

3.5 MM
SHUTTER RELEASE CABLES

CABLE COMPATIBILITY
INFORMATION

This chart provides a list of 3.5 mm shutter release cables from Vello and the camera models they are compatible with.

These shutter release cables enable you to use a remote to trigger your camera's shutter. The 3.5 mm end of the cable plugs into the remote, and the other end plugs into your camera. Your remote can work with many different camera models as long as you match it to the correct cable.

The cables in this chart are compatible with remotes that contain a 3.5 mm output socket. If your remote contains a 2.5 mm socket, refer to our compatibility chart for 2.5 mm shutter release cables.

For additional cables and camera models, visit:
