

necesse

Necesse is Medihelp's income-based network option which offers primary and hospital care at a network of private providers at a highly competitive rate.

necesse (network option)

18

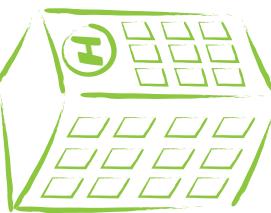

- This option has no overall annual limit and focuses on making private healthcare services more accessible.
- Contributions are based on income and a network of private healthcare professionals provides access to quality care.

Day-to-day benefits

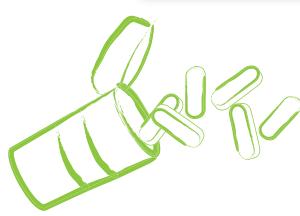

- Choose any doctor within the Necesse network of over 1,200 GPs nationwide. Visit our website at www.medihelp.co.za or dial *120*6364# on your cell phone for a list of network doctors.
- Authorised specialist visits on referral from your Necesse network doctor.
- Basic dental services provided by a network of over 1,000 dentists.
- Optometry benefits are provided by a nationwide network of more than 2,000 optometrists.
- Pathology services provided by a network of providers.

Hospitalisation

- Necesse offers a hospital network of over 120 private facilities nationwide.
- Your Necesse network doctor or specialist on referral should admit you to hospital.
- Hospital admissions require a referral from your Necesse doctor or specialist and must be pre-authorised. Emergency admissions can be authorised on the first workday after admission.
- Emergency transport services are provided by ER24.

Medicine

- Acute medicine on the approved Necesse medicine list (formulary) is available from your dispensing network doctor or on prescription from a Medihelp network pharmacy.
- Pre-authorised chronic medicine for CDL conditions included.

Income-based subscription

- Necesse subscription is based on three income categories ranging from R7,500 or less to the highest category of R11,001 and more ensuring that low income-earners are also provided access to quality private healthcare.

* Only bank statements indicating the account holder's initials and surname will be accepted. Please indicate clearly which payment refers to your income.

This is a summary of the Necessie benefit option. In the case of a dispute, the registered Rules of Medihelp will apply, subject to approval by the Registrar of Medicl Schemes. All limits are valid for one year, unless otherwise indicated. If a beneficiary joins during the course of a financial year, the benefits (limits) are calculated pro rata according to the remaining number of months per year.

more about **necesse**

Doctors' visits

You must choose a general practitioner (GP) in the Necesse network to visit. Your network doctor will refer you to a physiotherapist, specialist and other medical practitioners if required. You have to obtain pre-authorisation from Medihelp from your 9th consultation (the family's visits combined) onwards by sending an SMS to Medihelp.

Chronic medicine

Only chronic medicine prescribed for the treatment of diseases on the Chronic Diseases List (CDL) will qualify for benefits. Chronic medicine must be registered with Medihelp. Your network doctor will complete an application form to register the chronic medicine and you will receive a schedule of all authorised medicine. Authorised chronic medicine should be obtained from a pharmacy or courier pharmacy in the Medihelp Preferred Pharmacy Network.

Claims

The Necesse network doctor and other medical practitioners will submit claims directly to Medihelp. If you have paid the account yourself, you can submit qualifying claims to Medihelp for a refund.

Specialists

Your network GP will refer you to a specialist if required. This entails that your network doctor completes a specialist referral form which will be used to obtain pre-authorisation for the specialist visit from Medihelp.

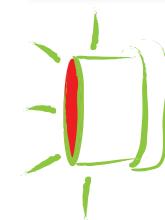

Other referrals

Your network doctor or the specialist you've been referred to must refer you to a physiotherapist, occupational therapist, pathologist, radiologist or other medical practitioner if required.

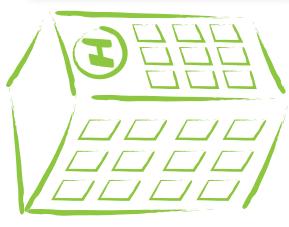

Emergencies

Please remember that only emergencies which meet the definition of an emergency on this brochure (see "Explanation of terms") will qualify for Prescribed Minimum Benefits (PMB) and must be registered as such with Medihelp.

Acute medicine

If referred you may only be admitted to a Necesse network hospital. If not, a 20% co-payment on the hospital account will apply. All hospital admissions, including for psychiatric admissions, must be pre-authorised (and emergency admissions on the first workday following the admission).

need to know more...

more about our partners

Dental Information Systems (Denis)

Dental Information Systems (Denis) is South Africa's leading dental benefit management company. Medihelp's dental benefits are managed by Denis and granted in accordance with Denis protocols, while Medihelp members obtain services from their regular dentists. In certain cases (particularly for specialised dentistry), benefits are subject to approval by Denis.

Tel: 086 0104 941

Fax: 086 6770 3336

medihelpenq@denis.co.za

Medihelp Preferred Pharmacy Network

Medihelp Preferred Pharmacy Network refers to pharmacies offering Medihelp the most cost-effective professional fee structure for prescribed medicine. While standard co-payments on medicine still apply as set out in the rules of the benefit options, members who make use of network pharmacies will not have to pay any excess amounts in respect of higher professional fees charged by pharmacies to dispense medicine items.

Optipharm

Optipharm is the preferred provider for the rendering of HIV/Aids-related services and post-exposure prophylaxis in the case of sexual assault or accidental exposure to HIV.

Tel: 086 0906 090

Emergencies: 083 564 9978

Fax: 086 0064 762

medihelp@optipharm.co.za

PPN

The Preferred Provider Negotiators (PPN) optical providers manage Medihelp's optical benefits. More than 2,000 optometrists across South Africa are part of the PPN network. Although Medihelp members may visit any optometrist, benefits will be paid according to the PPN tariffs and a co-payment may be applicable should the costs exceed the benefit amount.

Tel: 086 0103 529 or

086 1101 477

www.ppn.co.za

SAOC

The SAOC is the South African Oncology Consortium, the professional affiliation of South African oncologists who determine the guidelines according to which patients receive cancer treatment.

Tel: 086 0100 678

Fax: 086 0064 762

oncology@medihelp.co.za

ER24

Our partner providing all emergency medical services is ER24. They offer emergency medical transport, assistance and trauma counselling to Medihelp members.

Tel: 084 124

DBC

Document-based Care (DBC) offers a back treatment programme as prerequisite for spinal column surgery to members who qualify, and if there is a DBC clinic in their vicinity. This programme is developed by a multi-disciplinary medical team according to the patient's clinical profile.

ICON (Necesse)

ICON is the Independent Clinical Oncology Network that determines clinical protocols according to which patients of the Necesse benefit option receive cancer treatment from ICON network doctors.

Necesse Doctor Network

Members of the Necesse benefit option can visit one of the more than 1,200 general practitioners (GPs) located nationwide for quality primary healthcare. Please visit our website at www.medihelp.co.za for a full list of network doctors. Alternatively you can dial *120*6364# on your cell phone to locate a network GP near you.

Necesse Hospital Network

This network of more than 120 facilities offers Necesse members access to tertiary (hospital) care. The network has a national footprint and consists mainly of Netcare, Life and MediClinic hospitals. Please visit our website for a full list of network hospitals.

Dimension Prime Hospital Network

This countrywide network must be used by members of the Dimension Prime Network benefit options when they need to have planned procedures performed in hospital. Members pay a lower monthly fee when they opt to make use of this network. The hospital network consists mainly of Netcare, Life and MediClinic hospitals and a complete list is available on our website.

[more about dental benefits](#)

All benefits are subject to Denis protocols, and pre-authorisation in the case of specialised dentistry.

MDT = MediHelp Dental Tariff
Please refer to dental exclusions and protocols per option.

- Pulp tests.
- Cost of mineral trioxide.
- Enamel microabrasion.
- Medicine prescribed by a dentist (**Necesses**).
- Specialised dentistry: crowns and bridges, implants, orthodontics, periodontics and maxillofacial surgery (**Necesses**).

general exclusions

dimension range and necessity

General

- Services which are not mentioned in the Rules as well as services which in the opinion of the Board of Trustees, are not aimed at the generally accepted medical treatment of an actual or a suspected medical condition or handicap, which is harmful or threatening to necessary bodily functions (the process of ageing is not considered to be a suspected medical condition or handicap).
- Travelling and accommodation/lodging costs, including meals as well as administration costs of a beneficiary and/or service provider.
- Aptitude, intelligence/Q and similar tests as well as the treatment of learning problems.
- Operations, treatments and procedures –
 - of own choice;
 - for cosmetic purposes; and
 - for the treatment of obesity, with the exception of the treatment of obesity which is motivated by a medical specialist as life-threatening and approved beforehand by Medihelp.
- Treatment of wilfully self-inflicted injuries, unless it is a prescribed minimum benefit.
- Services which are claimable from the Compensation Commissioner, an employer or any other party, subject to the stipulations of rule 15.4.
- The completion of medical and other questionnaires/certificates not requested by Medihelp and the services related thereto.
- Costs for evidence in a lawsuit.
- Costs exceeding the scheme tariff for a service or the maximum benefit to which a member is entitled, subject to Annexure 2.
- Facility fees.
- Services rendered to beneficiaries outside the Medihelp network or if voluntarily obtained from a non-designated service provider in the case of a PMB condition (**Necessity**).
- Injuries sustained during participation in a strike, unlawful demonstration, unrest or violent conduct, except in the case of a prescribed minimum benefit (**Necessity**).
- Services rendered outside the borders of the Republic of South Africa (**Necessity**).

Medical conditions

- The treatment of infertility, other than that stipulated in the Regulations to the Medical Schemes Act, 1998.
- Treatment of alcoholism and drug abuse as well as services rendered by institutions which are registered in terms of the Prevention of and Treatment for Substance Abuse Act, 2008 (Act No 70 of 2008) or other institutions whose services are of a similar nature, other than stipulated in the Regulations to the Medical Schemes Act, 1998.
- Treatment of impotence.
- Treatment of occupational diseases.
- Hymenectomy (**Dimension Prime 1** and **Necessity**).
- Back and neck fusion procedures, subject to PMB (**Necessity**).
- Circumcision (**Necessity**).

Procedures and services

- The artificial insemination of a person as defined in the National Health Act, 2003 (Act No 61 of 2003).
 - Immunisation (including immunisation procedures and material) which is required by an employer, excluding flu immunisations and standard child immunisations.
 - Standard immunisation (**Necessity**).
 - Exercise, guidance and rehabilitation programmes.
 - Services rendered by social workers.
 - Costs of visits at home and home programmes.
 - When only accommodation is provided and/or general care services rendered.
 - The cost of transport with an ambulance/emergency vehicle –
 - from a hospital/other institution to a residence;
 - in the event of a self-inflicted injury, unless it is a prescribed minimum benefit;
 - in the event of a visit to friends/family; and
 - to the rooms of a medical practitioner when the objective of the visit/consultation/treatment does not pertain to admission in a hospital.
 - The cost of harvesting and/or preserving human tissues, including, but not limited to, stem cells, for future use thereof to treat a medical condition which has not yet been diagnosed in a beneficiary.
 - Pathology services requested by a person other than a medical practitioner.
 - Radiology services requested by a person other than a medical practitioner, with the exception of a chiropractor who may request black and white X-rays.
 - Breast augmentation.
 - Breast reduction.
 - Gastroplasty.
 - Gender reversal operations.
 - Lipectomy.
 - Epilation.
 - Otoplasty/reconstruction of the ear.
 - Refractive procedures.
 - Sclerotherapy.
 - Hip, knee and shoulder replacements (**Necessity**).

Medicines, consumables and other products

- Bandages, cotton wool dressings and plasters on prescription that are not used by a supplier of service during a treatment/procedure.
- Food substitutes, food supplements and patent food, including baby food.
- Multivitamin and multi-mineral supplements alone or in combination with stimulants (tonics).
- Slimming remedies, provided that benefits shall be considered if motivated by a medical specialist as life-essential to be used for a limited period, and if approved beforehand by the Principal Officer.

- All patent substances, suntan lotions, anabolic steroids, contact lens solutions as well as substances not registered by the South African Medicines Control Council, except medicine items approved by Medihelp in the following instances –

- medicine items with patient-specific exemptions in terms of section 21 of the Medicines and Related Substances Control Act, 1965 (Act No 101 of 1965) as amended;
- homeopathic and naturopathic medicine items that have valid NAPPI codes; and
- where well-documented, sound evidence-based proof exists of efficacy and cost-effectiveness.
- All biological and other medicine items as per Medihelp's medicine exclusion list.
- High technology treatment modalities, surgical devices and medication.
- Combination analgesic medicine claimed from acute medicine benefits exceeding 360 units per beneficiary per year.
- Non-steroidal anti-inflammatory medicine claimed from acute medicine benefits exceeding 180 units per beneficiary per year.
- Roaccutane and Retin A, or any skin-lightening agents (**Necesse**).
- Homeopathic and herbal medicine, as well as household remedies or any other miscellaneous household product of a medicinal nature (**Necesse**).
- Oral contraceptives and contraceptive intra-uterine devices (**Necesse**).
- Medicine used in the treatment of a non-PMB/CDL chronic condition (**Necesse**).
- Vaccines administered by specialists (**Necesse**).

Appliances

- Blood pressure and peak flow measurement apparatus.
- Motorised mobility aids/devices.
- Commode.
- Toilet seat raiser.
- Hospital beds for use at home.
- Devices to improve sight, other than spectacles and contact lenses.
- Mattresses and pillows.
- Bras without external breast prostheses.
- Insulin pumps and consumables (available only on **Dimension Elite**).
- Hearing aids and services rendered by audiologists and acousticians (**Necesse**).

Chronic medicine is medicine used for the long-term treatment (three months or longer) of a chronic condition, and which meets the following requirements:

- It must be used to prevent and treat a serious medical condition;
- It must be used for an uninterrupted period of three months or longer;
- It must be used to sustain life, to delay the progress of a disease, and to repair natural physiology;
- It must be registered in South Africa for the treatment of the medical condition for which it is prescribed; and
- It must be the accepted treatment according to local and international treatment protocols and algorithms.

MEDICHRON (Medihelp's medicine management division) considers benefits for all chronic medicine.

Contracted tariff is the tariff as approved by the Board of Trustees and contractually agreed with service providers, which includes per diem, fixed and global fees.

Co-payments are the difference between the cover provided by Medihelp and the cost/tariff charged for the medical service, and are payable directly to the service provider. Members must make co-payments in the following cases:

- When doctors and other providers of medical services charge fees which exceed Medihelp's scheme tariffs, the member is responsible for paying the difference between the amount charged and the amount which Medihelp pays;
- When Medihelp's benefit allocation is not 100% (e.g. for acute medicine), or where the cost exceeds the limit available for the service (e.g. for medical, surgical and orthopaedic appliances); and
- When the member chooses not to obtain services from a designated service provider (e.g. the SAOC network in the case of oncology) or when a pre-determined co-payment is applicable to a specific benefit as indicated per benefit option.

An **emergency medical condition** means any sudden and unexpected onset of a health condition that requires immediate medical or surgical treatment, where failure to provide such treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part, or would place the person's life in serious jeopardy. An emergency medical condition must be certified as such by a medical practitioner. Emergencies qualify for PMB and must therefore also be registered for PMB (see also "PMB").

DTP is Diagnosis Treatment Pairs

EVARS prostheses shall only be considered where the patient suffers from an abdominal aortic aneurysm with an accompanying high risk for anaesthesia.

Explanation of terms

The **back treatment programme** is a non-surgical intervention in lieu of surgery for the management of spinal column disease/conditions/abnormalities. This approach to the treatment of back and neck pain is used as an alternative to back surgery, and involves an inter-disciplinary team handling the rehabilitation programme, which is individualised for each patient based on the patient's needs and clinical diagnosis. The programme is not available on the Necesse network option.

explanation of terms

A formulary can consist of, inter alia, a scientifically compiled list of medicine, e.g. for the treatment of the 26 conditions on the Chronic Diseases List (CDL), or a list of pathology tests or appropriate radiology tests, depending on the discipline.

Health-essential functional prostheses necessarily replace a part of the body or a component thereof, or perform an essential function of the body.

HIV rapid testing should take place in a controlled clinical environment to determine HIV status and should include pre- and post-testing counselling. This test may be followed by pathology tests according to Scheme protocols.

Hospital benefits refer to benefits for services rendered by a hospital during a patient's stay in hospital. Services include ward accommodation and ward medicine, general radiology and pathology, physiotherapy and other supplementary services rendered during hospitalisation. Hospital benefits are subject to pre-registration and a 20% co-payment will be applicable to the hospital account if the admission is not pre-registered. A 30% co-payment is also applicable to the Dimension Prime Network range should the patient be admitted to a non-network hospital, and a 20% co-payment in the case of Neesse. Emergency admissions must be registered on the first workday following the admission (see also "emergency medical condition"). Procedure-specific co-payments may apply.

Standard immunisations are child immunisations in accordance with the guidelines set by the Department of Health on the standard immunisation chart.

A **limit** is the maximum benefit amount which is paid for a specific service, apparatus or appliance, for example in the case of prostheses.

Major medical benefits include benefits for hospitalisation, PMB, trauma recovery and benefits that complement care when patients need to recover. Co-payments and sub-limits may be applicable in some cases.

Maxillofacial surgery means services pertaining to the jaws and face, particularly with reference to specialised surgery in this region.

Medicine means a substance or mixture of substances which is accepted as being ethical by medical science and which is registered with the South African Medicines Control Council, to be administered or applied for the prevention, treatment or healing of an illness (see also "chronic medicine").

Medicine price refers to:

- The Maximum Medical Aid Price (MMAP) which is the reference price used by Medihelp to determine benefits for acute and chronic medicine. The MMAP is the average price of all the available generic equivalents for an ethical patented medicine item; or
- The Medihelp Reference Price (MHRP) which is applicable to all pre-authorised PMB medicine. The

price is determined according to the most cost-effective treatment based on evidence-based principles. The MHRP will differ for the different benefit options and is subject to change (e.g. when new generic equivalents are introduced to the market). Please visit Medihelp's website at www.medihelp.co.za for the latest MHRP. Members are advised to consult their doctor when using PMB medicine to make sure they use medicine on the MHRP where possible and so prevent or reduce co-payments.

Medihelp Dental Tariff means the benefits for dentistry in accordance with the dental schedule of the Scheme as agreed between Medihelp and Denis.

Network benefit options offer benefits to members in collaboration with a medical provider network. Members must make use of the network to qualify for benefits and prevent co-payments.

Per year means from 1 January to 31 December of a year. Should a beneficiary enrol within a financial year, benefit amounts will be pro-rated according to the remaining number of months of the year. All limits are valid for a year unless otherwise indicated.

Pre-authorisation means benefits for a service must be authorised before it is rendered.

Prescribed Minimum Benefits (PMB) are paid for 26 chronic conditions on the CDL and 270 diagnoses with their treatments as published in the Regulations of the Medical Schemes Act, 1998 (Act No 131 of 1998). In terms of these Regulations, medical schemes are compelled to grant benefits for the diagnosis, treatment and care costs of any of these conditions as well as emergency medical conditions (that meet the published definition) without imposing any limits. PMB are subject to pre-authorisation, protocols, and the utilisation of designated service providers, where applicable, e.g. the SAOC, (or ICON in case of Necesse) for cancer treatment.

Private nursing is a service rendered to patients at their home as an alternative to hospitalisation only. Benefits for private nursing are subject to pre-authorisation by Medihelp and exclude general day-to-day services such as bathing and general care.

Protocols are clinical guidelines compiled by experts in the field of a specific medical condition for the treatment of that condition based on best practice principles.

Scheme tariff is the tariff for medical services as approved by the Board of Trustees.

Unlimited means that no overall annual limit (benefit amount) or period (e.g. a 3-year cycle) applies to the specific service/procedure. This does not refer to the number of days spent in hospital or the number of procedures applicable.

Vascular/cardiac prostheses include artificial aortic valves, pacemakers and related or connected functional appliances.
