JABRA BIZ™ 360

ENJOY THE TRUE SOUND OF UC IN THE OFFICE

The Jabra BIZ 360 brings instant value to Unified Communications (UC). Offering true wideband sound Jabra BIZ 360 gives you excellent audio quality and hands-free working for even greater efficiency. Based on years of experience, this value for money headset gives you the basic functions you need to unleash the potential of UC in a typical office environment:

- True wideband audio quality¹
- Compatible with all leading UC applications
- Easy call handling directly from the headset
- Noise-canceling microphone and duo speakers

CHOICE OF MONO OR DUO SPEAKERS

The Jabra BIZ 360 targets users in all-round office environments who spend up to 3 hours a day on the phone. The noise-canceling microphone suppresses unwanted background noise so your caller hears every word clearly, cutting down on misunderstandings. With a choice of mono or duo speakers, you can concentrate on your calls without being distracted – even in noisy open plan offices. On-device call-controls let you adjust volume, answer, end and mute calls directly from your headset, so you can focus on what's important: Your caller.

Jabra BIZ 360 is available in two versions: A standard version, which is compatible with all major UC applications via the Jabra PC Suite, and a special version optimized for seamless integration with Microsoft® Lync™ 2010. Simply connect Jabra BIZ 360 to your computer – no need for additional software or drivers.

¹ True Wideband Sound: Jabra USB headsets provide a full frequency response up to 6,800 Hz for optimum call clarity resulting in significantly less need to ask customers to repeat themselves.
