Head Protection

Head Protection

RUTLAND
Personal Protection Equipment

Professional Safety Helmets

Lightweight, stable and comfortable fit with less leverage on the head and a lower centre of gravity, making it feel even lighter than it is. Short peak for enhanced visibility. The new DeFormaTec™ system reacts ultra quickly to absorb impact energy before it reaches the wearer. The helmet shell is a result of analysis of thousands of helmet crash tests. It is based on the same principle as a rigid yet flexible Formula 1 chassis, reacting on impact by partial deformation to absorb the shock. Conform to **EN 397: 1996**. Fitted with a 4-point adjustable comfort webbing harness and absorbent soft leather sweatband.

EAR Ear Plug Dispenser System

One Touch Dispenser - PD-01-000

No waste funnel has an easy to use twist motion that ensures plugs drop directly into the palm of the hand. Built-in catch plate prevents wastage. Transparent dispenser case gives a clear indication of when a replacement is required. Only the bottle is replaced leaving the stand and mechanism to be reused.

Refills - Quantity 500.

Classic One Touch PD-01-001

Made from a soft energy absorbing polymer foam, which allows the user to roll the plug down for easy insertion into the ear canal and then expand slowly to form a comfortable seal against noise. Ideal for use in work or leisure activities. SNR28.

Soft Neon Yellow PD-01-002

Made from a slow expanding, environmentally friendly, polyurethane foam material. Provides evenly distributed pressure, giving flexibility, a good seal with optimum comfort. SNR36.

Soft Neon Blast PD-01-003
Colourful version of the Soft Neon Yellow. SNR36.

Hearing Defenders

Lightning

Bilsom's Lightning series' steel wire construction provides high performance and robust durability. Stands up to daily use and abuse without compromising comfort. Bilsom has optimised the Lightning series to deliver high level of comfort available, featuring an exclusive padded foam headband and super soft ear cushions that eliminate that 'squeezing pressure' on the head.

SNR = 31dB

H = 31dB
M = 29dB
L = 23dB

Offer Price/1 £9.99

BIL-958-8803C
List Price/1 £11.33

Optime 3 Ear Defenders

Designed and developed for use in extremely noisy environments. The protection is based on new technology with a double casing that minimises resonance in the holder casing. This results in maximum high frequency muffling while at the same time it's easy to understand speech and signals. The sealing rings are broad and filled with soft plastic foam for the best fit and low contact pressure, good inner space for ear.

SNR = 35dB

H = 40dB
M = 32dB
L = 23dB

H540B	Neckband	-2847L	£15.20	£14.13

Hearing Defender Pads

Cool II

The Cool II earmuff pads absorb up to 15 times their weight in perspiration for increased hygiene and comfort. Can be used with most brands of earmuffs. Five pairs per pouch.

Offer Price/Pk £1.40

BIL-958-3456P
List Price/Pk £1.77

Sport Hearing Defenders

Blocks impact noise from gun shots and heavy impact noise machines to a safe level. Sound amplification volume does not exceed 82dB - response technology revert to passive hearing protector when noise reaches 82dB. Slim cup design with directionally placed stereo microphones. Inner-ventilated headband minimises pressure on the head, breathes easier in warm/humid environments.

H = 31dB
M = 25dB
L = 22dB

SNR = 28dB

List Price/1 £18.09

Pre-assembled Half Mask

8082

FFP3RD. For protection against all dusts, mists and fumes including highly toxic metals, biochemical substances and biologically active aerosols e.g. spraying pesticides. Once a gas cartridge is fitted to the respirator it can be combined with replaceable particulate filter discs by use of the particulate filter holder - 8090, which clips onto the gas cartridge, forming a gas and particulate respirator.

Approved to **EN140:1998**, **EN14387:2004** and **EN143:2000**.

SAFIR Grinding Clean-Air Systems

The 'Clean-Air' (CAB) systems use a single, replaceable high-efficiency filter and are available in a choice of Dual-Flow (B) 'Eko' (160ltr/min) or 'Turbo' (210ltr/mw) mode, or Computer-Controlled (FC) models to protect against liquid or solid aerosols, toxic dust and smoke at flow-rates between 160 to 210ltr/min. The FC models also feature eight-step (increments of 10ltr/min) adjustment of flow-rate

and easy-check on battery voltage or remaining filter capacity. All Safir 'Clean-Air' Powered Respirators are CE-Marked and meet the requirements of **EN12941 Class TH1** (CAB-3B), or **TH2** (CAB-3FC).

Safety Signs

SITESAFE **Photoluminescent Safety Signs - Self-Adhesive**

NEW

In the event of a fire or emergency, the visibility of standard emergency signs can often be impaired by poor lighting, smoke or even lack of power. In these cases our photoluminescent signs can provide a cost effective solution.

Our signs use the internationally recognised British Standard symbols for escape routes (**BS5499**) like their standard counterparts.

High intensity 1.3mm rigid material, tested to **DIN 67510 Part 4** specification, which significantly exceeds the minimum Photoluminescent Safety Products Association (P.S.P.A.) Class 1 classification for brightness and longevity. Non-radioactive, non-toxic with no lead or phosphorous. Signs remain highly visible even in complete darkness. Factory applied self-adhesive backing.

MATLOCK Z Barrier™ System

Matlock™ Z Barrier™ is a rapidly deployable pedestrian barrier system allowing one person to carry and erect on their own, a high visibility temporary barrier all within a matter of minutes!

'Z Barriers™' are patent pending for the unique design that ensures barriers are prominent and remain in position, for all physical and environmental conditions. Manufactured from a unique, reinforced PVC based double-sided warning tape, with a high visibility day glow pattern on one face and a night reflective pattern on the other face. These are the most visible barriers available on the market today. Quick and easy to put up, they are easily fastened to any anchor point or each other, providing a flexible barrier across any opening, around objects or in multi-directions. Elastic properties allow 'Z Barriers™' to expand and fit between points instead of being cut to length. They are inherently shock absorbing and resist any degree of wind load to prevent damage.

The Immediate Barrier Solution

A4 Sign Pockets

Flexible and robust designed to allow users to quickly and effectively create their own signage - all you need is a pen and paper. A range of standard signs will also fit the pockets.

A4 Sign Pockets
Internal Dimensions: 300 x 210mm
Multiple hanging holes allow for portrait or landscape use.
Supplied with two fixing ties.

Please see our main catalogue for our range of standard signs. Other signs available on request, specials can be made to order.
