BRITISH RAILWAYS - WESTERN REGION			
These are the Boards that the newly-formed British Railways introduced in the early 1950s.			
With raised beadings, and Gill Sans lettering, they came in a number of standard shapes and sizes, which, when combined with different sizes of lettering, resulted in a variety of Headboards. Some Titles appeared on boards of More than one pattern, whilst the word "THE" was often larger than the rest of the Title. This made the careful research of these headboards all the more enjoyable The NRM was particularly helpful back in the mid-1990s, when their huge collection was not on public display, but in a warehouse on the other side of the City.
