THE KABBALLAH

Through the centuries, there has been a branch of esoteric mysticism collectively known as the Kabballah. It's exact origins are unknown. It probably first originated in Egypt and Mesopotamia, then discovered by the Jews. However, the Jewish people have been studying and applying the secrets of the Kabballah for eons. There is a lot of hype and pretense about this subject. Yet the basic teachings of the Kabballah are quite simple and will be presented here for the first time in a concise

and easy to understand manner. The Kabbalah has been the basis for most of the Magick in the Western world, so we will begin with it.

The Kabbalah states that You and I and everything around us is composed of energy. Everything is energy. This energy is Universal and emanates from One source. Some call this source God. Some Allah. Some just call it The Universe. What ever terminology you choose to call it is fine and really doesn't matter. I will refer to this Force as the Universal Consciousness.

The Kabbalah has said that theirs are various levels of existence and consciousness. In Kabbalaistic literature these are known as the Worlds. Weather you consider these Worlds spiritual levels or levels of consciousness the process by which the Kabbalah uses can still be used. The Worlds are represented as a tree branching out from the roots to the branches and leaves. This is known as "The Tree Of Life". The Worlds are called "Sephira". I will not get into too much religiosity here because it is unnecessary. I will give a brief overview of each of the Sephira and how they correlate to us in the modern world.

THE SEPHIRA

KETHER

Kether is the very top of the Tree of Life. The Universal Consciousness or God. It is the Source of all power and energy. It can be looked at as the Collective Unconscious. It contains everything within it and everything is a part of this Universal Energy. It is also considered a void as in the Buddhist concept of Nirvana.

CHOKMAH

This is a step down so to speak on the Tree Of Life. It is the Universal Consciousness within us all. The part that speaks to us and gives us intuition and insight into things which we normally wouldn't know about.

BINAH

This is the level of Non-Attachment. As the adage goes, if you love something, will loose it. It is the principle of polarity and paradox.

CHESED

This level is one of gain in the material world. Success and abundance in wealth and property.

GEBURAH

This is the level of power and control of yourself and your life as well as influencing the external world in a powerful magickal way.

TIPHARETH

At this level one becomes aware of Spiritual guides as it were or Higher Teachers such as The Christ and The Buddha.

NEZTACH

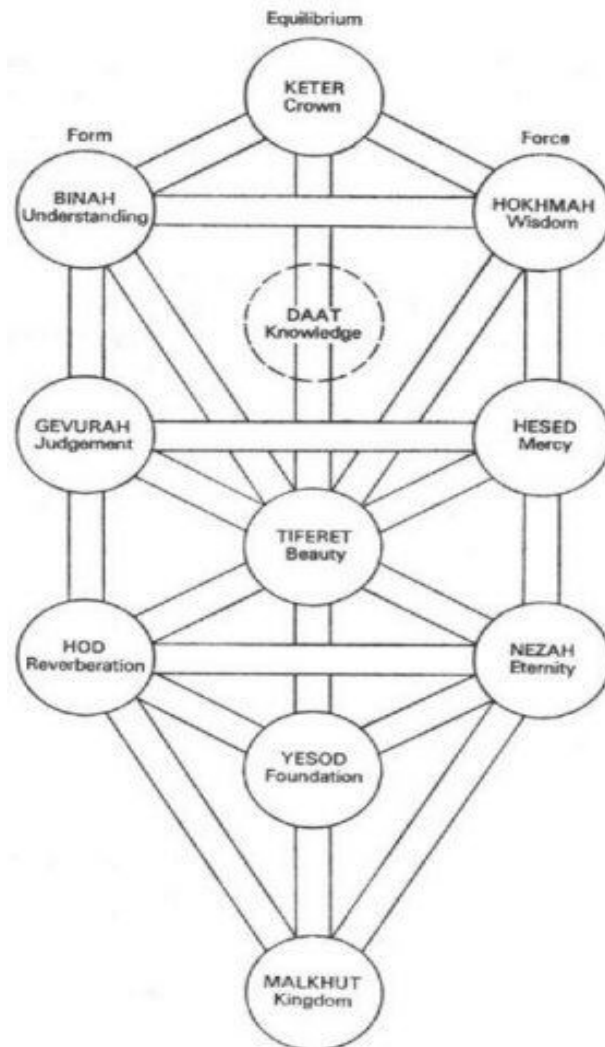

This level gives us power in relationships and sexuality. This is the seat of emotions in your mind.

HOD

This is the level where one begins to learn and apply the secrets of Magick in their life when they become aware of the higher forces in their life and Consciousness. This level could be considered as the Subconscious Mind. Here is where a person opens up to Astral Travel, perhaps at an unconscious level while dreaming.

MALKUTH

This level can be considered as The Conscious state. The Awake state. This is the root of the Tree of Life and sometimes the root of problems.

The Tree Of Life

As you ascend up the Tree of Life and become more familiar with the states of consciousness associated with each Sephira, you will automatically become more attuned to various vibrational energies being sent out from others and this is where you will begin applying this knowledge to Sex Magick Seduction Techniques. To become familiar with each of these states, you should either practice Meditation and/or Hypnosis. You will learn through your practice how to identify each of these states and how they interact with your everyday life. Additionally, each of the Sephira corresponds to a tone on the musical scale, which is why so much Magick deals with chanting and mantras. Each Sephira also corresponds to a planet and an astrological sign.

THE POWER OF VISUALIZATION

MEETING YOUR IDEAL LOVER USING SEX MAGICK

Visualization is basically using your imagination to bring into your life anything you desire, be it love, money, things lost, etc. The magickal use of visualization will assist you to bring into your life romance with exactly the type of person you want.

Now, if you stop for a moment and think about the exact type of person you desire, that person will have several characteristics based on your own unique criteria. Sometimes, however when we consciously think about the type of lover we desire, in reality it becomes a nightmare. This is because the conscious mind is easily tricked by “beauty” and illusions. One of the best ways to get the lover you truly desire is to ask your subconscious for its assistance. On a subconscious level, you already know who you would be best suited to meet. You can do this through hypnosis, meditation, or simply daydreaming.

The key to this is each of these processes puts you into an altered state of consciousness where you can access and harness the incredible powers of the subconscious as well as the Collective Unconscious as mentioned in the previous chapter. As you visualize yourself ascending each level of the tree of life, you will ask your subconscious and the Universe to show you what type of person would be ideal for you at this present time. This person exists and is out there now, somewhere. Your conscious mind isn't aware of this fact. But the subconscious is aware always, and through the connection you will soon develop with the Universal Consciousness, you will receive many insights as to the type of lover you really desire.

Now, it may take a few times in meditation or hypnosis for the image of your ideal lover to coalesce. When your ideal partner does come into your mind, it may be only for a brief second. It could be like a snapshot. This is good. It may even come to you in a surprising place in a strange way such as while driving your car. The important thing is that you ask the guidance of the “Higher Power” that lies within yourself in your Subconscious Mind. After you begin to get a clear image of your ideal lover, soon you will find that you will have urges to go to new and different places.

Now that the message is out there in the Universe, the energy of the Universe it self has been called forth and has touched your lover in a way that puts them on “alert” so to speak. As you begin to go to different places, you will soon find that person, exactly as they appeared to you in your mind. There will be an instant attraction

because they have already seen you too. This is an incredibly powerful tool which will enable you to attract that ideal person into your life.

SEDUCING SOMEONE YOU ALREADY KNOW

If you have a person in mind that you really want to become more intimate with, yet they are either not sure, or flat out don't want you, this method will have them literally begging on hands and knees for you to give them some attention after you apply it. Here, what you do is clearly visualize the person of your affections. Bring them close to you in your mind. As you do this procedure, you should be in a comfortable place, alone with no distractions.

Before bed is a great time to do this. Now as you visualize this person, what you do is to imagine that your mind is going into their body and see through their eyes. Then imagine them seeing you and becoming very attracted sexually to you. Watch yourself through their eyes playing "hard to get". Let your mind just drift while you do this and don't worry about this seeming silly because you will notice very soon that the person has started to think about you in a different way. And when they approach you in "reality" be a little aloof. Play a bit "hard to get" and they will not understand why they are becoming totally attracted to you. Do this every night until you get the results you desire.

TANTRIC SEX MAGICK

This technique is very similar to the one above. You will visualize the person that you are trying to seduce. Bring the image of them very close and make it as clear as possible. Then imagine very vividly that the two of you are together in a very romantic setting. Begin visualizing that you are kissing each other. But when you do, I want you to make it seem as real as possible.

See what you would see, and hear what you would hear, and feel it to the fullest while you are doing this visualization. Then as you are imagining these things, you will masturbate yourself. Make sure nobody will disturb you during this process. You will imagine the sensations of touching the person you desire and caressing them. You will notice positive responses from them. You will imagine touching their genitals and kissing them all over their body. Hear their voice telling you "YES!" It is important to make this sensual scene very, very real. The reason this works so powerfully is that the subconscious can not differentiate between a vivid imaginary scene and a real one.

At an unconscious level, you will begin to respond differently to the other person and you will at the same time send subliminal messages to their unconscious as if you have had sex with them already. To really give this process a double whammy,

if you are male, masturbate yourself to just about the point of orgasm, then stop. Don't come. The power behind this is a theory from the teachings of Tantric Sex which stipulates that if you masturbate to just before climax but don't come, you develop a very powerful and confident personality. You are holding in your "vital energy".

It has been said that Rasputin did this as well as Hitler. I wouldn't advise doing this for more than a week without coming because it has been known to cause madness. Have you ever noticed how tired you become after sex. After sex with a woman, the man has given his vital energy contained in the semen to the women. That is why men want to sleep and women want more sex. If you do come into the woman, which I would advise against for various reasons, one way of getting back your vital energy, according to Tantric Buddhism is to eat the semen from your woman's vagina. Also doing this has an extra bonus because you are receiving her vital energy as well mixed with yours.

The following are Tantric techniques to build sexual energy:

Focused eye contact

Synchronized deep breathing

The "bliss" breath

Touch, stroking

Stalking one another

Circling around holding hands

Anointing one another with scented oils

Teasing, retreat

Dancing, pelvic thrusting, Flagellation, Simulated sex

Fantasy visualization

ENERGY CENTERS-The Chakras

The physiological roles of the chakras are roughly as follows:

The root and belly chakras are related to generative and sexual functions

The solar plexus chakra is related to digestion.

The heart chakra is related to the heart and circulation.

The throat chakra is related to the lungs and the voice, including the ears, nose, and throat.

The third eye chakra is related to vision, the eyes, and the pituitary gland.

The crown chakra is related to the brain, and especially the pituitary and pineal glands.

It does take some time and practice to master these techniques. Another thing you might try is to imagine a beam of energy going from the center of your chest to the chest of the person you are trying to influence. Practice everyday, everywhere. When I go out, for example, if I am standing in line at the supermarket, and I see a woman whose attention I want to get, I will imagine that I am sending a powerful beam of light to her through her chest with the message "you will notice me". After a few moments, she will turn around and notice me. It's amazing. This is good practice, and nobody knows what you are doing.

Also send mental images of sex to the woman. Send this into her epsilon point, the spot in between the eyes. This is known as the Third Eye (see diagram above). Send the mental message from your epsilon point. You will notice that she will start doing things like playing with her hair, rubbing the back of her neck. She will start looking left and right, but won't know what you are doing to her.

RADIONICS, TELEPATHY, AND PSYCHIC COMMUNICATION

RADIONICS

Radionics deals with the amount of Psychic Energy, or chi, a person emits and how to use this energy to influence others in the world around you. The basic theory for this type of Magick is that everybody and everything in existence has a Universal Energy Pattern which is uniquely its own. As you become better at your skills, you will be able to tune into a person's Signal. Its sort of like a homing beacon. You create your own Psychic Energy. There are devices sold which can assist you in creating more Energy for yourself so you will more easily be able to psychically influence someone whom you wish to seduce sexually. It doesn't matter the distance from your target for you to get incredible results using this method.

The Energy Signal emitted from each person vibrates at a certain wavelength. It is measured in Hertz. You don't have to buy "Black Boxes" to attune to a persons Signal. Just use alpha state meditation and get the feel for the person you want to control the thoughts of. When you "feel" as though you have locked on to their energy frequency, you will then be able to send your thoughts and your desires to them, instantly. It is often helpful to have photos, hair samples, or personal belongings or the like of the person you are attempting to psychically influence. Then proceed to use any of the following methods to bring them to submission to your will.

DEVELOPING MENTAL TELEPATHY FOR SEDUCTION

The skill you are about to learn will assist you to know and understand someone you want to get to meet before you actually meet them. You will learn how to develop your intuitive senses easily with this method.

First you start off by emptying your mind. You clear your mind as much as possible of thoughts and cares. You then begin to focus on the person whom you want to seduce. Just open your mind and allow yourself to receive psychic information about them. Images and thoughts and perceptions will start to naturally flow into your mind about your target. Notice where the images go as they enter your consciousness. I have found that it is very helpful to have soft relaxing music playing while utilizing this procedure. You will know the difference between images coming from your imagination and images received psychically easily by just letting the process flow naturally. Don't force any thoughts. Continue concentrating on the person you wish to seduce until you feel as though you know what you desire to know about them.

After a while of practice using this technique, you will find that you won't have to enter into any special state of meditation. You will automatically find yourself just picking up peoples thoughts by being in close proximity to them. This will cause

anyone you are attracted to to notice you, because you will be sending out psychic vibes on their wavelength which will cause them to immediately notice you and become very attracted to you instantly. When you do pick up an intuition, say so. Tell them that you have an intuition about them. They will become very curious about what it. Then tell them your intuition. They will be amazed at how much you understand them.

I would like to forewarn you about a possible drawback to this technique. I recently visited a hair stylist. She was very beautiful and liked me a lot. I never met her before. I started picking up on all sorts of information about her. I asked her “how is your husband doing”. Mind you she wasn’t even wearing a wedding band. She was amazed. She asked how I knew that she was married. I told her I just sensed it. She swore I knew her and must have been spying on her, or that I must have been sent by her husband to check on her faithfulness. Anyway, the point is that if you let people know that you know a lot about them, right away, sometimes they won’t like it. Especially if they are hiding things. This woman had a habit of cheating on her spouse. Use your discretion at all times.

UNIVERSAL ENERGY AND TELEPATHY

As we previously discussed, the Universe and everything within it is composed of Energy. The Energy of the Universe has been called many things by many cultures: chi, ki, qi, xi. It all amounts to what we will call Psychic Energy. To learn to harness and use this Psychic Energy is vital to your success in applying the amazing principles laid out in this book. When you learn to master Psychic Energy, you learn how to shape energy with the power of your thoughts alone. You learn to create your reality and the world around you. Einstein stated that Energy=Matter.

As you improve on your visualization skills, you will begin to notice that whatever you concentrate on, vividly, will tend to manifest itself in your external world. An ancient maxim of Magick is As Above So Below, meaning simply you create an “Archetype” of your desires in the energy fields, the ethereal world, or astral planes. This thought form becomes a reality of Psychic Energy. If you are imagining, for example, a specific type of person to meet, Your concentration on that form sends energy patterns into the Universal Field, which in turn creates a void, or vacuum on the planet.

Since nature abhors a vacuum, the person which you have visualized upon will come into your life very soon. Use this principle to create love, wealth, or anything else you desire to bring into your life.

Use these incredible powers only for good, lest the law of Karma come upon you. The law of Karma states simply you get what you give. If you do good to people, good will come to you. If you do wrong to people, bad thing will come to you. Use these powers for the highest good of all concerned and improve your life immediately!

THOUGHT PROJECTION OF SEXUAL IMAGES

Here I will show you a method to insert seductive images of sex and lust into someone's mind. You will now learn how to project mental images of yourself being with the other person sexually, and they will think it is their idea. Say you are at a night club or a bar. And you notice someone you find attractive and want to seduce. What you do is to simply go into a mild trance state. Next, begin to body match them. Begin to notice their rate of breathing by watching their chest move up and down. Breathe with them. This is similar to what hunters do when chasing deer. Get into a similar body position as they are. Move when they move, and how they move. If they take a sip of their drink with their right hand, follow along. They will not notice consciously, but their unconscious will notice and this is where the magick is.

You are now on the same wavelength as they are. Now you can begin to take control of their thoughts. Clear your mind as shown in the previous chapter. Now begin to visualize you and your subject engaging in sexual activity. After you have this image in your mind, begin to send the image to them. Just let the image easily float from your mind into theirs. Imagine it as a gift you are sending them. Send it with your Mental Powers of Projection. Soon you will find that they will start to look at you, then dart their eyes away quickly.

This is good. You have made quite an impression upon them at this time. They will be dying for you to come and talk with them, yet don't right away. Let them get more curious over. If you want, let them make the first move, which they will do because in their mind they have already enjoyed having sex with you. You will be rolling out of the clubs every weekend with anyone you desire using this technique.

MAGICKIAL RITUALS AND SPELLS

CANDLE MAGICK

Candle Magick is a very powerful tool to use when trying to seduce someone. Basic candle magick deals with only two colors, white and black. When using candle magick for seduction, you will need a red and pink candle as well. Red candles are for sexual potency. Pink candles are for love and attraction. You will need olive oil as well. First use: light the white candle, while visualizing a white purifying light, emanating from the top of the Tree Of Life surrounding you. Ask the light to purify you. Next use: light the black candle to remove all negativity from your life. Visualize all your problems, situations, and people which cause you trouble to begin to disappear while surrounded by the Light of the Universe. For seduction purposes, to begin, you will need to visualize the person you want to seduce.

Once again the powers of visualization in accordance with your will is critical to success in this, or any other form of Magick. You will visualize what you want from this person, when, and how. After you have meditated on your desire for a while, you will then need to prepare the candle for this ritual. You anoint the candle with the olive oil from the base of the candle to the tip while your desire is firmly in your mind. After this you light the red and pink candles. You can use chanting if you desire, which will tend to make this process more powerful. Say something like the following example: "(Persons' name), come to me", "bring love", "you want me", "(Persons' name) desires to be with me sexually". Visualize the person of your desires being yours and wanting to be with you sexually.

Chant your chant for as long as you can while visualizing your purpose. While chanting, use a monotone humming voice. You should create a specific chant for your purpose. It can be as simple as one word or as complex as you wish. After you decide you are finished or when you cannot chant and visualize any longer, put the candle out and repeat the spell the following night (or day). After you see the first glimpse of the results of your spell, let the candle burn all the way out.

Remember, after the completion of any spell or ritual, always say:
"So mote it be" or "So be it."

THE MIRROR

To use this amazing technique, you will need a mirror. Go to a quiet place and place the mirror in front of you in a position so you can see yourself. The bigger

the mirror, the better, preferably a full length mirror but this can be done with any mirror. First of all what you do is prepare yourself by closing your eyes and taking several deep breaths. After this, you will naturally become relaxed. Now with your eyes still closed, imagine yourself as you would look if you were very attractive and desirable to members of the opposite sex. Step into this image in your minds eye, Feel the confidence radiating from within as you begin to notice people being almost magnetically drawn to your essence. See yourself surrounded by the type of people you desire while doing this exercise.

Continue to hold this image in your mind while you open your eyes, and take a deep breath, and look at yourself in the mirror. Stand in front of the mirror and view yourself with the image of the ideal you still clearly in your mind. Imagine the image in the mirror is becoming the ideal you. Next you will begin to chant these words: "You are attractive" "You are very appealing to anyone you desire" "You radiate a natural self confidence while around members of the opposite sex." Continue repeating these words until you are feel associated with this new part of yourself and begin to integrate it into your life.

To make this technique even more powerful, you may a candle in front of you. Perhaps you may like to place rocks in the shape of a circle in which you can sit inside of while you use this method. The energy of the rocks will help to ground you to the earth and center you while doing this.

BODILY FLUIDS

I am writing this to make you aware that this form of Magick exists. I must in advance warn you that I don't personally condone or encourage any of the following examples because of the possibility of spreading disease as well as ethical reasons. So I don't get sued, the examples are here for informational purposes only! But, do what thou wilt.

In many forms of Magick, bodily fluids are used to produce a specific result. For example, a woman can cause a man to totally submit to her will by any of the following: Putting her menstrual blood into one of his favorite beverages. Urine is used in the same way. Women in some cultures have even saved their male partners' semen, dried it out into a power, and put it into his food. This has been used to create obsession in a wayward man, even to the point of complete madness. Men have also used bodily fluids on unsuspecting women which they want to seduce. They will place a small amount of their urine, semen, or blood into a favorite beverage. This has the effect of causing to surrender totally to the man's will.

SCENT

Another variation of this is through the use of scent, or subconscious scent known as pheromones. A man may wear a woman's shirt, just long enough to put a light amount of his bodily sweat on it. Sweat contains the sexual pheromones of an individual, which a sensor in the nose picks up, and sends sexually arousing feelings to the individual receiving it. A woman can use the same process. This is a way to keep a person's mind on their lover constantly.

This is similar to the pheromones babies emit. Have you ever noticed when a baby is around, women go nuts? And the closer they get to the baby, the more nuts they go. Why? Well the baby emits pheromones which drastically alter the way women respond to them. Women have a strong maternal instinct which is triggered subconsciously when they receive this scent. To keep your natural pheromones, without smelling like a beast, or covering them up with unnatural deodorants, I would recommend using lemons or limes under your arms. Actually any citrus fruit will do because the acid in the citrus fruit kills the stink causing bacteria, while allowing the pheromones to still be active.

Incense is always good to use when performing any magickal ritual. It is also very good in creating a romantic ambiance when seducing someone. HYPNOTECH offers many pheromone sex attractants which are very powerful when combined with the techniques in this book. One product which I strongly recommend are the Incense Sticks from Uneet. These contain powerful pheromones which work on men and women alike. Hypnotech offers a wide variety of hypnosis and subliminal products. HATHA YOGA

Yoga is very useful in the practice of Sex Magick. I will show some simple exercise which anybody can do. It doesn't take years of training with a guru to learn it either. Hatha Yoga has certain beliefs about the powers gained through controlling the mind by controlling the body. You first learn to breath properly.

Most people breath too high in their chest cavity, therefore depriving the body of necessary oxygen to function properly. This technique is called the “Breath of Fire”. It is used to align the charkras in your body to their proper order. By the way, each chakra relates to one of the worlds in the Tree of Life.

In magick, every learning effects the next, and it all becomes integrated. To do the breath of fire, you sit cross-legged on the floor with your back straight. This is necessary for proper alignment of the chakras because they run along the spinal column. The Yogis believe that there is a source of power at the bottom chakra, at the base of the spine. This is known as kulindi and is represented as a serpent. The object is to gain power and strength by releasing your kulindi. To do this, while in the sitting position, you begin to breathe from your belly. Push your stomach out on the in breath, and push your stomach in on the out breath. Breath through your nose. Take several slow, deep breaths in this fashion.

Next you will do the breath of fire. Breath in the same manner, but very rapidly for about 5 seconds. Tighten the muscles in your groin while doing this exercise. For men, the benefit is increased sexual stamina and prolonged erections. For women it produces heightened orgasms and a tighter vagina. You need only practice 5-10 minutes per day to gain the full benefit of this technique.

CONCLUSION

One final word on Sex Magick. Never force anyone to do anything they don't want to do. Only use the secrets contained herein if you are comfortable with them.

Remember the Law of Karma. Use your new skills wisely and in every area of your life in which you want total success!

The opinion of the author of this amazing book is that most religion is bullshit. Most religious organizations are filled with people who have to belong to something. Followers who need a reason to exist to justify their pointless existences. That type of person eventually becomes the kind of person who wants to tell you how you, or I, or anybody else has to live our lives. They say we have to follow their moral code or else we were going to suffer hellfire and brimstone. They have been brainwashed. In the movie "Angel Heart" The Devil stated "There's enough religion in the world to make men hate, but not enough to make them love". Except the love of money I would say. Any individual who knows the truth, and the secrets of Magick is aware that they are the final authority in their own life. This includes a sense of Spirituality, which is from inside a person and is not the same as a Religion with all of it's dogma.

This book does not condone or endorse any religion. It doesn't endorse anything except what works. I want you to take these skills and use them any way you see fit. I have presented here raw facts about the amazing subject of Sex Magick. No wishy washy, tree hugging crap here, just how to get what you want, and fast!

Alister Crowley stated "Do what thou wilt shall be the whole of the law". This is known in Magick as the Law of Thelma. This work is an expression of My Will. It has worked in my life and many people I know, and I hope in yours as well.

Now do what thou wilt.
