1

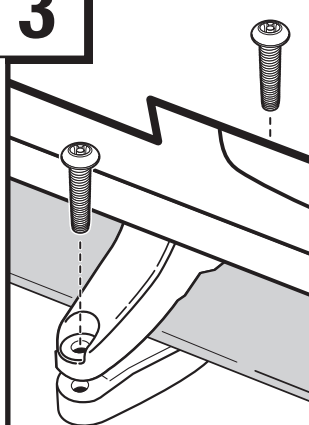

- Rotate clamps perpendicular to snowboard carrier.

2

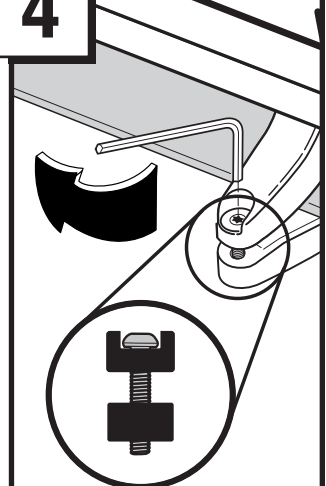

- Install board supports.

3

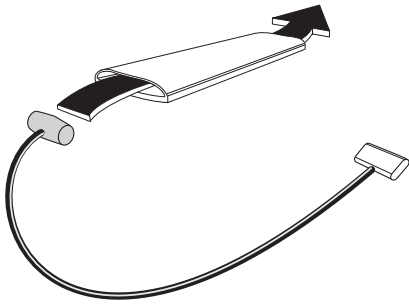

- Loosely assemble all bolts and mounting clips as shown.

4

- Tighten all screws firmly. Do not over tighten.

5

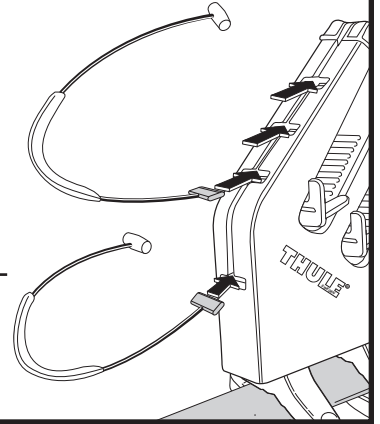

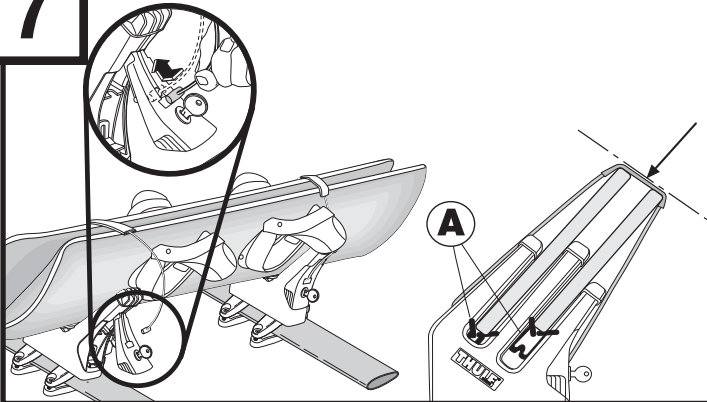

- Push locking cable through protection pad.

6

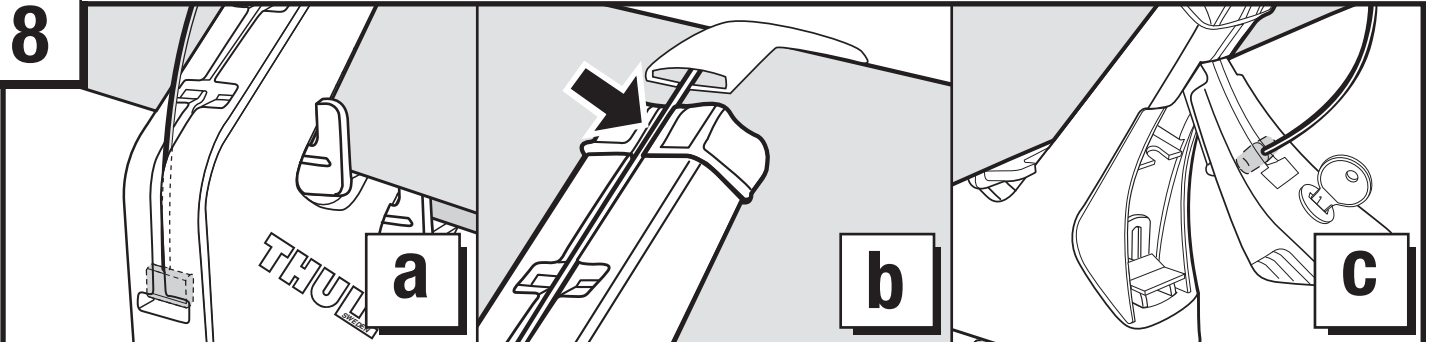

- Install locking cables.

- For 2 snowboards.

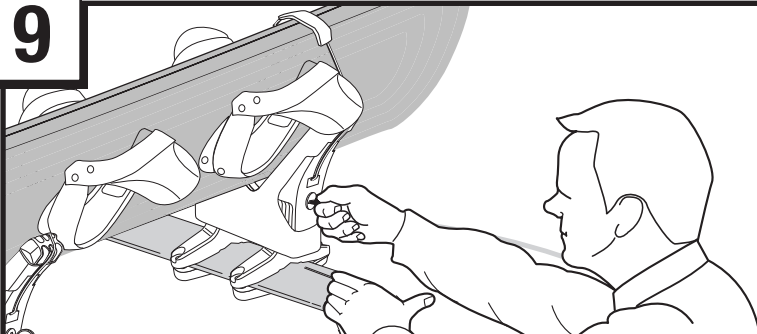

-
- For 1 snowboard.

**7**

- Adjust the snowboards with the help of the supports (A) so that the top edges are level and the boards are as far down in the carrier as possible.

8

- Check that the locking cables are correctly fitted. Remember to hold the locking cables when loading and unloading the boards.

9

- The cable should be kept locked during transportation.
