**“Hard work spotlights the character
of people: some turn up their sleeves,
some turn up their noses, and some
don't turn up at all.”**

-Sam Ewing

MCR SAFETY

Grab work by the tail as morning breaks. Work full-steam-ahead all day. Work's second wind blasts the afternoon to pieces. Bring it on, work!
Bring it on.

Hard, hard work demands hard working gear. Hard work produces hard working gear. Hard work is its own reward!

People who work hard know that MCR Safety performs. Our gear defines the PPE category – in Gloves, Glasses, and Garments. Our service levels define the industry.

Distributors count on us to deliver no matter what.

Buyers know their team will work at top capacity in MCR Safety gear, shattering their own limitations.

MCR Safety manufactures its own core product lines and has logistics down pat. Consistent quality is just the first step, the minimally accepted standard. We are on the quest for something better, the Max. Max, the ideal. Max, the ultimate goal. Max, the icon – a guardian that shows us just how bad ass it is to play it cool when the world is red hot and the workload looks murderous. Max plays it cool. Max means protection. Max gets it done, always.

Meet Max, the new logo of a company with a strong, single heart and a three-headed product line. One glance at this force of nature and you'll get a sense of how hard we work.

How hard? Well...

**JUST TRY
TO OUTWORK US**

WE'VE DRESSED IT UP A BIT. HERE'S WHY

MCR Safety, a brand that means business.

We are on a relentless quest for excellence ... the ideal, the ultimate, the Max.

This determination can be seen in all our products. It's the expertly crafted Zoombang™ technology made into our gloves, our safety glasses engineered to achieve a military ballistic level impact resistance at over 1000 feet per second, or our safety vests, equipped with unique patented elastolite® technology and strobing lights for added visibility.

Every single day, we work hard to bring our customers the very best gear in the business. That means a constant drive toward bettering ourselves, our products and our processes. We bring you a product line that always keeps you safe and protects against hazards.

Our mascot, Max, is the ultimate symbol of how we do business. He's a protector, a guardian, an overseer of all those who wear our gear. Max takes care of business – whether that business is on top of a skyscraper, at the bottom of a ditch, on a desert highway or at a materials handling plant. Max is a force of nature, which is just how we work.

WHO WE ARE

We are MCR Safety.
Just try to outwork us.

FEATURES

Deerskin Drivers

- Naturally Soft with an excellent for sense of touch. All day comfort with less hand fatigue.

Pig Leather Drivers

- Useful in wet applications, due to pigskin's ability to remain soft after being exposed to moisture or water. Hair follicles allow the leather to breath.

HAND PROTECTION TEST METHODS

CE SCORES - EUROPEAN DIRECTIVES FOR PPE

A European Directive establishing harmonized standards for all PPE items used in the European Union went into effect during 2004. Many of our hand protection offerings reflect the CE logo and a 4 digit performance rating that measure abrasion, cut, tear, and puncture resistance (ACTP). Listed below are the four physical tests that are required for protective gloves under European Standard EN388 and the results necessary to obtain each performance level rating.

Criteria	Performance Guide for EN 388: Mechanical Hazards						
	Performance Level	0	1	2	3	4	5
A	Abrasion Resistance (Cycles)	< 100	100+	500+	2000+	8000+	N/A
C	Blade Cut Resistance (Index)	< 1.2	1.2+	2.5+	5.0+	10.0+	20.0+
T	Tear Resistance (Newtons)	< 10	10+	25+	50+	75+	N/A
P	Puncture Resistance (Newtons)	< 20	20+	60+	100+	150+	N/A

A glove's overall performance score is indicated by a series of four numbers (0-4). Note cut resistant scores can reflect 5 as their highest ranking. These four numbers represent (in order) the four test criteria listed above. The higher the numbers, the better the performance. Manufacturers may use an "X" to indicate not tested.

CPPT SCORES - ANSI/ISEA 105

In effort for our hand protection industry to have a standard performance level analysis, the International Safety Equipment Association (ISEA) in conjunction with American National Standards Institute (ANSI) created test protocol known as ASTM F1790-97. Many of our cut resistant products reflect scores based on the portion of this standard for cut resistance which was developed in 1997. This cut protection performance test is often referred to as CPPT. Changes to the cut resistant protocol are pending at this time and may be adopted. The pending test protocol may require revisions to our advertised scores.

This test method is significantly different than the CE cut resistant method. Cut resistance with a weighted gram load is measured in relation to distance to cut. A total of fifteen cuts (each with a new blade) are conducted. Five cuts each are made at three different gram loads. Test values are scaled based on the blade performance with a neoprene rubber material.

Recognize performance levels for CE and ANSI/ISEA 105 are different test methods and are calculated differently. Grams are used for the ANSI/ISEA 105 and the EN388 uses an "index" with a different scale for scoring. Test methods cannot be directly related. Different standards mean different performance at the same "level".

	Level 0	Level 1	Level 2	Level 3	Level 4	Level 5	
ANSI/ISEA 105							
Cut	Grams	< 200	> 200	> 500	> 1000	> 1500	> 3500

LENS COLOR DESCRIPTIONS

Lens tints are not merely decorative, but enhance a worker's vision under various lighting conditions. Following are different lens options, their applications and percentage of **visible light transmission (VLT)**. Please remember that these are general definitions only. Consult your safety director to insure the proper application.

Duramass® AF4 Anti-fog Coating: Provides excellent fog prevention in high humidity environments where sudden shifts in temperature occur.

- **Clear:** Provides excellent optics for general applications where impact protection is required. 85% VLT.
- **Light Gray:** Serves the same purpose as gray lens, yet allows more visible light through the lens for indoor/outdoor use. Reduces glare from artificial light such as halogen and fluorescent. 62% VLT
- **Gray:** For outdoor applications where light and glare can cause eye strain and fatigue. 12% VLT.
- **Gradient:** For outdoor use where overhead glare may interfere with visual acuity. 18% VLT.
- **Amber:** Blocks the blue portion of the visible light spectrum, creating maximum contrast enhancement, particularly in low light. 85% VLT.
- **Dark Green:** A general purpose lens that protects from excessive glare and ultraviolet radiation. 12% VLT.
-  **Fire, Blue Diamond, Emerald, Rainbow, Blue, Silver, Banana Mirror and Copper:** For outdoor use where sunlight and glare cause eye strain and fatigue. 'Mirror' coating reflects light, reducing the amount of light that passes through the lens. 9% VLT.
- **Brown:** Outdoor applications where sunlight and glare cause eye strain and fatigue. Meets color traffic signal recognition requirements. 12% VLT.
- **Indoor/Outdoor Clear Mirror:** Allows more visible light through the lens for indoor/outdoor use. Reduces glare from artificial light such as halogen and fluorescent. 55% VLT.
- **Vermilion:** Enhances contrast while reducing all colors equally for optimum color recognition. Ideal for indoor inspection. 55% VLT.
- **Light Blue:** Allows more visible light through the lens for indoor/outdoor use. Reduces glare from artificial light such as halogen and fluorescent. 70% VLT.
- **Blue Ice:** Protects from excessive glare, high levels of hazardous visible light and ultraviolet radiation in outdoor applications. 33% VLT.
- **Filter Shades:** Protects against ultra-violet and infrared radiation generated when working with molten metal, and in welding, cutting, soldering and brazing.
- **Polarized:** For use outdoors to protect from excessive glare that can cause eye fatigue.

WELDING FILTER SHADE SECTION

OPERATION SHADE	RECOMMENDED FILTER SHADE
Torch Soldering	2
Torch Brazing	3
Light Cutting up to 1"*	3
Medium Cutting 1" to 6"*	5
Heavy Cutting more than 6"*	5
Gas Welding, light, up to 1/8"*	5
Gas Welding, medium, 1/8" to 1/2"*	5

*Indicates thickness of material to be cut

LED2 LED LIGHTS

- Sold by the Pair.
- Uses 2 batteries which provide up to 48 hours illumination (2 X Panasonic CR2032 3V).
- 60 degrees of illuminated viewing area.
- Rotates 360 degrees, and provides capability to pan left to right which increases the field of light or narrows to illuminate a smaller specific area.
- Designed to provide maximum illumination.
- Clips onto Bearkat, Klondike, Klondike Plus and Triwear eyewear.

HEARING PROTECTION

MCR Safety's hearing protection is tested according to ANSI S3.19-1975 test standards.

Hearing protection is an important addition to our PPE products. OSHA states in the CFR29-1910.95 standard that whenever an employee's noise exposure equals or exceeds an 8-hour time-weighted average (TWA) sound level of 85 decibels measured in the A slow scale, a hearing conservation program must be administered.

EPDU32

Disposable Uncorded Soft Polyurethane (PU) Foam Earplug. Contoured design Expandable for comfortable fit. Polybagged by the pair. 200 pair per dispenser box 10 boxes/case (2000 pair)

EPDC32

Disposable Corded Soft Polyurethane (PU) Foam Earplug. Attached cord allows for greater accessibility when not in use. Contoured design Expandable for comfortable fit. Polybagged by the pair. 100 pair per dispenser box 20 boxes/case (2000 pair)

EPRU25

Reusable Uncorded Molded Silicone Earplug. Special flange design allows for maximum comfort. Polybagged by the pair. 100 pair per dispenser box 4 boxes/case (400 pair)

EPRC25

Reusable Corded Molded Silicone Earplug. Attached cord allows for greater accessibility when not in use. Special flange design allows for maximum comfort. Polybagged by the pair. 100 pair per dispenser box 4 boxes/case (400 pair)

FEATURES

- Soft P/U Foam or molded silicone options
- corded or uncorded
- Noise Reduction Rating (NRR) of 32db and 25db

RESPIRATORS

MCRN951 **NIOSH**
Cone shaped N95 respirator.
20/box 12 boxes/case

MCRN952 **NIOSH**
Cone shaped N95 respirator
with valve.
10/box 12 boxes/case

FEATURES

MCRN952

- N95 respirator with exhalation valve reduces heat and humidity providing a cooler and more comfortable fit
- Valve minimizes fogging on eyewear
- Adjustable metal nose band
- Low-profile design with smooth inner lining provides a secure seal

How to Measure:

For Chest / Bust Size - Measure just under the arms and across the broadest part of the chest area. Hold tape firm and level.

Waist - Measure around waist, over shirt (not over pants) at the height you normally wear pants.

GENERAL PURPOSE SAFETY VESTS

General Purpose Class Protection Work Conditions
 General purpose vests do not meet the requirements for performance level classification by ANSI standards. GP Vest are to be used for occupational activities where Class 1 protection is not necessary. GP vests are designed to give the wearer additional visual conspicuity beyond that of normal attire.

General Purpose Class Industry Applications:

- Yard maintenance workers
- Crowd control
- Warehouse workers
- Construction
- Parking lot attendants

MCR Safety recommends the use of Value Series Class 2 vests for any Class 1 requirement.

Should you need assistance in determining the most appropriate garment for any application, please contact MCR Safety (www.mcrcsafety.com) or ISEA (www.safetyequipment.org).

INCIDENT COMMAND VESTS

Many of today's environments require the quick identification of individuals coordinating or involved with site activities. Although incident command vests were initially designed for responders to disasters or hazardous situations, they are used in a wide variety of applications. These vests are used to help quickly identify the person or persons responsible for a particular area.

388R5 APRON
35" x 48" .42mmPVC, Aqua Green

DOMINATOR FEATURES

- Specially designed Hi-Tensile strength polyester double coated with 2 thick layers of PVC for a combined thickness of .42mm
- Limited Flammability ASTM D-6413
- Roomy construction
- Best protection against many chemicals and acids

DOMINATOR II

SM368 SMOCK One Size
.45mm PVC/Polyester Green

368R5 APRON
35" x 48" Green

DOMINATOR II FEATURES

- Limited Flammability ASTM D-6413
- Roomy Construction
- Quick release suspenders
- Full elastic suspenders
.45mm PVC/Polyester

CYCLONE

400J JACKET Sizes: M-X3
Jacket with detachable hood and storm fly snap front. Yellow

400BP BIB PANTS Sizes: M-X3
Bib pants with fly and take up snaps at waist and ankles. Yellow

400PW WAIST PANTS
Sizes: M-X3
Elastic waist pants with fly and take up snaps at ankles. Yellow

FEATURES

- Wave-lock nylon material coated on both sides with heavy weight PVC
- Flame resistant, ASTM D-6413
- Excellent tear and abrasion resistance
- Offers excellent resistance to most industrial oil, acids, and chemicals
- Thickest wavelock material available in the industry
.35mm PVC/Nylon/PVC

8402 SUIT Sizes: S-X5

LFR HYDROBLAST

LFR NAVIGATOR

FEATURES

- High quality nylon taffeta fabric with a non-breathable polyurethane over nylon
 - Limited Flammability NFPA 701
 - Double sewn and taped seams
 - Quick release suspenders
- .22mm Polyurethane/Nylon

550J JACKET Sizes: S-X3
Jacket with detachable hood.
Yellow

550BP BIB PANTS Sizes: S-X3
Bib pants with snap fly front,
quick release suspenders and full
elastic suspenders. Yellow

550C RAINCOAT Sizes: S-X3
49 inch coat with corduroy tip
collar, cape-vented back,
underarm air vents, badge
holder, slash pockets and
detachable hood. Yellow

WIZARD

3003 SUIT Sizes: S-X5
Complete 3 piece suit; jacket with detachable hood and bib pants. Yellow

300C COAT Sizes: S-X5
49 inch coat with detachable hood. Yellow

300J JACKET Sizes: S-X5
Jacket with detachable hood. Yellow

300JH S-X3 Attached Hood

300BP BIB PANTS Sizes: S-X5
Bib pants with fly. Yellow

300BF S-X3 No Fly

360C 60" RIDER COAT
Sizes: M-X3
Coat with detachable hood
Yellow

FEATURES

- Double coated PVC over 210 denier nylon scrim material
- "Rip-Stop" material provides excellent resistance to snags and tears
- Flame resistant, ASTM D-6413
- Protects against most chemicals, oils & acids
- Available with stitched and taped seams
.28mm PVC/Nylon/PVC

COMMODORE

6003 SUIT Sizes: S-X3
Complete 3 piece suit; jacket with detachable hood and bib pants. Yellow

600C RAINCOAT Sizes: S-X3
49 inch raincoat with cape-vented back; 2 patch pockets and detachable hood. Yellow

600J JACKET Sizes: S-X3
Jacket with detachable hood and storm fly front. Yellow

600BP BIB PANTS
Sizes: S-X3
Bib pants with fly and take
Yellow

FEATURES

- Heavy ribbed pattern of PVC on a soft lining of blended polyester/nylon
- Stays soft in cold temperatures
- Absorbs perspiration in hot weather
- Provides warm lining in cold weather PVC/Non-woven polyester/nylon

CHALLENGER

7002 SUIT Sizes: S-X2
2 piece suit; jacket with an attached hood, cape vented back, zipper front, additional pocket, and built in visor. .18mm Nylon/PVC material. Elastic wrists and a drawstring bottom. Elastic waist pants with a reach through pocket. Yellow

7032 S-X4 Blue

7368C COAT Sizes: S-X3
Reversible 49 inch raincoat, no hood. 2 slash pockets with reach through slit and underarm air vents with plastic grommets. Fluorescent Lime/Black

FEATURES

- .18mm PVC over a tough nylon material
- Available in yellow, blue, and red
- Tough, yet lightweight
- Exceptional safety award
.18mm PVC/Nylon

SCHOONER SERIES PONCHOS

Schooner II Poncho
.35mm PVC/Polyester poncho

 **2000 Yellow**

Schooner II FEATURES

- 52" x 80"
- Handy tote pouch
Schooner I only
- Attached hood
- Snap closure at sides
- One size fits all
.35mm PVC/Polyester

Schooner Jr.
.02mm Polyethylene poncho w/o drawstring
O20 Yellow

ZODIAC

O503 SUIT Sizes: S-X3
3 piece suit; jacket with detachable hood and elastic waist pants.

FEATURES

- .10mm single ply PVC
- Versatile garment at an affordable price
.10mm PVC Film

SQUALL

O722 SUIT Sizes: S-X5
Complete 2 piece suit; jacket with attached hood, zipper front, cape-vented back, underarm air vents and elastic waist pants. Clear

O703 SUIT Sizes: M-X5
Complete 3 piece suit; jacket with detachable hood and bib pants. Yellow

O70J JACKET Sizes: L-X2
Jacket with detachable hood. Yellow

O70BP BIB PANTS
Sizes: L-X3
Bib pants with fly. Yellow

O72C RAINCOAT
Sizes: S-X5
49 inch raincoat with detachable hood. Clear

FEATURES

- Single ply PVC
- Non conductive hardware
- Economically priced
- Excellent for plant turnarounds
.20mm single ply PVC

TYVEK®

FEATURES

- Inherent barrier protection against dry particulate hazards.
- Even after abrasion, stops microporous particles better than other reusable garments.
- The best balance of protection, durability and comfort.

TY120S Sizes: M-X4

Coverall with collar. Zipper front, open sleeves and ankles. No hood or boots. Serged seams. 25/case

TY127S

Model TY120S with elastic sleeves and ankles and attached hood.

L-X4 25/case

TY210S

Lab coat with collar. Front snap closure. Open sleeves. No pockets. Serged seams.

L-X4 30/case

SPUNBOND/ POLYPROPYLENE

FEATURES

- 1.25 oz. Polypropylene
- Excellent for splash protection from water and non oil based liquids
- Breathable comfort and ease of disposal
- Serged seams
- Sold in case lots

12WPC COVERALLS

Coverall features a zipper front with open wrists and ankles. White

12WPL LAB COAT

Coat features turn down collar, open sleeves, two pockets and button closure. 25/case

STOWAWAY

FEATURES

- .25mm-2 sheets of PVC laminated together
- 2-ply construction provides excellent flexibility
- Jacket and coat have a cape-vented back for added comfort .25mm 2 ply PVC

1003 SUIT Sizes: S-X5

Complete 3 piece suit; jacket with detachable hood, cape-vented back, underarm air vents and bib pants. Yellow

100J JACKET Sizes: M-X3

Jacket with detachable hood. Yellow

100BP BIB PANTS Sizes: M-X3

Bib pants with fly. Yellow

1202 SUIT Sizes: M-X3

Complete 2 piece suit; jacket with attached hood, cape-vented back, underarm air vents and elastic waist pants. Yellow

100C RAINCOAT

Sizes: S-X2

49 inch raincoat with detachable hood. Yellow

COVTECH™

CT365PHE Sizes: S-X4

CovTech™ White Coverall with elastic sleeves & ankles, attached hood.
