Objectives

By the end of this class, you should be able to:

- Locate a P-card Transaction
- Allocate P-Card charges to the appropriate Chartfield strings;
- Split Transactions;
- Approve P-Card transactions;
- Run P-card Reports;

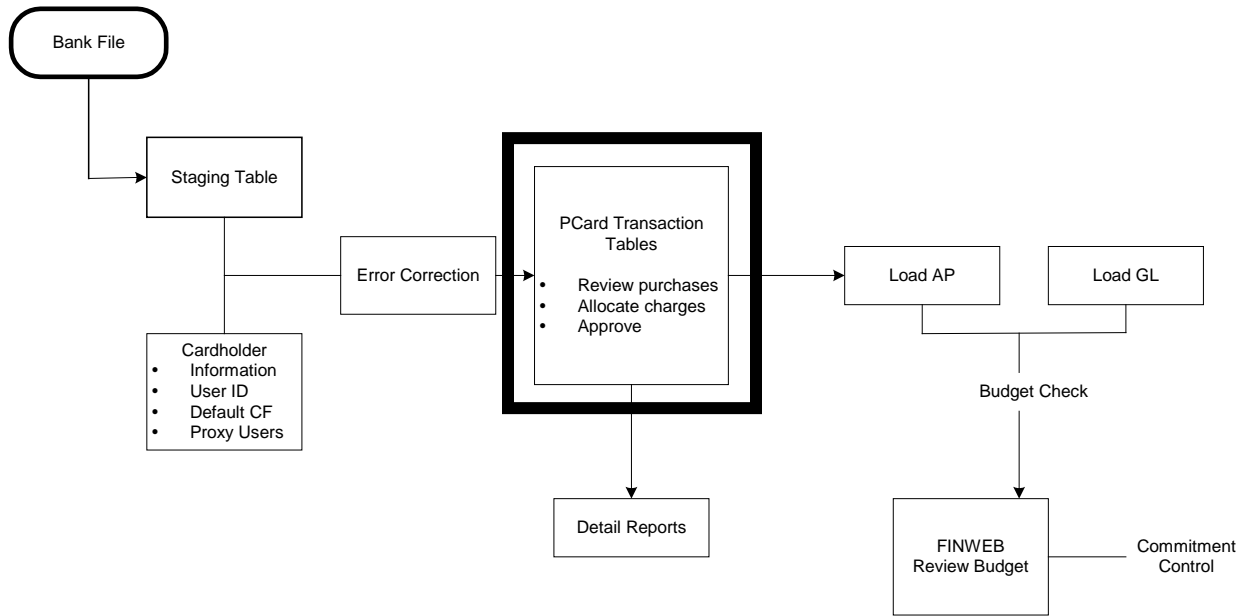

Overview

The Procurement Card Allocation and Reallocation process in PeopleSoft includes:

- Receive and review the procurement card bank charges from VISA,
- Assign the accounting distributions (Allocation),
- Approve the charges.

Note: The system will not automatically allocate the charges if you do nothing by the 24th of the month. With the PeopleSoft P-Card system, **you are responsible for allocating the charges**, as well as reallocating the charges if you need to distribute charges among different Chartfield strings.

Business Flow Diagram

Procurement Card Business Flow

Module 1: P-card Overview

By the end of this module, you will be able to:

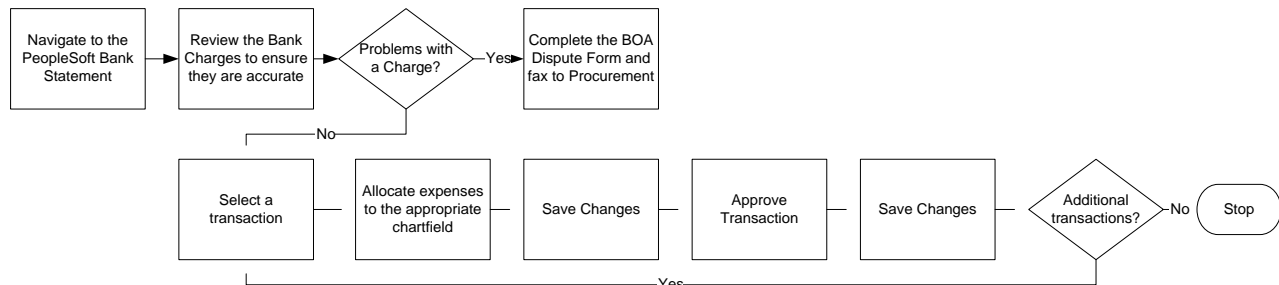

- Describe the PeopleSoft P-card process
- Navigate to the P-card Bank Statement in PeopleSoft
- Identify the components of the Bank Statement page
- Define the columns on the Bank Statement
- Perform the steps to customize the Bank Statement

P-card Process in PeopleSoft

The Procurement Department will grant access to the PS P-card system to those employees who have 1) submitted a specialized access form (<http://www.umbc.edu/procurement>) to Financial Services and 2) submitted a P-card Proxy Authorization Form (<http://www.umbc.edu/procurement/>) to Procurement.

The Bank of America charges are downloaded on a daily basis to UMBC. The charges are loaded into PeopleSoft, and are available to view via the PeopleSoft P-card Bank Statement. Once charges are loaded into PeopleSoft, it is the user's responsibility to review and approve each transaction before they are sent to the General Ledger.

Below is the overall PeopleSoft P-card process.

You can view all procurement card transactions for which you have been granted authority to access on the Bank of America statement page. If you do not have access to the appropriate data, the Procurement Department will make adjustments to the **Employee-Profile – Proxy** page whenever they receive a completed Procurement Card Maintenance Form (<http://www.umbc.edu/procurement>) requesting a change.

Note: *The billing cycle begins on the 26th of the month, and ends on the 25th of the following month.*

At UMBC, ***even if you currently do not reallocate expenses***, at a minimum, you **must** approve the transactions on the **Bank Statement** page. Since a transaction is not sent to the General Ledger until you approve that transaction, you must change the status of a transaction from **Staged** to **Approved**, and select **SAVE**. The system will not automatically charge the transaction to your department, fund, or project after the 24th of the month.

Navigating to the P-card Bank Statement

- To review charges navigate to the Reconcile Statement - Bank Statement page:

Purchasing ► Procurement Cards ► Reconcile ► Reconcile Statement

- The system returns the following page.

What can I view?

Users are only able to view P-card Charges that they have been given access to view. Most users will only be able to view their own P-card Charge. If you are responsible for reconciling multiple P-cards, you may have access to view multiple P-card Charges.

Locating a Statement

Users can locate an entire Statement or a specific transaction on a Statement via the Reconcile Statement Search screen. The two most common search fields are the Employee Name and the Card Number.

To locate a statement for an employee, follow these steps:

- Locate the Employee Name field and click once on the search icon . A list of the employees that you have access to view are displayed.
- Click once on the name link of the desired employee. You are returned to the Search screen, and the Empl ID field and the Employee Name field are populated with the selected employee data.
- Click on . Your Bank Statement page is displayed on the screen.

Reference Line number associated to the transaction line on the Transaction tab.

Description Enter additional information about the goods purchased. (Information entered in this field displays on P-card reports.)

Billing Date Displays the date of the statement on which this transaction was billed.

Billing Amount Displays the amount billed on the statement line. (The data in the field is the amount of the transaction.)

Currency Displays the currency for the transaction. The only Currency Code that UMBC is using is USD.

Prepaid Ref Not Used

Billing Tab (continued)

Dispute Amount Not Required – this field is for internal use only.

If your records disagree with the billing amount, enter the amount difference in this field. Entering an amount in the **Dispute Amount** field does not mean that UMBC is not liable for the purchase, but rather acts as a notation that the user reconciling this account must follow up with the merchant or procurement card vendor to settle the disputed amount. If an amount is entered here, the statement line is visible on the **Dispute History – Dispute** page until it has been marked as collected.

If you dispute an amount, enter the amount in question in this field. Entering this information does **not** automatically notify Bank of America or the Procurement Department. Cardholders are still required to submit a Bank of America dispute form within **60 days** of the charge to Procurement for processing. **Note:** If a charge is in PS P-card that you do not recognize, you should not approve it if it does not belong to your department. Leave it as “staged” and indicate in PeopleSoft that you are disputing this charge. Submit a dispute form to Procurement when you receive your bank statement. When the charge is credited by the vendor or Bank of America then you should approve both the charge and the credit. The net effect on your chartfield would then be \$0.

Personalizing the Bank Statement

Show All Columns

The Transaction and Billing information can be displayed separately in a tabbed view or together in a combined view. (Note: this course and manual focuses on displaying the tabbed view.)

To view information in a combined view, select the **Show All Columns** icon .

If the header displays all columns, select the Show Tabs icon.

Customize

The Transaction and Billing Tabs can be customized to change the columns that appear in each tab. Each column can either be Hidden or Frozen.

Hide Columns

To Hide columns that appear on the Bank Statement, follow these steps:

1. From the Bank Statement, click once on the **Customize** link. The Personalize Column and Sort Order screen is displayed.

Tab Transaction indicates the Transaction Tab. You are unable to manipulate this item.

Tab Billing indicates the Billing Tab. You are unable to manipulate this item.

Each column on the Bank Statement is represented with the matching column name on the list.

Selecting the Hidden checkbox hides the column on the Bank Statement page.

Selecting the Frozen checkbox prevents the column from being relocated on the Bank Statement Page.

2. Click once on the column name to Hide from the Bank Statement page.
3. Click on the **Hidden** checkbox.
4. Repeat for each column to hide.
5. Click once on the OK button to save the changes and return to the Bank Statement Page.

Module 2: P-card Transactions 101

By the end of this module, you will be able to:

- Locate a transaction
- Describe the difference between a Valid and Recycled Chartfield Status
- Review the Chartfield distribution for a transaction
- Approve a single transaction

Locating Transactions

To locate a transaction via the Scroll feature, you can either select View All to display all transactions at one time on the screen, or select the Scroll arrows to view nine (9) transactions per page.

If more than 100 transactions are available to view, the View All button will state View 100.

Once you select View All, or View 100, the link is replaced with View 9.

Valid vs. Recycled Chartfield Status

When transactions are downloaded from Bank of America, the transactions are subject to the automatic PeopleSoft Chartfield validation process. This process verifies that the appropriate chartfields are completed for each transaction. **Note that the process does not verify that the chartfields are correct.**

7	<input type="checkbox"/>	BOA	04/27/2007	VWR SCIENTIFIC PROD VCTS	Approved	0.00 USD			Valid	Yes	No
8	<input type="checkbox"/>	BOA	04/28/2007	PERKIN ELMER ANALYTICAL	Staged	0.00 USD			Recycled	No	No

After the transactions go through the automated PeopleSoft validation process during the download from Bank of America, they are given either a Valid or Recycled Chartfield Status.

- A **Valid** chartfield status means that the appropriate chartfield fields are completed.
- A **Recycled** chartfield status indicates that the chartfield fields did not pass the validation process. This typically means that all required chartfield fields are not completed.
 - Fund Code 1253, the Grant Fund Code, often appears as Recycled.

In order to Approve a transaction, the chartfield status must be Valid. To change a chartfield status from Recycled to Valid, you must modify the account distribution for the transaction.

Account Distribution

In order to ensure your transactions are posted properly to the General Ledger, it is important to allocate each transaction to the appropriate Chartfield. The **Account Distribution** page allows the user to determine which chartfield string to allocate the charges for each transaction. The chartfield default values are based on your user ID and the information provided on the P-card Application.

To allocate charges for a transaction, follow these steps:

1. Select the transaction to review.

3. Enter the desired chartfields for the transaction. The entire chartfield string must be completed in order to save and exit the Account Distribution page.
 - Fund Code 1111, 1112 and 1113 requires:
 - GL Unit
 - Fund Code
 - Prog Fin
 - Department
 - Account.
 - Fund Code 1253 requires the same fields as above, plus
 - PC Bus Unit (UMBC1)
 - Project
 - Activity
 - Resource Code.
4. Click **OK** to return to the Bank Statement page.
5. Click **Save** to save your changes.

Note: The Account Chartfield may automatically display the number 7090200, which is the account for miscellaneous supplies. At a minimum, when you are purchasing audio visual equipment, computers, phone charges, and equipment, you are required to change this account number to the appropriate code.

Approving Single Transactions

After reviewing the transaction, and distributing transactions to the appropriate chartfield, you must Approve the transaction. You can either approve transactions one at a time, or approve multiple transactions at a time.

Before approving transactions, it is important to first **Save** any transactions on which you have worked.

To approve a transaction, follow these steps:

1. Open your Bank Statement.

Reconcile Statement

3. Select the Drop Down box, and select **Approved**.
4. **Save** the transaction.

Module 3: Advanced P-card Features

By the end of this module, you will be able to:

- Perform the steps to narrow your search results
- Approve multiple transactions at a time
- Split Account Distributions
- Split Transactions
- Add a Line Comment for a transaction
- Define how to dispute a charge

Searching for a Specific Transaction

To search for a specific transaction without viewing each transaction, the system provides the ability to search by Merchant, Transaction Date, Billing Date, Status or other search criteria . When you search for specific transactions, you must Save your data prior to proceeding as the Search action closes what you are working on to return to the Reconcile Search page.

To search for specific transaction (s), follow these steps: *(Note: the following example will search for transactions with a Status of Closed. However, the same steps can be used for searching for transactions using other criteria.)*

1. Click the **Save** button to save any changes that have been made to the bank statement thus far.

Reconcile Statement

Customize | Find | View All | First 1 of 1 Last

SubCat	SOF	Affiliate	Fund Affil	Location	Chartfield Status
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	Valid

3. The following fields are required:
 - a. If State Funds (Fund Code 1111, 1112, or 1113)

- GL Unit
 - TCODE -(always 413 for p-card)
 - Fund
 - Prog Fin
 - Dept
 - Account
 - Location
- b. If for a Project (Fund Code 1253 or 1114))
- Same as State Funds plus:
 - PC Bus Unit (UMBC1)
 - Project Number
 - Activity ID
 - Resource Type
4. Add lines if necessary, and complete the appropriate chartfields.
5. Click **OK**. You are returned to the Bank Statement. The Redistribution field changes in the selected transactions from No to Yes.
6. Click **Save**.

After modifying multiple transactions, the Chartfield Status still states Recycled. To approve the transaction, the Chartfield Status must state Valid. To validate the chartfield, you must follow the Account Distribution steps.

Splitting Distributions vs. Splitting Transactions

PeopleSoft provides the functionality to allocate charges between different chartfield strings (Split Distribution), or to provide additional information regarding a transaction (Split Transaction).

Splitting distributions is different than splitting transactions in PeopleSoft. Below is a table representing the differences between the two actions, and when you would use both?

	What is it?	When to use it?	What happens?
Split Distribution	Allocating a transaction to more than one chartfield string.	When a purchase needs to be charged to more than one chartfield string. (i.e., you manage a Grant, and you have State funds. You purchased \$100 of office supplies; \$30 is dedicated to the Grant, and \$70 is dedicated to the State Funds.)	<p>The amount of the transaction is split between the selected chartfield strings. The amount allocated to each chartfield string displays on the General Ledger, and all subsequent reports.</p> <p>The Bank Statement page does not change.</p>
Split Transaction	Splitting a transaction charge into more than one transaction.	When you want to spell out the differences between each purchase on a transaction. (i.e., you purchased three separate items in the same transaction. You want to identify each of the items for your P-card reports.)	<p>The transaction is split into multiple transactions on the Bank Statement page.</p> <p>A different description can be entered for each transaction. The description will appear on the P-card reports.</p> <p>Once a transaction is split and saved, it cannot be reversed.</p> <p>Split transactions appear on the PeopleSoft Bank Statement page.</p> <p>The changes are NOT reported to Bank of America, or to the General Ledger. It is for DEPARTMENTAL PURPOSES ONLY.</p>

Splitting Distributions

You can split a distribution and allocate expenses to different chartfields.

To split the distribution line for the selected transaction, follow these steps:

- From within the Account Distribution page, scroll to the right of the page.
- Click the  plus icon to add an additional row. The following prompt appears where you enter the number of lines you wish to add for the split.

The dialog box titled "Explorer User Prompt" contains a "Script Prompt" section with the text "Enter number of rows to add:". Below this text is a text input field containing the number "1". To the right of the input field are two buttons: "OK" and "Cancel".

- Enter the number of rows to add to the original row, and click **OK**. You are returned to the Account Distribution page. Hint: If you want a total of two rows, enter the number 1.

OK Cancel Refresh

- The new distribution line inherits the same chartfield string as the original line. Modify the chartfields on the additional line as necessary.
- Modify the amount in each line so the total of all lines equal the total Billing Amount for the transaction. Credits must be allocated/reallocated by percentage only.

NOTE: You can change the distribution by percentage or by amount. If you choose to change the distribution, the percentages must equal 100 percent, and the amounts must add up to the original amount. If you change the amounts, the amounts must equal the original amount. The system will calculate the percentages. Therefore, the percentages may not add up to exactly 100 percent, but the system will accept them.

- Select **OK** to return to the Bank Statement page.
- Select **Save** to save your changes.

Splitting Transactions

Using the **Split Transaction** page, you can split a billing amount among several different items. In addition, it allows you to record more detail for a purchase. **Note:** This information is not forwarded to Bank of America or Procurement. **It is for departmental purposes only.**

To split a transaction, follow these steps:

1. Select a transaction by clicking on the checkbox to the left of the Employee Name on the Bank Statement page.

Select All Clear All Approve

[Search](#) [Purchase Details](#) [Split Line](#) [Distribution Template](#)

When you return to the Bank Statement page, the additional line is displayed on the Transaction tab and the Billing tab.

The newly created lines will inherit the same accounting distribution as the original line. If the distributions need to be changed or split, you will need to click the Sel check box beside the line and then click the [Distribution](#) link.

NOTE: When you split a line, the information does not change the distribution of the charges. Splitting a line is for your own records only; the information does not affect the UMBC ledgers or your VISA charges and payments.

NOTE: Splitting a transaction will add a new line for each split line on both the Transaction Tab and the Billing Tab. When approving transactions after splitting lines, it is recommended to select the **View All Columns** icon () in order to view the details for each line prior to approving it.

NOTE: If you split the line **AFTER** you reallocate the accounting distribution, the new lines will inherit the reallocation Chartfields.

Approving Multiple Transactions

PeopleSoft provides the capability to approve and save multiple rows in the bank statement at the same time. To successfully approve multiple rows in the bank statement, it is important to understand the following:

- You must select each row, and review the transaction as always.
- If you need to change the distribution for any row on the bank statement, you must follow the standard procedures previously discussed.
- After reviewing the transaction, and modifying the distribution (if appropriate), you must Save the transactions, and the Chartfield Status must be Valid.

Adding Comments

The Line Comments provides the ability for additional information to be entered regarding the transaction. This is very helpful when purchases are required to be justified for projects or grants. You may want to record information about returns, credits, or disputed amounts. In addition to entering comments in the Comments text field, the ability to Attach documentation is also available.

The information entered into the Line Comments page is for the department use only. The information does not transfer to the General Ledger, or to any reports.

To enter Line Comments, follow these steps:

1. Open the Bank Statement.

Reconcile Statement

Locating Comments

Once a transaction is approved, and validated by Procurement, the transaction is no longer on the Bank Statement. This does not mean that the transaction is not available to view. You can view old transactions by performing a Search on Closed transactions.

To perform a search on Closed transactions, follow the steps in the Searching for a Specific Transaction section of the manual. When prompted on the search screen, select the Statement Status of Closed. You can further narrow the search by date, or other criteria if desired.

Transactions with comments can be identified by the Comment icon with text lines inside (🗨️). Click once on the comment icon to open the comments. Please note, that you should not make any changes after the transaction has been approved.

Disputing a Charge (Information only)

If a charge on your bank statement needs to be disputed, you should complete the Bank of America Dispute Form, located on the Procurement web page. Fax the completed dispute form to procurement at x51009.

If desired, you can identify transactions which are in dispute with Bank of America in PeopleSoft. To identify transactions in dispute via PeopleSoft, follow these steps:

(Note: This is an optional activity, and is not required when disputing a charge.)

Module 4: P-card Reports

By the end of this module, you should be able to:

- Navigate to P-card Reports
- Perform the steps to run each P-card Report
- Identify the P-card Queries

P-card Reports

Three P-card reports are available in PeopleSoft. They are all available through the following navigation from PeopleSoft Finance:

Purchasing ▶ **Procurement Cards** ▶ **Reports**

The three reports are:

Report by Amount – Displays all transactions for a selected date range sorted by amount.

Report by Card Number – Displays all transactions for a selected date range sorted by status and chartstring.

Report by Department – Displays all department transactions for a selected date range sorted by cardholder, status and chartstring.

Using the PS P-CARD System

8. Select the button periodically until the Run Status changes to **Success**, and the Distribution Status changes to **Posted**.
9. Select the **Details** link on the right.
10. Click the **View Log/Trace** link listed beneath the Actions column. The View Log/Trace window is opened.
11. Click the document link that ends in **PDF** to open the report. Your Adobe Acrobat report will open in a separate window.

P-card Queries

Queries are available to identify specific transactions, and to display information in a different format than is displayed on the PeopleSoft P-card Bank Statement. A list of queries is available on the Procurement website at www.umbc.edu/procurement.

1. Click once on the PeopleSoft Information link.
2. Scroll to the bottom of the page and locate the Miscellaneous section.
3. Click once on the P-card Queries/Reports Descriptions link to view the Excel spreadsheet.

Module 5: Getting Help

By the end of this module, you will be able to:

- Navigate the Procurement website
- Use the PeopleSoft KnowledgeBase

The Procurement website includes valuable information related to PeopleSoft as well as general P-card questions. The procurement website is available at www.umbc.edu/procurement.

The PeopleSoft Knowledgebase provides an online user manual as well as training plan. P-card specific questions are answered, and can be found at <https://spaces.umbc.edu/display/ps/Home>

Click once on the P-card menu item in Table of Contents. A list of P-card related questions are displayed. Click on a specific question to display the answer in the main window.

Summary

- PeopleSoft P-card bank statement is updated daily.
- Since a transaction is not sent to the General Ledger until you approve that transaction, you must change the status of a transaction from **Staged** to **Approved**. The system will **not** automatically charge the transaction to your department, fund, or project after the 24th of the month.
- When splitting a line, the information does **not** change the distribution of the charges. Splitting a line is for your own records only; the information does not affect the UMBC ledgers or your VISA charges and payments.
- The Account Distribution page's Chartfield default values are based on your user ID.

IMPORTANT: REMEMBER TO HIT THE "SAVE" BUTTON AFTER COMPLETING EACH TRANSACTION.
