

Beechfield[®]
ORIGINAL HEADWEAR

2015

Beechfield has been designing, manufacturing and supplying brandable headwear for more than 20 years. In that time we've learnt what makes the difference between good headwear, and a treasured wardrobe favourite that will be worn time and time again. We pride ourselves on pouring all of that experience and expertise into every product we make.

For 2015, our new product development team has excelled itself. From classic waxed cotton flat caps to jersey beanies; retro suede peak snapbacks to timeless linen summer Gatsbys; and straw cowboy hats to sparkling berets – we're introducing no fewer than 28 new and exciting 'Retail Ready' designs. Every one of these new products is at the leading edge of high street style and redefines the very concept of brandable caps and hats.

All our products are specifically designed for quick, easy and profitable decoration too. Take our innovative 5-Panel cap design, which is often imitated, but never bettered; or our knitted Printers' Beanie with printable patch, which provides an elegantly simple solution to a common problem. Screen prints, transfers, embroideries, appliqués, badges, emblems, rhinestones... Beechfield caps and hats provide the perfect canvas for all types of embellishment and branding.

Beechfield has the products you seek. Our 2015 Original Headwear collection offers an unrivalled choice of over 100 high quality, affordable, expertly designed and beautifully finished styles, in up to 36 contemporary colourways, all of which are proven to turn heads and get you noticed.

Think headwear, Think Beechfield!

2015 Collection

The potential for quick, easy and profitable decoration is designed into every Beechfield product.

Our 'Retail-Ready' headwear cries out for embellishment, whether it's a screen printed logo, embroidered slogan, fashionable appliqué, or personalised transfer image. The good news is that all of our products are specially developed with these decoration processes in mind.

Fabrics are tested for compatibility with the most popular printing inks, embroidery threads and transfer papers. Seams are positioned to give maximum scope for branding and creative expression. Finishing details are selected to complement and never impede surface decoration.

Take the new B465 Chunky Ribbed Beanie whose cuffed design is optimal for effective decoration, or the new B610c 5 Panel Contrast Snapback, with its seamless front panel for uninterrupted embroidery and print.

We've made the products for decoration; now it's over to you...

The re-branding of Beechfield products has never been easier with our TearAway labels.

We're always looking to improve our products and we are constantly responding to evolving customer requirements and market demands. Our TearAway labels do just that, answering directly to the growth of the re-branding market.

The TearAway labels comprise a front 'sheet' with brand, style and address information. This is made from easy-tear fabric and can be removed in seconds to leave an unbranded 'Retail-Ready' product. Behind this front sheet are additional sewn-in sheets made from traditional satin-type label fabric. These sheets provide fibre composition data (in 23 European languages), as required by EU regulations, and care instructions by way of internationally recognised care symbols.

Look out for the TearAway logo, which appears next to every product carrying the labelling system.

Beechfield is committed to upholding the highest ethical and environmental standards throughout our entire supply chain.

We operate according to an ethical policy that protects and rewards every individual involved in the manufacture and supply of our products. The ethical policy references and respects local laws, with regard to wages, health and safety, workers' welfare and human rights. It expressly forbids the use of coerced/forced labour, including child workers.

Our field based staff carry out full audits on all of our manufacturing partners to ensure that our ethical standards are constantly maintained.

We endeavour to protect the quality of the environment through sound environmental practice. We ensure that our manufacturing partners meet or exceed all local environmental laws and regulations, and we promote energy efficiency and the reduction of waste at every stage of production.

And we stay continually updated on REACH legislation, commissioning regular fabric and component testing to ensure compliance with this strict European product safety and environmental protection standard.

We know the value of your image and good reputation. You can rest assured that choosing Beechfield will only ever enhance your own ethical and environmental credentials.

index

features and definitions

Coolmax® fabric moves perspiration away from the body enabling it to evaporate quickly. This property helps users stay drier and more comfortable.

The Ultraviolet Protection Factor (UPF) measures the sunlight protection provided by fabric. UPF 50+ is the highest rating awarded to garments which are designed to protect the user from prolonged exposure to sunlight.

The moisture resistant and breathable fibres of Thinsulate™ insulation work by trapping air molecules and creating a thermal barrier. The result is extreme warmth and user comfort, without the bulk of regular insulation materials.

Suprafleece™ provides warmth and breathability without weight. The anti-pilling properties of the fleece fabric ensure that Suprafleece™ products retain their good looks for longer.

The SmartFit™ cap combines elastane fabric and elasticated sweatband technology to achieve great looks and an incredibly secure fit.

EasyPanel™ The product has an EasyPanel™ to facilitate easier decoration.

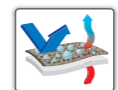

From branded to own-brand product in seconds – our TearAway labelling is a cinch to remove, leaving you with a truly 'Retail-Ready' product to make your own.

Fabrics treated with Dupont™ Teflon® offer water repellency without affecting breathability. The hidden benefit is resistance to soiling, so headwear retains its clean look for longer.

Get noticed and stand out in all conditions – our Enhanced Visibility products use retro-reflective detailing to keep you conspicuous and safe at any time of the day or night.

Personal climate control – our advanced waterproof and breathable fabrics and coatings block moisture from the outside whilst allowing body vapour to escape from inside, keeping you dry and comfortable at all times.

A polycarbonate inner shell, which conforms to EN812, offers the wearer a level of protection against minor impacts and small sharp objects.

Note: This is not to be used as an industrial safety helmet to prevent risk from falling objects.
