KONICA MINOLTA...HELPING REDUCE OUR ECO-FOOTPRINT

KONICA MINOLTA

A step ahead
in reducing our
eco-footprint...

clean planet

RECYCLING PROGRAM

A smaller ecological footprint is to everyone's advantage – and you can count on Konica Minolta to lead the way in making consumable recycling simple and cost-free.

Whether you have a single Konica Minolta desktop printer, a whole fleet of bizhub® MFPs, or professional bizhub PRO or bizhub PRESS production print equipment, it's never been easier to recycle your consumables – toner cartridges, imaging units, waste toner bottles, developer/developer units and drums.

The recycling process is simple for Konica Minolta consumables. For full details, just visit our Clean Planet website:

www.cleanplanetus.com

Clean Planet Recycling Program: a better way to handle your consumables.

How our program protects the environment.

No consumables in landfills. When Konica Minolta consumables arrive at our locations, they are processed in an environmentally safe and responsible manner – no recyclable items are permitted to go into landfills.

Smaller carbon footprint. To minimize the energy and fuel costs associated with shipping, Konica Minolta has partnered with approved facilities located across the country, with collection points that are automatically selected based on your location. And since we have created an exclusive Clean Planet box which can hold multiple items, shipping is further reduced.

How recycling can save you time and money.

No cost to our customers. Unlike some recycling plans, Konica Minolta's Clean Planet Recycling Program doesn't require you to pay shipping or recycling costs.

All Konica Minolta consumables can be recycled. We now accept toner cartridges, imaging units, waste toner bottles, developer/developer units and drums – all the consumables from every Konica Minolta model, not just selected models. No matter what volume of consumables you use, there's a recycling program to fit your needs.

A total environmental commitment. For years, Konica Minolta has led the industry in policies and technologies designed to protect our green planet – saving energy, minimizing pollution and reducing environmental impact through the entire life cycle of our products. To learn the whole story, please visit our Clean Planet website: www.cleanplanetus.com

On our website, you'll find complete instructions on how to order our exclusive Clean Planet recycling boxes and print postpaid labels at your workplace to streamline the process.

For our small and home office customers.

Single consumable items can be recycled by printing a postpaid UPS label from our website. Simply apply it to the new box containing the used consumable item and ship via UPS.

For our mid-sized customers. A recycling box designed to hold 10 - 15 items (consumables only, not shipping materials) can be ordered from the Clean Planet website. Just assemble the box and the reusable lid and place it in your office. When the box is full, you can print out a UPS label from our website, apply it to the box and ship via UPS. Please note: only Konica Minolta Clean Planet boxes can be accepted.

For high-volume customers. Konica Minolta can arrange for the delivery and pickup of recycling pallets that hold a larger quantity of consumable items (not shipping materials). Please check our Clean Planet website for details.

For our Optimized Print Service customers.

For customers who have devices managed by our OPS program, most models already include a process for printing out postpaid labels. Please continue to use this process to ship back consumables. For devices that do not already include a process for printing a postpaid label, please visit the Konica Minolta Clean Planet website in order to order boxes and print postpaid labels.

Please recycle efficiently. Since Konica Minolta toner bottles are made of HDPE2, a material designed for recycling in local facilities, Konica Minolta cannot accept shipment of these empty bottles. Please check the rules of your municipality for specific information and our website for more details.

Konica Minolta branded consumables ONLY

please! If you have printer/copiers from other manufacturers, we encourage you to take advantage of their recycling programs. We reserve the right to recover costs for unauthorized items returned using our program.
