SECTION 1

AW camera series

Option Cable

Discontinued

AW-CA4T1(DC power cable)

- This cable is used for connection with convertible cameras(AW-E350/E650/E655/E750 /E800A/E300S or live switcher(AW-SW350) and power supply(AW-PS505).
- Cable Length:3m

●Wiring & Signals

●Dimensions

Discontinued

AW-CA1T1(Co-axial cable with special connector)

- This co-axial cable with special connector is used for special signal output such as SDI signal on outdoor pan-tilt head system (AW-PH600/CH600).
- Cable Length:1m

●Wiring & Signals

●Dimensions

Option Cable

Discontinued

AW-CA8U30(Power cable)

- This cable is used for connection with pan-tilt head(AW-PH600) and power supply (AW-PS600).
- Cable Length:30m
- Wiring & Signals
- Dimensions

Discontinued

AW-CA16U10/20/30(Camera control cable)

- This cable is used with outdoor pan-tilt head system (AW-PH600) or indoor pan-tilt head(AW-PH500) for camera control and genlock.
- Cable Length:AW-CA16U10:10m,AW-CA16U20:20m,AW-CA16U30:30m
- Wiring & Signals
- Dimensions

Option Cable

Discontinued

AW-CA24U10/20/30(Camera control cable)

- This cable is used with pan-tilt head(AW-PH600) or indoor pan-tilt head(AW-PH500) for pan-tilt control.
- Cable Length:AW-CA24U10:10m,AW-CA24U20:20m,AW-CA24U30:30m
- Wiring & Signals

●Dimensions

Option Cable

AW-CA50T8(Camera control cable)

- This cable is used for controlling cameras(AW-E350/E650/E655/E750/E800A) by AW-CB400.
- Cable Length:10m
- Camera control distance can be extended max.1000m by using 10-BASE-T cable.
- Wiring & Signals

●Dimensions

Option Cable

AW-CA50T9(RS232C camera control cable)

- This cable is used for connection with convertible cameras(AW-E350/E650/E655/E750 /E800A) and PC.
- Cable Length:10m

●Wiring & Signals

●Dimensions

AW-CA50A26(RCU cable)

- This cable is used for connection with convertible cameras(AW-E350/E650/E655/E750 /E800A) and RCU(WV-RC700A).
- Cable Length:15m

●Wiring & Signals

●Dimensions

Option Cable

AW-CA26T26(RCU extension cable joint connector)

- This connector is used for extension of RCU cable(AW-CA50A26) with RCU extension cable(AW-CA26U15/30/100).
- Length:30mm
- Dimensions

AW-CA26U15/30/100(RCU extension cable)

- This cable is used for extension of RCU cable(AW-CA50A26) with joint connector WC-CA26T26).
- Cable Length:AW-CA26U15:15m,AW-CA26U30:30m,AW-CA26U100:100m
- Wiring & Signals
- Dimensions

Option Cable

Discontinued

AW-CA50B10(RCB cable for extension)

- This cable is used with extension cable for connection with convertible cameras (AW-E350/E300S/E650/E655/E750/E800A) and camera control box(WV-CB700A).
- Length:5m

●Wiring & Signals

●Dimensions

Discontinued

AW-CA10B02/25/50(RCB extension cable)

- This cable is used for extension of RCB cable(AW-CA50B10).
- Cable Length:AW-CA10B02:2m,AW-CA10B25:25m,AW-CA10B50:50m

●Wiring & Signals

●Dimensions

Option Cable

Discontinued

AW-CA50T10(RCB cable)

- This cable is used with connection with convertible cameras(AW-E350/E300S/E650/E655/E750/E800A) and camera control box(WV-CB700A).
- Length:5m

●Wiring & Signals

●Dimensions

AW-CA12T12A(Lens extension cable)

- This cable is used for extension of lens iris cable .
- Cable Length:15cm

●Wiring & Signals

●Dimensions

Option Cable

Discontinued

AW-CA50T6(RGB cable)

- This cable is used for connection with convertible cameras(AW-E350/E300S/E650/E655/E750/E800A)installed RGB card(AW-PB302 and RGB monitor.
- Length:5m

●Wiring & Signals

●Dimensions

Discontinued

AW-CA9T9(RGB cable for PC)

- This cable is used for connection with convertible cameras(AW-E350/E300S/E650/E655/E750/E800A)installed RGB card(AW-PB302) and PC.
- Cable Length:5m

●Wiring & Signals

●Dimensions

Option Cable

Discontinued

AW-CA9T5(RGB cable)

- This cable is used for connection with convertible cameras(AW-E350/E300S/E650/E655/E750/E800A)installed RGB card(AW-PB302 and RGB monitor.
- Length:5m

●Wiring & Signals

●Dimensions

Discontinued

AW-CA12T11(Contact closure type pan-tilt cable)

- This cable is used for connection with convertible cameras(AW-E350/E300S/E650/E655/E750/E800A)installed lens interface card(AW-PB308) and contact closure type pan-tilt head.
- Cable Length:25m

●Wiring & Signals

●Dimensions

Option Cable

Discontinued

AW-CA50TBNC(WV-CB550 cable)

- This cable is used for connection with convertible cameras(AW-E350/E300S/E650/E655/E750/E800A) and remote control box(WV-CB550).
- Length:2m

●Wiring & Signals

●Dimensions

Discontinued

AW-CA50T15(Pan-tilt cable)

- This cable is used for connection with convertible cameras(AW-E350/E300S/E650/E655/E750/E800A) and pan-tilt head(AW-PH300A/PH600).
- Cable Length:40cm

●Wiring & Signals

●Dimensions

Option Cable

Discontinued

AW-CA50A15(Pan-tilt cable)

- This cable is used for connection with convertible cameras(AW-E350/E300S/E650/E655/E750/E800A) and pan-tilt head(AW-PH300A/PH600) for RS232C control.
- Length:40cm

●Wiring & Signals

●Dimensions

Discontinued

AW-CA50C15(Pan-tilt cable)

- This cable is used for connection with convertible cameras(AW-E350/E300S/E650/E655/E750/E800A) and pan-tilt head(AW-PH300A/PH600) for component output.
- Cable Length:40cm

●Wiring & Signals

●Dimensions

Option Cable

Discontinued

AW-CA50D15(Pan-tilt cable)

- This cable is used for connection with convertible cameras(AW-E350/E300S/E650/E655/E750/E800A) and pan-tilt head(AW-PH300A/PH600) for RS232C control and component output.
- Length:40cm

●Wiring & Signals

●Dimensions

AW-CA28T9(RS232C pan-tilt cable)

- This cable is used for connection with convertible cameras(AW-E350/E300S/E650/E655/E750/E800A) and pan-tilt head(AW-PH300A/PH600) by RS232C control.
- Cable Length:10m

●Wiring & Signals

●Dimensions

Option Cable

Discontinued

AW-CA50F29(Pan-tilt cable)

- This cable is used for connection with convertible cameras(AW-E350/E300S/E650/E655/E750/E800A) installed Web Card(AW-PB309) and pan-tilt head(AW-PH350) for Web control.
- Length:55cm
- Wiring & Signals
- Dimensions

Discontinued

AW-CA50T29(Pan-tilt cable)

- This cable is used for connection with convertible cameras(AW-E350/E300S/E650/E655/E750/E800A) and pan-tilt head(AW-PH350) for composite output.
- Cable Length:40cm
- Wiring & Signals
- Dimensions

Discontinued

- This cable is used for connection with convertible cameras(AW-E350/E300S/E650/E655/E750/E800A) installed IEEE1394 Card(AW-PB310) and pan-tilt head(AW-PH350) for IEEE1394 control.

●Length:55cm

●Wiring & Signals

- Dimensions

Discontinued

- This cable is used for connection with convertible cameras(AW-E350/E300S/E650/E655/E750/E800A) and pan-tilt head(AW-PH300A/PH600) for component output.

- Cable Length:40cm

●Wiring & Signals

- Dimensions

Option Cable

AW-CA24T24(Control extension cable)

- This cable is used for extension of camera/pan-tilt control cable for outdoor pan-tilt head AW-PH650.
- Length:20m

● Dimensions

Option Cable

AW-CA15H29(Pan-tilt cable)

- This cable is used for connection with multi-format camera(AK-HC1500/ and pan-tilt head (AW-PH405 and AW-PH400) when the camera controller AW-CB400 is used.
- Cable Length:0.7m
- Wiring & Signals

- Dimensions

Option Cable

AW-CAK4H1(Pan-tilt cable kit)

1/2

●This cable is a cable kit for connection with multi-format camera (AK-HC1500) and pan-tilt head (AW-PH405/AW-PH400) when camera controller AK-HRP150 is used.

Pan-tilt cable

●Length:0.7m

●Wiring & Signals

Option Cable

AW-CA4FLZ (ENG lens cable)

<1/2>

- This cable is used for connection with Fujinon broadcast ENG(RD) lens on multi-format camera (AK-HC1500) and pan-tilt head (AW-PH405/AW-PH400)
- Length: 0.8m

● Dimensions

(Unit:mm)

Option Cable

AW-CA4FLZ (ENG lens cable)

<2/2>

●Wiring & Signals

Option Cable

AW-CA4ALZ(ENG lens cable) 1/2

- This cable is used for connection with Canon broadcast ENG (Analog) lens on multi-format camera (AK-HC1500) and pan-tilt head (AW-PH405/AW-PH400)
- Length: 0.8m

● Dimensions

Option Cable

AW-CA4ALZ(ENG lens cable) 2/2

●Wiring & Signals

Option Cable

AW-CA4DLZ (ENG lens cable) 1/2

- This cable is used for connection with Canon broadcast ENG (Digital) lens on multi-format camera (AK-HC1500) and pan-tilt head (AW-PH405/AW-PH400)

- Length: 0.8m

- Dimensions

Option Cable

AW-CA4DLZ (ENG lens cable)

SECTION 2

System information (AW camera series)

AW-PH650 ND/EXT connector

① LENS I/F (1) connector

This is provided for controlling the zooming and focusing of the motorized lens unit. Connect the remote (zoom/focus) control cable of the motorized lens unit to this connector.

② ND/EXT connector

This is provided for controlling the ND filter or lens extender of the motorized lens unit. Connect it when using a motorized lens unit with an ND filter or lens extender function.

③ CAMERA I/F connector

This is provided for controlling a camera the camera REMOTE connector using the supplied with the AW-PH650.

④ Camera control selector switch

[Shipment setting: HRP]

Camera	Switch s
Convertible camera	HRP
AK-HC900 series	HRP
	Control exercised

① ND/EXT connector

This is for controlling the ND filter and lens extender of the power lens unit. Connect it when using a power lens unit equipped with an ND filter and lens extender function.

Specification of EXT signal

Max. Voltage : +60V
Max. Load Current : 350mA

Connector Parts information

Cable side : R03-P6M or R03-PB6M (Male, Tajimi)

PH650 side : R03-R6F (Female, Tajimi)

Photo Mos Relay

Note

ND/EXT connector of AW^PH360 has same pin assignment.
But CVCC voltage is +15V, not +12V

AW-RC400 Monitor outputs control (1)

MONI SEL OUT

Each controller has "MONI SEL OUT", and this signal can be connected to AW-RC400.
AW-RC400 selects input camera signal according to controller.

RJ-45 connector pin assignment

AW-RC400 Monitor outputs control (2)

AW-RP400 sends data to AW-RC400 in following procedure to switch monitor output selection. Monitor1 data selects Monitor1 output of RC400, and Monitor2 data selects Monitor2 output of RC400.

- Control Procedure :3 wire (data/clock/strobe)
- Cable / Connector :CAT-5 / RJ45
- Signal Level : 0 - 5V (CMOS LEVEL)
- Strobe signal (STB) : Approx. 3.3us
- Data timing : Approx. 5.1us
- RP400 will refresh (send data) every 100ms.

Bit7	Not used
Bit6	Select Monitor 1
Bit5	bit 6 5 4
Bit4	1 0 1 Camera 5
	1 0 0 Camera 4
	0 1 1 Camera 3
	0 1 0 Camera 2
	0 0 1 Camera 1
Bit3	Not used
Bit2	Select Monitor 2
Bit1	bit 6 5 4
bit0	1 0 1 Camera 5
	1 0 0 Camera 4
	0 1 1 Camera 3
	0 1 0 Camera 2
	0 0 1 Camera 1

Monitor1 : Camera selection of RP400 Master

Monitor2 : Depend on system;

a) One RP400 only : Same selection as Monitor1

b) One of Each RP400 and CB400

: Camera selection of CB400

c) Two RP400 (Master/Slave)

: Camera selection of RP400(Slave)

Multi Function Control System (AW-RP655)

Connections

When using the AW-PH300, AW-PH300A, AW-PH500 or the AW-PH600 pan/tilt head

The control signal from this unit must be converted from RS-422 to RS-232C.

Consult with your dealer concerning the RS-232C/RS-422 converter and connecting cable.

Shown below is an example of the connections performed by the RS-232C/RS-422 converter.

Pan-tilt System Connection(AW-RP555)

Connections

When using the AW-PH300, AW-PH300A, AW-PH500 or the AW-PH600 pan/tilt head

The control signal from this unit must be converted from RS-422 to RS-232C.

Consult with your dealer concerning the RS-232C/RS-422 converter and connecting cable.

Shown below is an example of the connections performed by the RS-232C/RS-422 converter.

Note: This cable(5m) is Included in AK-HRP150.

Connection with AK-HRP150 (1)

1) Accessory cable

2) Up to 20m extension

3) More than 20m extension (Up to 500m)

Connection with AK-HRP150 (2)

Custom made cable
for connecting AK-HC1500/1800 and AK-HRP150

Power supply break out cable for HC1500/1800

Power supply break out cable for CB400

AK-HRP150 extension cable for AW-CAK4H1

One cable of AW-CAK4H1 is 3m length.
If longer cable necessary, please prepare in local.

Note.

- Power supply cannot be performed
- Gen^lock cannot be performed

AK-HRP150 extension cable for AW-CAK4H1

One cable of AW-CAK4H1 is 3m length.
If longer cable necessary, please prepare in local.

- Note.
- Power supply cannot be performed
 - Gen^lock cannot be performed

Connection with HRP900/150

Multi-format, Multi-purpose Camera Cable

Control cable for AK-HC900 (Cable A)

REMOTE/SERVICE

Connection for tally control (AW-CB400 & AV-HS400)

Tally connector

The tally connector comes with tally output, output enable, power supply or fan alarm output pins. The output signals from the tally output pins are for lighting the tally lamps, and these outputs are open collector outputs.
(D-sub 15-pin male)

Pin assignment

Pin No.	Signal name	Input/output	Description of signal
1	IN1	Open collector output	Tally output of input video 1
2	IN2	Open collector output	Tally output of input video 2
3	IN3	Open collector output	Tally output of input video 3
4	IN4	Open collector output	Tally output of input video 4
5	IN5	Open collector output	Tally output of input video 5
6	IN6	Open collector output	Tally output of input video 6
7	IN7	Open collector output	Tally output of input video 7
8	IN8	Open collector output	Tally output of input video 8
9	ALARM	Open collector output	Fan alarm or power supply alarm output
10, 11, 12	RESERVED		Keep these pins unconnected.
13	ENABLE	Input	Enable signal of tally output and alarm output Open: Output; GND: no output
14, 15	GROUND	GROUND	Ground

Pins 1 to 9 must satisfy the following conditions:
Dielectric strength: Max. DC 24 V
Current: Max. 50 mA

Example of tally connections

28 TALLY/INCOM connector

Connect this to the TALLY/INCOM connector on the video switcher or other units.
When the TALLY connector is set to the GND level, the (1) TALLY lamp lights. Do not apply a voltage in excess of 5V to this connector.

Pin layout as seen from the back panel of AW-CB400

Pin No.	Signal Name
1	TALLY1
9	TALLY2
2	TALLY3
10	TALLY4
3	TALLY5
11	TALLY GND
4	---
12	---
5	---
13	---
6	MIC +
14	MIC -
7	INCOM GND
15	SP -
8	SP +

Tally Configuration (AW-CB400 & AV-HS400)

When "CAM 2" on HS400 PGM is pressed, TALLY 2 become active, and CAM2 Tally turn on.
