

DISH PLAYER-DVR™ 921

High Definition - Digital Video Recorder

DISH Player-DVR 921 is a dual-tuner satellite receiver that combines the power of digital video recorder (DVR) technology with the ability to receive and record high definition television programming directly from DISH Network and off-air digital broadcasts. DISH Player-DVR 921 features a 250 GB hard drive and comes with DISH Video-On-Demand Service, which provides the ability to pause, record, replay and fast-forward standard or high definition television programs.

Feature DISH PLAYER-DVR 921

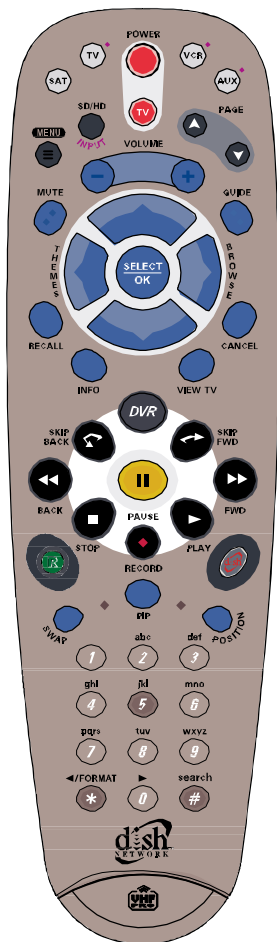

Feature	DISH PLAYER-DVR 921
Number of Satellite Tuners	2
Supports HDTV	Yes
Digital Video Recording	Yes
Recording Capacity*	Up to 180 hours (SD) Up to 25 hours (HD)
HD Video Outputs	DVI-HDTV/DISH DVI (DVI/RGB)
SD Video Outputs	Composite, S-Video, Coax
On-Screen Caller ID**	Yes
Optical Digital Audio Output	Yes

DISH Pro Plus Compatible	Yes
Software Upgradeable via Satellite	Yes

RECEIVER FEATURES

- Combined high definition (HD) and standard definition (SD) two-tuner satellite receiver with Digital Video Recording (DVR) capabilities.
- 480p, 720p and 1080i resolutions supported via HD outputs.
- Integrated off-air tuner for reception of local digital/HD and analog broadcasts that can record digital/HD broadcasts onto the hard drive.
- HD Connectivity: DVI-HDTV/DISH DVI (DVI/RGB) and HD component video outputs – both HD and SD content can be viewed on an HDTV using the HD video connections (SD content is up-converted).
- SD connectivity: Composite audio/video and S-video outputs – both HD and SD content can be viewed on an SDTV using the SD video connections (HD is down-converted).
- Two satellite tuners for:
 - Picture-in-Picture (PIP) to view two programs.
 - Recording two live shows at once.
 - Recording a live show while watching another live show.
 - Recording two live shows while watching another recorded program.
- DVR capabilities:
 - 250 GB hard disk drive for 100% digital recording: up to 180 hours of SD programming, up to 25 hours of HD programming, or a combination of the two.
 - DISH Video-On-Demand Service provides the ability to pause live TV up to two hours, fast forward or fast reverse in 4 speeds (4x, 15x, 60x, 300x), skip back 10 seconds, skip forward 30 seconds, forward and reverse slow motion and frame-by-frame, manual/auto timers for recording, and recorded events management to play, delete or protect a recorded event.
 - Extended Electronic Program Guide (EPG) features 7 days of programming stored onto the hard drive for quick and easy access to program-listing information.
 - Parental control locks, program information, themes lists, favorites lists, browse, one-touch channel return, closed-caption support and alternate audio support.

REMOTE CONTROL

- UHF Pro 4-component universal remote control – controls satellite receiver up to 200 feet through walls and other obstructions and can be programmed to operate up to three additional components such as TVs, VCRs, and DVD players (via infrared).
- DVR buttons: skip forward, skip back, stop, play, pause, forward, back, record.
- "DVR" button provides one-touch access to the Recorded Events Menu.
- Picture-in-Picture (PIP) functions to display, move or swap the PIP image.
- "TV Power" button.

* Recording capacity depends on type of programming being recorded.
** Requires Caller ID subscription with local phone company. Phone line must be connected to receiver.
