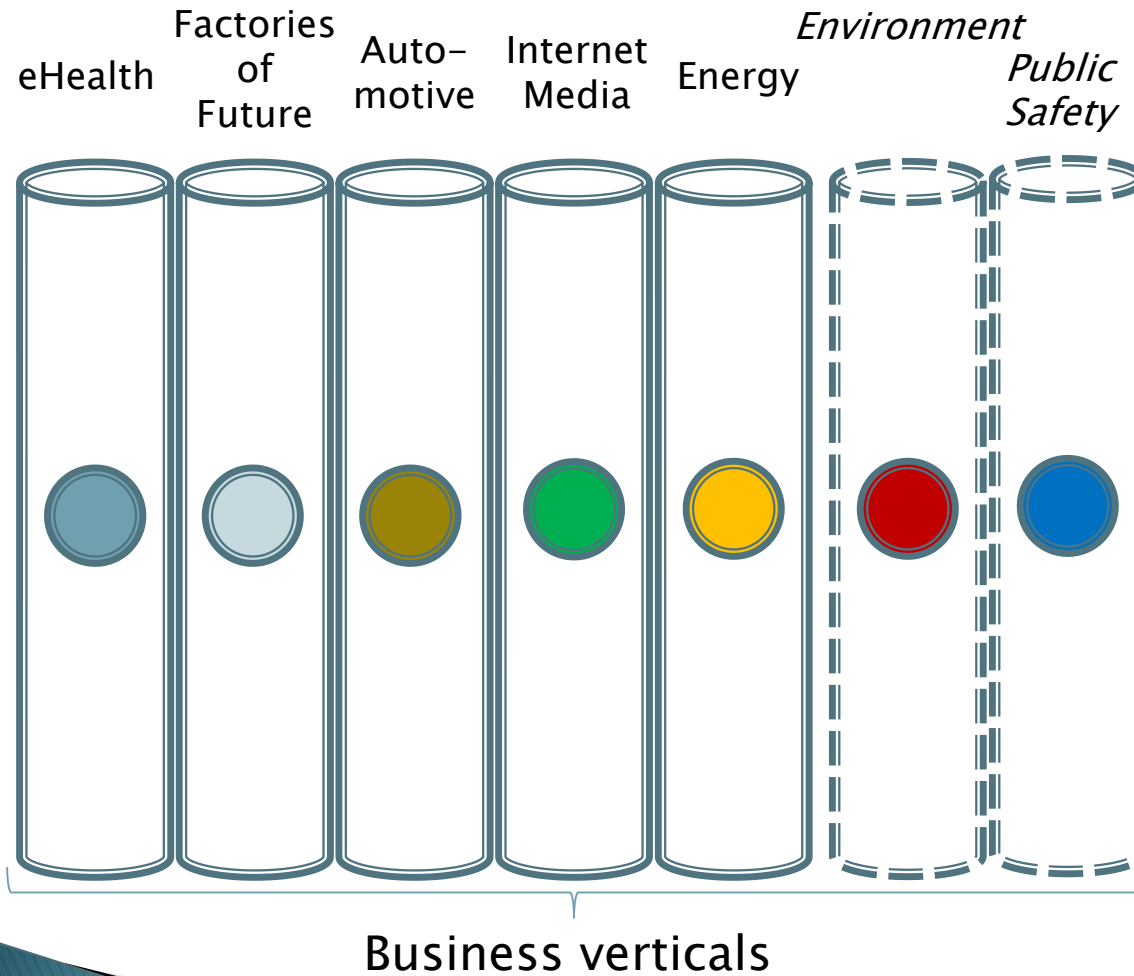

We offer together an *extended, flexible and modular set of services and technological expertise*

# InterInnov's "Trusted Partners": what they can bring to 5G PPP projects (1 / 2)

Note: The size and the orientation of the TAs boxes do not indicate the potential size or manpower of future Projects

# InterInnov's "Trusted Partners": what they can bring to 5G PPP projects (2/2)

Other services provided:

- Support to Project Management & Coordination
- Web site & Social Channels
- Expertise in Impact & Exploitation and in Ethics/Responsible R&I

*All complementary to InterInnov's activities i.e. Connect, Drive, Communicate*

# How does the “Trusted Partnership” work?

## YOU EXPRESS YOUR NEEDS

*Tell us what you  
need, or identify  
skills of interest  
for your project  
in our offer*

## WE PRESENT A MODULAR OFFER

*We present a  
relevant offer of  
skills and expertise  
with 1, 2, 3...  
trusted partner(s)*

## YOU HAVE FULL FLEXIBILITY

*You pick the “trusted  
partners” you  
want/need for your  
project*

Benefit for you: an extended offer with one interlocutor instead of several to start with –but still a fully flexible and modular offer  
Benefit for us: we expand our own offer and hope to work together in some projects as we trust each other

*This is a totally new concept –do not hesitate to interact with us and provide feedback and comments on how we can better adapt to your needs!*
