

NEW HOLLAND G-SERIES ZERO-TURN-RADIUS MOWERS

G4010 G4020 G4030 G4050

YARD WORK, MINUS THE WORK

BREEZE THROUGH LAWN CARE WITH NEW HOLLAND ZERO-TURN-RADIUS MOWERS.

Who said perfection takes time? Powerful New Holland G-Series zero-turn-radius mowers speed you through routine lawn maintenance faster than you ever thought possible.

These mowers literally turn on a dime, allowing you to squeeze around saplings and change direction in one graceful spin. This maneuverability not only makes you feel like a pro—it saves time with each pass, so you can finish work sooner and get back to life.

A CUT ABOVE THE REST

With four models ranging from 19 to 25 horsepower and mower widths from 42 to 52 inches, you'll find a New Holland zero-turn-radius mower that suits your exact needs. All models have a 7-mph speed that lets you zip through mowing jobs large and small. Other features include:

- Fore-aft adjustable seats, optional foot assist HOC kit (standard on the G4050) and arm rests (standard on the G4030 and G4050) for maximum comfort.
- Two control levers for easy operation —no thinking required!
- Hydrostatic transmission for a smooth, quiet ride
- Top-discharge design system for fine-cut grass with no clumping
- A deck washout port for fast deck cleaning
- Optional bagging and mulching kits to provide ultimate versatility

BUILT TO LAST

No matter what model you choose, each New Holland mower includes a heavy-duty steel frame, tubular steel axle and cast-iron rear bumper. Nuts and bolts are used in place of self-tapping screws for added durability.

Want more? New Holland backs up each G-series mower with a three-year limited warranty, so you're guaranteed years of power-packed performance. After all, you have more important things to worry about—like how you'll spend all that new found free time.

Models	HP	Engine	Transmission	Mowing Width
G4010	19	Kohler Courage SV590	Dual Hydrostatic	42"
G4020	21	Kohler Courage SV610	Dual Hydrostatic	50"
G4030	23	Kohler Courage SV720	Dual Hydrostatic	50"
G4050	25	Kohler Courage PRO	Dual Hydro-Gear ZT2800 Drives with charge pumps	52"

MOWING YOUR LAWN NEVER FELT SO GOOD

POWER MEETS COMFORT IN THE NEW HOLLAND G-SERIES.

Go ahead—get comfortable. It's easy to do in the New Holland zero-turn-radius mower. The contoured, high-back seat with optional armrests (standard on the G4030 and G4050) makes this machine feel tailor-made to fit your shape. Everything adjusts to reach the right height in seconds—no tools needed.

With the smooth ride and quiet performance of the hydrostatic transmission, you'll feel like you're cruising in a luxury car. Go on: savor a sip of icy lemonade. Play your favorite tunes. Discover you do like yard work, after all.

INTUITIVE CONTROLS PUT YOU AT THE HELM

Operation comes naturally with the zero-turn-radius mower. Its two control levers take the place of the steering wheel, gas pedal, forward/reverse control and brake. They are ergonomically designed with hydraulic damping action to ensure smooth steering.

Each lever adjusts up and down to give you the perfect fit. Nearby, an angled side panel of controls sits within easy reach. Another one-handed adjustment lever lets you select one of seven cut heights and raise the mower deck for transport. The optional foot assist height of cut kit (standard on the G4050) makes changing the height a snap.

There's no thinking required—just the easy operation of a push mower combined with the power and efficiency of a tractor.

PRESERVES THE PEACE

You've worked hard to create your outdoor paradise. Why spoil the effect with a hot, noisy machine? The zero-turn-radius mower is right at home in mother nature. Its Kohler Courage engine has an internal balance system to minimize vibration, with an optional engine cover (standard on the G4050) to insulate noise and heat.

Underneath it all, smooth front tires (ribbed on the G4010) and anti-scalp wheels gently massage the turf. With the quiet

transmission and nothing in front to impede your view, you might say you have the best seat in the house.

A QUALITY CUT, EVERY TIME

No matter what mower width you choose, each G-series mower is a full four inches deep. This creates a vacuum, allowing blades to cut and re-cut clippings into fine particles. The result: smooth, even dispersal without the clumps.

Deck washout ports provide quick cleaning underneath to maintain efficient airflow for optimum performance. Need to sharpen the blade, or get a deeper clean? No problem: the entire deck can be removed in under two minutes.

VERSATILE PERFORMANCE

THE G-SERIES GIVES YOU THE FLEXIBILITY TO GET THE JOB DONE.

The zero-turn-radius mower does much more than cut grass. With these optional attachments, nothing stands between you and the yard you've always wanted.

- **Double bagging system** with an eight-cubic-foot capacity. A high-lift mower blade set is available for the G4050.
- **Mulching kit** that includes aerodynamic blades, kickers and accelerators to cut clippings repeatedly for extra-fine mulch.
- **Smooth tires** to reduce tracking damage and allow for smooth turning around obstacles (standard on the G4020, G4030 and G4050; optional on the G4010) Twenty-inch tires on the G4050 deliver better traction and a smooth ride on uneven terrain.
- **Adjustable armrests** that make your ride extra-comfortable by reducing arm fatigue during long stretches (standard on the G4030 and G4050; optional on the G4010 and G4020).

- **Rubber floor mat** to reduce vibration and dampen noise during operation (not available on the G4050).
- **Rear engine guard** that protects the back of the engine above the bumper (standard on the G4020, G4030 and G4050; optional on the G4010).
- **Engine cover** that shields the driver from heat and noise while shielding the engine from dust, clippings and other debris.
- **Foot assist height of cut kit** (optional on the G4010 and G4020).
- **Hitch kit** that allows you to pull light-duty attachments.
- **Front light kit** (optional on the G4050 only) to make mowing possible in low light.
- **Sunshade kit** (optional on the G4050 only) to protect your skin and eyes from the hot summer sun.
