7. Select the pattern required for each pattern:

Import: import 11*160 picture(bmp, jpg)

Open:open the saved design from the computer.

Save:save the operated design in the computer.

Reception:read the design through the USB

The software support multiple languages, choose the language you need.

Edit your required designs and words at the same, insert the USB, then click send, can send the designs and words to the products.

Tips:

- 1. Pay attention the link state after insert the USB
- 2. Pull out the USB after download.
- 3. If you have any question pls contact your dealer to solve.
