

Features:

- Modulates up to 3 separate devices
- Digital PLL tuned (limits channel drift)
- Multiple TV distribution
- Switch Type channel select
- Full channel memory for power outages
- Surface mount technology PC boards
- UHF channels 14 to 83
- Cable channels 65 to 94 and 100 to 139
- Shipped with 110 V power supply
- LED power indicator
- Easy Installation

Technical Specifications:

Output Channel: TV Mode - Ch 14 to Ch 83/CATV Mode - Ch 65 to Ch 139

Output Level: 80 dB V Double Side Band

Audio Frequency Stability: +/-10 KHz

Video Frequency Stability: +/-10KHz

Audio Input Impedance: 10K ohm

Video Input Impedance: 75 ohm

RF Output Impedance: 75 ohm

Audio Output: Mono

Power Required: DC 15V 200mA

*NOTE 1: DBS external ports are 54-860 MHz.
