REF: **ENG 12-06**  
CODE: National  
DATE: December 21, 2012

**MODEL: FR651V, FR691V, FR730V, FS651V, FS691V, FS730V FR541V,  
FR600V, FS481V, FS541V, FS600V**

**TITLE: NEW FR & FS AIR FILTER CLAMP (P/N 92173-1001)**

## Details

As a product improvement, the original air filter clamp (92173-7007) now supersedes to a new clamp (92173-1001) with a redesigned band. When changing the air filter, replace the original air filter clamp (92173-7007) with the new clamp (92173-1001).

## Parts Information

Service air filters will now be distributed as a kit. The kit will contain the air filter, the new clamp [92173-1001], and an instruction card. When ordering a new air filter you will receive a kit as shown as the table below.

## Eligibility

See the "Engine Information Table" below for information on the correct kit.

Engine Information Table		
Model	Mounted Air Filter	Kit
FR541V	11013-7050 or 11013-0727	99999-0383
FR600V		
FS481V	11013-7049 or 11013-0726	99999-0384
FS541V		
FS600V		
FR651V		
FR691V		
FR730V		
FS651V		
FS691V		
FS730V		

The "Kit Contents Table" shows the parts included in each kit.

Kit Contents Table			
Kit	Air Filter	Clamp	Card
99999-0383	11013-0727	92173-1001	49007-0735
99999-0384	11013-0726	92173-1001	49007-0738

See reverse side for additional information

---

## Replacement Procedure

---

1. Remove the original air filter and clamp.
2. Install the new air filter and new clamp as shown on the kit instruction card. Tighten the clamp.
3. To ensure a proper seal when installing the new clamp, attempt to rotate the air filter in the intake tube. If the air filter rotates, tighten the clamp further and re-test. The clamp is tight enough when the air filter does not rotate.

---

## Warranty Information

---

This is Service Information only, not warranty authorization.
