Storage/MicroSD Cards

This camera is compatible with 8GB, 16GB, and 32GB capacity microSD, microSDHC, and microSDXC memory cards. You must use a microSD card with a Class 10 speed rating. We recommend using brand name memory cards for maximum reliability in high-vibration activities.

Charging the Battery

If recording is occurring when battery reaches 0%, the camera will save the file and power OFF.
To charge the battery:
1. Connect the camera to a computer or USB power supply.
2. The Charging Status Light remains ON while the battery is charging.
3. The Charging Status Light will turn OFF when the battery is fully charged.
Charging time: 3.5 hours
