

## CHOOSING THE RIGHT WALK-BEHIND MOWER

The first step to a great looking lawn is choosing the right lawn mower. Consider the various options and features available at Lowe's and choose the mower that is right for you and your lawn. The size and terrain of your lawn and the number and kinds of obstacles you have to mow around will all play a part in your choice.

Walk-behind mowers are either self-propelled or push type. Self-propelled gas mowers are available in both front-wheel drive (FWD) and rear-wheel drive (RWD) designs. Push mowers are available in gas-powered, electric-powered or manual reel designs. Cutting decks have similar cutting widths and many models convert easily from mulching to bagging to side discharge.

## OPTIONS TO CONSIDER

- Gas-powered engine, electric or manual
- Self-propelled or push mower
- Front-wheel drive (FWD) or rear-wheel drive (RWD)
- Cutting width
- Mulching or bagging or side discharge

The chart (below) will help you determine which options are best for your lawn.

	UP TO 1/4 ACRE	1/4-1/3 ACRES	1/3-1/2 ACRES
<b>FLAT TERRAIN</b>	Electric Mower Gas Push Mower	Electric Mower Self-Propelled FWD	Self-Propelled FWD Self-Propelled RWD
<b>HILLY OR UNEVEN TERRAIN</b>	Push Mower with High Rear Wheels	Self-Propelled RWD	Self-Propelled RWD With Large Rear Wheels

## ELECTRIC CORDED MOWERS

<b>14 in. 2-N-1 Electric Mower</b> • Powerful 8 Amp motor • Single lever, 6-position wheel height adjustment easily changes cutting height from 1-1/2 to 3-3/4 in. to accommodate grass length • No-rust polymer deck	<b>18 in. 2-N-1 Electric Mower</b> • No gas, oil or tune-ups make it effortless to start and maintain • Lightweight design makes mower easy to maneuver • Four individual height settings from 3/4 to 2-3/4 in. • Durable steel deck	<b>18 in. 2-N-1 Electric Mower</b> • 2-N-1: Mulch, side discharge • Single lever, 7-position wheel height adjustment easily changes cutting height from 1-3/4 in. - 3-3/4 in. • Durable steel deck	<b>18 in. 2-N-1 Electric Mower</b> • The efficient 12 Amp motor provides power and even cutting results for a beautiful, manicured lawn • Ultra-durable, no-rust polymer deck is easy to clean and guaranteed for life • A push of a button allows users to start mowing without frustrating starting issues	<b>18 in. 2-N-1 Electric Mower with Flip Handle</b> • LIFETIME polymer lawn mower deck mulches and discharges • Flip-over handle keeps extension cord out of your way • Clean electric power means instant lawn mower starts, plus no oil, tune-ups or trips to the service station

## WHY LOWE'S WALK BEHIND MOWERS?

Lowe's has exceptional product selection, customer service and expertise, packaged into a cleaner, brighter well-lit store.

**Parts and Accessories for All Makes and Models**  
We offer the best selection of outdoor power equipment parts and maintenance items of any national home improvement retailer. Choose from a large selection of parts for all brands of equipment.

### Powerful Selection

Trusted brands for every budget, including Canadiana, Canadiana Elite, John Deere, Black & Decker, and Duramaxx.

### Extended Protection Plans

Lowe's offers peace of mind with extended protection plans. For more information on our extensive line up or to set up a service call, contact us at 1-866-46LOWES or see a store associate.

### Knowledgeable Associates

Our skilled outdoor power specialists are trained and certified by the manufacturers and Lowe's.

### Online

Visit [Lowe's.ca](http://Lowe's.ca) to view our full selection of Outdoor Power Equipment for every season.

### Credit

With low monthly payments and no annual fees, the Lowe's credit card offers a wide range of flexible credit services specially designed for your needs. You can also view and pay your bill free online. For more information, visit [Lowe's.ca](http://Lowe's.ca).

## SELF-PROPELLED DRIVE OPTIONS

Drive systems reduce mowing time and alleviate operator fatigue while mowing larger lawns or hilly, rough terrain. Systems are either front-wheel (FWD) or rear-wheel (RWD) drive.

## SPEED CONTROLS

- Single speed self-propelled mowers move at one set speed
- Variable speeds allow you to select a pace that is comfortable 2, 2.5, 3 or 4 mph.
- MowMentum™ found on John Deere mowers, is a continuously adjustable, variable speed feature that matches your pace.

## CUTTING DECKS

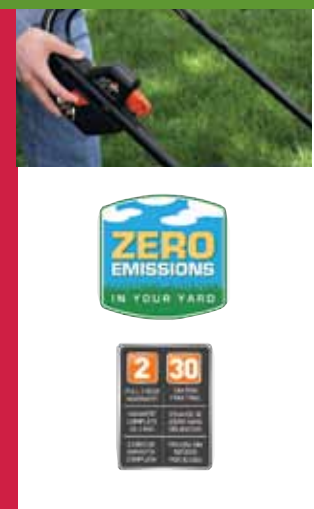

Many cutting decks are 2-N-1 or 3-N-1 convertible, changing easily from bagging to mulching to side discharge. Rear bagging is preferred, as it better manages the weight of clippings. Rear bagging also makes it easier to maneuver around trees and planting beds. Deck designs have come a long way, with the increased popularity of mulching. The inner shape of the cutting deck dome has been fine-tuned to maximize the effect of mulching blades.

All Duramaxx mowers offer the ultimate in ease of use features. They are eco-friendly, require no gas, and produce no exhaust. Whether bagging, discharging or mulching, electric or battery powered, Duramaxx has the model for you.

- Each and every lawn mower comes with a single lever height adjustment, allowing easy adjustment of all four wheels at once for optimum cutting height settings.
- All offer mulching capabilities, which cuts grass several times into fine pieces that decompose to add nutrients back into your lawn.
- Decks have been designed to allow for optimum air flow, which lifts the grass for a superior cut.

ONLY AT LOWE'S 2 YEAR REPAIR WARRANTY

Black & Decker's corded and cordless electric lawn mowers are easy and simple to start with the pull of a handle.

Black & Decker's corded and cordless electric lawn mowers save you from the frustrations of pull cords, mixing and storing of gas and oil and yearly maintenance. They also save the environment from harmful emissions. The highly efficient corded and cordless lawn mowers offer all the power and convenience you need to complete the task, making quick work of your yard work.

All Black & Decker corded and cordless electric lawn mowers come with a 2 year warranty.

\*Lifetime limited warranty on polymer decks.

Introducing the German engineered Brill Razor Cut cylinder lawn mower. The ultra lightweight, maintenance-free design and touchless cutting technologies differentiate it from every other lawn mower in North America. They also make getting rid of yesterday's petroleum rotary lawn mowers not only simple, but smart.

\*Zero Monthly Payments and Interest for 6 Months applies to single-receipt, in-store purchases of \$299 or more (and any other items purchased on the same sales receipt). Purchases must be made with a Lowe's® Consumer Credit Card account. No monthly payments will be required and no finance charges will be assessed on this promotional purchase if you pay the following in full within 6 months: (1) the promotional purchase amount, and (2) any related optional Account Protector charges. If you do not, finance charges will be assessed on the promotional balance from the date of the purchase and monthly payments will be required. Standard account terms apply to non-promotional purchases. Existing cardholders should see their credit card agreement for their standard terms. APR 28.9%. Offer is subject to credit approval by GE Money in Canada. Excludes Lowe's® Business Credit Accounts, Lowe's® Project Card® Accounts, Lowe's® VISA® Accounts, and all Lowe's® US Credit products.

# BRIGGS & STRATTON® PRODUCT EMISSIONS

The emissions from Briggs & Stratton® engines made today average 75% less than models made in 1995. Engines being introduced in the marketplace in 2012 have an additional 35% lower smog forming emissions (HC+N0x) than products made prior to 2010.

## WHY CHOOSE CANADIANA WALK BEHIND MOWERS?

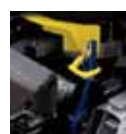

### ReadyStart® Electric

Provides effortless starting. Electric start, no pulling required. Just turn the key and mow.

### ReadyStart®

Just pull for power. ReadyStart® automatic choke senses engine temperature to deliver the right amount of fuel to the carburetor. No priming required.

### Prime 'N Pull™

Push the primer and pull. Push the primer bulb of the Prime 'N Pull™ system 3 times to deliver the proper amount of fuel to the carburetor, then pull to start.

## ENVIRONMENTAL INNOVATION

### DID YOU KNOW?

New North American small engine regulations require a 35% reduction in exhaust emissions.

At Lowe's, all of our 2012 Canadiana™, Canadiana Elite™, and John Deere™ gas mowers feature new Briggs & Stratton® engines that reduce exhaust and evaporative emissions, for clean-running engines that meet the new standards.

Featuring quieter mufflers, these new engines are the lightest in their class and create less vibration, which means longer engine life.

Longer lasting. Fuel efficient. Gas mowers from Lowe's save you money while generating fewer emissions for a healthier planet.

## HOW TO MAINTAIN GAS OUTDOOR EQUIPMENT

### 1. CHANGE OIL

- Check oil level regularly: fill to mark on dipstick DO NOT OVERFILL
- Change oil after first 5 hours of use, then after every 50 hours or at the beginning of the season

### 2. AIR CLEANER

- Replace air cleaners at least once a season with original parts, more often under dusty conditions
- Changing your air filters assures optimum performance and maximum protection for your engine

### 3. GASOLINE

- Use clean, fresh, unleaded gas, not E85
- Do not mix oil with gas
- Fuel stabilizer assures fuel freshness and easier starting

### 4. SPARK PLUG

- Replace spark plug at the beginning of every season and/or every 100 hours of use

### 5. STORAGE

- Use fuel stabilizer to prevent stale gas over storage period
- Drain engine oil and refill
- Pour 1/2 oz. (14 ml) of oil into spark plug hole
- Replace spark plug and crank engine slowly
- Clean dirt from engine and store in a clean, dry area

## PRODUCT MAINTAINENCE SCHEDULE

Follow the hourly or calendar intervals, whichever occurs first. More frequent service is required when operating in dirty or dusty conditions.

	Every 5 hours	25 hours or every season	50 hours or every season	100 hours or every season
Check oil level	✓			
Change oil Replace oil filter (if equipped)	✓		✓ Oil	✓ Filter
Replace foam air cleaner or optional foam pre-cleaner		✓		
Replace paper air cleaner		✓		✓
Replace spark plug(s)				✓
Replace in-line fuel filter (if equipped)				✓

\*Change oil filter after first 5 hours of use, then after 50 hours or every season. \*\*Paper cartridge without foam pre-cleaner.
