

AMERICAN CANCER SOCIETY McCONNELL-RAAB HOPE LODGE

The American Cancer Society's McConnell-Raab Hope Lodge opened on May 28, 2002 in Greenville, North Carolina. The Lodge was named after two special doctors, Dr. William McConnell and his wife Dr. Mary Raab-McConnell, who have devoted their lives to the fight against cancer. This is the only Hope Lodge in North Carolina. The facility is 27,000 square feet, with 20 individual guest suites. Since opening, the Lodge has served over 900 guests and their families.

At the American Cancer Society's McConnell-Raab Hope Lodge, the fight against cancer is happening everyday. The American Cancer Society recognizes the physical, emotional, and financial stresses that accompany illness and treatment. That is why we are committed to providing a caring, supportive, and safe environment for our patients, free of charge. Your donations ensure that we can continue our efforts, and with the help of our volunteers and staff members, your donations enable "The Lodge" to be a true "Home away from Home".

As one guest wrote, "Warm thoughts and kind gestures can make the sun a little brighter, the sky a little bluer, and the world a little bit nicer. That is what you, the Hope Lodge, have done for my family". Your donations make testimonials like this possible; they help change lives, save lives, and we could not do what we do or offer the same experiences to our guests without you.

The recipients of your kindness will never be able to thank you personally, so on their behalf to you we say, Thank You.

December 4, 2013

Cutting Edge Products, Inc.

On behalf of the American Cancer Society McConnell-Raab Hope Lodge,

thank you for your very generous donation of \$2,000.00. Your gift will

enhance the lives of our cancer patients during their stay at

"Hope" Lodge.

David Roscoe  
Manager

The American Cancer Society is the nationwide community-based voluntary health organization dedicated to eliminating cancer as a major health problem by preventing cancer, saving lives, and diminishing suffering from cancer, through research, education, advocacy, and service.
