Package D	5% discount	with a total value purchase from 10 to 20 million VND.

Bring the great Festive spirit to your employees and partners with Electrolux.

Thinking of you
Electrolux

The Thoughtful Design Innovator.

Do you remember the last time you opened a gift that made you say. "Oh! How did you know? That's exactly what I wanted! That's the kind of feeling that we at Electrolux seek to evoke in everyone who chooses or uses one of our products. We devote time, knowledge, and a great deal of thought to anticipating and creating the kind of appliances that our customers really need and want.

This kind of thoughtful care means innovating with insight. Not design for design's sake, but design for the user's sake. For us, thoughtful design means making appliances easier to use and tasks more enjoyable to perform, freeing our customers to experience the ultimate 21 st century luxury: ease of mind more available to more people in more parts of their everyday lives, all over the world.

The "Thinking of you" promise from Electrolux goes beyond meeting the needs of today's consumers. It also means we're committed to making appliances safe for the environment – now and for future generations.

Electrolux. Thinking of you.

Your moment to shine
with **Electrolux**

What do we mean by **‘Thinking of you’**?

At Electrolux, you are at the heart of everything we do. Every product we make is designed to help you find a little more time, enjoy a little less stress and discover a little more well-being.

For over 90 years we’ve been one of the world’s most trusted household brands by listening to real people and designing products they truly want and need. Our innovations are based on extensive research into how people like you use their household appliances.

These customer insights have helped our design centres in Sweden, Germany, Italy and Australia to consistently develop award-winning products that perform better and are easier to use. Indeed, our “Thinking of you” promise goes beyond meeting the needs of today’s consumers. It means we’ve committed to making appliances safe for the environment, now and for future generations.

The Electrolux name is your guarantee of quality, reliability and thoughtful design. Not design for design’s sake, but design for your sake. Always.

washer & dryer

**Forget those washing woes,
let Electrolux help you shine with ease**

Having the perfect washer and dryer at home to help you and your loved ones look your best has become an important part of modern life. Washing, drying and ironing is almost universally dreaded among working adults. This is why Electrolux has come up with some clever laundry solutions to ease your washing woes.

Time Manager system for more free time
with your loved ones

A great example of this is the Affinity Laundry Pair which is perfect for washing and drying 11kg of clothes at one go. Perfect for big families or for bigger loads like washing duvets and comforters. With active children and busy on-the-go lifestyles, the Electrolux Time Manager also comes with a deep clean cycle that makes your clothes cleaner, whiter, and colours more vibrant.

19.790.000 VND

The Electrolux Affinity washer boasts an intelligent fabric care feature that automatically customises each laundry load for better stain removal and lower tumbling speeds that result in less 'wear and tear' and helps retain the shape and elasticity of your clothes. A two-way reverse tumble action also allows clothes to be soaked in a concentrated pool of detergent while a continuous flow of water runs through the fibres in the fabric - the perfect combination of a gentle yet efficient wash.

And what about those delicate pieces that require hand washing? Don't you sometimes wish the delicate wash in your machine is truly delicate enough for your precious clothes? Electrolux's latest laundry innovation – the vapour action washer – doesn't just wash; it even helps solve those dreaded ironing woes

TOP-LOAD WASHER

EWT704

5.990.000 VND

Unlike any other top-load washing machine, T-Drive addresses a new break through in washing which provides consumers with a superior wash, more economical and eco-friendly product. The T-Drive also helps to solve many common problems, such as unsightly residue stains, uneven cleaning and tangled clothes.

DRYER

If ironing is not your thing, look no further than the Electrolux Iron Aid dryer.

The Electrolux Sensor Dry 11 is the perfect compliment to the Time Manager 11 with equally intelligent design features. Its stainless steel drum with an ultra smooth surface offers efficient heat transfer while reducing abrasions. A quick, gentle and perfect finish.

The Balanced Dry System used by the Sensor Dry 11 draws large volumes of air through the back of the drum and redistributes it evenly for safe, efficient drying without the dreaded ‘hot spots’ that can damage clothes.

Its Dryness Selections feature provides an array of options ranging from More Dry, Normal, Less Dry or Damp, to ensure better control over fabric care and the drying process which in turn speeds up the ironing process. The Moisture Sensor System also senses the moisture level in the fabric to achieve precision and optimal dryness, giving your clothes that fresh, crisp feel – the perfect end to the perfect wash.

EDV600

- Colour: White
- Capacity: 6.0kg

Electrolux’s latest range of air conditioners comes with advanced air purifying technologies that clean up the air, and infuse your homes with the health-giving goodness of Vitamin C. Turning on the air conditioner will not only cool down the room, it’ll also flood it with nano particles of pure Vitamin C.

The unique integrated Air Filtration System of these air conditioners features a Bio HEPA Filter, Plasma Air Purification Technology and the Golden Bio Evaporator. These work together to remove over 95% of bacteria and 99% of dust particles in the air, ensuring a high indoor air quality and gives your family clean and pure air that’s great for health.

Dynamica is the perfect answer to effortless cleaning as and when you need to. Say goodbye to lugging around a heavy vacuum, dragging or pulling at the cords to get it to move along. Moving in between furniture is also a breeze with a simple light twist of the handle.

Designed for easy manoeuvrability, the light-weight Dynamica features a highly flexible double-jointed floor nozzle as well as a 6 metre long cord, allowing you to simply walk around your home with ease, picking up every strand of hair, dirt and dust along the way. The ergonomic stick design also takes away the back-breaking effort needed to vacuum hard-to-reach places like under tables, chairs and beds.

kitchen

Integrated kitchen design

This blending of kitchen and living areas goes hand in hand with a change in the perception of cooking. This perception is increasingly being seen as a creative and often social act instead of a chore.

For designers and architects creating open-plan kitchens, the eradication of smell, grease and cooking noise will become a greater priority than ever. In this respect, Electrolux is already ahead of the game. With its new generation of kitchen collection, cooking becomes your new entertainment.

Make cooking a blast with your Microwave

The capabilities of microwave ovens have undergone many evolutions over the years. Where they once only had a power dial, today's microwave can come with grilling and convection cooking functions, increased power settings and ever more intelligent cooking programmes for different types of food. In other words, it's fully capable of preparing proper meals for the family.

16.590.000 VND

Spacious, quality cooking with free-standing cookers

So your built-in cooking unit has served you well since you moved in five, ten or even fifteen years ago. It’s helped you whip up countless delicious meals you and your family have loved.

Then, one day, the burner stops working. Deciding that it’s time for a new cooker, you take off for the shops only to find a limited range of built-in units that would fill the space left behind and the ones that do lack the features you would prefer to have.

If only you had used a freestanding cooker.

- Some tips on acquiring a freestanding cooker:
- **Size Matters** – Freestanding cookers come in three standard widths: 50cm, 55cm and 60cm. Always check that the space in your kitchen can accommodate the cooker.
 - **Insulate contact surfaces** – If possible, install heat resistant materials near the freestanding cooker. The wall behind it should be fireproofed.
 - **Better safe than sorry** – Do not put the cooker on a platform but find a way to secure the cooker to the wall behind, such as using a fitting chain.
 - **Buy safe** – Purchase your cooker from a reputable dealer who can provide accurate information on features such as voltages and electric capacity.

Shine in the kitchen with sumptuous meals and the freshest foods

The Electrolux range of fridges keeps your foods fresh and tasting like they were bought on the day even days after you got them. These fridges feature separate temperature controls that let you choose the ideal average temperature in both the fridge and freezer compartments, maintaining foods at the peak of their freshness.

REFRIGERATOR

The FreshLogic deodorises filter flavours and absorbs odours inside the refrigerator, ensuring your fridge smells clean and fresh at all times. So now, you can get basic ingredients like vegetables, fruits, meats and various condiments weekly and store them away with confidence, knowing that your foods will still taste as fresh and fabulous when prepared later on.

DISHWASHER

Protects your family's health

Nothing is more important than your family's health. And nothing gives your family cleaner, safer dishes and cutlery than an Electrolux dishwasher. Electrolux dishwashers ensure that your dishes and cutlery are cleaner and safer. The fact is that with hand washing, dishes only look clean, but harmful germs and bacteria are often left behind. That's why improperly cleaned dishes are a frequent cause of food poisoning and gastric infections. With an Electrolux dishwasher, you have peace of mind, knowing your dishes will come out perfectly sanitised, so they are truly clean.

Cook better with Electrolux small appliances

It's a sunny morning. It's a perfect cup of coffee. It's a hug from someone you care about. It's just catching the train before it leaves the station. It's bumping in to an old friend. It's cooking for someone you love. It's the small things in life...

Electrolux Small Appliances will make your life better a little at the time.

 - Capacity: 1.4 liter pulp container
 - 700ml Juice Jug
 - Dishwasher safe
 - 3 rotational control settings

2.550.000 VND

With safety the number one concern among Asian consumers, the new Electrolux steam-iron range was developed to be one of the safest in the market. It's the first iron designed by Electrolux and features high-performance and intuitive ergonomics.

A sleekly-designed iron that features automatic shutdown after eight minutes in the upright position and 30 seconds in the horizontal position.

It has a 360° cable that provides flexibility and durability preventing the steam-iron from falling over while in use.

Its power grip handle provides more stability than an average iron and features a rubber support that prevents sliding while the steam-iron is upright. In addition, the handle doesn't get hot from the steam-iron's heat.

It also has an anti-drip system that prevents water leakage and an anti-calc system that prevents the steam holes from being blocked.

IRON

EDI100

- DRY IRON**
- Colour: Grey
 - Power: 1000 W
 - Wire length: 1,7 m
 - Temperature control knob
 - Non-stick soleplate
