

Century Lens Accessories for JVC GY-HD110U & 100U ProHD Camcorders

Century Pro Series HD accessories offer quality professional lens add-ons designed to extend the capabilities of your lenses. They help you go wider, reach further, and move in closer than the lens alone allows. The superb Century optics provide the finest professional images. These state-of-the-art lenses minimize chromatic aberrations and unwanted distortion and produce HD quality images that are ultrasharp edge-to-edge.

.7X Wide Angle Adapter

OWA-7X93-00

Lightweight and cost effective, the .7X Wide Angle Adapter increases coverage by 30%. It offers a much wider angle of view with very low distortion. Does not permit zooming. (Clamp-on 85mm adapter required Stk# OFA-7X85-00).

.7X & .5X Wide Angle Adapter Set

OWA-7X5X-00

For the widest angle possible, combine the .7X with our Super Wide .5X to increase the wide angle coverage by 50%. This add-on combo offers a much wider angle of view and is both lightweight and cost effective. Does not permit zooming. Use in combo or use the .7X separately. (Clamp-on 85mm adapter required Stk# OFA-7X85-00).

.8X LC Wide Angle Converter

OWA-8XLC-00

The right tool for shooting situations that require both a wider angle of view and full zooming capabilities. This professional add-on lens produces crisp, high resolution images with low distortion, and superior contrast edge to edge. The .8X Wide Angle Converter clamps on to the front of the lens for 20% more coverage when set to wide angle, telephoto or anywhere in between. 85mm clamp ring included.

Super Fisheye Adapter MKII

OWA-FESU-RD

Add the Fisheye to the front of your lens for a wider angle of view and a remarkable degree of barrel distortion with no vignetting. The Fisheye exaggerates depth, pulling nearby objects closer and causing distant objects to recede into the background. Non zoom—but you'll want to stay at the wide end of the range anyway, for the most pronounced effect. (Clamp-on 85mm adapter required Stk# OFA-5X85-00).

OTC-16LC-85

1.6X LC Tele Converter

Extend the reach of your zoom without exposure loss. The Century 1.6X Tele-Converter is a clamp-on front-mounted accessory that also provides greater telephoto reach. Use it to instantly shift the focal length range of your camera in the telephoto direction. The perfect tool when it's inconvenient, dangerous or impossible to move as close to the subject as you'd like. 85mm clamp ring included.

OXF-213B-00

2X Tele-Extender

Mounted between the camera and zoom lens, the Tele-Extender doubles the lens' focal length enabling a shooter to capture far away action close-up.

OAD-8616-00

OAD-8620-00

OAD-8626-00

Achromatic Diopters

For maximum magnification and image clarity, these macro zoom attachments offer more close-up range, while preserving zoom capability. Ideal for focusing tightly on small objects in tabletop, miniature and flat field work. In +1.6, +2.0 and +2.6 strengths. Stackable for even greater magnification. (Clamp-on 85mm adapter required Stk# OFA-8586-00).

Specifications

Century Add-ons for JVC GY-HD110U & HD100U

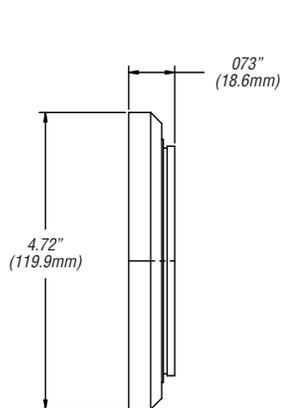

When using add-ons an 82mm clear filter or the Century stock code #OFA-8282-00 Adapter Ring is required to eliminate binding from the lens focus ring.
