

Professional Quality. Legendary Safety.®

## DIAPER CHANGING STATIONS

---

Safe. Beautiful.  
Code Compliant.  
Versatile.

---

There are reasons why Foundations® Changing Stations are specified so often by architects in all types of facilities regardless of budget or design objectives. Foundations offers the widest selection of designs and fabrications, the best overall value, and the easiest installation available in the market today. Foundations is the only vendor to offer full stainless steel models, as well as special needs changing stations for individuals with physical challenges. All of our changing stations meet ASTM safety standards, include ANSI warning labels, and are ADA compliant when properly installed. Our most popular units also include warnings and instructions in Braille. Foundations changing stations are the result of two decades of product development and are made in the USA with a complete 5 year warranty. Regardless of whether your facility is a retail establishment, entertainment venue, hotel, school, church, health care facility, or public building;

**Foundations has the perfect product for you.**

## Polyethylene

Changing stations are made from durable, easy to clean, high density polyethylene which is inherently bacterial resistant. Heavy-duty steel on steel hinge provides increased strength and support. Clean design fits virtually all decors and is excellent for cost conscious customers. All models are ADA compliant when properly installed and include built-in liner dispensers, all necessary mounting hardware, safety strap and buckle. EZ Mount™ Backer Plate optional.

**Horizontal**  
**Model 100-EH**  
 (w/o Backplate)  
**Model 100-EHBP**  
 (w/ Backplate)

The horizontal polyethylene is our **best selling changing station** and is an industry standard as the most preferred changing position. Supports up to 250 pounds with only minimal deflection. Required mounting surface 16" high by 34.25" wide. Changing surface extends 17.5" from wall in open position.

**Vertical**  
**Model 100-EV**  
 (w/o Backplate)  
**Model 100-EVBP**  
 (w/ Backplate)

Offering a more narrow footprint, the vertical model allows for mounting in smaller spaces. Supports up to 150 pounds with only minimal deflection. Required mounting surface 34" high by 19" wide. Changing surface extends 34" from wall in open position.

(Patented)

Foundations® Exclusive EZ Mount™ Backer Plate reduces installation time and enables unit to be attached to wall with only one installer; thus minimizing installation time and costs. Simply level and mount backer plate, hang the changing station in place, and attach permanent fasteners. Also facilitates difficult and retrofit installations by eliminating the need for structural blocking and ensuring connection with two studs. *EZ Mount Backer Plate is optional; please specify when ordering.*

**ENABLES ONE PERSON  
 INSTALLATION**

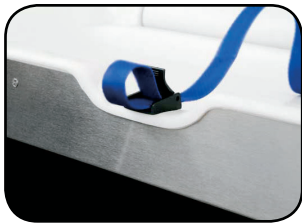

**FACILITATES RETROFIT  
 APPLICATIONS**

## Clad Stainless Steel (Patented)

**Model 100-SSC-R**  
(Recessed)  
**Model 100-SSC-SM**  
(Surface Mounted)

Combines 100-EH polyethylene horizontal changing station with a brushed 304 stainless steel shell to deliver upscale appearance for high finish facilities. Offers all the same features as 100-EH. Supports up to 250 pounds with only minimal deflection. Available in both surface mount and recessed versions. Rough-in dimension for recessed model is 35.625" W x 19.75" H. ADA and ANSI compliant when properly installed.

## Full Stainless Steel (Patented)

Foundations offers the only fully stainless steel fabricated changing station line available in the market today. Entire structure is made of 304 brushed stainless steel for high use, high finish facilities where the ultimate in durability and beauty is required. Full stainless models are available in both vertical and horizontal configurations as well as surface mount and recessed mount options to accommodate virtually any application. Also offered is a special needs, extended length model designed for adults or individuals with physical challenges. All models are equipped with replaceable high gloss, durable ABS tray that is inherently bacterial resistant. All models are ADA and ANSI compliant when properly installed, feature cushioned safety corners, pneumatic gas springs for safe and easy open and close.

**Horizontal**  
**Model 100-SS-R**  
(Recessed)  
**Model 100-SS-SM**  
(Surface Mounted)

- Open unit protrudes 21.75"
- Rough-in dimensions for recessed unit: 34.25" W x 21.875" H

**Vertical**  
**Model 100-SSV-R**  
(Recessed)  
**Model 100-SSV-SM**  
(Surface Mounted)

- Open unit protrudes 31.5"
- Rough-in dimensions for recessed unit: 21.875" W x 34.25" H.

Cushioned safety corner.

Replaceable high-hygiene polystyrene tray.

## Special Needs (Patented)

### Extended Length Changer

Model 100-SSE-R  
(Recessed)

Model 100-SSE-SM  
(Surface Mounted)

Special needs extended length changing station is designed for adults and the physically challenged with an extended length of over 62". Ideal for use in schools, nursing homes, and hospitals. Constructed of heavy-duty type 304 brushed stainless steel and is rated to support a static load of 400 lbs. (181 kg). Dual pneumatic gas springs provide easy and safe open/close operation. Available in both surface mount and recessed mount configurations. When closed, unit projects 1" (25 mm) from wall if recessed or 4" (100 mm) if surface mounted. Tray protrudes 21.75" from wall when open. ADA and ANSI compliant when properly installed and features cushioned safety corners and one-hand operation safety strap.

## Accessories

### Diaper Vendor

Model 106-SS

- Can recess up to 3.75" using optional recessing flange Model 025-SS.
- Refillable with diaper kits Model 107-DK.
- Holds 24 diaper kits and is preset at \$3.00 per sale.
- Brushed 304 stainless steel.

### Liner Dispenser

Model 200-SSLD

- Dispenser is recessed mounted separately from changing station.
- Holds liner Models 036-LCR and 036-NWL.
- Brushed 304 stainless steel.

### Diaper Kit

Model 107-DK
