

# 3Shape R700™ Orthodontic Scanner

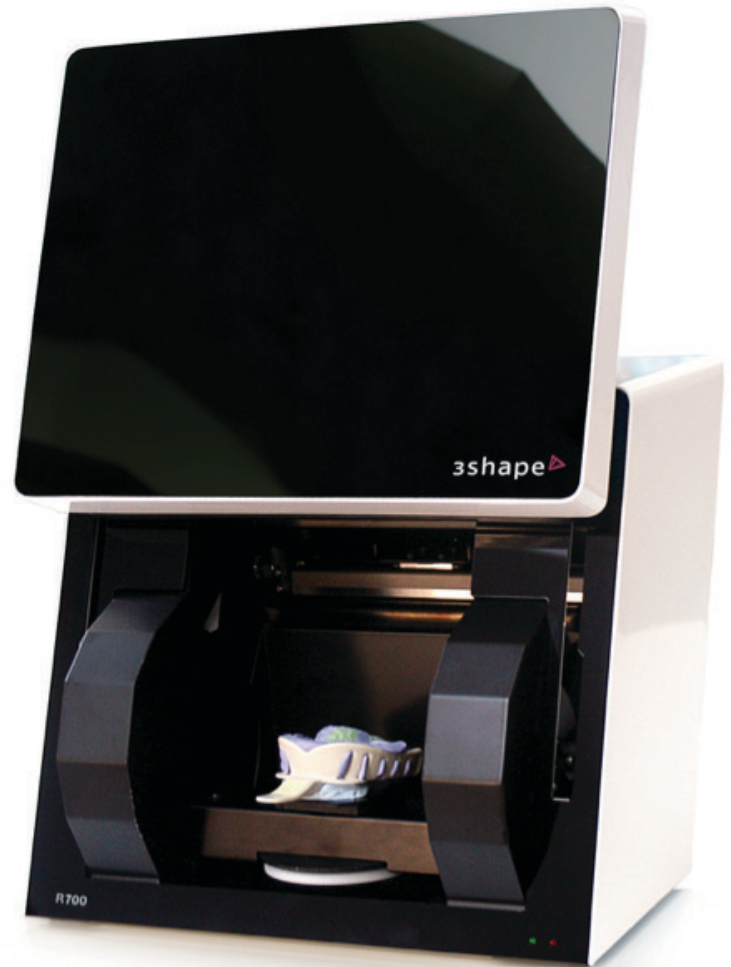

3Shape's R700™ scanner for orthodontists allows you to capture plaster models and impressions, and use dedicated tools to achieve perfect occlusion.

## Scanner Highlights

- Creates accurate digital study models in just a few clicks
- Scans silicone or alginate impressions, and plaster casts
- High speed scanning capability for maximum productivity
- Captures extreme detail for excellent clinical results
- Open STL file format for flexibility and easy integration
- Adaptive Impression Scanning ensures that the full geometry is captured

## Empowers orthodontic workflows

3Shape's patented **Adaptive Impression Scanning** intelligently detects incomplete areas and automatically builds scan sequences to capture the full geometry. Users add virtual model bases to their scanned digital models, efficiently and consistently replicating traditional physical models.

# 3Shape R700™ Orthodontic Scanner

## System includes:

### 3D Scanner

R700™ 3D Scanner (2 x 1.3 MP cameras) optimized for full cast and impression scanning

### Desktop PC

- High performance PC (model subject to change)
- Operating system and 3Shape software pre-installed
- Mouse and Keyboard included (Monitor NOT included)

### Operating System

- Windows 8 Pro, 64-bit, English (Support for 35 languages)
- Windows 8 Pro repair disk

### Calibration Box

- 1 x Scanner calibration object
- 3 x Scanning interface plate
- 1 x Blu-Tack® scan clay
- 1 x Dongle USB key
- 1 x Impression fixture
- 1 x 2-Cast fixture
- 1 x Wax-up fixture

### Software Package

Single user license of Ortho System™ including:

- Ortho Analyzer™ for analysis and treatment planning
- ScanIt Orthodontics™ for the 3D scanning of study models and dental impressions
- Remote assistance software
- 3Shape Communicate Inbox for order reception and filtering

### Help System

- Integrated online user manual (12 languages)
- Printed quick guide (12 languages)

### Optional

- Add-on Modules: Appliance Designer for CAD modeling of orthodontic appliances
