ADVENTURE

2009 Pricing and Specifications

The all new "Adventure" by Legendary Innovations offers distinctive styling perfectly matched to compliment the Honda Goldwing. For superior quality, the Adventure is constructed with uni-body technology and handcrafted fiberglass lamination. Dual automotive style rotary latches, compact hinges, and double wall lid provide you with the strongest and most secure lid system on the market.

Additionally, the Adventure comes with many standard features that will cost extra on many other trailers. A few of the standard items are full interior carpet, Goldwing tail lights, jack stand, 5 lug hub system, and an EZ Lube torsion axle which can be greased without removing your wheels.

Add the accessories of your choice and an OEM custom matched paint job and watch your friends turn green with envy! Yes, Legendary Innovations does the best paint jobs in the industry; you might even want us to paint your other components. Our Quality and Service are second to no one!
