3 (6.5 oz.) packages spreadable garlic herb cheese
10 oz. white cheddar cheese, shredded
2 Tablespoons white prepared horseradish
1⁄4 to 1⁄2 teaspoon white ground pepper

Lightly spray bottom half of pan with non-stick spray; line with plastic wrap. Blend ingredients together; fill pan and pack down well. Refrigerate 3 to 4 hours or overnight. Unmold onto serving plate and garnish following instructions. Serve with crackers or vegetables.
Baking Instructions
Preheat oven to 350°F or temperature per recipe directions. Your cake will unmold easily, without sticking, when you
prepare the pan properly. Grease the inside of
pan using a pastry brush and solid vegetable shortening
(do not use butter, margarine or liquid vegetable oil).

Spread the shortening so that all indentations are covered. Sprinkle about 2 Tablespoons flour inside pan and shake
so that flour covers all greased surfaces. Turn pan upside
down and tap lightly to remove excess flour. If any shiny
spots remain, touch-up with more shortening and flour to
prevent cake from sticking. (You can use vegetable oil pan
shortening and flour, or use Wilton Cake Release, for
perfect, crumb-free cakes or Bake Easy Non-Stick Spray
for easy release).

Make one 2-layer cake mix according to package or
recipe directions. Pour the cake batter into pan, and if
necessary, spread the batter around with a spatula to fill
all areas of the pan evenly. Be careful not to touch sides
or bottom of pan. Bake cake on middle rack of 350°F
oven for 30-40 minutes or until cake tests done
described according to recipe directions.

Remove cake from oven and cool on cake rack for 10
minutes. While the cake is still in the pan, carefully slice
down and tap lightly to remove excess flour. If any shiny
threads 1⁄2 in. above coupler base.

2. Force coupler base as far down into decorating
bag as it will go. Then mark where bottom thread
of coupler shows through bag; remove coupler and
trim bag at pencil mark with a pair of scissors.

3. Reassembly coupler in bag and push end through
opening to expose bottom two threads.

4. Position decorating tip over coupler and screw
ring in place to secure. To change tips, unscrew
ring, replace tip and replace ring.

5. To fill, cuff open end of bag over your hand and
insert ring with a spatula. Fill bag no more than
half full.

6. To close, unfold cuff and twist top of bag shut.
Hold twist between your thumb and forefinger.

Important: Be sure to wash the Featherweight bag in hot soapy water, then
rinse and dry after every use. A degreaser can make clean-up easier.

turn both-cake rack and pan over. Lift pan off carefully. Cool cake at least one

Making Buttercream Icing
The thick, but creamy texture of this flavorful icing makes it ideal for
decorating*. For best results, keep icing bowl in refrigerator when not in use. It

can be refrigerated in an airtight container for up to 2 weeks. Reheat before
using. YIELD: 3 CUPS.

1 ½ cup solid vegetable shortening
1 ½ cup butter or margarine
4 cups (1 lb.) sifted confectioner’s sugar
2 Tablespoons milk
1 teaspoon Wilton Clear Vanilla Extract

Cream butter and shortening with electric mixer. Add vanilla. Gradually add
sugar, one cup at a time, beating well on medium speed. Scrape sides and
bottom of bowl often. When all sugar has been mixed in, icing will appear dry.
Add milk and beat at medium speed until light and fluffy.

*To thicken icing, add a small amount of light corn syrup.

Coloring Your Icing
Wilton Icing Colors are best for decorating because they are concentrated and
give the deepest, most vivid icing colors. Use a toothpick to swirl icing color into
icing, then mix well. Add color gradually until you get the

Let’s Practice Decorating
Use decorating bag and coupler as directed. Practice each of the following
techniques and make sure you understand each technique. Then you can
transfer the technique to your own decorating.

Icing Smooth With A Spatula
With a spatula, place icing on cake. Spread icing over
top of a cake to cover. For a smooth effect, run spatula
lightly over the icing in the same direction, blending it in
for an even look. For a fluffy effect, swirl icing into
peaks using the edge of the spatula.
To Make Outlines
Use tip 3. Hold bag at a 45° angle and touch tip to surface. Squeeze at starting point so that icing sticks to surface. Now raise the tip slightly and continue to squeeze. The icing will flow out of the tip while you direct it along surface. To end an outline, touch tip back to surface, stop squeezing and pull away. If icing ripples, you are squeezing bag too hard. If icing outline breaks, you are moving bag too quickly or icing is too thick.

To Outline & Pipe-In
After outlining, using the same tip, squeeze out rows of lines to fill area. Pat icing down with fingertip dipped in cornstarch or smooth with dampened art brush.

To Make Stars
Use tip 16. Hold bag straight up and down (see illustration) with tip 1⁄8 in. above surface. Squeeze until a star is formed, then stop pressure and pull the tip away. Your stars will be neatly formed only if you stop squeezing before you pull the tip away.

To Make Dots
Use tips 3 or 5. Hold bag at 90° angle with tip almost touching surface. Steadily squeeze out a dot of icing, lifting the bag slightly and keeping tip in icing as it builds up into a small mound. Then stop pressure and pull the tip away. Very size of dots by lengthening the amount of time you apply pressure to the bag.

To Make Rosettes
Use tip 16. Hold decorating bag straight up with tip 1⁄8 in. above surface. Squeeze and hold tip in place momentarily, then move tip around to the right using a short circular motion. Stop pressure just before reaching original starting point and pull the tip away.

To Tint Coconut
Place shredded coconut in a plastic zip-close bag. Add a few drops of Wilton icing color (diluted slightly with water). Shake and knead bag until color is evenly distributed.
