Show next / previous Group

Navigate Pattern view by eight Patterns

Navigate Pattern view by one Pattern

Show Master output, Group output, external input or Cue level on level meters

Navigate between Scene or Section banks

Change the Scene assigned to a Section in the Arrange view

Set a loop between Sections in the Arrange view

Change the length of your loop in the Arrange view

BROWSE

Scroll the result list in steps of ten entries

Load next / previous preset

Set Favorites

Restore a previous filter

Reset and jump to the beginning

GRID

Choose between common Pattern Grid settings

PAT LENGTH

To set the length of your Pattern in bars, press any click-pad on the 8x8 click-pad Matrix...

... or use the Encoder to set the length of your Pattern.

GLOBAL FUNCTIONS

Hold SHIFT to fine edit parameter values. This also applies to some on-screen overlay parameters.

Hold CLEAR and tap on a Smart Strip to clear modulation from a specific parameter.

While holding MACRO, LEVEL, AUX, CONTROL, TUNE or SWING, double tap on a Smart Strip to reset the parameter to default.

Switch between pinned and toggle behavior (e.g. MUTE, SOLO).

STEP

Select the number of Sounds you want to sequence in STEP mode

Navigate through Pattern pages

Jump to a specific Pattern page

Jump to a specific Pattern page bank

Activate Pattern Follow

You can erase events of a specific Sound (PAD MODE) or notes of the same pitch (KEYBOARD) under the playhead.

STEP MODULATION AND QUICK EDIT

Edit the parameters that are currently visible on the Smart Strips for one or more steps.

Edit the velocity of one or more steps.

Edit the note length of an event in Step Grid increments.

Step Modulation and Quick Edit can be used for both Step and Piano Roll mode. You can edit several notes or steps at the same time by pressing and holding them.

KEYBOARD

Show next / previous eight Groups

Show next / previous Group

Note Input

ARP

Choose an ARP preset by pressing one of the Scene click-pads.

PIANO ROLL

One octave up / down

One semitone up / down

VARIATION

Apply VARIATION settings

MACRO / CONTROL

While holding the MACRO or CONTROL click-pad:

► Show Macros or Controls for Sounds on the Smart Strips.

► Show Macros or Controls for Groups on the Smart Strips.

► Show Macros or Controls for Master on the Smart Strips.

 The flashing LED indicates the focused Sound, Group or the Master and their controls on the Smart Strips.

Navigate through plug-in slots

Show next / previous parameter page

LEVEL / AUX / TUNE / SWING

While holding the LEVEL, AUX, TUNE or SWING click-pad:

► Show Levels, Aux levels, Tune or Swing for Sound 1-8 on the Smart Strips.

► Show Levels, Aux levels, Tune or Swing for Sound 9-16 on the Smart Strips.

Hold SHIFT + LEVEL to show the panning for either the Groups or the Sounds on the Smart Strips.

Hold SHIFT + AUX to show AUX 2 for either the Groups or the Sounds on the Smart Strips.
