GT Series
Multi-Tenant Entry Security

AIPHONE®

GT Series

Keep Buildings & Tenants SECURE

Up to **16 Entrances** and **500 Tenants** per building

- Identify Visitors
- Unlock Doors
- ADA Compliant Design
- Variety of Stations
- Easy to Use

The GT Series is perfect for...

- Apartments & Condominiums
- Office Buildings
- High Rise Complexes
- Commercial & Residential Mix Buildings
- Dormitories & Student Housing
- Senior & Retirement Communities

GT Series
BUILDING ENTRANCES

Provide 24/7 security with the GT Series. Keep buildings locked and allow tenants to safely identify visitors. If there is an issue at an entrance, tenants can quickly contact security or the manager's office.

- **170° PanTilt & Zoom video camera for larger viewing area**
- **Built-in access code keypads for keyless entry**
- **CCTV system integration**
- **Concierge visitor screening**

Entrance Stations

Install at main doors, garages, reception, and service entrances

For Building Owners & Property Management Firms

No monthly phone bills

The GT Series is a hardwired system, preventing unnecessary expenses

500 unique access codes

Create different security codes for each tenant to access the building

Add & remove tenant names easily

Hassle free maintenance to accommodate moving tenants

For Doormen or Manager's Offices

Concierge Station

Provide visitor screening and emergency assistance

GT-MK
Concierge/
Security Guard Station *(optional)*
▪ Wall or Desk mount
▪ Up to 4 units/system
▪ Tenants can easily call GT-MK from units

Replace the peephole!

Tenant Door Stations

Allow tenants to conveniently identify who is on the other side of their own door from inside.

JK-DV / JK-DVF
Tenant Door Stations *(optional)*
▪ Install outside individual tenant doors
▪ Confirm identity safely from inside
▪ 170° camera allows for large viewing area of hallway

GT Series
COMMUNICATE & CONTROL ENTRANCES

When a visitor calls in from the building entrance, the tenant may view and communicate with the guest to determine if they can be let into the building. Tenants may then easily unlock the door for guests.

Video ID

2-way Audio

Door Buzz-in

PanTilt & Zoom Tenant Stations
Easily view a larger area with the ability to zoom in and pan around.
