*Casite offers over 200 quality filters specifically designed for your automotive filtration needs at a price you can appreciate.*

**KEEPS OIL CLEANER**

Casite oil filters contain a special filtering element that traps and holds dirt, while proven resistant to heat, water and acid attack.

**AIR FILTERS PERFORM**

Casite air filters are designed to keep air clean — a quality which is vital to engine survival and performance

**FULL PROTECTION**

Casite air and oil filter have the ability to go the distance — keeping your engine safe from harmful contaminants.

# CASITE NEW PRODUCTS

## AIR FILTERS

Casite Number	Description	Replaces	Applications
<b>CFA412</b>	Panel Air Element	BMW 13721730946; Hastings AF412	1992-2007 BMW
<b>CFA972</b>	Panel Air Element	Nissan 16546-30P00; Hastings AF972	1990-on Nissan Automotive
<b>CFA1273</b>	Panel Air Element	Ford 4R3Z-9601-AA; Motorcraft FA1773; Hastings AF1273	2005-on Ford Mustang, Except GT
<b>CFA1296</b>	Panel Air Element	Ford 6E5Z-9601-EA; Motorcraft FA1785; Hastings AF1296	2006-on Ford Fusion, 2009-on Mazda6, 2006-09 Mercury Milan
<b>CFA1309</b>	Air Element	Toyota 17801-0C040; Hastings AF1309	2005-on Tacoma Light-Duty Truck
<b>CFA1313</b>	Panel Air Element	Hyundai 28113-3K010; Hastings AF1313	2006-on Hyundai Sonata with 4-143 (2.4L) Engine
<b>CFA1338</b>	Panel Air Element	Chrysler 4891926AA; Hastings AF1338	2007-on Chrysler Sebring, 2007 Cirrus, 2008-on Dodge Avenger, all with 4-144 (2.4L) Engine
<b>CFA1344</b>	Panel Air Element	Honda 17220-R70-A00; Hastings AF1344	2009-on Acura TL; 2008-on Honda Accord
<b>CFA1362</b>	Panel Air Element	Hyundai 28113-2H000; Hastings AF1362	2007-on Hyundai Elantra; 2010-on Kia Forte, Forte Koup
<b>CFA1363</b>	Panel Air Element	Hyundai 28113-2B000; Hastings AF1363	2007-09 Hyundai Santa Fe
<b>CFA1379</b>	Panel Air Element	Nissan 16546-ED000; Hastings AF1379	2007-on Nissan Versa, 2009-on Cube
<b>CFA1380</b>	Panel Air Element	Honda 17220-RZA-000; Hastings AF1380	2007-09 Honda CR-V
<b>CFA1410</b>	Panel Air Element	Nissan 16546-JK20A; Hastings AF1410	2007-08 Infiniti G35, 2008-on EX35, G37; 2008-09 Nissan 350Z, 2009-on 370Z
<b>CFA1434</b>	Panel Air Element	Kia 28113-2P100; Hastings AF1434	2010 Hyundai Santa Fe, 2011 Sonata, Kia Sorento

## LUBE FILTERS

Casite Number	Description	Replaces	Applications
<b>CF547</b>	Lube Spin-on	Subaru SOA51-65109; Hastings LF547	2006-07 Subaru B9 Tribeca, 2008-on Legacy, 2001-on Outback, 2001-04 Outback Sport all with V6 3.0L Engine
<b>CF655</b>	Lube Spin-on	Ford 1S7Z-6731-DA, BE8Z-6731-AB; Motorcraft EFL910, FL910, FL910S; Hastings LF655	2013 Ford C-Max, 2009-11 Crown Victoria, 2010 Ecosport, 2012-13 Edge, 2005-13 Escape, 2011-13 Explorer, Fiesta, 2005-13 Focus, 2006-08, 2010-13 Fusion, 2004-07 Fusion, 2006-11 Ranger, 2013 Taurus, 2010 Transit Connect; 2005-11 Mercury Mariner, 2006-11 Milan; 2011-13 Lincoln MKZ; 2011 Mazda Tribute

## VEHICLE IDENTIFICATION NUMBER (VIN) DECODING

Originally, Vehicle Identification Numbers (VIN) were designated to identify a vehicle, but there was no standardization. Beginning in 1981, vehicles were assigned an International VIN code consisting of 17 characters (which cannot include the letter I, O or Q) unique to each vehicle.

The VIN serves a variety of purposes. As well as providing identification in licensing and insuring the vehicle, the history of the vehicle can be tracked. VIN codes provide complete vehicle information including:

- is the vehicle defective (lemon car)
- has the vehicle been totaled or had major accident damage
- has the vehicle had flood damage
- has the vehicle had odometer fraud
- has the vehicle been stolen

To help decode the VIN, the following information has been provided:

- **1st - 3rd Characters**  
Identify the manufacturer (country), make and type of vehicle.
- **4th - 8th Characters**  
Identify the different aspects of the vehicle.

For each type of vehicle (passenger cars, multi-passenger vehicles (MPVs), trucks, buses, trailers, motorcycles, incomplete vehicles other than trailers) different information is required.

For cars, MPVs and light-duty trucks:

- 4th - 5th positions** are alphabetic
- 6th - 7th positions** are numeric
- 8th position** can be either alphabetic or numeric

- **9th Character (or Check Digit)**  
Is determined by a complicated formula.

Each character is assigned a numerical value and then multiplied by the value assigned to its position. These values are added and then divided by 11. The remainder is the Check Digit. This character can be numeric or the letter X.

- **10th Character**  
Identifies the vehicle model year.

- **11th Character**  
Identifies the plant of manufacture.

- **12th - 17th Characters**  
Consists of a sequential production number for manufacturers producing more than 500 vehicles per year.

### VIN NUMBER ORIGIN AND YEAR

1ST CHARACTER - COUNTRY OF ORIGIN			10TH CHARACTER - YEAR			
1 U.S.A.	K Korea	Yugoslavia	A 1980	K 1989	W 1998	7 2007
2 Canada	L China or	W Germany	B 1981	L 1990	X 1999	8 2008
3 Mexico	Taiwan	Y Sweden or	C 1982	M 1991	Y 2000	9 2009
4 U.S.A.	M Thailand	Finland	D 1983	N 1992	1 2001	A 2010
5 U.S.A.	S Great Britain	Z Italy	E 1984	P 1993	2 2002	B 2011
J Japan	V France or		F 1985	R 1994	3 2003	C 2012
			G 1986	S 1995	4 2004	D 2013
			H 1987	T 1996	5 2005	E 2014
			J 1988	V 1997	6 2006	

VIN plates are read through the windshield on the driver's side of most vehicles. A manufacturer may use a variation of the same size engine in one model. To insure that you are using the correct filters for the application, it is necessary to identify the proper engine code. The following examples illustrate the location of the engine code in most manufacturer's VIN codes.

## DOMESTIC VEHICLE IDENTIFICATION NUMBER (VIN)

### AM GENERAL/HUMMER

#### 1995-2010

ENGINE CODE  
(Fourth Character)

### 1980-ON AUTOMOTIVE SECTION

#### Alphabetically by Make

All automobiles, light-duty trucks and vans are listed in this section alphabetically by make.

#### By Year

Within each make, all automobiles, light-duty trucks and vans are listed in year sequence from the latest to the earliest year shown.

#### Alphabetically by Model Name

Within each year, all models are arranged alphabetically. If the model begins with a number, it will be listed numerically before the alphabetically listed models.

#### By Engine Size

Under each model, the engines are listed according to size, from the smallest to the largest. Sometimes, more than one variation of the same size engine is listed under one model. These engines are sorted by VIN code.

### MOTORCYCLE SECTION

#### Alphabetically by Make

All motorcycles are listed in this section alphabetically by make.

### CASITE NUMBERS IN BOLD

Under each application, Casite numbers appear in bold type while Hastings numbers appear in regular type.

### IMPORTANT NOTICE

All product applications and specifications in this catalog are based upon the most authoritative information available at the time of publication. However, there are many filter options offered by equipment manufacturers during a given model year making it impossible to be absolutely certain that all equipment of the same make, model and year will use the same filter. For this reason, we cannot be responsible for misapplications.

Original equipment manufacturer's tradenames or trademarks are for identification purposes only. There is no affiliation, sponsorship or connection with the original equipment parts or manufacturer.

### SECCIÓN AUTOMOTRIZ DE 1980 EN ADELANTE

#### Alfabéticamente por marca

Todos los automóviles, las camionetas, vagonetas, etc., en esta sección están anotados alfabéticamente por marca.

#### Por Año

Dentro de cada marca, todos los automóviles, las camionetas, vagonetas, furgonetas etc., están en lista secuencial por año, empezando con el más reciente.

#### Alfabéticamente, por nombre del modelo

Dentro de cada año, todos los modelos están ordenados alfabéticamente. Si el modelo comienza por un número, se listará numéricamente antes que los modelos listados alfabéticamente.

#### De acuerdo a la cilindrada

Para cada modelo, los motores están anotados de acuerdo a las cilindradas, del más pequeño al más grande. A veces se incluye más de un tamaño con variantes para el mismo modelo. Estos motores están ordenados de acuerdo a su código VIN.

### SECCIÓN MOTOCICLETAS

#### Alfabéticamente por marca

Todos las motocicletas en esta sección están en lista alfabética por marca.

### NUMEROS DE CASITE EN NEGRO

Bajo cada aplicación, los numeros de Casite aparecen en letra negra mientras los numeros de Hastings aparecen en letra clara.

### NOTA IMPORTANTE

Todas las aplicaciones y especificaciones en los catálogos Baldwin están basadas en los informes más fidedignos obtenibles a la fecha de la publicación. Sin embargo, existen muchas opciones para seleccionar diferentes filtros para cualquier modelo de cualquier año, haciendo imposible que todo el equipo de una misma marca y de un mismo año y modelo utilicen el mismo filtro. Por esta razón, no podemos hacernos responsables de selecciones erróneas o aplicaciones mal hechas.

Los nombres comerciales o marcas registradas de los fabricantes de equipos se dan solamente para propósito de identificación. No existe ninguna afiliación, patrocinio o conexión con el fabricante o pieza de equipo original.

# NOTES

## English

This Cross-Reference section contains original equipment and competitive manufacturers' filter numbers arranged by MANUFACTURER.

### HOW TO USE THE MANUFACTURERS' CROSS-REFERENCE:

**FIRST**, find the manufacturer desired. These are listed alphabetically.

**SECOND**, find the desired number. Beginning zeroes, dashes, slashes, decimals, etc., are ignored in sorting. Numbers are sorted ahead of letters. (Fractions are sorted as whole numbers. For example, 1/4 is written as 1/4 and sorted as 14.)

**THIRD**, Casite numbers are listed in bold face.

### MEANING OF SYMBOL USED IN THIS SECTION

#### **Boxed H = Housing**

The boxed H represents a base or a housing. If Casite has no exact replacement, the filter used is shown rather than another base or housing number.

### IMPORTANT NOTICE

All cross-references in this catalog are based on the latest authoritative information available at press time. However, equipment manufacturers often change component suppliers without notice while continuing to use the same filter number. This change could result in a non-critical dimension becoming critical. Other filter manufacturers may use one filter to replace two of ours. Thus, when crossing from a non-original equipment filter number, a problem could develop. If a filter doesn't seal when installed, it should not be used. We cannot be responsible for misapplications.

Original equipment manufacturer's tradenames or trademarks are for identification purposes only. There is no affiliation, sponsorship or connection with the original equipment parts or manufacturer.

## ARRANGEMENT OF . . .

**MANUFACTURERS'  
CROSS-  
REFERENCE**

**Arranged  
Alphabetically  
by Manufacturer**

# DISPOSICIÓN DE . . .

## REFERENCIAS EQUIVALENTES DEL FABRICANTE

Organizado  
alfabéticamente  
por fabricante

### Spanish / Español

La sección de referencias equivalentes de este catálogo contiene el equipo original y los números de filtro de fabricantes de la competencia preparados por FABRICANTE.

#### CÓMO UTILIZAR LA REFERENCIA EQUIVALENTE DEL FABRICANTE

**PRIMERO, encuentre el fabricante de filtros que desee.** Los encontrará listados por orden alfabético.

**SEGUNDO, encuentre el número deseado.** Los ceros a la izquierda, guiones, barras, decimales, etc. se ignoran en la clasificación. Los números se clasifican antes que las letras. (Las fracciones se clasifican como números enteros. Por ejemplo, 1/4 se escribe como 14 y se clasifica como 14.)

**TERCERO, los números de Casite se listan en negro.**

#### SIGNIFICADO DE LOS SÍMBOLOS USADOS EN ESTA SECCIÓN

**H encuadrada = Envuelta**

La H encuadrada representa una base o una envuelta. Si Casite no tiene una pieza de reemplazo exacta, se muestra el filtro utilizado en vez del número de otra base o envuelta.

#### NOTA IMPORTANTE

Todas las referencias cruzadas en este catálogo están basadas en la información más reciente disponible en el momento de la publicación. Sin embargo, los fabricantes de equipos a menudo cambian de proveedores de componentes sin previo aviso y continúan usando el mismo número de filtro. Este cambio podría dar por resultado la conversión de una dimensión no crítica en una crítica. Otros fabricantes de filtros a veces usan un filtro para sustituir a dos de los nuestros. Por lo tanto, cuando se estén haciendo averiguaciones a partir de un número de filtro de equipo no original, podrían surgir problemas. Si un filtro no cierra después de instalado, no deberá usarse. No podemos responsabilizarnos por aplicaciones incorrectas.

Los nombres comerciales o marcas registradas de los fabricantes de equipos se dan solamente para propósito de identificación. No existe ninguna afiliación, patrocinio o conexión con el fabricante o pieza de equipo original.

## DISPOSAL OF USED OIL FILTERS

The Resource Conservation and Recovery Act (RCRA) provides that generators of waste materials are to determine whether those wastes are hazardous. This determination may be made in one of two ways: either the waste is specifically listed as hazardous, or the generator must make the determination.

Used filters, like most other wastes, have never been listed as hazardous waste. Therefore, generators of used filters have been required to test these wastes using the Toxic Characteristics Leaching Procedure (TCLP) to determine if the waste should be classified as hazardous for purposes of handling and disposal. On May 20, 1992, the EPA made further ruling on the regulations regarding disposal of used oil filters. Effective with this ruling, all used oil filters manufactured with non-terne plated material, which have been gravity hot drained, no longer must be tested prior to disposal. (It should be noted that at this time this easing of regulations only applies to oil filters, not other wastes or other filters.)

There are various methods of gravity hot draining filters including (1) puncturing the filter's anti-drainback valve or the dome end of the filter and hot draining, (2) hot draining and crushing, and (3) dismantling and hot draining. In addition, any other equivalent hot draining method may be used. "Hot drained" means that the oil filter is drained at or near the engine operating temperature and above room temperature (i.e. 60°F).

The length of time for draining is not specified, although testing has demonstrated that draining for

12 hours is sufficient to remove excess used oil. At the very least, in order to enjoy this exemption from testing, no used oil should immediately leak or drip from a used filter.

It is noteworthy that used filters which are recycled are exempt from RCRA. Recycling takes care of wet filters (fuel, hydraulic, coolant) which are currently not exempt.

Hastings understands the difficulties faced by users and disposers of oil filters. The Filter Manufacturers Council (FMC), of which Hastings is a member, agreed to eliminate the use of terne plated material in filters by December 31, 1992. Hastings further adopted a policy to eliminate terne plated material from production by October 1, 1992, a goal which has been reached. The FMC is currently working with the EPA to gain exemption for other types of wet filters.

An online database for promoting the proper management of used vehicular filters is now available at [www.filtercouncil.org](http://www.filtercouncil.org). The website is sponsored by the Filter Manufacturers Council.

Filter users will be able to access the database to obtain a summary of state disposal regulations and a list of companies providing used filter transportation, processing and recycling services in a particular state. The database will also include regulatory information for the Canadian provinces as it becomes available.

## English

### **ALPHA-NUMERICALLY**

All products are arranged in alpha-numerical order.

### **MEASUREMENTS ARE TIP-TO-TIP**

We use overall measurements unless stated otherwise. Some catalogs show size of element only. We show overall size including gaskets and other protrusions that extend the farthest. You can then make sure there is sufficient clearance when this is a critical factor. Measurements are shown in inches and millimeters.

### **IMPORTANT NOTICE**

All specifications in this catalog are based on the latest authoritative information available at press time. However, changes are made by equipment manufacturers without notice which necessitates changes in our product. Keep your stock rotated so that you always use your oldest stock first. If a filter does not seal when installed, it should not be used. We cannot be responsible for misapplications.

Original equipment manufacturer's tradenames or trademarks are for identification purposes only. There is no affiliation, sponsorship or connection with the original equipment parts or manufacturer.

#### EN ORDEN ALFANUMÉRICO

Todos los productos están dispuestos en orden alfanumérico.

#### MEDIDAS DE PUNTA A PUNTA

Utilizamos dimensiones totales salvo indicación contraria. Algunos catálogos muestran el tamaño del elemento solamente. Nosotros mostramos el tamaño total incluyendo los empaques y otras protuberancias que sobresalgan más. De esa manera se tiene la seguridad de que hay espacio suficiente cuando éste es un factor crítico. Las medidas se muestran en pulgadas y en milímetros.

#### NOTA IMPORTANTE

Todas las especificaciones en este catálogo están basadas en la información más reciente disponible en el momento de la publicación. Sin embargo, los fabricantes de equipos a menudo hacen modificaciones a sus equipos sin previo aviso, lo que se traduce en cambios en nuestro producto. Rotar continuamente el stock de manera que siempre se use la mercancía más antigua primero. Si un filtro no cierra bien después de instalado, no usarlo. No podemos responsabilizarnos por aplicaciones incorrectas.

Los nombres comerciales o marcas registradas de los fabricantes de equipos se dan solamente para propósito de identificación. No existe ninguna afiliación, patrocinio o conexión con el fabricante o pieza de equipo original.

**CF1A**

**Full-Flow Lube Spin-on**

**Contains:** Anti-Drainback Valve  
8 PSID By-Pass Valve  
**Fits:** Chrysler, Dodge, Ford, Mercury, Jeep, Lincoln, Mazda, Merkur, Plymouth, Toyota Automotive, Light-Duty Trucks; International Light-Duty Trucks  
**Replaces:** Ford B7A-6714-A; Motorcraft FL1A; Hastings LF115  
**Thread:** 0.75-16

Panel Air Element

**Fits:** 2007-09 Acura MDX; 2005-09 Honda Odyssey  
**Replaces:** Honda 17220-RGL-A00, 17220-RGL-A10; Hastings AF1323  
**Length:** 11.81 (300.0)  
**Width:** 6.88 (174.6)  
**Height:** 1.59 (40.5)  
**A. Gskt.:** [1] Attached

**CFA1344**

Panel Air Element

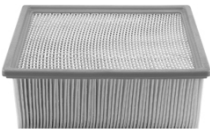

**Fits:** 2009-on Acura TL; 2008-on Honda Accord  
**Replaces:** Honda 17220-R70-A00; Hastings AF1344  
**Length:** 10.31 (261.9)  
**Width:** 8.09 (205.6)  
**Height:** 1.75 (44.5)  
**A. Gskt.:** [1] Attached

**CFA1326**

Panel Air Element

**Fits:** 2007-on Dodge Light-Duty Trucks; 2008-09 Sterling Bullet all with 6-408 (6.7L) FI Turbo Diesel Engine  
**Replaces:** Chrysler 53034051AB; Hastings AF1326  
**Length:** 10.94 (277.8)  
**Width:** 9.91 (251.6)  
**Height:** 4.38 (111.1)

**CFA1347**

Panel Air Element

**Fits:** 2008-on Honda Accord  
**Replaces:** Honda 17220-R40-A00; Hastings AF1347  
**Length:** 10.56 (268.3)  
**Width:** 5.00 (127.0) to 8.66 (219.9)  
**Height:** 2.03 (51.6)  
**A. Gskt.:** [1] Attached

**CFA1329**

Panel Air Element

**Fits:** 2006-on Honda Civic with 4-1799cc (1.8L) FI or Natural Gas Engines  
**Replaces:** Honda 17220-RNA-A00; Hastings AF1329  
**Length:** 8.94 (227.0)  
**Width:** 7.75 (196.9)  
**Height:** 1.75 (44.5)  
**A. Gskt.:** [1] Attached

**CFA1360**

Panel Air Element

**Fits:** 2007-on Nissan Altima, Altima Hybrid  
**Replaces:** Nissan 16546-JA00A, 16546-JA00B; Hastings AF1360  
**Length:** 12.34 (313.5)  
**Width:** 5.22 (132.6)  
**Height:** 2.25 (57.2)

**CFA1331**

Panel Air Element

**Fits:** 2008-on Ford Taurus, 2008-09 Taurus X, Mercury Sable, 2007-on Ford Edge, Lincoln MKX, MKZ, Mazda CX-9; 2009-on Lincoln MKS, 2010-on MKT  
**Replaces:** Ford 7T4Z-9601-A; Motorcraft FA1884; Hastings AF1331  
**Length:** 11.97 (304.0)  
**Width:** 6.69 (169.9)  
**Height:** 1.75 (44.5)

**CFA1362**

Panel Air Element

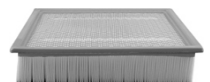

**Fits:** 2007-on Hyundai Elantra; 2010-on Kia Forte, Forte Koup  
**Replaces:** Hyundai 28113-2H000; Hastings AF1362  
**Length:** 7.75 (196.9)  
**Width:** 7.41 (188.1)  
**Height:** 1.94 (49.2)  
**A. Gskt.:** [1] Attached

**CFA1333**

Panel Air Element

**Fits:** 2007-on Ford Expedition, 2008-on Super Duty Trucks, Lincoln Navigator  
**Replaces:** Ford 7C3Z-9601-A; Motorcraft FA1883; Hastings AF1333  
**Length:** 10.47 (265.9)  
**Width:** 9.91 (251.6)  
**Height:** 2.63 (66.7)

**CFA1363**

Panel Air Element

**Fits:** 2007-09 Hyundai Santa Fe  
**Replaces:** Hyundai 28113-2B000; Hastings AF1363  
**Length:** 10.56 (268.3)  
**Width:** 6.88 (174.6)  
**Height:** 2.38 (60.3)  
**A. Gskt.:** [1] Attached

**Product  
Guide**

**CFA1377**

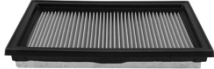

**Panel Air Element**

**Fits:** 2008-on Buick Enclave; 2007-on Chevrolet Traverse; 2007-on GMC Acadia, Saturn Outlook  
**Replaces:** GMC 15278634; ACDelco A3083C; Hastings AF1377  
**Length:** 5.50 (139.7) to 13.75 (349.3)  
**Width:** 2.25 (57.2) to 11.75 (298.5)  
**Height:** 1.72 (43.7)  
**A. Gskt.:** [1] Attached

**CFA1379**

**Panel Air Element**

**Fits:** 2007-on Nissan Versa, 2009-on Cube  
**Replaces:** Nissan 16546-ED000; Hastings AF1379  
**Length:** 9.06 (230.2)  
**Width:** 5.31 (134.9)  
**Height:** 1.34 (34.1)  
**A. Gskt.:** [1] Attached

**CFA1380**

**Panel Air Element**

**Fits:** 2007-09 Honda CR-V  
**Replaces:** Honda 17220-RZA-000; Hastings AF1380  
**Length:** 10.53 (267.5)  
**Width:** 2.63 (66.7) to 6.72 (170.7)  
**Height:** 1.94 (49.2)  
**A. Gskt.:** [1] Attached

**CFA1410**

**Panel Air Element**

**Fits:** 2007-08 Infiniti G35, 2008-on EX35, G37; 2008-09 Nissan 350Z, 2009-on 370Z  
**Replaces:** Nissan 16546-JK20A; Hastings AF1410  
**Length:** 7.13 (181.0)  
**Width:** 6.63 (168.3)  
**Height:** 1.31 (33.3)

**CFA1434**

**Panel Air Element**

**Fits:** 2010 Hyundai Santa Fe, 2011 Sonata, Kia Sorento  
**Replaces:** Kia 28113-2P100; Mahle LX2957; Hastings AF1434  
**Length:** 10.91 (277.0)

# TECHNICAL SERVICE BULLETINS

## Filter Manufacturers Council

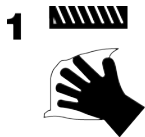

Many excellent Technical Service Bulletins have been published by the Filter Manufacturers Council. These bulletins provide a wide variety of technical information related to filter use and servicing. Copies of these Technical Service Bulletins are available on the internet at [www.hastingsfilter.com](http://www.hastingsfilter.com) or by contacting the Hastings Filters Marketing Communications Department. Also Available in French and Spanish.

# SPIN-ON FILTER INSTALLATION INSTRUCTIONS

An increasing number of motorists today are performing oil and filter changes on their cars. However, present installation instructions vary from manufacturer to manufacturer, and may be confusing to the installer.

These instructions may be used in changing any spin-on oil filter.

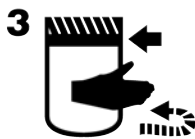

1. **Clean base.**

Unscrew and remove old filter. Be sure old gasket is removed with filter. Wipe filter mounting base with clean cloth.

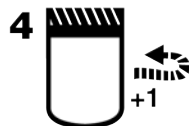

2. **Apply clean oil to gasket.**

Apply thin film of clean motor oil to new filter gasket. Do not use grease.

3. **Spin-on to gasket contact.**

Line up threads carefully to avoid cross-threading. Spin new filter on until gasket contacts base.

4. **Tighten additional turns.**

Tighten filter the required number of turns beyond gasket contact. Important - Follow instructions of filter manufacturer (usually found on filter) for final tightening. This example shows to tighten filter 1 turn past gasket contact. This may be different for other filters.

5. **No leaks.**

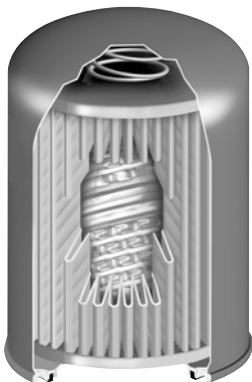

Be sure oil shows full on dipstick. Start engine and check for leaks. Correct source of any leaks observed. Shut off engine. Re-check oil level. Add oil if necessary.

6. **Inspect for dents.**

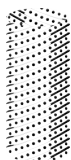

Important - Do not use filter if it is dented.

# SPIN-ON FILTER CONSTRUCTION

*Not all filters have the same parts inside, but this page shows components of a typical spin-on (starting on the inside and working out).*

## CENTERTUBE

Spiral wound, louvered centertube forms the center of most non-air filters. The filtering media is placed around this centertube. On larger filters, a reinforcement or centering guide is sometimes added.

## PLEATED FILTERING MEDIA

Used in most “surface type” filters where contaminants are trapped on the surface. The greater the surface, the greater the capacity.

Hastings uses more than sixty different media, depending on the application.

## ELEMENT END CAPS

Closed End

Open End

End caps (of metal, plastisol or paper) are bonded to the filtering media to prevent unfiltered liquid from by-passing (going around instead of through) the media. Some elements are constructed with two open ends. Others have one open and one closed end.

## COMPRESSION SPRING

Holds element in place to make sure the element seal remains intact.

## BY-PASS VALVE

All full-flow lube systems require a by-pass (relief) valve to permit oil to flow to the bearings even when cold oil is too thick to flow through the filter. The valve also opens when the filter becomes plugged. If not located in the engine system, there must be a by-pass valve in the filter. (It can be both places, providing the one in the spin-on opens at the same or higher pressure than the one in the system.)

## ANTI-DRAINBACK VALVE

The position of the installed filter determines the need for this valve in a filter. This keeps the oil from draining from a filter when the engine is shut off. (If the filter hangs downward from the base, or “dome end down,” this valve is not needed, but would cause no problems if included.)

## BASEPLATE AND SEAMING COVER ASSEMBLY

The baseplate is attached to the seaming cover and the seaming cover is attached to the can. Be sure the gasket on the baseplate seals with the mounting surface when you install a spin-on filter.

## SPIN-ON FILTER CAN

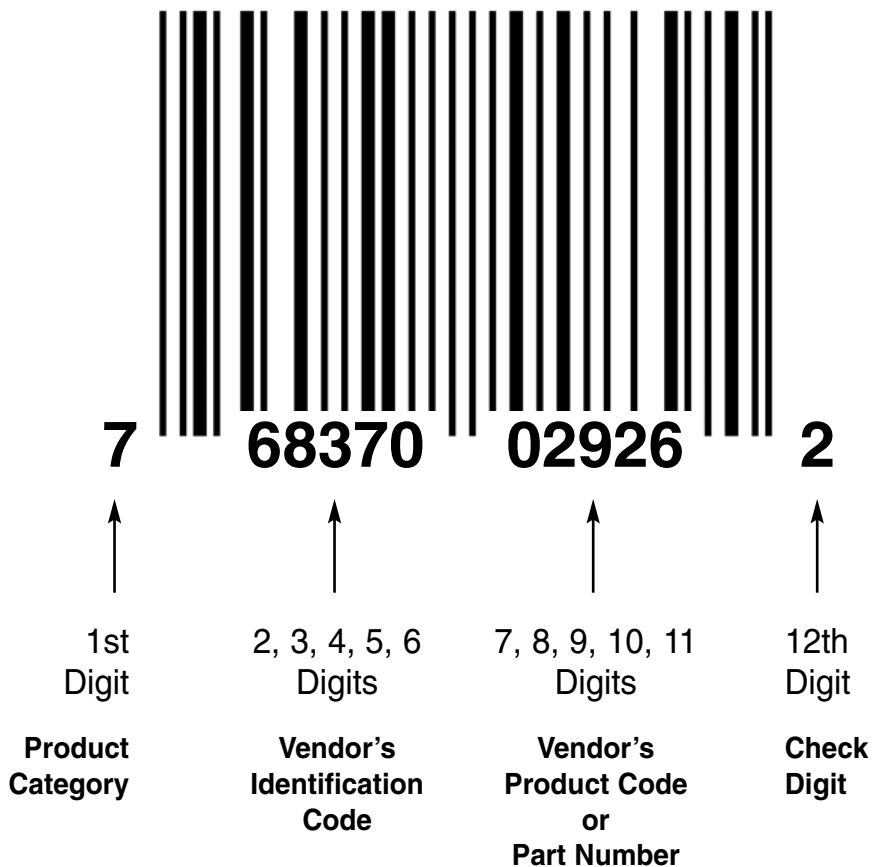

You change spin-on filters quickly because there is no housing to clean. The entire unit is changed each time.

# UPC CODE EXPLANATION

Casite uses the “A” version of the UPC code. This is a twelve digit numeric bar code symbol, which utilizes a series of narrow and wide parallel bars and spaces to represent numeric characters in a machine readable format.

The first digit of the bar code identifies the product category. The second, third, fourth, fifth and sixth digits are the vendor’s identification code assigned by the UPC council. The seventh, eighth, ninth, tenth and eleventh digits are the vendor’s product code numbers which are assigned by the vendor. The twelfth digit is a check digit which confirms that the code has been accurately read.

# CASITE FILTERS DATE CODING METHODS

You will find several different date coding methods used on Casite products and packaging. Please look for one of these coding methods whenever you are trying to find the date of manufacture for a Casite product.

■ **Six (6) Digit Numeric Code - e.g. 010313**

Introduced November 8, 2002 (Replaces (3) Digit Numeric Code)

1st Two Digits	- 01 -	indicate month (January)
2nd Two Digits	- 03 -	indicate day of month (3rd)
Last Two Digits	- 13 -	indicate year (2013)

■ **Eleven (11) Digit Numeric Code - e.g. 08291314301**

Introduced November 8, 2002 (Replaces (10) Digit Numeric Code)

1st Two Digits	- 08 -	indicate month (August)
2nd Two Digits	- 29 -	indicate day of month (29th)
5th and 6th Digits	- 13 -	indicate year (2013)
Next 4 Digits	- 1430 -	indicate time of day (Military) (2:30 p.m.)
Last Digit	- 1 -	indicates filter line

## Date Coding Methods Used Prior to 2003

■ **Three (3) Digit Numeric Code - e.g. 082**

1st Two Digits	- 08 -	indicate month (August)
Last Digit	- 2 -	indicates year (2002)

■ **Ten (10) Digit Numeric Code - e.g. 0829214303**

1st Two Digits	- 08 -	indicate month (August)
2nd Two Digits	- 29 -	indicate day of month (29th)
5th Digit	- 2 -	indicates year (2002)
Next 4 Digits	- 1430 -	indicate time of day (Military) (2:30 p.m.)
Last Digit	- 3 -	for internal control purposes

■ **Numeric Digits and Diamonds - e.g. 234 ◆◆◆◆**

1st Digit	- 2 -	indicates last digit of the year (2002)
Diamonds	- ◆◆◆◆ -	indicate month (August) Number of diamonds subtracted from 13 equals the month (13 - 5 = 8 = August)

## A WORD ABOUT WARRANTIES

Heavy-duty equipment manufacturers and dealers like to sell their brand of filter. But, the law does not permit them to require you to use their brand in order to keep the warranty in effect. Casite filters meet or exceed manufacturers' requirements and specifications. If engine damage is caused by our filter, our warranty applies regardless of whether your equipment is still under the manufacturer's warranty.

If a filter is suspected of causing a failure, don't throw away the evidence. Instead, in order to process a warranty claim, follow the Product Investigation Procedure . . .

1. Complete a Field Report Form (F350). Describe the events on a separate sheet.

2. Obtain a sample of oil, fuel or coolant in the system at the time of the failure.
3. Save damaged parts for evidence of the claimed damage.
4. For an air filter, cover the open ends with tape to prevent dust from entering the element during shipping.
5. Send copies of any repair bills.
6. Send the entire suspect filter, including the gaskets. Do not cut open the filter or tamper with it in any way. Package the filter carefully to prevent damage to packaging or paperwork.

## MÉTODOS DE CODIFICACIÓN DE LA FECHA EN LOS FILTROS CASITE

En los productos y envases de Casite se encontrarán varios métodos distintos de codificación de la fecha. Rogamos buscar uno de estos métodos de codificación cuando se desee encontrar la fecha de fabricación de un producto Casite.

### ■ Código numérico de seis (6) dígitos - por ej., 010313

Presentado el 8 de noviembre de 2002 (reemplaza al código numérico de tres (3) dígitos)

Primeros dos dígitos	- 01 -	indican el mes (enero)
Segundos dos dígitos	- 03 -	indican el día del mes (tercer)
Últimos dos dígitos	- 13 -	indican el año (2013)

### ■ Código numérico de once (11) dígitos - por ej., 08291314301

Presentado el 8 de noviembre de 2002 (reemplaza al código numérico de diez (10) dígitos)

Primeros dos dígitos	- 08 -	indican el mes (agosto)
Segundos dos dígitos	- 29 -	indican el día del mes (29)
Quinto y sexto dígito	- 13 -	indican el año (2013)
Siguientes 4 dígitos	- 1430 -	indican la hora del día (militar) (2:30 p.m.)
Último dígito	- 1 -	indica la línea de filtro

## Métodos de codificación de fecha utilizados antes de 2003

### ■ Código numérico de tres (3) dígitos - por ej., 082

Primeros dos dígitos	- 08 -	indican el mes (agosto)
Último dígito	- 2 -	indica el año (2002)

### ■ Código numérico de 10 dígitos - por ej., 0829214303

Primeros dos dígitos	- 08 -	indican el mes (agosto)
Segundos dos dígitos	- 29 -	indican el día del mes (29)
Quinto dígito	- 2 -	indica el año (2002)
Próximos 4 dígitos	- 1430 -	indican la hora del día (militar) (2:30 pm)
Último dígito	- 3 -	para propósitos de control interno

### ■ Dígitos numéricos y rombos - por ej., 234 ◆◆◆◆

Primer dígito	- 2 -	indica el último dígito del año (2002)
Rombos	- ◆◆◆◆ -	indican el mes (agosto) 13 menos el número de rombos es igual al mes (13 - 5 = 8 = Agosto)

## UNA PALABRA ACERCA DE LAS GARANTÍAS

Los fabricantes y concesionarios de equipos para servicio pesado prefieren vender su marca de filtro. Pero, por ley no les está permitido a exigir el uso de su marca para mantener vigente la garantía. Los filtros Casite cumplen o exceden los requerimientos y las especificaciones de los fabricantes. Si el motor se llegara a dañar por culpa de nuestro filtro, nuestra garantía es la que es válida indiferente a si el equipo todavía está cubierto por la garantía del fabricante.

Si se sospecha que un filtro es el causante de la avería, no tire a la basura la evidencia. En vez, para poder tramitar el reclamo de garantía, siga el procedimiento de investigación del producto...

1. Llene un formulario de informe de campo (F350). Describa los eventos en una hoja aparte.
2. Saque una muestra del aceite, combustible o

refrigerante del sistema al momento de ocurrir la avería.

3. Guarde las piezas dañadas como evidencia del daño reclamado.
4. Para un filtro de aire, tape los extremos abiertos con cinta adhesiva con el fin de evitar la entrada de polvo al elemento durante el transporte.
5. Envíe copias de cualquier factura de reparación.
6. Envíe el filtro sospechoso completo, incluidas las juntas. No abra el filtro ni lo estorbe de manera alguna. Empaquete el filtro cuidadosamente para impedir que se dañe el empaquetado o los documentos.

# HASTINGS FILTER WARRANTY

## HASTINGS WARRANTY (English)

Hastings Premium Filters ("Hastings") warrants that each new product manufactured by Hastings will be made free of defects in workmanship and material. Hastings will replace any product found to be defective when you return it to Hastings or to your Hastings distributor where you purchased the product.

### Return Process

You should first contact your salesperson at Hastings or at your Hastings distributor if you purchased a product that you believe does not meet the warranty stated above. The salesperson will help you complete the necessary paperwork, and will also help you return the suspected defective product to Hastings for analysis.

### Warranty Fulfillment

If Hastings finds that a returned product does not meet the warranty stated above, Hastings will promptly replace the defective product. If the defective product directly caused damage to the machine on which it was installed, Hastings will promptly reimburse the machine owner for that portion of the repair costs that were necessary to restore the machine to its condition immediately prior to the damage caused by the defective product.

### Conditions

Hastings's warranty fulfillment obligations above do not apply if: a) the product is not returned to Hastings for analysis, b) Hastings finds that the product was not defective, c) the product was improperly installed or used, d) the product was reused or not replaced inside a normal service interval, or e) the product is tampered with or damaged in a manner that may inhibit Hastings' ability to conduct a warranty investigation.

**The above warranty and warranty fulfillment obligations are exclusive and in lieu of all other warranties or related remedies. Hastings is not liable for indirect, incidental, punitive or consequential damages arising in any way from the products it manufactures or sells.**

\*\*\*\*\*

## GARANTÍA DE HASTINGS (Spanish / Español)

Hastings Premium Filters ("Hastings") garantiza que cada producto nuevo fabricado por Hastings estará libre de defectos de mano de obra y materiales. Hastings reemplazará todo producto defectuoso cuando lo devuelva a Hastings o al distribuidor de Hastings donde lo compró.

### Proceso de devolución

Primero debe contactar a su asociado de ventas en Hastings o a su distribuidor de Hastings si compró un producto que cree que no cumple con la garantía indicada arriba. El asociado de ventas le ayudará a completar la documentación necesaria y a devolver el producto sospechoso a Hastings para su análisis.

### Cumplimiento de la garantía

Si Hastings determina que un producto devuelto no cumple con la garantía indicada arriba, reemplazará inmediatamente el producto defectuoso. Si el producto defectuoso causó daños directos a la máquina en la cual se instaló, Hastings reembolsará con prontitud al propietario de la máquina por la parte de los costos de reparación que fueron necesarios para restaurar la máquina a su condición inmediatamente anterior al daño causado por el producto defectuoso.

### Condiciones

Las obligaciones de cumplimiento de la garantía de Hastings no corresponden si: a) el producto no es devuelto a Hastings para su análisis, b) Hastings determina que el producto no estaba defectuoso, c) el producto se había instalado o utilizado en forma inapropiada, d) el producto se reutilizó o no se reemplazó en el intervalo de servicio normal o e) el producto se manipuló o se dañó en una forma que no permite que Hastings realice una investigación de garantía.

**La garantía y las obligaciones de cumplimiento de garantía son exclusivas y en lugar de toda otra garantía o recursos asociados. Hastings no es responsable de ningún daño indirecto, incidental, punitivo o consiguiente que se derive de alguna forma de los productos que fabrica o vende.**

# VEHICLE MANUFACTURERS' WARRANTIES

Consumer purchasers of automotive filters are sometimes told by an automobile dealer's service writer or mechanic that a brand of replacement filter cannot be used in the consumer's vehicle during the warranty period. The claim is made that use of the brand will "void the warranty", with the statement or implication that only the original equipment brand of filters may be used. This, of course, tends to cast doubt on the quality of the replacement filter.

That claim is simply not true. If the consumer asks for the statement in writing, he will not receive it. Nevertheless, the consumer may feel uneasy about using replacement filters that are not original equipment. With the large number of do-it-yourselfers who prefer to install their own filters, this misleading claim should be corrected.

Under the Magnuson-Moss Warranty Act, 15 U.S.C. SS 2301-2312 (1982), and general principles of the Federal Trade Commission Act, a manufacturer may not require the use of any brand of filter (or any other article) unless the manufacturer provides the item free of charge under the terms of the warranty.

So if the consumer is told that only the original equipment filter will not void the warranty, he should request that the OE filter be supplied free of charge. If he is charged for the filter, the manufacturer will be violating the Magnuson-Moss Warranty Act or other applicable law.

By providing this information to consumers, the FMC can help to combat the erroneous claim that a brand of replacement filter other than original equipment will "void the warranty".

It should be noted that the Magnuson-Moss Warranty Act is a federal law that applies to consumer products. The Federal Trade Commission has authority to enforce the Magnuson-Moss Warranty Act, including obtaining injunctions and orders containing affirmative relief. In addition, a consumer can bring suit under the Magnuson-Moss Warranty Act.

*Reprinted with permission of Filter Manufacturers Council*

Specifications in this catalog for Hastings products are based on original equipment manufacturers' specifications. Hastings Premium Filters does not manufacture filters for aircraft. Modified engines for automobile racing and marine racing cannot be referenced by applications in this catalog.

Hastings Premium Filters cannot assume any liability for product applications on any vehicle imported into the United States through channels other than authorized dealer networks.
