

FINNLIFE[®] LOG CABINS

MORE SPACE TO LIVE,
WORK AND PLAY

MORE SPACE TO LIVE, WORK AND PLAY

For today's busy and active lifestyle, whether it be hobbies, sports, entertaining, running your own business or simply relaxing in the garden, we could all use that little bit of extra space. Metsä Wood Finnlife® log cabins allow you to spill out into the garden and make the most of the space you already have.

The quality of design and manufacture is second to none and yet they are surprisingly easy to build. Here at last is your very own gymnasium and sauna, your quiet garden hideaway or party zone, your garage, your art studio or your home office. Some cabins may require planning permission, please contact your local council for details.

QUALITY CONSTRUCTION

All Metsä Wood Finnlife® log cabins are produced from the highest quality Nordic softwood, sourced from well managed and sustainable forestry.

Log thicknesses vary from 19mm to 44mm depending on the model, and all provide a solid and durable structure to enjoy. All come with a range of quality fittings and most are finished with green shingle tile roof coverings and have tongue and grooved fitted roof and floor boards as standard. The log cabins are adaptable and some can be enhanced by adding a sauna, underfloor heating, insulation kit, flooring pack, guttering kit and security alarm.

[p.19 for details](#)

* RIEKKO, PEILI, AND VALO HAVE EXTERIOR GRADED BOARD ROOFS AND FLOORS.

PLEASE NOTE SOME CABINS MAY REQUIRE BUILDING AND PLANNING APPROVAL DUE TO REGULATIONS.

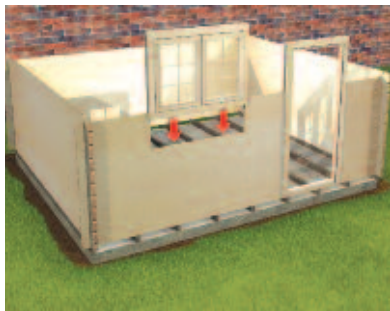

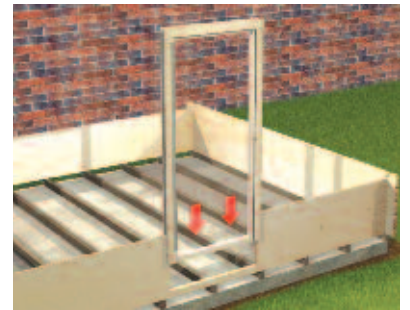

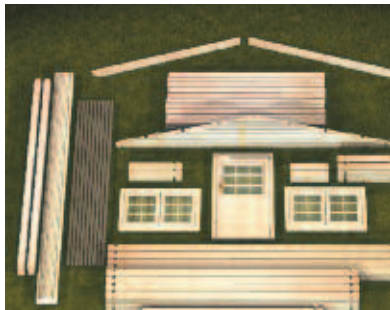

PLEASE CONTACT YOUR LOCAL COUNCIL FOR DETAILS.

SIMPLE TO BUILD

Building your Metsä Wood Finnlife® log cabin using our well-illustrated, step-by-step plans (supplied with each cabin) to guide you through every stage of construction is simple and straightforward.

The result is a professional-looking job that you'll be proud to call your own. The diagrams shown below are intended to give you a feel as to how simple these cabins are to build. However you should refer to supplied instructions before assembly.

No problem if you don't have the time or the inclination to do the job yourself – any reputable builder could do the job for you.

NOTE: CABINS COME WITH SQUARE GREEN ROOF SHINGLE TILES, FELT OR EPDM ROOFING

OPTIONAL EXTRAS

INSULATION KITS

These insulation kits will dramatically reduce the heat normally lost through your cabin roof and floor. This kit contains sufficient insulation and fixings for both floor and roof. The kits are easy to fit and come with all the necessary components including insulation sheet material, battening and timber panels.

ROOF INSULATION

FLOOR INSULATION

FLOORING PACKS

Each pack provides sufficient flooring to cover the entire ground floor of the cabin. Easy to maintain, hygienic and highly durable, laminate flooring utilises a precise installation locking system and is available in an Oak finish.

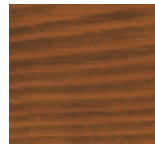

LAMINATE FLOORING
OAK (3 STRIP)
6mm THICKNESS

WOOD STAIN & PROTECTOR

The full range of Osmo Exterior Wood Stain & Protector is available for all the cabins featured in this brochure. This treatment offers weatherproofing, UV resistance, protection against algae and mildew and is water repellent. It provides a satin-matt finish in just 2 coats with a 2.5 litre tin covering an area of 30m² *. It is available in 5 colours:

* depending on application

WALNUT

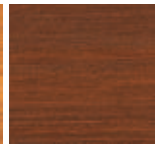

OAK

FIR GREEN

RED CEDAR

TEAK

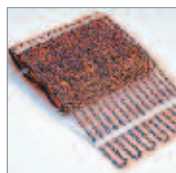

SECURITY ALARM

This compact and easy to install motion detector alarm gives added security to your cabin. The passive infrared beam detects movement up to 20 feet away and emits an ultra loud 125dB siren, whilst the automatic telephone dialler* (to 3 programmable numbers) means it will automatically contact you should an intrusion occur.

* Note: Wired or wireless telephone connection required

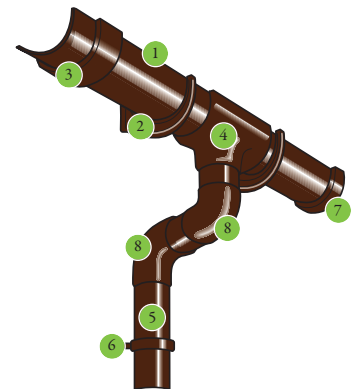

UNDERFLOOR HEATING KITS

Underfloor heating is economic and controllable at the touch of a button, an ideal optional extra when purchasing your cabin. It fits on any subfloor and under any floor covering as a primary heat source. The system is easy to lay and requires a Part P qualified electrician to complete the installation.

GUTTERING KITS

Most cabins have optional guttering kits, complete with fitting instructions and all fixings (some cutting may be required). The gutters are finished in dark brown and complement the natural colour of your cabin.

1. Guttering
2. Guttering brackets
3. Joiners
4. Outlets
5. Down pipe
6. Down pipe brackets
7. End closures
8. Angle bends

The brackets are specially designed to fit the cabins' angled fascia boards.

For more information and a list of stockists in your area visit www.metsawood.co.uk or call our consumer helpline on 0845 602 4773 (calls charged at a local rate).

Metsä Wood is a wood products company delivering service-oriented solutions developed in collaboration with its customers. Its premium solutions are based on ecological, high quality Nordic wood as a raw material.

Wood is the only building material that is truly renewable, if well managed. Forest certification schemes give assurance that the timber is legal and from sustainable sources. Metsä Wood sources certified timber over uncertified and is an approved Chain of Custody supplier.
