The new BladeRunner belts supplement the current heavy-duty PoweRated® and Truflex® lines of lawn and garden belts from Gates.

Along with TruFlex and heavy-duty PoweRated belts, BladeRunner “Exact Fit” lawn and garden belts provide the highest quality and best coverage in the lawn, garden and farm market.

LAWN & GARDEN BELTS

BladeRunner belts offer exact OEM fit and construction, which means more value and longer life. Designed to meet or exceed the fit and performance of each specific application, BladeRunner belts are built to withstand the rigorous start and stop operation of lawn and garden equipment.

In many cases these belts utilize an aramid cord construction as reinforcement, providing longer service life and smoother operation during frequent and severe shock loads. Many of the applications in this catalog currently use a fractional horsepower belt as a replacement. Although these fractional horsepower belts do work on these applications, their performance is not that of an OE equivalent such as BladeRunner belts. Using a BladeRunner belt reduces costly downtime and labor associated with replacing a belt.

Don't settle for less than the best. Use BladeRunner "exact fit" lawn and garden belts!
