THE 816S-BUILT TO LAST YOU LONGER!

GRAVELY QUALITY, PERFORMANCE, AND DURABILITY

Gravely's newest introduction in its Riding Tractor Line is the Gravely 816S. Built to the same rigid engineering specifications as other Gravely Riding Tractors the 816S features a new synchro-balanced Briggs & Stratton engine. It is a 16 HP air cooled, cast iron engine with a dry-type replaceable air cleaner featuring an "oil-foam" pre-cleaner that helps keep the engine free of dirt and dust particles. With the tractor's all-gear-drive you don't have to worry over broken or out-of-adjustment belts. There are none...simply gears and shafts made of heavy duty steel all the way from the engine through the 8-speed transmission to the drive wheels and to the attachments. Great for handling the really rough jobs.

The 816S is an all season work horse. When the mowing is done there are attachments available that let you take care of other chores the entire year round. Attachments such as the Rotary Tiller and other gardening and cultivating tools. The Gravely Snowblowers that keep you going during the snowy weather and many, many other attachments that handle hundreds of tasks. Come see them today!

ALL-GEAR, 8-SPEED TRANSMISSION

There's every speed and all the power you need in the Gravely 8-speed transmission, standard equipment on the 816S.

You choose from eight forward speeds exactly the ground speed to do the particular job right. Choose from a gut-power-crawl at a half mile an hour through a get-on-home eight and a half mile an hour transport speed. Whichever you choose the attachment speed remains constant to give you a more masterful job, everytime.

Make a clean sweep with the 44" Power Brush.

Snow troubles disappear with the 44" Snowblower.

Gravely 816 S with Rear Tiller. makes gardening fun.

Gravely 816 S with Rotary Plow-perfect seedbed.

important features of the 816S

- All-gear-drive with no belts to adjust or replace.
- External friction clutches for sure power transfer from engine and transmission to drive wheels and to attachments. www.Chalmers.com
- Rear mounted engine puts weight where it counts, over the rear drive wheels.
- All-gear Gravelly transmission. Eight forward speeds from ½ to 8½ MPH.
- Attachments that mount to front, center or rear to handle year round lawn, gardening, and snow removal chores.
- Hydraulic Lift optional. Manual lift standard equipment.

For more information and a free demonstration, see or call us today. We'll be more than happy to counsel you on the best equipment for your particular job requirements.
