

Take the easy option with CommSwift Bundles.

Avaya IP Office Bundles that are easy to sell,
simple to quote and price competitive.

Distribution Central, Optus and Avaya are offering a range of IP Office digital bundles to cover your SMB customer requirements. A single SKU for each bundle simplifies the order process for you, and the special pricing makes it cost-effective and attractive to your SMB customer.

Why Avaya IP Office?

- > **Voicemail to email**
Receive your voicemail as an email on any device anywhere
- > **Conferencing**
Save money and get the right people connected all at once, with built in conferencing
- > **NBN Ready**
- > **Auto Attendant**
Provides a professional experience for customers calling into the business
- > **Mobile Twinning**
Take your office calls on the go where ever you are.
- > **SIP and ISDN Options**

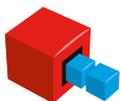

Why CommSwift Bundles?

- Suitable for customers requiring 12 digital extensions or less
- Simple matrix system to size, quote, order (see the next page)
- Single SKU for quoting and ordering
- Predictable pricing
- Maximise your sales with a shorter sales cycle

All Bundles include: IP Office Controller, Essential Edition license and SD Card. These bundles are configured to support 3 to 12 Digital Phones and include, 1416 or 9508 digital phones. Simply select if you require SIP or PRI trunking as the base of the bundle then choose the amount of phones required. Options include: Rack or Wall mounts, additional channels and operator console.
