**Proudly Bringing the Comfort  
of Serta to America's Living**

# Hughes Furniture Industries

Hughes Furniture Industries is a second generation, family owned business founded in 1989. Hughes Furniture and Motion-Eaze Recliners' manufacturing facilities are located in Randleman, NC, USA.

# About Hughes Furniture Industries

Hughes Furniture Industries is a trademark licensee of Serta, Inc. licensed to manufacture and sell Serta Upholstery. We are proud to be an American manufacturer and operate 22 production divisions across 10 manufacturing locations with a diverse workforce of over 740 employees all in the Randleman, NC area.

Hughes Furniture Industries is a family owned business started in 1989. We are committed to quality in every step of our manufacturing process. This begins with milling and drying our own hardwoods at our Asheboro, NC lumberyard facility to ensure that our frames are built to last without warping, twisting, or cracking. From there, the lumber travels to one of our Randleman, NC

frame shops where the wood is cut, shaped, and assembled into the highest quality frames available.

The foam and fiber parts, built with eco-friendly practices and recycled materials are cut to size at one of two nearby foam processing plants. These components are then joined in one of our Randleman, NC manufacturing centers where they are assembled into your piece of furniture.

Our fabric, sourced from around the world, selected for its quality, style and value and stored in our climate controlled fabric warehouse, is then cut, sewn and applied to create your finished piece of upholstered furniture. To prepare for shipment we wrap the

furniture in cardboard wrapping and finish it off by bagging it to keep your furniture clean and protected from the elements during transportation to your door. After wrapping and preparing for shipment, each piece is then moved to our new distribution center where it is loaded for delivery or staged in the warehouse as part of the Serta-to-Go Quick Ship Program, ready to be shipped within 72 hours of your order.

# Why Our Frames are the Best

*At Hughes Furniture we believe that our frames are the most important component of our furniture that our customers will never see.*

*We start with a front rail made from either plywood or OSB. This gives us the strongest and most stable foundation available and the rest of the frame is built around this component.*

*Our front and back posts are also critical parts that require the stability that engineered lumber offers, so these are also always made of either plywood or OSB.*

*We use hardwoods exclusively for the remainder of the frame components. We dry and mill this wood ourselves so that we can ensure that every piece is free from defect and of the highest quality. Every fastener used in a Hughes frame is driven into a hardwood part to ensure they won't pull out, guaranteeing the integrity of our frames.*
