Price List

To Our Valued Customers

This price book covers the vehicles for which we supply a range of ARB manufactured products which includes our bull bars.

There are vehicles for which, whilst we have not, as yet, developed a bull bar, we still have a large range of accessories available such as lights, side steps, tow bars, Air Lockers, snorkels etc.

We are continually sourcing and designing new products to add to our range, so if your vehicle or a particular accessory is not listed here please enquire with one of our sales staff... we may have just what you're after.

Please note that whilst every effort is made to ensure the information contained in this book is accurate, ARB reserves the right to amend printing errors or incorrect information. ARB also reserves the right to change prices without notification.

Vehicle Compatibility

Please note that information contained in this guide is based on manufacturers' specifications at the time of print. Changes to vehicles or products may occur after this time that may render a certain accessory unsuitable for a particular application.

Vehicle model dates contained in this guide are indicative, so please exercise caution when ordering accessories if your vehicle's build date falls close to a model change date. If in doubt, please consult your ARB distributor, who can assist with determining the correct products for a particular vehicle.

The bull bars detailed in this guide are fully compatible with air bag systems (when fitted), unless otherwise stated. For information on the technology behind our bull bars, and how air bag compatibility is achieved, please refer to the ARB catalogue.

Removal Of Parts From Your Vehicle

Please note that in some cases, it may be necessary to remove parts from your vehicle in order to carry out the fitment of replacement parts and accessories.

In most cases, removal of these parts unavoidably destroys them and renders them unsuitable for re-use.

Original parts removed from your vehicle to allow for installation of replacement parts and accessories are disposed of on the same day as installation.

We are sorry but we are unable to store such parts on your behalf.

If you wish to retain these parts, please inform us prior to the commencement of any work being carried out on your vehicle. Please bear in mind that in most cases the removed parts are not suitable for transport inside your vehicle due to their size, nature and condition. Their loading and transport will be your responsibility in such circumstances.

SUPPLEMENTARY CHARGES

FREIGHT CHARGES

Prices shown in this book do not include any allowance for the cost of freight. In some states, territories and rural areas some additional freight costs can be expected.

GST

Prices shown in this book are inclusive of GST.

FITTING CHARGES

Fitting charges listed in this book are based on installation of accessories on brand new, unmodified vehicles using standard, ARB supplied components such as switches and brackets etc.

Installation in older vehicles and/or vehicles with other aftermarket accessories, conversions or modifications which require additional fitment labour will incur additional charges.

We suggest you discuss any such issues with our sales staff when placing your order.

Installation of accessories or components not supplied by ARB is charged on an hourly rate basis.

COLOUR CO-ORDINATION CHARGES

All ARB manufactured Protection Equipment is finished to the highest standard.

Once fully assembled our Protection Equipment is shot blasted, phosphate washed and then oven dried before a specially formulated, hard wearing, polyester powder is electrostatically sprayed and subsequently oven baked.

However, the choice is yours. If you would prefer to have the accessories coloured, a two-pack paint system is applied giving the accessories a very high quality, gloss finish. It is preparation such as this which will ensure our Protection Equipment will retain its visual appeal on your vehicle for many years.

ARB Canopies featuring a grained exterior come in a natural white finish. Colour coding is optional on these models. Smooth exterior canopies and Sport Lids must be colour coded.

Rear Wheel Carriers for rear step tow bars and for standard bumpers are only available in the standard Kaymar finish.
