BUILDING COMMUNICATIONS

Fermax is a company with Spanish origin specialized in designing, manufacturing and commercializing audio and video door entry systems, with its Headquarters based in Valencia, Spain.

Founded by Mr. Fernando Maestre in 1949, Fermax has always encouraged creativity and enterprising spirit to develop the most innovative advance communications system solutions for the building.

Fermax, throughout its 65 year history, has known how to develop its cutting-edge products, while keeping the essence of its corporate identity unchanged. The values of specialization and a family business, along with a passion for technology and design, have guided the firm to its prominent positioning among the world's most important brands.

With a decisive customer focus, the team is proud to transmit the Fermax values in the 15 countries where the company has its own subsidiaries or representative offices, as well as in the rest of the 70 countries where Fermax products are sold through a well-established network of distributors.

Today, the company continues to work towards facing future challenges, creating new communication lines and making the video entry system the technological heart of the home. The inclusion in our portfolio of new lines of business such as fully digital video entry systems, home automation or energy-efficient solutions enables the company to supply the most complete range of products to meet the specific needs both of professional client and end-users. And always under the firm commitment to being an excellent company in the sector, setting the highest quality standards for both products and processes.

Participation in benchmark projects worldwide is the main guarantee of success for Fermax over the years. They make up our past and present, and will continue to be our paradigm in the future.

FERMAX UK Ltd

FERMAX was established in the UK in the early 80's, becoming one of the first audio & video door entry companies in the country, recognized for the quality of its products.

In 1997, after years of great success in the UK, FERMAX decided to open a subsidiary office based in Essex. FERMAX UK Ltd then took over the distribution of Fermax products, and in the following 18 years, has become one of the leading brands in the UK door entry market.

DUOX by **FERMAX**
SMART SYSTEM

DUOX

Changes everything

DUOX IS THE FIRST FULL DIGITAL AUDIO AND VIDEO DOOR ENTRY SMART SYSTEM
IN 2-WIRE NON POLARIZED TECHNOLOGY.

IT IS THE WORLD'S MOST TECHNOLOGICALLY ADVANCED SYSTEM AND EXCEEDS ALL
EXPECTATIONS. **BECAUSE IT MAKES THE DIFFICULT EASY.**

It is a technological revolution destined to change our notions of audio and video door entry systems. Because it provides better performance and capacities, greater simplification and speed. But above all, because it takes us to a new dimension, where information (audio, video, data) becomes digital material which is transported using just two non-polarized wires.

With DUOX something more than a new video entry system reaches homes. With DUOX today, we are installing THE FUTURE.

VIVO™

by **FERMAX**

For LYNX, the most cutting-edge TCP/IP technology system, FERMAX has created **VIVO**, the video entry monitor with capacitive touchscreen that becomes the **technological interface of the home**. VIVO manages the communication, security and comfort of the world's most prestigious residential complexes.

AN EXCLUSIVE SPACE

PERFECTLY INTEGRATED TECHNOLOGY

Always connected to VIVO. From any tablet or mobile device, VIVO allows to control the apartment door from any place in the world.

By incorporating a LYNX router in the installation, **calls received at the door entry panel can be diverted to mobile devices**, where the user can view the visitor's picture, set up communication with them and, if desired, open the door.

IP VIVO Monitor

Installation for this application is stand-alone, without affecting any other apartments in the building. Once installed, the VIVO monitor works normally, so the call can be answered directly... If there is anybody at home.

If no one is at home, the visitor doesn't know, as the call is diverted to the resident's mobile device anywhere in the world. All they will need is a 3G or Wi-Fi connection to receive it.

VIVO with call diverter through the FERMAX LYNXed APP. Free App. Available in Apple Store, Play Store and Windows Store.

FERMAX Way kit

Choose among **20 different melodies**, customize the monitor's settings, **record videos and capture images** of your visits and all of this in **a single Kit!**

PLUG&PLAY. The monitor and the door entry panel are already programmed and ready for installation!

THE OUTDOOR PANEL. The Way kit includes a video door entry panel made of zamak metal with high sensitivity colour CCD camera as standard. **Surface installation.**

THE MONITOR. A digital 7" TFT colour monitor with capacitive touch screen that facilitates an intuitive use. 3 shortcut buttons for a quick access without using the screen.

*Kits for 1 & 2 residences
Technology: 2 wires non-polarized*

Do it your **Way**

Intercom

Establish communication with other installed monitor inside the house.
In the 2 apartments kit the option to call to another apartment is available as well.

Playback

After 3 seconds the monitor automatically records a video (in case there is a micro SD Card installed) or a picture (in case there isn't) of the visitors. While answering, you also have the option to manually take a snapshot of your visit. The recorded videos/pictures from the outdoor panel will be played on the screen.

Capacity:
118 pictures
(without micro
SD Card) or
audio&video
record up to
32G (with micro
SD Card).

Settings

Brightness, contrast, selection of melodies, date & time, scene mode (brightly, soft and user), ring volume for day time and night time, language selection (16 different), etc.

do not disturb

Take your time to relax.
Activate the Do not Disturb in
1 HOUR, 8 HOURS or ALWAYS.

call record

All the calls from panel-to-monitor, monitor-to-monitor and between monitors will be recorded and can be reviewed afterwards.

Call record 01/08

↓ ▶	06-23	15:22	Neighbour
↓ ▶	06-18	20:54	Outdoor Panel
↓ ▶	06-12	21:43	Neighbour
↓ ▶	05-29	13:16	Inner call
↓ ▶	06-18	21:43	Outdoor Panel

Touch screen

Digital TFT colour monitor with capacitive touch screen that facilitates an intuitive use.
3 shortcut buttons for a quick access without using the screen.

dominium

FERMAX home management

HOME MANAGEMENT INTEGRATED IN YOUR VIDEO DOOR ENTRY SYSTEM

DOMINIUM is the line FERMAX has created to furnish the market with a robust and flexible **home automation system** designed specifically for residential surroundings. Able to adjust to the simplest needs of a small apartment or the complex specifications of a large villa. Able to grow and change to continue to meet the needs of the user. And, of course, with the option of controlling the system from the video door entry system.

The **iLOFT DOMINIUM** monitor is available in HOME PACKS format ready for inclusion in any VDS installation. Three models for different needs:

- Security and well-being at home.
- Monitoring of electrical consumption.
- All energy consumption under control.

FERMAX IN YOUR HANDS

OUR WEB

In Fermax we want to make it really easy to find the solution that each customer is looking for at any time, from any device and any place.

www.fermax.co.uk has two very different environments: a corporate website and another professional area, supporting both end users and professionals.

As a professional, in this section you will find specific and useful technical information, whether you are an installer, distributor, architect or developer interior decorator or builder:

- Technical specifications, installation configuration and management software.
- Catalogues, brochures and product photographs.
- Guides, manuals, courses and technical presentations.

And if you can't find what you're looking for, you can use our powerful search engine, which provides wide-ranging and structured information in response to the product or service sought.

DUOX WEB

www.duoxbyfermax.com is the Fermax website for end users, who can set up a communication channel where we present the advantages of DUOX as full-digital video door entry technology.

With DUOX, it is the user who decides which equipment or solution best suits their needs and from the web we will gradually incorporate all the new features, applications and products we place at your disposal, as well as for professionals. With DUOX, we leave the door open to the future.

Fermax for Real

NEW APP
WITH AUGMENTED REALITY

NEWSLETTERS

Fermax regularly publishes two circulars with all the latest company news:

Fermax Global News: Corporate newsletter with the latest technological developments, the best products, and the world's most prestigious installations or interesting marketing ideas.

Tech Channel: For true professionals with a purely technical profile, where you will discover the latest developments in the world of technology for video door entry systems.

FERMAX FOR REAL

FERMAX FOR REAL is the new free app from Fermax for mobile devices, so you can check how our products would look in your customer's home or your own office. Interact with them as though they were already installed. Thanks to its built-in Augmented Reality technology, everything is possible. Fermax for Real is a great tool in the sales process, as it minimizes the customary hesitation and indecision that crop up in owner communities. Because with this application and via a tablet or mobile you have all the Fermax solutions within your reach. You will have the most complete information on each product and be able to integrate a virtual image into a real one and then take a picture of the final result and save it or attach it along with the budget estimates, speeding up the decision-making process.

Available in:
Apple Store, Play Store and Windows Store.

- 4800. Power supply 12Vac/1,5A. DIN4.
- 4812. Power supply 18Vdc/1,5A (2 units).

NOTE: The kits don't include monitors. Required monitors must be requested separately to complete the installation depending on the number of apartments.

HOME AUTOMATION PACKS FOR BUILDING

COMFORT AND ENERGY EFFICIENCY

In apartments with **VDS digital video entry installation**, the home's functions can be expanded with Home Automation packs, including a high-performance iLOFT DOMINIUM monitor with touchscreen and iconic menu. The monitor easily manages functions such as security, air conditioning or energy efficiency. The iLOFT DOMINIUM monitors included in the packs have **built-in Wi-Fi connectivity**, so users can control the home automation features from mobile devices (Android and iOS). These packs do not include an outdoor panel. For installation in residences, please ask for the VDS panel and power supply. Packs can be expanded with additional elements to handle other functions such as raising and lowering blinds, lighting control, etc.

COMFORT PACK. Security and well-being at home.

- 3.5" colour monitor with function control touchscreen.
- Presence and water leak detector with outputs for electro valve control and sirens.
- Telephone alerts and remote control by talking menus.
- Temperature probe for air conditioning control.
- Remote control of the facility by phone.

9845 iLOFT COMFORT HOME PACK

- 5641. iLOFT DOMINIUM surface monitor.
- 9865. Flood sensor.
- 9867. Infrared movement sensor.
- 9854. Detection central with notices.
- 9890. BUSing NTC temperature sensor.
- 9855. BUSing-FERMAX gateway.

ENERGY EFFICIENCY HOME PACK. Monitoring of electrical consumption.

- 3.5" colour monitor with touchscreen for functions control.
- General home electricity consumption metering.
- Instant consumption reading and archive consumption statistics.

9847 iLOFT EFFICIENCY HOME PACK

- 5641. iLOFT DOMINIUM surface monitor.
- 9869. Power meter 1C.
- 9855. BUSing-FERMAX gateway.
- 4813. Power supply 100-240VAC/12VDC-2A. DIN6.

ENERGY EFFICIENCY HOME PACK PLUS. All energy consumption under control

- 3.5" colour monitor with touchscreen for functions control.
- 3-channel home electricity consumption metering (general + 2 channels).
- Inputs to gauge water and gas consumption by pulse output meter.
- Instant consumption reading and archive water, gas and electricity usage statistics.
- Temperature probe for air conditioning control.

9846 iLOFT EFFICIENCY PLUS HOME PACK

- 5641. iLOFT DOMINIUM surface monitor.
- 9868. BUSing temperature sensor.
- 9850. 2 inputs and outputs digital module.
- 9853. Power meter 3C.
- 9852. 3 inputs module adaptor.
- 9855. BUSing-Fermax gateway.
- 4813. Power supply 100-240VAC/12VDC-2A. DIN6.

Stainless Steel Panel

4860 1/W 4+N CITY AUDIO KIT

4845. 1/W 4+N CITY panel and flush box (ref.8948).
Panel S1: 130x128.
Kit flush box: 115x114x45.
3393. 4+N LOFT BASIC telephone.
4800. Power supply 12Vac/1,5A-DIN4.

4862 2/W 4+N CITY AUDIO KIT

Same as in ref.4860 but with 2 LOFT BASIC 4+N telephones (ref.3393) and 2/W 4+N CITY KIT panel (ref.4846).

5431 1/W 4+N MARINE AUDIO KIT

54331. 1/W 4+N AUDIO MARINE panel and flush box.
(Flush box included ref.4641)
Panel ST1: 150x180. Flush box ST1: 130x160x55.
3391. VDS LOFT EXTRA telephone.
4810. Power supply 18Vdc/1,5A-12Vac/1,5A. DIN 10.

EXTENSIONS

Without extra power supply.

3 LOFT telephones (Basic: ref.3393 - Extra: ref.3394). For more than 4 telephones, 1 power supply ref.4812 and 1 call multiplier (ref.2340) are required.

2nd Audio access

4845. 1/W audio panel and flush box.
5433. 1/W Marine audio panel.
8819. 1/W Automatic Switcher

ACCESSORIES

8851. Kit flush box S1: 115x114x45.
7061. Surface box S1: 130x128x33.
9191. Decorative frame S1: 211x210.
8400. Hood S1: 135x130.
3380. Telephone decorative frame. 200x240.

Dimensions: (width) x (height) x (depth) mm.

4+N Basic installation

PANELS

FERMAX

SKYLINE PANEL. MARINE PANEL

VERSATILITY. MODULAR COMPOSITION

SKYLINE is the perfect door entry panel for contemporary installations that requires multiple integration systems: information, communication and access control.

It's versatility makes it the only panel capable to respond to any requirements which may arise in any residential, industrial or service sector project.

It's modular design and versatility provide TOTAL CREATIVE FREEDOM to create any imaginable combination.

FERMAX guarantees the immediate supply of SKYLINE products (except stock breaks or fault of the company).

COMBINES

It consists of different modules: 8 frames of different dimensions, audio-video modules, push buttons modules, digital modules, access control readers, information modules and other accessories.

ENHANCES

SKYLINE modules include the most cutting-edge technologies and functionalities, such as the [OneToOne module](#) or the [fingerprint reader module](#).

The modules are smart system linked, facilitating their repair and maintenance, as well as the subsequent inclusion of more cutting-edge equipment or new modules.

RESISTS

SKYLINE manufacturing materials – anodized aluminium profile, chromed zamak push buttons and reinforcements, polycarbonate in transparent elements, stainless steel inner grids, etc - are chosen for their beauty and maximum resistance to bad weather conditions.

PROJECT

SKYLINE consists of 8 different-sized frames where different modules can easily be fitted. Modules come in 2 sizes, designated **V** and **W** (**W is twice the size of V**).

The audio and video modules are available in all FERMAX technologies. Once technology has been selected, the use of these modules with the appropriate frames, allows to set up the panel necessary for any installation.

ACCESSORIES

Metallic complement W

Metallic complement V

Keypad W

Fingerprint W

Proximity V

Bluetooth V

Module Assembly sequence.

COMBINATIONS

The combination of frames and modules depend on the number of apartments at the building and the accessories needed.

There are two module sizes: **V** and **W** (**W** is twice the size of **V**).

V = 105,2x47,5mm

W = 105,2x95mm

Frames are designated according to their V module inclusion capacity.

ASSEMBLY

The module-frame clip-on assembly system is very simple and effective.

The modules fit perfectly into the profile.
Watertight tapes prevent water and dirt to get in.

Once the panel is assembled, the different modules are connected to each other.

The final result is a compact and robust equipment set, just like a monoblock panel (IP43 IK7).

The push buttons contacts and digital keypad are watertight, assuring their operation and reliability.
Proven in laboratory trials to be able to resist 100,000 pressings in 48 hours.

Dimensions: (width) x (height) mm.

SKYLINE PANEL

TECHNICAL FEATURES

VDS VIDEO PANEL WITH PUSH BUTTONS

Zamak injected profile tops.

Sliding logo. Concealed screw bolt fixes panel to flush box.

Compact audio and video module. Frontal module in aluminium and inner stainless steel grid.

Extruded aluminium curved-convex. Anodized finish.

Zamak injected call button with chromed finish.

Polycarbonate card slot. Frontal card slot access. Outdoor resistant labels.

Concealed screw bolt fixes panel to flush box.

High power and performance **2W amplifier**. Elliptical loudspeaker.

CCD COLOUR camera and optical of 3,7mm. Lighting for night vision by LEDs.

Permanent card slot lighting by **low consumption LEDs**.

High sensitivity **electret microphone**.

REAR VIEW

Electronic circuit manufactured in SMD.

VDS connections:

- +,- Power supply 18Vdc.
- L Data
- V,M Video
- NC, NO, C Potential free relay contact.
- Door opening programmable timing.
- , BS Push button to active lock from indoors.

Operating test connector:

audio, video and monitors programming.

Smart connection between modules. Extension call modules are not required.

Voice synthesizer as standard (32 languages). "The door is open. Please, close the door behind you".

Adjust of conversation volume control from monitor, outdoor panel and synthesizer message.

PAN&TILT of camera to adjust $\pm 10^\circ$.

Push button with watertight contacts. IP 66.

Able to resist 100.000 pressings in 48 hours.

Laterally folding hinges.

SKYLINE PANEL

SKYLINE AND CITYLINE ACCESSORIES

FLUSH BOX

Made in aluminium and zamak, with folding hinges.

SURFACE BOX

For those cases where a hole in the wall cannot be made for the flush mounted box.

HOOD

To protect the outdoor panel when due to its location it may be affected by external agents such as rain, snow, etc.

ANGULAR COMPLEMENT

Necessary when the panel must be fitted in a point hard to access, for example behind a gate.

MODULAR DECORATIVE FRAME

In replacement applications, allows to cover up the hole left by the old panel. It is also an aesthetic element. Modular assembly.

Included in modular decorative frame

DIGITAL MODULES

The **DISPLAY** module makes it possible to search through the list of residents and their allocated door codes (telephone book type). It indicates the communication status. The keys <▶> allow to browse through the menu. Press  to call the apartment after keying the door number on the keypad.

7449 DUOX/VDS DIGITAL DISPLAY W

7451 MDS DIGITAL DISPLAY W

1623 LYNX/AC+ DISPLAY W

ref.7449/7451

ref.1623

The **KEYPAD** module allows to call the homes by keying the allocated door code. It also acts as an access control system, activating the door release when a given code is entered (depending on the technology).

7447 DUOX/VDS/MDS DIGITAL KEYPAD W

7439 DUOX/VDS/MDS DIRECT KEYPAD W

7457 LYNX DIRECT KEYPAD W

7460 MDS DIGITIZER V

ref.7439

ref.7447

Necessary in MDS-CITY and MDS DIRECT panel combinations. OneToOne functions included.

INFORMATION MODULES AND ACCESSORIES

7448 ONE-TO-ONE MODULE V 

Device that informs on door entry operation using illuminated pictograms: calling, in call, door open or busy channel. Facilitates use for people with hearing difficulties.

ref.7448

7445 CARDHOLDER W

7444 CARDHOLDER V

Informative cardholder with lighting to personalize the building, indicate the address or use as a residents and door codes directory needed in codified digital panels.

ref.7445

ref.7444

7443 METALLIC COMPLEMENT W

7442 METALLIC COMPLEMENT V

Made in the same material as the aluminium panels. Allows to cover gaps in the panel for future module installations.

ref.7443

ref.7442

ACCESS CONTROL MODULES

For more information, see "Access Control" section.

7438 MEMOKEY W

Backlit stand-alone keypad with signal LEDs. Activates the door release when a code up to 6 digits is entered. Admits 100 different codes that can activate 1 or 2 relays. Power supply 12Vac/Vdc.

ref.7438

7453 MDS/AC+ KEYPAD W

For centralized systems with MDS Central Unit ref.2405 or ACPlus ref.4410.

7457 LYNX/AC+ SKYLINE DIRECT KEYPAD W

For access control combinations: keypad with proximity.

7441 BLUETOOTH READER V

Allows to activate the electric lock remotely by means of a **mobile phone** with built-in bluetooth wireless connection technology.

Can store up to 40 authorized telephones in stand-alone mode.

The door opens automatically when detected, by key confirmation or entering a PIN code as a security mechanism.

The **telephone Bluetooth must be activated** in order to receive the opening and administration commands as well as to send the corresponding configuration commands.

ref.7441

The following SKYLINE access control modules can be set up in stand-alone, centralized mode (MDS central unit ref.2405) or ACPlus (Central Unit ref.4410). The number of users in centralized mode depends on the central unit. (See Access Control section).

6936 FINGERPRINT READER W

Indoor/outdoor. Maximum capacity of 4.500 user (stand-alone). Includes an informative display and signalation leds. Includes a built-in proximity reader to boost security and a remote infrared keypad for programming. 12Vdc/Vac.

ref.6936

7440 PROXIMITY READER V

Door opens when a proximity card is shown. Only authorized cards will activate the device. No physical contact is necessary. Capacity: Up to 400 cards (stand-alone).

VANDAL-PROOF MADE IN STAINLESS STEEL

Marine is a range of vandal-proof door-entry panels made of 2.5 mm-thick stainless steel. Straight lines that highlight the quality of the steel. Cutting-edge technology and resistance to even the most harshest of environments.

FEATURES

- The vandal-proof **CALL BUTTONS** are made of stainless steel and are able to resist high impacts.
- The panel is attached to the flush box by means of vandal-proof **SAFETY SCREWS** made of stainless steel, which can only be removed using the torx key supplied.
- The **FLUSH-MOUNTED BOX** is galvanized metal and is attached to the wall by means of self-expanding screws and plugs, to avoid warping.
- The SMD (Surface Mounting Device) **AMPLIFIER**, which has been subjected to a process of tropicalisation, is designed to withstand the most adverse weather conditions. Incorporates voice synthesis: a message is emitted when the lock-release is activated: "Door open, please close the door behind you".
- The **CAMERA**, equipped with lighting for low-light conditions, has a PAN&TILT adjustment system to move the camera $\pm 10^\circ$ in any direction. Incorporates a 3.6 mm wide angle lens.

1. PANELS WITH PUSH BUTTONS

Select the corresponding panel accessories. Flush and surface box must be requested separately. The indicated references include DUOX, VDS or 4+N amplifier and COLOUR camera.

In case of DUOX and VDS amplifiers, extension call modules are required: 8-calls (ref.2008) or 16-calls (ref.2441).

For the combination of 2 Marine panels of the same series, joining bolts (ref.2289) are required between the flush boxes.

IP54 IK09

COLOUR CAMERA as standard.

Includes: illumination for night vision in poor lighting conditions. PAN & TILT system to adjust camera lens (+/-10°).

AMPLIFIER

Amplifier manufactured in SMD and subjected to tropicalization process for weather resistance. Voice synthesizer configurable in 32 languages. Loudspeaker ensures high performance level and sound quality.

DISPLAY

The metallic keys are made in zamak with permanent BACKLIGHTING allowing to see the numbers in poor light conditions. Its robust design and airtight keys guarantee reliability and durability in any atmosphere.

METALLIC KEYPAD

High contrast, enables to view the names of the residents and the codes through a phone book type **DIRECTORY**. The display shows the communication status: calling, busy channel, etc.

The keys <D> allow to browse through the user and programming menu. Once the door code is entered, press <A> to call the house.

VANDAL-PROOF SAFETY BOLTS

That can only be removed with a special key supplied.

2. DIGITAL PANELS

The MARINE DIGITAL panel includes a keypad which calls the apartments by dialling the door number or a corresponding code.

- COLOUR camera as standard.
- A DIRECTORY DISPLAY allows to search for neighbours and their door number.
- Once the code is entered, press the BELL KEY to call.
- The metallic keys are made of zamak. BACKLIGHTING enabling users to see the numbers in poor light conditions.
- Through the keypad it is possible to activate the installation's electric lock. The management of codes/user numbers depend on the type of panel: 350 codes (VDS) and 1,020 codes (MDS with Central Unit ref.2405) .

DIGITAL PANELS

Flush or surface box must be requested separately.

BESPOKE PANELS

FERMAX has a laser-cut machining line for stainless steel panels. This process allows us complete flexibility to make the Marine panel required, with optimum delivery time for the customised panel.

Choose your combination, design your panel in the next page form, and send your order to sales@fermaxuk.com

The following variations may be ordered:

- Panel with special formats and dimensions.
- Integration of fingerprint reader, access control modules and special combinations with amplifier, push buttons and other accessories.
- Logotype laser marking.
- House number and messages integration.
- Push buttons without cardholder and free layout.
- Including backlighting.

Manufacturing process of the Marine Panel in Fermax, Spain

DDA MODULE: In order to comply with current DDA requirements, FERMAX offers bespoke stainless steel panels which will meet your specific requirements.

SSLQ BESPOKE MARINE PANEL

LOCK RELEASE

FERMAX

LOCK RELEASE

FLUSH-MOUNTED. SURFACE. **SPECIALS.** ACCESSORIES

An electric lock-release basically consists of an electrical mechanism and a shield or case, depending of the installation system (flush-mounted or surface).

FLUSH-MOUNTED				
	=		+	
FLUSH-MOUNTED LOCK RELEASE		ELECTRIC MECHANISM		SHIELD

SURFACE				
	=		+	
SURFACE LOCK RELEASE		ELECTRIC MECHANISM		CASE

UNIVERSAL (990)		UNIVERSAL STANDARD (540)		EUROPEAN PROFILE (410)	
					
66		67		67	
16 25,2		20,5 28		16,4 28	
12Vac/dc	250mA/280mA	12Vac	980mA	12Vac	980mA
		12Vdc	260mA	12Vdc	400mA
12Vdc	175mA	12Vdc	200mA		
		24Vdc	180mA		
+ 2 mm		+ 3 mm		+ 1 mm	

OPERATING MODES

NORMAL OPERATION - N

Allows door opening while the lock is powered.

- N 12 Vac activation
- N-412 12 Vdc activation
- N-424 24 Vdc activation

INVERTED OPERATION N-500

Allows door opening while power to the lock release is off.

- N-512 12 Vdc activation
- N-524 24 Vdc activation

AUTOMATIC OPERATION - A

Ab (Sliding automatic) & Aa (Invisible automatic)

Enables door opening with a short electric pulse. The lock release is automatically blocked when the door is closed again.

- A Automatic operation
- A 12 Vac activation
- A-412 12 Vdc activation
- A-424 24 Vdc activation

- Ab Sliding automatic operation
- Lets you slide the automatic function with the MAX latch setting.
- Ab 12 Vac activation
- Ab-412 12 Vdc activation

- Aa Invisible automatic operation
- The automatic pin is suppressed to allow an easier fit to the mechanical lock. A very short electrical pulse is recommended.
- Aa 12 Vac activation
- Aa-412 12 Vdc activation

ADDITIONAL OPERATION

- Unlocking level - D

The lock release with D in its description indicates the addition of a manual release lever which inhibits its function, which inhibits its operation, allowing free access.

- ND Normal operation with release.
- AD Automatic operation with release.

D

CTC

- Built-in microswitch - CTC

Allows monitoring of door status (open/closed). Suitable for security systems. Not available for MAX version.

MAX

- Adjustable latch bolt - MAX

Allows a perfect fit between latch and bolt in the lock, with a 4mm margin. To order a MAX lock release, please **add an 8 to the end of the reference of the compatible lock.**

For more information about door locks, see current "Lock release catalogue".

ELECTRIC LOCK RELEASE

FLUSH-MOUNTED

1. FLUSH-MOUNTED LOCK RELEASE

990 MULTIVOLTAGE UNIVERSAL SERIES

Requires a S short shield (ref.2973) or P22 (ref.2894) or M large shield (ref.2893) or L22 (ref.2892). The TOP version requires S short shield (ref.7770) or YG large type (ref.7771).

MONITORS & TELEPHONES

FERMAX

VIVO MONITOR SMILE MONITOR **ILOFT MONITOR** LOFT MONITOR
ILOFT TELEPHONE **LOFT TELEPHONE** CITYMAX TELEPHONE **UNIVERSAL FRAME**

VIVO MONITOR

Hands-free slim line VIVO monitor with crystal surface.

Featuring a high tech 7-inch capacitive touch screen, the VIVO monitor operation flows naturally, offering a full and extensive range of operating options and multi-task capacities.

VIVO provides comprehensive and effective control over communication, security and comfort, operating with Full-IP technology. Android operative system.
Surface installation.

DIMENSIONS / INSTALLATION

Monitor: 233x164x20.
20mm protrusion from the wall once fixed.

FUNCTIONS

- TFT Colour screen.
- Hands-free communication.
- Calls to and from:
 - Lynx panels.
 - Any Property Management Unit.
 - Any other VIVO monitor inside home.
 - Any other VIVO monitor in the same installation and accepted as a friend.
- Messages: Receives messages from and sends messages to the Property Management Units and other VIVO monitors in the friends list.
- Captures and stores images from any Lynx call panel or IP cameras connected to the system.
- Panic call to the Property Management Units upon the activation of one of its sensors or additional panic push buttons placed in other parts of the home.
- Audio Notes. Records and stores audio messages.
- Do not disturb. Silent calls can be configured for given or unlimited periods of time.
- Timer. VIVO monitor also acts as an alarm for time management purposes.

VIVO

CALL DIVERT TO SMARTPHONE AND TABLETS

By incorporating a LYNX router in the installation, calls received at the door entry panel can be diverted to mobile devices, where the user can view the visitor's picture, set up communication with them and, if desired, open the door.

PERSONALISATION & INTEGRATION

VIVO offers a wide-ranging freedom of choice for users. The monitor allows:

FRIENDS LIST MANAGEMENT

Any call between different units is only possible upon the acceptance of those units in the friends list.

BACKGROUND SETTINGS

VIVO monitor blends with individual decors and surroundings by providing a range of screen background colours.

RING TONE SETTINGS

A wide range of melodies specifically composed for VIVO monitor provide ring tone selections for each user and each situation, delivered with surround sound through the monitor's two high performance speakers.

MENU CONFIGURATION

With a touch of the finger, the on-screen menu layout can be simply re-configured to reflect the habits and preferences of each individual.

PRIVACY AND RESTRICTIONS MANAGEMENT

The user and installer can simply set or remove barriers for data protection.

LYNX enables projects to be customised to address the different needs of unique real estate developments. Whatever the project environment the VIVO monitor can be smoothly integrated.

COMPATIBILITY WITH MULTI-BRAND HOME AUTOMATION SYSTEMS

Each home is unique and so are its requirements for device integration: wired or wireless, open standards or proprietary protocols, simple or complete. The VIVO monitor is the ideal communication gateway as it can integrate with dedicated applications for each specific Home Automation brand.

CCTV CAMERAS

VIVO monitor can display the images from any IP camera connected to the Lynx system making it a window to the world.

LIFT

The LYNX system and VIVO monitor interact with the elevators for the convenience and increased protection of the residents.

SMILE MONITOR

SMILE hands free monitor with 7" or 3.5" TFT COLOUR screen. It is distinguished by its resistant cover with ultraviolet protection, its digital audio quality, its capacitive keypad and its OSD screen menu.

The same monitor **can be installed surface or flush-mounted.**

PERFORMANCE

When a call is received from the video door entry panel, the image comes up automatically. The user will receive additional information regarding the call status on screen: calling, in conversation or door open.

CHOOSE YOUR COLOUR

ABSOLUTE WHITE
(white profile and monochrome push buttons)

SILVER

BLACK

3.5" ABSOLUTE WHITE
(white profile and monochrome push buttons)

DIMENSIONS / INSTALLATION

Surface

20mm protrusion from the wall once fixed.

Flush-mounted

4mm protrusion from the wall once fixed.

FUNCTIONS

- Colour TFT screen, available in 7" and 3.5".
-  Activates/deactivates the communication with the outdoor panel.
-  Door opening.
-  Access to MENU by pressing during 5 sec. A quick keystroke (1 sec.) activates the invisible keypad to access the additional functions.
-  Activates the panel camera manually.
- F1-F2: Activates additional functions: stair light switching, 2nd door opening, etc.
- Call status information is displayed on screen.
- Allows to install a CCTV camera and view the image via the monitor.
- VDS technology.

INTUITIVE OSD MENU

The OSD menu allows to browse through the screen by means of intuitive interpretation of the graphic icons, achieving the maximum performance from the monitor features.

ADDITIONAL KEYPAD

Smile includes an additional keypad which remains invisible until it is activated allowing to program them as direct accesses to the functions you want to establish as "favourite".

LOFT MONITOR

The LOFT monitor is made of high-impact ABS plastic. Textured finish for easy cleaning and ultraviolet protection. It has many attachment points for wall mounting, as well as coiled cord with telephone plug connectors.

A magnet located in the handset allows it to hang safely.

Surface installation.

PERFORMANCE

When a call is received, the image appears automatically on screen. When the handset is picked-up a conversation with the visitor can take place. Push the corresponding button  to open the door. The image disappears after a few seconds, or when the handset is hung.

DIMENSIONS / INSTALLATION

FUNCTIONS

- Available in B/W, COLOUR and with memories.
-  Call to guard and door opener button.
-  Autostart of main camera.
- **F1-F2:** Button to activate additional functions: stair light switching, 2nd door opening, panic call, etc.
- Door bell, for direct connection to house call push button (VDS version).
- Selectable call tones.
- Call volume control: high, medium, disconnected.
- Brightness, contrast and colour control.

LOFT DUOX MONITOR

The LOFT DUOX monitor maintains the same aesthetic as its version in other technologies, but provides other much more advanced features, thanks to its built-in full digital technology. (Check availability).

OSD MENU

The OSD menu lets you browse the screen using intuitively interpreted graphic icons.

The icons displayed on the screen (browser buttons) are handled with the corresponding buttons located on the monitor:

- ✓ Confirm choice and activate function.
- < Select previous menu option.
- > Enter next menu option.
- ✗ Go back to previous screen or standby.

FUNCTIONS

- COLOUR TFT screen.
- Call to guard and door opener button.
- Autostart of main camera. If there is more than one panel, you can choose in which one you want to trigger the camera.
- **F1**: Button to activate 1 additional function: stair light switching, 2nd door opening, panic call, etc.
- **MENU**: Digital menu to configure and adjust the internal parameters:

- Switch off call tone mode. "Do not disturb" function.
- Selection of call melodies and volume.
- **F2**: Activation of a 2nd additional function.
- Brightness/Contrast/Colour adjustment.
- **QR code**: access to www.duoxbyfermax.com that contains manuals, complements, catalogues, etc that Duox technology offers you.

iLOFT VDS MONITOR

Hands-free colour video monitor. Compact and extra slim. Its essential design features a transparent polycarbonate sheet, a singular audio output, multifunction buttons and a TFT screen displaying top quality and clarity.

Flush-mounted installation.

The integrated digital audio technology ensures a high quality hands-free communication without interferences.

PERFORMANCE

When a call is received, the image appears automatically on the monitor. To communicate with the outdoor panel the button  has to be pressed, allowing hands-free conversation.

FUNCTIONS

- COLOUR TFT screen.
-  Activate/deactivate the communication with the door entry panel.
-  Call to guard and door opener button.
-  Autostart of main camera.
- Door bell, for direct connection to house call pushbutton.
- **F1-F2:** Button to activate additional functions: stair light switching, 2nd door opening, panic call, etc.
-  **MENU**  OSD menu for adjustment/regulation of internal parameters.
 - Call volume control: high, medium and disconnected.
 - Ringtone selection.
 - Brightness/Contrast/Colour adjustment.

iLOFT DUOX MONITOR

The iLOFT DUOX monitor keeps the same look as versions in other technologies, but with much more advanced features thanks to the full digital technology incorporated.

Available in flush version (iLOFT DUOX) or surface mounted (iLOFT PURE DUOX).

(Check availability).

OSD MENU

The OSD menu lets you browse the screen using intuitively interpreted graphic icons.

The icons displayed on the screen (browser buttons) are handled with the corresponding buttons located on the monitor:

- ✓ Confirm choice and activate function.
- ◀ Select previous menu option.
- ▶ Enter next menu option.
- ✗ Go back to previous screen or standby.

FUNCTIONS

- COLOUR TFT screen.
- Door opener button and call to guard.
- Autostart of main camera. If there is more than one panel, you can choose in which one you want to trigger the camera.
- **F1:** To activate an additional function: stair light switching, 2nd door, panic call, etc.
- **MENU:** Digital menu to configure and adjust the internal parameters:

- Switch off call tone mode. "Do not disturb" function.
- Selection of call melodies and volume.
- **F2:** Activation of a 2nd additional function.
- Brightness/Contrast/Colour adjustment.
- **QR code:** access to www.duoxbyfermax.com, that contains manuals, complements, catalogues, etc that Duox technology offers you.

iLOFT TELEPHONE

The iLOFT telephone is a compact and extra slim door entry system that works in hands-free communication with the outdoor panel. The integrated digital audio technology ensures a high quality, hands-free communication without interferences.

Surface installation.

PERFORMANCE

When receiving a call, press the button  to establish a hands-free communication with the outdoor panel. Communication will end automatically after 90 sec or when  is pressed again.

DIMENSIONS / INSTALATION

Telephone: 90x146,5x20.

Surface installation.

Dimensions: (width) x (height) x (depth) mm.

FUNCTIONS

-  Button to activate/deactivate the communication with the door entry panel
-  Call to guard and door opener button.
- **F1**: Button to activate additional functions: stair light switching, 2nd door opening, panic call...
- 5 selectable or call tones.
- Sequential control volume.
- "Do not disturb" function: volume off-red led.
- Option change of operation, from hands-free to press-to-talk (PTT).
- VDS technology.
- 3 signaling leds:
 - Blue: calling/in communication.
 - Green: automatic opening function activated.
 - Red: Do not disturb/volume off function.
- Automatic door opening (Doormatic).

LOFT TELEPHONE

Made of high-impact ABS plastic with a texturised finish for easy cleaning and ultraviolet protection. It has many attachment points for wall mounting, as well as coiled cord with telephone plug connectors.

A magnet located in the handset allows to hang it safely.

PERFORMANCE

When a call is received it is possible to establish a conversation with the outdoor panel. Push the corresponding button  to open the door.

DIMENSIONS

85x220x40.

FUNCTIONS AND MODELS

The **EXTRA version** includes the following features:

-  Call to guard and door opener button.
- **F1-F2:** Button to activate additional functions: stair light switching, 2nd door opening, panic call, etc.
- 2 selectable call tones.
- Volume control: high, medium, disconnected.

UNIVERSAL version can replace the majority of standard telephones from other brands, both call buzzer and electronic. Also classic Ferman models.

ACCESSORIES (optional)

3380 DECORATIVE FRAME

An aesthetic complement. Useful in replacement applications or replacing from older equipment. Dimensions: 200x240.

3441 LOFT HANDSET W/INDUCTION LOOP

Adapted for people with auditive disabilities.

3749 DESKTOP SUPPORT

Basic

Universal

CITYMAX TELEPHONE

Made of high-impact ABS plastic with a textured finish for easy cleaning and ultraviolet protection. It has many attachment points for wall mounting, as well as coiled cord with telephone plug connectors.

PERFORMANCE

When a call is received it is possible to establish a conversation with the outdoor panel. Push the corresponding button  to open the door.

DIMENSIONES

80x200x60.

AVAILABLE MODELS

- **BASIC, UNIVERSAL.** The UNIVERSAL version can replace the majority of standard telephones from other brands, both call buzzer and electronic. Also classic Fermax models.
- **PALACE:** includes intercom pushbuttons.
Depending on the model, telephone colour varies:
 - BASIC: white finish.
 - UNIVERSAL AND PALACE: pearl finish.

ACCESSORIES (optional)

2 decorative frames in pearl finish, available for models UNIVERSAL and PALACE, useful in replacement applications or changing older equipment.

2127 DECORATIVE FRAME

ref.3388

ref.3389

Universal frame compatible with FERMAX telephones and monitors. With an extra slim format, it is manufactured in a high resistant ABS plastic with a textured finish.

In replacement works, allows to cover the space left by older equipments. In addition, it keeps the wall protected from the dirt produced by the use of telephones and monitors.

TWO DIFFERENT MODELS

There are two different UNIVERSAL FRAMES to choose depending on the terminal which is going to be installed.

3388 UNIVERSAL FRAME

Allows to assemble:

- CITYMAX, LOFT and iLOFT telephones.
- 3.5" SMILE monitor.

3389 LARGE UNIVERSAL FRAME

Allows to assemble:

- CITYMAX, LOFT and iLOFT telephones.
- 3.5" SMILE monitor.
- 7" SMILE monitor.
- VIVO monitor.

Vivo

VIVO™

by **FERMAX**

In the future, everyone will have a video entry system at home.
You WON'T.

YOU WILL HAVE MUCH MORE

VIVO is the most cutting-edge monitor from FERMAX using IP technology. An evolution in the concept of video entry, through a capacitive touchscreen, enables you to manage the communications, security and comfort of the world's most prestigious residential complexes and homes. A tribute for blending a state of the art technology with an exceptional design, redefining its category to become the home's true technological interface.

www.fermax.co.uk

SYSTEMS

FERMAX

DUOX. VDS. **MDS.** LYNX

COMPOSITION OF A COMPLET DUOX SYSTEM

FEATURES

- **A simplified installation system.** It realises the transmission of the signal (audio, video & data) in a **complete digital way** increasing the equipments capacity using only **2 non polarized wires**.
- **Capacity:** The system enables management of up to 999.999 homes, up to 10 general entrance panels, up to 10 panels by block and 10 panels by sub-blocks, up to 100 interior blocks and up to 100 subblocks.
- **Wiring:** there is no restriction concerning the type of cable.
- **In new construction** it is possible to use equally parallel cable, twisted pair cable, UTP (CAT-5), 4+N or 9/10°.
- **In replacement** works, DUOX works with the existing cable from old installations: 5 wires, 2 wires doorbell or even old 4+N wires.
- **Maximum distance:** up to 130 meters (expandable with regenerators).*
- **No need** for floor **distributors** or panel **switchers**. One line terminal is needed at the start and end of each riser.
- Requires 1 power supply per 20 monitors.
- **Extensions inside the home:** may be extended with up to 2 monitors or 2 phones.
- All panels include **colour camera as standard issue**.
- The **DUOX amplifier** comes with built-in voice synthesizer. When door release is activated, the message is heard: "The door is open. Please, close the door behind you." Configurable in 64 languages.
- The DUOX amplifier has a built-in **voice guided programming** system to facilitate installation configuration and start-up.
- DUOX amplifier does not include PAN&TILT.
- DUOX monitors and handsets must be programmed with the n° of the apartment where they are installed from a panel configured as Master.
- Home-door entry panel.
- **DUOX monitors and handsets can be combined in the same installation**, with no need for additional elements.
- **Phone handsets can be upgraded to monitors** in the home at any time, **without including additional elements**.

* For audio installations, see the "Audio DUOX information" at the "Technical Info" section.

1021 EMERGENCY MODULE 18Vdc

For operation in the event of power cuts. Requires 2 lead acid batteries 12V/2,2A (ref.2070).

ref.1021

3255 DUOX LINE TERMINATION

Necessary at the beginning and the end of every riser for video installations. Only at the end for audio installations.

ref.3255

3253 DUOX VIDEO SHUNT ISOLATOR

3258 DUOX AUDIO SHUNT ISOLATOR

Splits a riser into 2 separate branches, regenerating the signal and isolating each branch against possible breakdowns. Up to 4 modules on 2 levels (16 outputs). Risers can share the power source or have one supply per riser.

Cascade connection up to 2 levels. A higher load (up to 200 terminals per riser) may be connected by adding power supplies and depending on the type of wiring used.

3256 DUOX REGENERATOR

To regenerate the DUOX signal and extend distances and terminal capacity.

3254 DUOX PROGRAMMER

The operational status of any DUOX installation can be programmed and checked quickly and easily.

5. ACCESSORIES

ADDITIONAL FUNCTIONS

29001 TIMMER

Allows to activate a device for a given time (programmable from 0 to 6 minutes or 0 to 60 seconds). The activation can be automatic when a call is received or by means of a specific button on the telephone or monitor.

ref.29001

3257 DUOX RELAY MODULE

An additional function may be triggered from the DUOX handset F1 or F2 buttons, with no extra wiring required. The relay can also be triggered by call or electric lock/door release activation. Allows pairing of 2 relays, one as sender and the other as receiver, for remote switching. It can be installed at any point of the bus.

ref.3257

2013 ADDITIONAL FUNCTION RELAY

Allows to activate electrical devices remotely using an additional button on the telephone or monitor: switch on the stair light, open the garage, open a 2nd door, etc. 12Vdc, 12Vac or 18Vdc. For monitors and Extra Duox telephones.

ref.2013

CALL ACCESSORIES

2040 ELECTRONIC CALL EXTENSION BELL

Equipment that receives the door entry system call tone, allowing to hear it in any place where the call extender is located. It is possible to connect 1 for each monitor or handset.

ref.2040

2438 LIGHT OR BUZZER ACTIVATOR

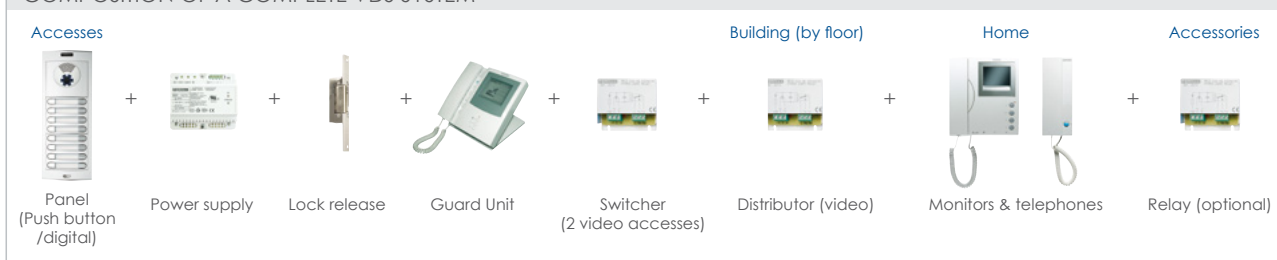

Allows to activate high powered devices or indicators when a call is received: bells, sirens, light bulbs, etc. It is possible to connect 1 for each monitor or handset.

6. CABLES

5925 DUOX PARALLEL CABLE. 2x1mm²

Cables are supplied in 100 metre rolls.

COMPOSITION OF A COMPLETE VDS SYSTEM

FEATURES

- **VDS wiring:** 5 wires, UTP CAT5 or 3 wires+coax.
- **Capacity:** buildings of up to 199 homes, 2 entry accesses and central guard unit.
- **Maximum distance:** 200 mtrs. (See VDS technical info).
- The VDS AMPLIFIER includes **Voice Synthesizer** as standard in 32 languages. A message is reproduced when the lock-release is activated: "The door is open. Please, close the door behind you". Available in 32 languages.
- The **CAMERA is always in COLOUR.**
- The VDS MONITORS & HANDSETS must be programmed with the number of the corresponding home. It is possible to combine monitors and telephones in the same installation.
- The communication is **PRIVATE.**
- In replacement, the VDS allows to change 4+N entry system for a VDS video entry setup, making use of the existing wiring.

VIDEO

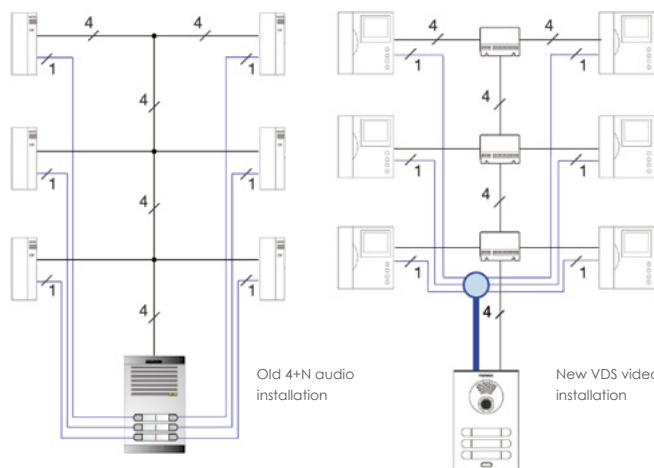

* It's possible to use 3 wires+coax. See specific technical information.

2. POWER SUPPLY/SWITCHER/DECODER

4830 POWER SUPPLY 18Vdc/3,5A

To power the system. One power supply is required for each 40 monitors or each 80 telephones. DIN6 format.

4812 POWER SUPPLY 18Vdc/1,5A

For additional monitors in homes. 1 power supply is required for every 2 additional monitors in the apartment. DIN6 format.

4810 POWER SUPPLY 18VDC/1,5A-12Vac/1,5A

4800 POWER SUPPLY 12Vac/1,5A

To power the electric lock (Vac). DIN4 format.

1021 EMERGENCY MODULE 18Vdc

For operation in the event of power cuts. Requires 2 lead acid batteries 12V/2,2A (ref.2070).

2070 BATTERY 12V/2,2A. LED ACID

2450 VDS VIDEO SWITCHER

For installations with 2 VDS video outdoor panels (w/o guard unit).

3265 VDS TESTER

For programming and checking the workings in a faster, more convenient and efficient way.

COMBINATION WITH OTHER SYSTEMS

2409 VDS/MDS DECODER

For condominiums where a VDS system is combined in apartment internal blocks (I.B.) the condominiums with an MDS system at general entrances (G.E.). 1 decoder is required for each apartment block. At video installation, one distributor (ref.2448) and/or a switcher (ref.2450) is required.

3. LOCK RELEASE

A/C ELECTRIC LOCK (Vac)

A power supply ref.4800 (12Vac/1,5A) or Vac door lock release activator (ref.3264) is required.

30711 LOCK RELEASE 540N-S MAX

Normal functioning and small shield. 12Vac.

6. VDS ACCESSORIES

APPLICATION	USE	NECESSARY EQUIPMENT
 TO OPEN A SECOND DOOR	To open a door other than the one where the panel is from the telephone or monitor (for example, a rear door or a 2 nd security door).	<ul style="list-style-type: none"> Relay (ref.2013). Additional button on the telephone or monitor*. Power supply (ref.4800).
 SWITCHING ON THE STAIR LIGHT	To activate the stair light timer from the telephone or monitor.	<ul style="list-style-type: none"> Additional button on the telephone or monitor*. Relay (ref.2013).
 ACTIVATING A BELL FOR ADDITIONAL LIGHT WHEN A CALL IS RECEIVED	For places with excessive ambient noise or for people with auditive disabilities.	<ul style="list-style-type: none"> Activator (ref.2438).
 ACTIVATING A BELL, LIGHT OR DOOR FOR A CONSIDERABLE LENGTH OF TIME	To activate a device automatically when a call is received or manually by means of an additional button but for a pre-established time.	<ul style="list-style-type: none"> Timer (ref.29001). Additional button on the telephone or monitor if the activation is manual*.
 HEARING THE CALL FROM ANOTHER PLACE THAN THAT WHERE THE TELEPHONE IS	When it is necessary to send the call sound to different parts of the home or business premises.	<ul style="list-style-type: none"> Call extender (ref.2040) for electronic call.
 VIEW FROM A SECOND CAMERA	To view a different place from that seen from the video camera on the door entry panel (rear of the house, etc.).	<ul style="list-style-type: none"> As standard in Smile monitors. Selector-changer (ref.2450) and camera kit for VDS system. Possible to expand up to 8 cameras with the selector ref.2472. 2 additional buttons on the monitor.
OTHER OPTIONS		
 TO RELEASE 2 ELECTRIC LOCKS AT THE SAME TIME	When a security door is installed in front of the main door and both need to be opened at the same time.	<ul style="list-style-type: none"> Relay (ref.2013). Power supply (ref.4800). Automatic lock release (ref.3069).
 TO ACTIVATE A LOCK RELEASE BY MEANS OF AN EXIT BUTTON	To open the door from a different place to where the telephone is. To open a door or security door that does not have a handle from inside the hallway.	<ul style="list-style-type: none"> Does not require any special equipment. <p>For VDS systems, connect the button between the corresponding exit terminals of the outdoor panel amplifier.</p>

*It is necessary to add a wire in all the installation for each additional function.

4545 TELEPHONE INTERFACE

Installed at home and connected to the telephone, it allows the communication with the outdoor panel as well as opening the door remotely from any conventional or wireless telephone at home. It allows as well to forward the call to one or two external land lines or mobile telephones.

ref.4545

ADDITIONAL FUNCTIONS

2013 2A ADDITIONAL RELAY FUNCTIONS

Allows to remotely activate electrical devices using an additional button on the telephone or monitor: switch on the stair light, open the garage, open a 2nd door, etc.

ref.2013

3491 DIN RAIL RELAY 12Vdc/12A

88101 DOUBLE CONTACT RELAY. 18Vdc

29001 TIMER

Allows to activate a device for a given time (programmable from 0 to 6 minutes or 0 to 60 seconds). The activation can be automatic when a call is received or by means of a specific button on the telephone or monitor.

ref.29001

2015 GENERAL CATALOGUE 103

FEATURES

- MDS (Multiplexed Digital System) is a digital audio and video door-entry system that integrates all the services of the apartment block or housing complex:
 - Allows to manage buildings and condominiums of whatever size.
 - **AUDIO AND VIDEO DOOR ENTRY SYSTEM.**
 - **INTERCOMMUNICATION** between accesses, homes, guard units and lifts.
 - **ACCESS MANAGEMENT AND CONTROL** according to authorisations to restricted areas. Each user has an identification code for all accesses.
 - **SECURITY** centralised in the guard unit, for protection of common areas and control of incidents in the homes.
 - **AUTOMATION** of functions and services of the apartment block or condominium (sprinklers, lights, swimming-pool, etc).
- MDS is a system with simplified BUS installation ❶.
- The Central Unit ❷ incorporates all the electronics for management and control of the system.
- The floor MDS decoders and MDS distributors ❸ connect the homes to the installation BUS and act as isolators.
- Home to outdoor panel communication is private.

MDS SYSTEM OPTIONS

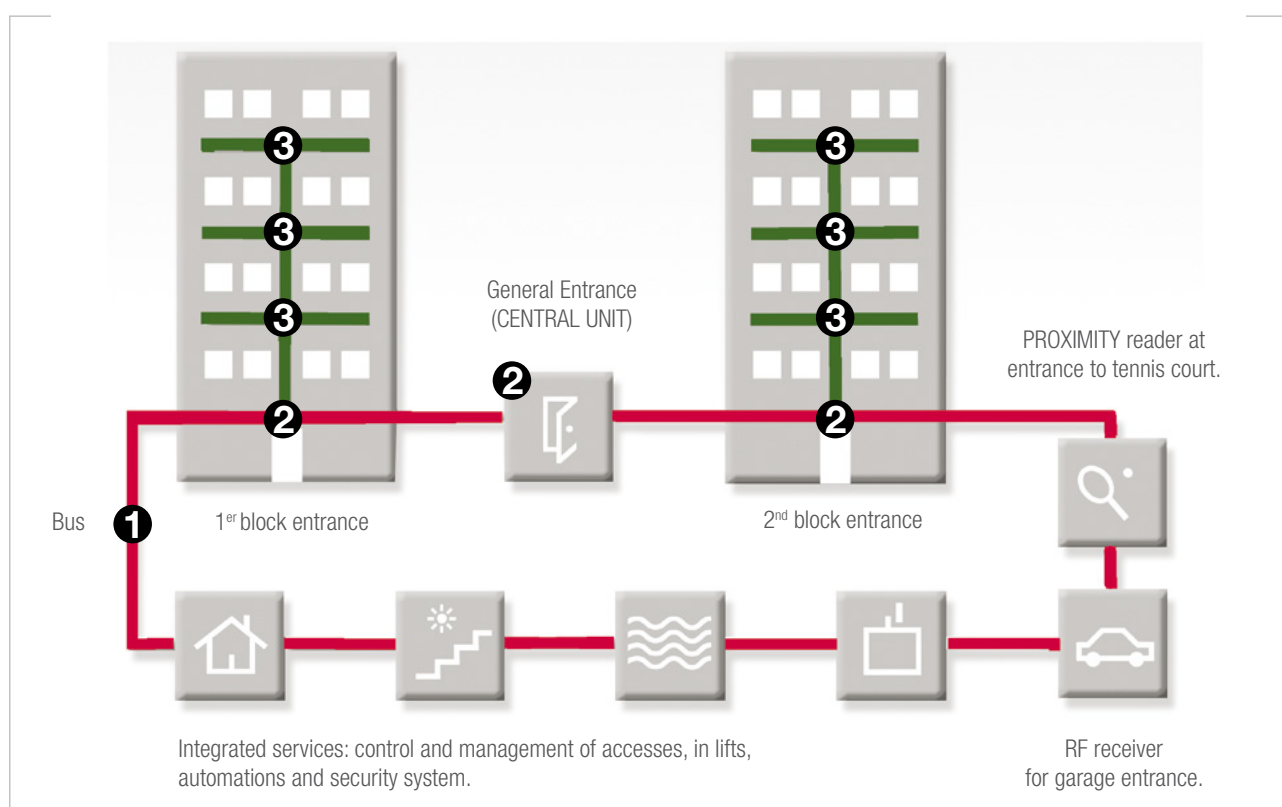

- **MDS DIGITAL:** Requires a Central Unit (C.U. Capacity: 9.999 homes, 32 accesses/guard units). Up to 63 Central Units can be connected. Incorporates all the MDS services.
- **MDS COMBINED WITH OTHER SYSTEMS:** In the case of housing complexes, the flexibility of MDS allows to combine general MDS entrances and internal apartment blocks with VDS, BUS2 or conventional 4+N audio or video door-entry system or with individual houses.

AUDIO BUS + DATA + TELEPHONE BUS

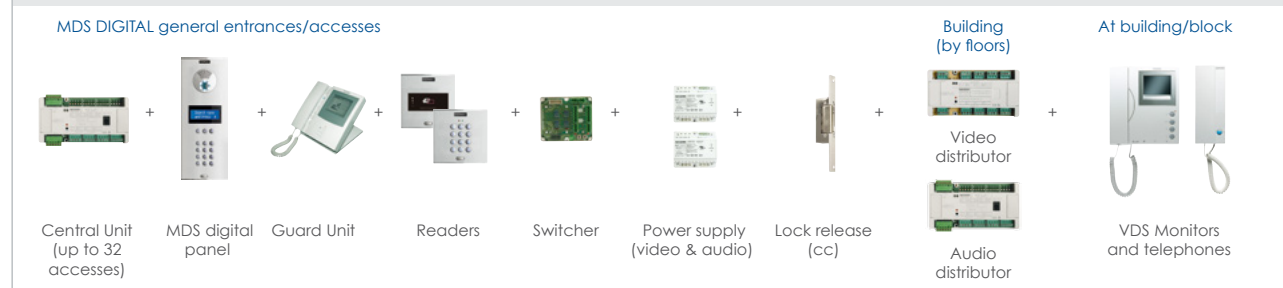

AUDIO BUS + DATA + VIDEO BUS

MDS DIGITAL

A complete MDS DIGITAL system basically consists of the following elements:

1. OUTDOOR PANEL

Panel with KEYPAD + ELECTRONIC DIRECTORY.

A Central Unit is required.

SKYLINE (See Skyline Panel Section)

It allows to create any audio or video door entry panel with access control and informative displays.

FRAMES

24651 RF DIGITAL EMITTER

Bluetooth and fingerprint readers need a door controller (ref.4420) for each access.

4420 DOOR CONTROLLER

FINGERPRINT WITH PROXIMITY

6935 CITYLINE FINGERPRINT READER

Includes a built-in proximity reader for major security or for independent registrement of users. Includes display and LEDs indicating the door opening, user's number, if the fingerprint reading is correct or not, configuration and authorizations-cancellations menu management.

Includes a remote infrared keypad for programming.

5482 MARINE FINGERPRINT READER

3. GUARD UNIT

2537 MDS DIGITAL GUARD UNIT

Desktop support included. Allows surface installation. Includes a 4" graphic display that informs of all the events and actions of the installation: origin of call, type of call, call, call waiting, latest communication, etc.

The guard unit has 3 operation modes: [day](#), [night](#) and [mixed](#), and in the case of MDS Digital Installations, it can act as a panic reception centre. The guard unit can communicate with any access or home, and can establish communication between any 2 points of the installation (exclusively MDS installation).

ref.1065

ref.24651

ref.4420

ref.6935

ref.5482

ref.2537

4. CENTRAL UNIT

Essential in installations with digital panels

2405 MDS 1-ACCESS CENTRAL UNIT

Manages up to 9.999 apartments and 1.020 access control users.

- In individual blocks: manages up to 32 accesses (1 of them can be audio/video). For more audio/video accesses, switcher (ref.2379) every 2 accesses will be required.

- In housing complexes: up to 31 accesses per Central Unit if the accesses are audio/video, 2-access switchers ref.2379 will be required. Includes WINCOM PLUS software for PC configuration. Includes memory for incidents record (A.C. applications).

ref.2405

2379 2-ACCESSES SWITCHER

Necessary to connect more than one video panel/guard unit to C.U. Add 1 module for more than 1 additional panel/guard unit.

ref.2379

PC CONNECTION ACCESSORIES

24661 USB TO RS-485 PC ADAPTOR

Enables Central Unit programming by PC in FXL network. PC Connection by USB.

2466 PC INTERFACE DECODER

Enables Central Unit programming by PC (serial port).

2338 RS-232 TO RS-485 PC ADAPTOR

Allows Central Unit programming in FXL network. DIN. RS-232 connection to PC. Allows to connect 1 modem for remote management by telephone. Maximum distance to Central Unit: 1.200m.

1087 IP REMOTE MANAGEMENT MODULE

Is connected to the Central Unit by means of the adaptor ref.2466. Allows communication between the management computer and the installation using the computer network (Ethernet), avoiding additional wiring.

5. POWER SUPPLY

4813 AUDIO POWER SUPPLY. 12Vdc/2A

Requires: 1 unit for each Central Unit and up to 6 accesses; or 1 unit for every 10 VDS decoders or audio decoders, depending on the distance and cable cross-section used. DIN6 format.

ref.4813

ref.4830

4830 VIDEO POWER SUPPLY. 18Vdc/3,5A

Requires: 1 unit for each 40 monitors or 1 unit for each 4 monitors per apartment. DIN6 format.

ref.4812

4812 VIDEO POWER SUPPLY. 18Vdc/2A

To extend the number of monitors in homes. Requires: 1 unit for every 2 additional monitors per home. DIN6 format.

EMERGENCY POWER SUPPLY

For functioning of the power unit if the electricity supply fails, it is necessary to connect it to an adapter, to which a battery is connected. Compatible with any type of standard lead acid battery.

ref.2060

2060 EMERGENCY BATTERY ADAPTOR. 12Vdc

1021 EMERGENCY BATTERY ADAPTOR. 18Vdc

6. AUDIO DECODER / VIDEO DISTRIBUTORS

AUDIO DECODER

2424 4-WAYS AUDIO MDS DECODER

1 unit for each 4 homes. DIN10.

2425 8-WAYS AUDIO MDS DECODER

1 unit for each 8 homes. DIN10.

2426 4-WAYS AUDIO ISO DECODER

1 unit for every 4 homes (audio/video). Necessary in MDS installations where total isolation of the telephones from the rest of the installation is required (anti-sabotage) and in MDS DIGITAL installations with "panic button" or with light indicator on telephones. DIN10 format.

2436 4-PANEL DECODER

1 unit for every 4 panels 4+N of up to 2 pushbuttons. For installation in lifts or garages, in order to make calls to concierge. DIN10.

2466 DECODER PROGRAMMING MODULE. ADAPTOR RS-232 TO RS-485

Includes DECOWIN software and connection cables. Allows remote programming of the MDS Digital Central Unit and decoders.

24661 ADAPTOR USB to RS-485

Enables programming of MDS Digital Central Unit (ref.2405) and decoders by PC via USB port.

ref.2424

ref.2436

VIDEO DISTRIBUTOR

2418 4-WAYS VIDEO DISTRIBUTOR

1 unit for each 4 homes (video). DIN10.

2419 8-WAYS VIDEO DISTRIBUTOR

1 unit for each 8 homes (video). DIN10.

ref.2419

7. COMBINATION WITH OTHER SYSTEMS

The MDS decoder allows connecting the general entrance (G.E.) with interior blocks (I.B.) with VDS technology.

2409 VDS/MDS DECODER

Necessary for enclosures in VDS interior blocks already installed 1 decoder per block. Add one distributor (ref.2448) and/or switcher (ref.2450) in general video entry installations.

	VDS Audio I.B.	VDS Video I.B.
MDS Audio G.E.	2409 VDS decoder	2409 VDS decoder
MDS Video G.E.	2409 VDS decoder 2448 Video distributor	2409 VDS decoder 2448 Video distributor 2450 Switcher

8. MDS REPEATER / VIDEO AMPLIFIER

2339 MDS REPEATER

To regenerate the digital signal of the panels or decoders BUS that is transmitted by the twisted pair of the installation. DIN10 format. Requires:

- Length of the BUS > to 1.200m: One repeater every 1.200m.
- When there are more than 120 decoders.

4110 VIDEO AMPLIFIER

To regenerate the video signal when the length of the BUS is greater than 250m. One amplifier every 250m.

ref.2339

1345 FIBER OPTICS CONVERTER

Allows MDS signal transmissions (audio, video and data) by means of a fiber optic cable (monomode fiber with FC/PC connectors). Advantages: links up to 5 km, noise immunity and discharges isolation. Includes: transmitter (TX), receiver (RX) and two power supplies.

9. CABLES

All cables are supplied in 100 metre rolls. Orders must be multiples of 100.

5918 DECODER-PANEL-FXL CENTRAL UNIT BUS CABLE. 1MTR

4 wires 1mm²+1 twisted pair shielded of 2 x 0,5 mm².

5919 VIDEO BUS CABLE. 1MTR

3 wires of 1mm²+1 coaxial of 75 Ohms.

5922 DECODER-TEL. CONNECTION CABLE (1M)

6 wires of 0,5mm².

10. MONITORS & TELEPHONES

All models include electric lock release pushbutton and call to guard unit by default. Always colour TFT screen included.

CITYMAX TELEPHONE

80447 CITYMAX TELEPHONE (white finish)

BASIC

INTERCOMMUNICATION. PALACE BUS

Enables communication only between telephones in the same house. Maximum up to 12 terminals. 1 power supply (ref.4812) is required per home and a multiline switcher (ref.9017) to distinguish indoor/outdoor conversation. Max. distance: 100m.

Maximum: 100mts (ø1mm²)

8084 PALACE CITYMAX TELEPHONE

9017 MULTIWAY SWITCHER

FEATURES

- MDS/VDS combination is the system with the most complete functions and maximum wiring simplicity.
- It consist of a combination of:
 - MDS Digital System for General Entrances.
 - VDS Digital System for Interior Blocks.
- Its capacity is expandable:
 - From 1 to 9.999 units.
 - Up to 32 entrances or guard/managements
 - Combined with single houses, medium or big blocks.
 - Possibility of several access control readers along the condominiums.

IN MEDIUM SIZE BLOCKS INSTALLATIONS

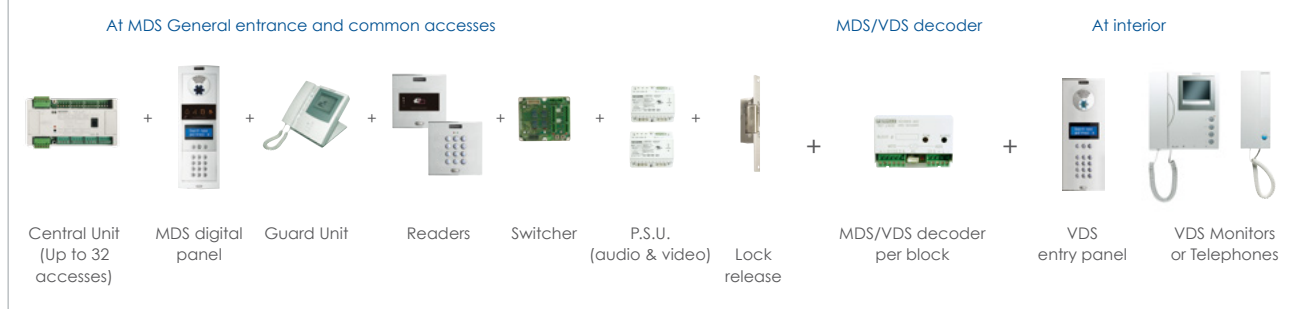

One MDS/VDS Decoder is required **3** per block.
 VDS cable inside the building **4**: UTP CAT5, 5 WIRES or 3+COAX.
 VDS telephones & monitors are required.

INSTALLATION

- System with simplified MDS BUS installation **1** connecting general entrances, interior blocks and access control readers.
 - MDS AUDIO BUS: 4 common wires + 1 common shielded twisted pair.
 - MDS VIDEO BUS: 6 common wires + 1 common shielded twisted pair + 1 video coax cable.
 - MDS Central Unit is required in general entrances. Capacity: 9.999 homes, 32 accesses/guards units. Central Unit **2** includes all the electronic elements for managing and controlling the system.
 - The MDS System (MDS BUS) installed at general entrances can be combined with VDS System (UTP CAT 5, 5 WIRES or 3+COAX) in the blocks, thanks to a MDS/VDS decoder **3**.
- The MDS/VDS decoder (new version) allows VDS Monitors and Telephones to make additional functions as panic call to the guardian or control lift.

MDS/VDS Digital system with medium-size interior blocks basically consists of the following elements:

IN BIG SIZE BLOCKS INSTALLATIONS

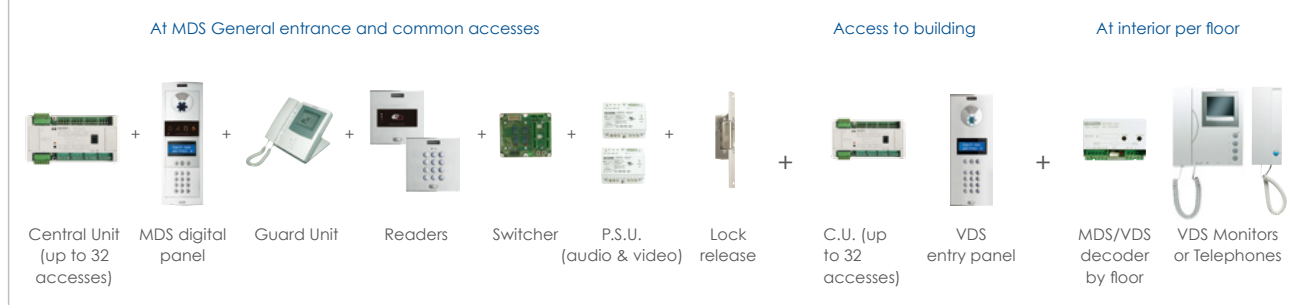

In big interior blocks with several terminals in each floor or specific functionalities are demanded, a MDS/VDS Decoder **3** is required per floor.

MDS BUS in the riser and VDS cable in each floor **4**: UTP CAT5, 5 WIRES or 3+COAX.

VDS telephones & monitors are required.

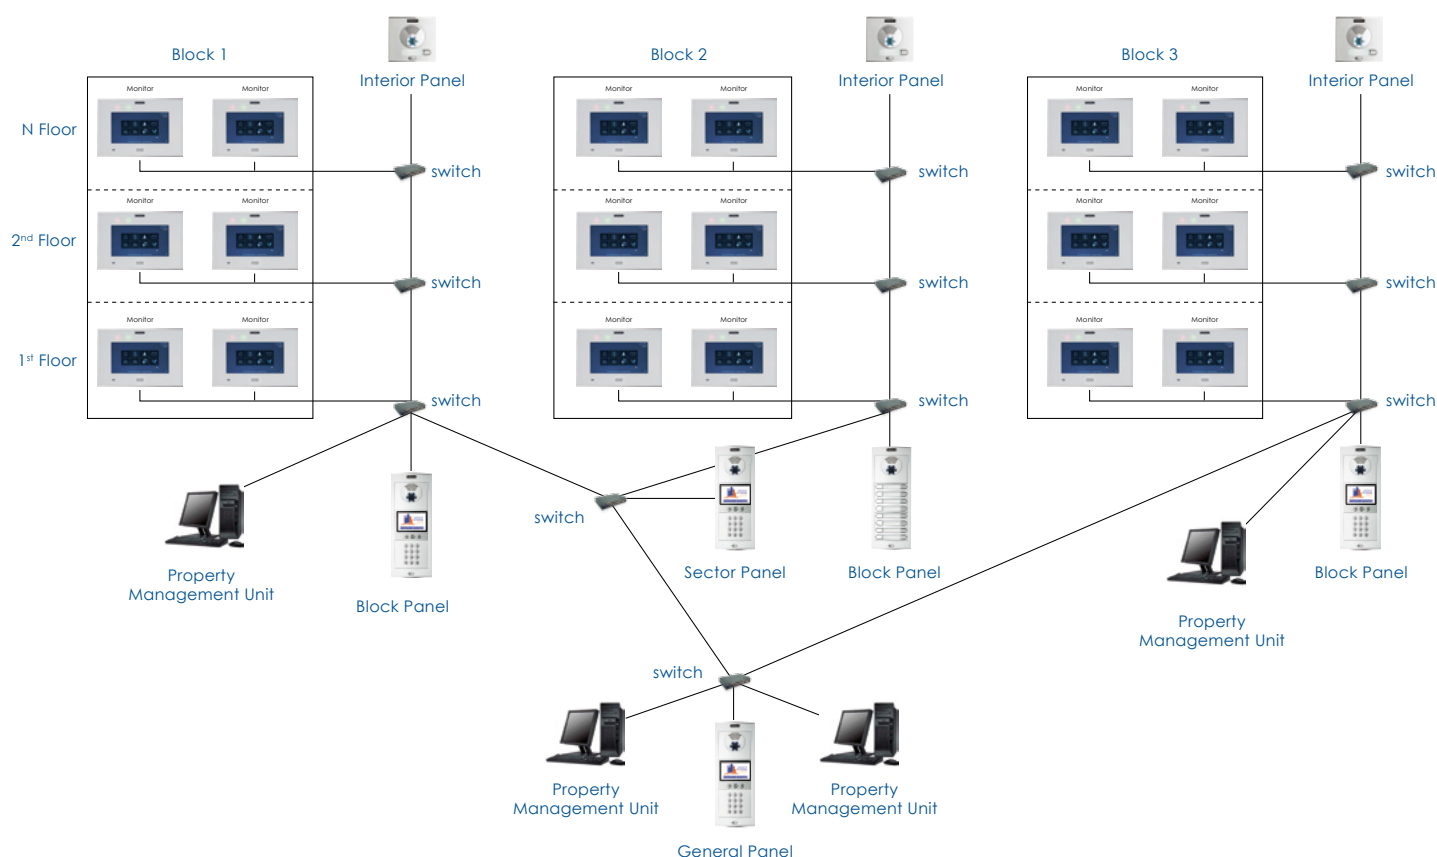

MDS/VDS Digital system with big-size interior blocks basically consist of the following elements:

FEATURES

- **TCP/IP system.**
- It allows to manage from single family homes to buildings without size limit:
 - A virtually unlimited number of monitors can run under one LYNX installation.
 - Unlimited distances from end to end of and installation.
 - Multichannel for conversations and data flows, which unlimited capacity.
- **Easy and simple installation** with the maximum robustness:
 - Power over Ethernet (PoE) simplifies the installation.
 - LYNX can be integrated into existing local area networks. LYNX employs structured cabling system (SCS), and standard network equipment with network convergence.
 - Blackout free. SIP peer to peer distributed architecture allows independent operation for each device, without the need for a centralized server.
 - Upload configuration from an SD card makes installation a basic, straightforward process without any need for complicated training.
- **Compatible with home automation systems.**
- Simple **access control** included.
- Easily expandable.

LYNX SYSTEM COMPOSITION

Accesses		Building (by floors)					At home	Accessories						
	+		+		+		+		+		+		+	
Panel		PC		Power supply		Switch		Lock release		Switch		Monitors		Relay decoder

1. OUTDOOR PANEL

- CAMERA is always in COLOUR.
- The LYNX amplifier includes Voice Synthesizer as standard. A messages is reproduced when the lock-released is activated: "The door is open. Please, close the door behind you". Configurable in 32 languages.

SKYLINE PANEL

SKYLINE consists of 8 different-sized frames where the modules can easily be fitted. Modules come in 2 sizes: V and W (W is twice the size of V).

5. ACCESSORIES

CALL DIVERT TO MOBILE

It's possible to divert the **calls received at the door entry panel to a mobile devices**, where the user can view the visitor's picture, set up communication with them and, if desired, open the door.

To do so, users only need to download the LYNXed application (free download), available for iOS and Android devices. The mobile device is paired with the VIVO monitor by reading a QR code and calls from the outdoor panel are received normally. Several different mobile devices can be linked up to the same VIVO monitor.

In the installation, whether for a building or detached house, a LYNX ROUTER is required to handle the call divert. When a call is received from the outdoor panel, all the devices linked up will sound at the same time as the monitor. (Check availability).

1609 LYNX ROUTER

1610 LYNX PROPERTY MANAGEMENT UNIT

Property Management Unit is LYNX's software application which allows to manage the communication, security and comfort in buildings in an intuitive manner, developing guard unit and configuration functions of the system. It is prepared for its use by means of a PC touch screen or with a conventional keypad. It operates using three user profiles:

- **Installer profile (configuration):** Allows to customise function and performance to the specific needs of each residence.
- **Administrator profile (maintenance):** Allows to manage system passwords, user-privilege settings and to create or delete guard profiles.
- **Guard profile (operation):** To operate in normal mode.

Depending on the circumstances, the Property Management Unit offers three operating modes:

- **Full service:** All calls from panels to units are forwarded to the assigned Property Management Unit for filtering.
- **Home service:** Visitors can call both the apartment or the PMU.
- **Off service:** When guards are absent calls can be forwarded to others on duty. Supplies multifunction services: communication with homes, message service, event recording, protection using CCTV cameras, lift control...

LITE RESIDENTIAL MANAGEMENT SOFTWARE

LITE software is the limited functionality version of Property Management Station, for those cases where the LYNX installation will be working without the same. Enables LYNX installation start-up from the installer's own PC, as well as friends' list management.

Available at www.fermax.com

1615 MASTER LYNX RELAY DECODER

1616 10-WAYS LYNX RELAY DECODER

NOTE: LYNX requires a local area network. A switch is required. The system is compatible with most of the switcher (preferably with PoE and QoS support). No need of any special configuration for LYNX.

1617 LYNX SWITCH (4 PoE +4)

1618 SWITCH LYNX (8 PoE +8)

ref.1615

ref.1616

6. INTEGRATION WITH OTHER SYSTEMS

LYNX provides users freedom of choice through existing technologies and home automation systems. This system generates synergies through unlimited solutions supporting the integration, interaction and compatibility with other systems.

SIP PANEL

FERMAX

FEATURES

The SIP PANELS video door entry panel from FERMAX is an outdoor panel ideal for applications in the service industries, for example in businesses, offices, airports, hospitals, public buildings or parking facilities, etc. Calls are controlled from the outdoor panel, connecting to an SIP server which in turn is linked to third-party SIP devices.

The SIP PANELS panel sets up communication through an SIP server and lets you see the caller at the door with VoIP devices (like PBX, telephones, softphones, etc.) that support the following SIP functionalities:

- 3CX
- Asterisk

NOTE: panel not compatible with FERMAX LYNX system.

FUNCTIONS

1/W SIP VIDEO COLOUR PANEL

Call to SIP devices by pushbutton:

- **AUDIO AND VIDEO communication** via standard SIP server.
- **DOOR OPENING:** using DTMF (Dual-Tone - Multi-Frequency) signals between devices to open the door. Each device that interacts with the SIP panel may be using a different DTMF code. FERMAX provides the option of configuring the SIP panel from the webserver according to the combination of tones (keys) for each SIP device to open the door. The panel has two built-in configurable relays.
- **AUTO-ON:** When called, the SIP panel will automatically answer calls from any device on the SIP network, opening up the audio and video streaming.

CONFIGURATION

ASSIGNING PANEL IP ADDRESS

When connecting the panel's RJ-45, the IP address is obtained automatically by DHCP (Dynamic Host Configuration Protocol) server. If there is no DHCP server, the installer enters it from the webserver.

ASSIGNING PANEL SIP "EXTENSION"

The panel's SIP extension is configured via webserver.

ASSIGNING PANEL PUSHBUTTON SIP "EXTENSION"

In the 1W panel, we use the webserver to set up the SIP "extension" for pushbutton calls.

PANEL RELAY ACTIVATION DTMF SETUP

Configurable from the webserver, using each manufacturer's SIP tones (keys) to open the door. The panel has two built-in configurable relays.

Power supply 12 Vdc.

ACCESS CONTROL

FERMAX

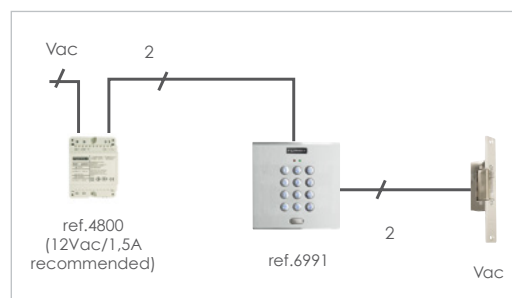

STAND-ALONE CENTRALIZED

STAND-ALONE

Stand alone systems allow to control a door or access. Recommended for offices, businesses, garages, etc. SKYLINE readers can be integrated in audio or video door entry panels to enable access to the building for residents.

1. KEYPAD (MEMOKEY)

- Maximum capacity: 100 codes.
- Power supply 12Vac/12Vdc. Power supply 12Vac/1,5A (ref.4800) is recommended.
- Input for exit button on the inside.
- Input for free access button.
- 2 relay outputs (2A,NC/NA) (1 output in LOFT model) for activation of lock-release and connection of alarm. Programmable time.
- Each code can activate one or two relays at the same time.
- Acoustic confirmation of acceptance/rejection of the code.
- Programming from the keypad by means of a master code.

6991 CITYLINE MEMOKEY

Indoor/outdoor. Aluminium panel. Permanent backlight keypad made in zamak with signal LEDs. Flush-box included (ref.8948). Surface installation option (ref.7061).

4906 CITYLINE MEMOKEY KIT

Includes reader (ref.6991) and power supply (ref.4800).

7438 SKYLINE MEMOKEY W

Accessory for SKYLINE panels.

ref.6991

ref.7438

Reader dimensions: 130x128 (S1)
Flush box dim.: 115x114x45 (S1)

3610 MEMOKEY CITY CLASSIC

Indoor/outdoor. Flush-mounted box included (ref.8948). Surface installation option (ref.8951).

3600 CITY CLASSIC MEMOKEY KIT

Includes reader (ref.3610) and 12Vac/1,5A power supply (ref.4800).

ref.3610

Reader dimensions: 130x128 (S1)
Flush box dim.: 115x114x45 (S1)

4699 MARINE MEMOKEY

Outdoor. 2,5mm stainless steel panel with backlight keypad and signal LEDs. Flush-box ST1 included (ref.4641).

4540 LOFT MEMOKEY

Indoor. Surface mounting. Membrane keypad. Includes a 50cm cable.

3623 LOFT MEMOKEY KIT

Includes Memokey (ref.4540) and power supply (ref.4800).

ref.4699

ref.4540

Reader dimensions: 150x180 (ST1)
LOFT reader dim.: 60x130

Dimensions: (width) x (height) x (depth) mm.

ACCESS CONTROL

2. PROXIMITY (PRIVATE)

- Up to 400 users. Power supply 12 Vac/12 Vdc. Power supply 12Vac/1,5A (ref.4800) recommended.
- Input for exit button.
- Input for door sensor.
- Relay output for activation of lock-release. Programmable time.
- Confirmation, by means of LED and sound, of acceptance or refusal of the card presented.
- Programming-assistance LEDs (activation/deactivation cards).
- Programming users by means of a master card or by PC. Free Winprox software at www.fermax.com

6992 CITYLINE PROXIMITY READER

Indoor/Outdoor. Aluminium panel. Flush box included (ref.8948). Optional surface box (ref.7061).

7440 SKYLINE PROXIMITY READER V

Accessory for SKYLINE and CITYLINE panels.

ref.6992

ref.7440

Reader dimensions: 130x128 (S1)
Flush box dim.: 115x114x45 (S1)

5472 MARINE PROXIMITY READER

Outdoor. Stainless steel reader. Flush box included ST1 (ref.4641).

4530 LOFT PRIVATE READER

Indoor. Surface installation. Includes cable 50cm.

ref.5472

ref.4530

Reader dimensions: 150x180 (ST1)

3. FINGERPRINT WITH PROXIMITY

- Biometric recognition system based on fingerprint.
- Capacity: 4.500 users in 1 fingerprint mode or 2.970 in 2 fingerprints per user mode.
- Includes a built-in proximity reader for major security or for independent register of users. It's estimated that 1% of the population cannot register in biometric systems because their fingerprint rings do not have enough information. This people may use the proximity reader.
- Includes display and LEDs indicating the door opening, user's number, if the fingerprint reading is correct or not, configuration and authorizations-cancellations menu management.
- Includes a remote infrared keypad.
- Power supply 12Vac/Vdc.

(Free Programming Software at www.fermax.com)

6935 CITYLINE FINGERPRINT READER

Exterior/Interior. Flush box include (ref.8948).

Optional surface box (ref.7061).

6936 SKYLINE FINGERPRINT READER W

Accessory for SKYLINE and CITYLINE panels.

6937 CITYLINE KEYPAD/FINGERPRINT READER

5482 MARINE FINGERPRINT READER

Stainless steel. Flush box included (ref.7061).

4. BLUETOOTH

Allows to activate the electric lock remotely by using a mobile telephone with bluetooth technology.

Power supply 12Vac/Vdc (ref.4800 recommended).

The system has 2 operating modes:

1. **Restricted to authorised telephones.** Maximum capacity: 40 telephones. Automatic opening when the authorised cell phone is within range of the receiver, or by means of a keypad confirmation or introducing a PIN.
2. **Access to any telephone.** Within range of the receiver, requesting the personal access code to open the door.

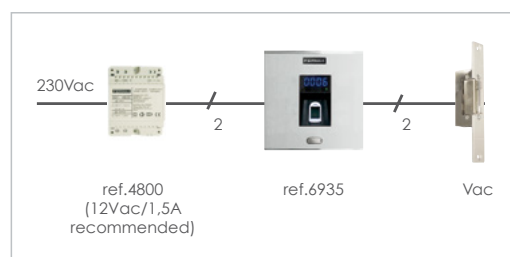

6993 CITYLINE BLUETOOTH READER

Outdoor/Indoor. Flush box included (ref.8948).

Optional surface box (ref.7061).

4479 MINI BLUETOOTH READER

Compact-sized module.

Reader dimensions:
130x128 (S1)
Flush box dim.:
115x114x45 (S1)

5. RADIO FREQUENCY (433Mhz)

SHOP SYSTEM

7903 RF RECEIVER FOR STORE

Configuration by means of trinary dip-switch. Input for exit button. Relay output (2A, NO) for activation of lock-release. 230 Vac power supply. DIN6 Box. Dimensions: 105x90x60.

ref.7903

7900 COMPATIBLE SINGLE CHANNEL RECEIVER

For installation inside electronic door or video entry system outdoor panels.

ref.7900

79561 TRINARY TRANSMITTER. 433Mhz

Configuration by trinary dip-switch.
A single code for all emitters.

ref.79561

SECURITY SYSTEM

The RF digital emitters have an exclusive code for each user. Recommended for garage access and remote control of devices: lights, blinds, sirens, etc.

7960 SECURITY RF RECEIVER

10 users maximum. Input for exit button. Relay output (2A, NC/NA). Programmable time. Mono-stable/bi-stable functioning. 12Vac/12Vdc. Compact-sized dimensions, so it can be hidden in distribution boxes. Dimensions: 90x60x20.

ref.7960

24651 DIGITAL RF REMOTE CONTROL

With 1 unique code by transmitter.

ref.24651

COLLECTIVE GARAGES SYSTEM

7952 SINGLE CHANNEL RECEIVER. 433Mhz

Configuration by means of trinary dip-switch. Accepts a card for addition of a 2nd channel. Relay output (2 A, NC/NA). 230Vac power supply. ABS IP65 box. Dimensions: 91x198x57.

ref.7952

79561 TRINARY TRANSMITTER. 433Mhz

Configuration by trinary dip-switch.
A single code for all emitters.

ref.79561

CENTRALISED

- Single or multiple site over WAN connection.
- 64 Access Groups.
- Individual cardholder access rights and/or access group rights.
- Manages 100s of doors.
- Event reporting.
- Event triggers and actions.
- Scalable; and easily expandable.
- Integrates with building systems.
- Proximity, magstripe or Keypads.
- Unlimited input/out extensions.
- Door alarm management.
- TCP/IP or RS485 connectivity.
- Mifare Smart card and reader options.
- Multiple Work Stations.
- Peak time door management.
- Web downloadable licence free software.

ref.4410

CENTRALISATION

The centralisation of the system contains: Central Unit, power supply, battery and the necessary module for communications with the PC. An emergency power supply is recommended. In installations with large distances, it will be necessary to install additional power supplies at the access in order to avoid voltage drops in the cabling.

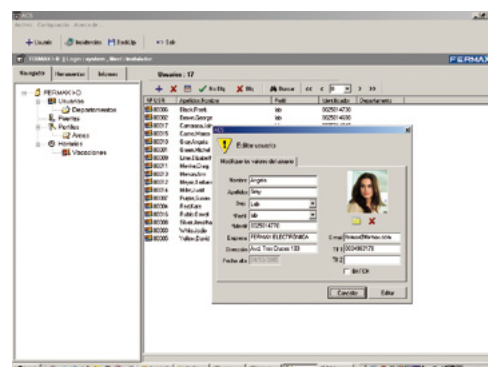

4410 AC+ CENTRAL UNIT

For advanced access control functions and home automation only. Each Central Unit allows:

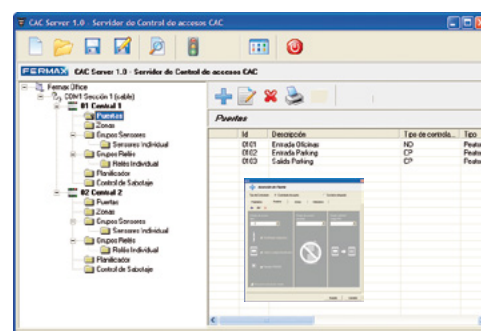

- 2,048 users.
- 32 doors. It can manage one reader to enter and another to exit.
- 64 groups of users (profiles).
- 4 special profiles without restrictions.
- 32 areas. Defines the doors to which access is permitted.
- 32 timetables. It is possible to define holidays.
- Recording of the last 3,000 incidents (entries, exits, accesses denied, alerts, etc.)
- Capable to manage 1,000 intercommunication panels/1,000 sensors/1,000 relays.

Includes 2 software PC for programming and system management:

- **AC PLUS SERVER.** To configure the hardware (central unit, readers, decoders, etc).
- **AC PLUS ACCESS.** To manage the users and the restrictions.

AC PLUS Access software

AC PLUS Server software

4813 POWER SUPPLY. 12Vdc/2A. DIN6

General power supply. 1 power supply for each 6 accesses is required.

ref.4813

2060 BATTERY ADAPTOR. 12Vdc

Installed between the power supply and the system. It has a connector to link with an external PB-Acid battery.

ACCESS CONTROL

2070 BATTERY 12V/2,2A. ACID LEAD

2337 BATTERY 12V/7A. ACID LEAD

2339 MDS REPEATER

Necessary for distances of over 1.200m between door controllers or decoders and the central unit. Format DIN10.

ref.2339

PC CONNECTION ACCESSORIES

24661 USB TO RS-485 PC ADAPTOR

- Connection between PC (USB) and Guard Unit.
- Direct power supply from USB.
- Drivers included.

2338 RS-232 TO RS-485 PC ADAPTOR

- Connection between Pc and Central Unit (or network of centrals).
- Allows to connect the modem to the Central Unit in case of remote management.
- Connection to PC: RS-232. Max.: 30m (cable included: 3m).
- Connection to Central: RS-485 (twisted pair). Max.: 1.200m.
- DIN6 format. Power supply: 230Vac.

2466 DECODER PROGRAMMING MODULE

- Programming addresses and parameters to decoders from PC.
- Maintenance of installations that have no permanently connected PC, as an installer tool.
- Includes RS-232 cable with DB-9 connector for PC linkup.
- Includes RS-232 cable with DB-9 connector for PC connection.

1087 IP REMOTE MANAGEMENT MODULE

- Communication between management station and the installation using IT network (Ethernet), avoiding additional wiring.
- Connection to Central Unit by programmer (ref.2466).
- An IP address must be configured for network connection using the built-in software.
- Remote management via internet if allowed by protective devices (Firewall) in the IT installation (specialist staff needed to configure router for internet access).
- Power supply: 230Vac via adapter (included).
- Ethernet connection RJ4.

FIBER OPTIC ACCESSORIES

1345 FIBER OPTICS CONVERTER

Allows MDS/AC+ signals transmissions (audio, video and data) by means a fiber optic cable (monomode fiber with FC/PC connectors). Advantages: links up to 5 km, noise immunity and discharges isolation. Includes: transmitter (TX), receiver (RX) and two power supplies. It can be used in any communication point of an MDS system.

READERS WITH INTEGRATED CONTROLLER

ACMPR AC PLUS MICROPROX READER

ACMPVR AC PLUS MICROPROX VR READER

6992 CITY PROXIMITY READER

6994 CITY MDS/AC+ KEYPAD

Flush box S1 included (ref.8948): 115x114x45.

6995 CITY KEYPAD/PROXIMITY READER

7440 SKYLINE PROXIMITY READER V

7453 SKYLINE MDS/AC+ KEYPAD W

7457 SKYLINE LYNX/AC+ DIRECT KEYPAD

For access control combinations of keypad with proximity and fingerprint readers.

5472 MARINE PROXIMITY READER

4696 MARINE MDS/AC+ KEYPAD

Flush box ST1 included (ref.4641): 130x160x55.

ACCESSORIES

These controllers require an external relay to activate a lock-release with consumption greater than 500mA or inverted functioning.

2013 ADDITIONAL FUNCTIONS RELAY

3491 DIN RELAY. 12VDC/12A

2430 8-RELAY DECODER

Secure activation of the lock-release from the inside. The 8 outputs are programmable from the software (DECOWIN).

2429 8-SENSOR DECODER

It handles 8 sensors: door contacts, presence, flooding... The 8 inputs are programmable from the software (DECOWIN).

Microprox reader

Prox VR reader

2 x 0.2mm ²	10m	15m	30m	20	100m	80

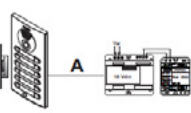

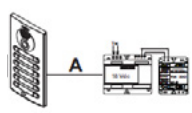

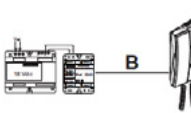

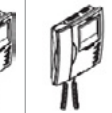

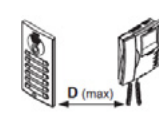

Expands with 2 terminals for apartments.

2 RISERS: VIDEO BUILDING INSTALLATION

CABLE SECTION						
	Maximum distance (A) PSU/Filter until Panel (Panel+door lock) (i)	Maximum distance (A) PSU/Filter until Panel (without door lock)	Maximum Distance (B) PSU/Filter until FURTHEST TERMINAL (ii)	Max. Quantity of MONITORS per PSU (ii)	Maximum Distance PANEL-FURTHEST TERMINAL with additional PSUs+filters (iii)	MAX.TOTAL Quantity of MONITORS
2 x 1.0mm ²	10m	10m	40m	20	100m	100 (50 per riser)
2 x 0.5mm ²	10m	10m	35m	20	85m	80 (40 per riser)
2 x 0.2mm ²	10m	10m	30m	20	85m	80 (40 per riser)

Expands with 2 terminals for apartments.

3 RISERS: VIDEO BUILDING INSTALLATION

CABLE SECTION						
	Maximum distance (A) PSU/Filter until Panel (Panel+door lock) (i)	Maximum distance (A) PSU/Filter until Panel (without door lock)	Maximum Distance (B) PSU/Filter until FURTHEST TERMINAL (ii)	Max. Quantity of MONITORS per PSU (ii)	Maximum Distance PANEL-FURTHEST TERMINAL with additional PSUs+filters (iii)	MAX.TOTAL Quantity of MONITORS
2 x 1.0mm ²	10m	10m	40m	20	70m	60 (24 per riser)
2 x 0.5mm ²	10m	10m	35m	20	70m	60 (20 per riser)
2 x 0.2mm ²	10m	10m	30m	20	70m	60 (20 per riser)

Expands with 1 terminal for apartments.

(i) For 12 Vdc door lock max. 250 mA supplied from amplifier.

(ii) Each additional PSU+filter allow to expand the system in distance and terminals according to the table.

(iii) Longer distances can be reached via regenerators.

VIDEO INSTALLATION WITH ADDITIONAL ELEMENTS

- Until 999.999 apartments.
- Until 10 General entrance panels.
- Until 100 Interior blocks with 10 panels and 9.999 apartments.
- Until 100 Sub-blocks with 10 panels and 99 apartments.

ALWAYS AT OUR CUSTOMERS SERVICE

Our customers are professionals with whom we intend to establish long lasting bonds based on confidence and trust.

Despite having grown into a leading international company in its field, Fermax cherishes and maintains its family roots and values.

Our mission/commitment is to guarantee your satisfaction.

- Quick deliveries
- Quotations within 24 hours.
- Free technical help line.
- Dynamic and professional telephone assistance to solve problems.
- Customized diagrams adapted to your installation.
- Excellent post sales service.
- Personalized commercial or technical training intended for installers and distributors.
- Product presentations and training from our commercial team.

GENERAL

These general conditions shall apply to all contracts entered into by FERMAX UK Ltd. for the sale of goods and shall extend to any goods supplied in substitution or in addition to the contract goods.

No terms, conditions or reservations stipulated by the Buyer and no course of dealing shall annul, vary or add to any of these Conditions except in so far as expressly consented to by FERMAX UK in writing.

QUOTES

Prices are valid for 30 days from date of quotation.

ORDERS

Orders below £400 net will be subject to a carriage charge of £10.50.

DELIVERY

1. In the absence of any agreement to the contrary, the place of delivery shall be that of the Buyers premises and the risk in the goods shall pass to the Buyer on receipt of delivery.
2. FERMAX UK will, if the goods are damaged or lost in transit, at FERMAX UKs option, replace the damaged or lost goods free of charge or refund the cost, provided that notification is received from the Buyer within 7 days in the case of damage or loss.
3. Every endeavour will be made by the Company to adhere to the delivery dates quoted, but such dates are only estimated and are not guaranteed neither shall they be a term of condition between the Buyer and the Company.
4. The Buyer shall be responsible for arranging insurance on goods collected by their own carriers.
5. Delay in delivery shall by no means entitle the Buyer to cancel the order or thereby render FERMAX UK liable to the Buyer for any loss or expense arising from the delay unless otherwise agreed in writing.

OWNERSHIP OF GOODS

The goods shall remain the property of FERMAX UK until paid for in full by the Buyer.

CANCELLATION

Cancellation of any order or goods or any part of an order will not be valid after the Buyer has placed the order unless the cancellation is accepted by FERMAX UK in writing.

RETURNS

A detailed copy of our returns policy is available on request. In general; Material returns are not accepted, except for reasons directly attributable to FERMAX UK. Goods intended for return must obtain a returns number from FERMAX UK prior to their dispatch; the 'dispatcher' shall ensure where reasonably practical, that the product(s) are complete and in their original packaging.

- FERMAX UK reserves the right to supply direct replacements for faulty goods returned within warranty.
- Credits may be raised at the discretion of FERMAX UK or where direct replacements are not available.
- Shortages are to be notified to us within 14 working days.
- Refunds for incorrectly ordered products may incur a handling charge up to 25%.

PRODUCT WARRANTY

FERMAX guarantees its products against any manufacturing defects for a period of 2 years from the date of our original invoice. Products found to be defective due to incorrect handling or installation are excluded from warranty.

PAYMENT

1. Credit customers must settle accounts within 30 days nett of invoice date, unless otherwise specified by FERMAX UK.
2. There is a minimum charge of £10 made on each occasion any cheque rendered for payment is refused and requires representation.
3. FERMAX UK may charge interest on overdue accounts at Banco Sabadell S.A base rate plus 3% per annum from the due date for payment until the final date of payment.

CREDIT FACILITY LIMITATION

Where the situation arises that the value of an order exceeds the funding limit of an account, alternative methods of payment for the excess amount will be requested.

LIMITATION ON COMPANY'S LIABILITY

FERMAX UK will pass guarantees as extended by the manufacturer or manufacturers agent to the Buyer. FERMAX UK will not be responsible for any guarantee in excess of these. Technical information or performance is supplied in good faith but the onus falls fully on the Buyer to determine that the equipment is usable for the application in question, and will work in conjunction with existing equipment.

JURISDICTION

Any contract entered into by FERMAX UK shall be governed and constructed under English Law and the Buyer shall submit to the jurisdiction of the English Court. Otherwise agreed in writing.

FERMAX reserves the right to modify these commercial conditions of sale, as well as the prices of the Products. The technical and aesthetic characteristics of the Products may be modified from time to time. The graphic representations included are merely for illustrative purposes. FERMAX ® is a registered trademark. All intellectual property and licence rights reserved.
