Study Overview

In December 2016, Lumina Foundation issued a grant to NORC at the University of Chicago to further assess levels of education of attainment of adults in the United States. This study - National Education and Attainment Survey (NEAS) - was fielded in 2017. NORC and Lumina Foundation had first partnered in 2015 to conduct the National Education and Employment Study (NEES)¹, which was a national study of adults in the United States. The goal of that study was to determine the percentage of adults who hold high quality certificates, licenses, or certifications. The 2017 NEAS was a larger effort that furthers the capture of information on education attainment, providing Lumina with timely data regarding the count of post-secondary degrees, certificates, licensees, certifications, and apprenticeship rates. Through a 15minute multi-mode survey, the NEAS sample were asked about their education credentials and work history. The results of this effort were used to inform Lumina's objectives for its Goal 2025 initiative². Lumina—through Goal 2025—is committed to improving the nation's postsecondary education system by increasing the proportion of Americans that hold a degree, certificate or other high-quality postsecondary credential to 60 percent by the year 2025. By ensuring access to higher-education opportunities after high school, more individuals will ultimately achieve a greater earning capacity, which in turn leads to better quality of life, stronger economies, and thriving communities, as well as a stronger nation overall.

The NEAS was administered in both web and hard-copy (Paper and Pencil Administered Interview, or PAPI) modes over a 5-month data collection period, surveying 6,345 respondents across the country between the ages of 18 and 64.

Lumina's Program Officer for this study was Dr. Amia Foster and NORC's Project Director was Cynthia Simko. If users have any questions, they may contact neas@norc.org.

This Public Use Data File (PUF) has been created to meet the goal for transparency and to ensure these data are available for further analysis. The following User's Guide provides critical information for researchers who wish to conduct analyses on the NEAS data.

Sample Design

The NEAS sample frame was designed to select a nationally representative sample of adults between the ages of 18 to 64. To represent this population, NORC constructed a sampling frame from the United States Postal Service (USPS) computerized delivery sequence file (CDS) and then each household address was geocoded and linked to a census tract to support sample stratification by region and race/ethnicity.

Questionnaire Overview

The English questionnaire for NEAS is provided in Appendix A. A copy of the Spanish questionnaire is available upon request.

The NEAS questionnaire was designed using questions from NEES survey, the Current Population Survey (CPS), and the Survey of Earned Doctorates (SED). The newly designed survey was tested for cognitive processing and question flow via a series of cognitive interviews before being finalized. The final NEAS questionnaire asked a nationally representative sample of adults between the ages of 18 and 64 (see Sample Design section) a total of 51 questions in the following topic areas:

- Education (highest level, field of study, etc.)
- Certifications and licenses (acquisition, type, preparation, etc.)
- Certificates (acquisition, type, preparation, etc.)
- Apprenticeships (completion status, type of apprenticeships, etc.)
- Employment (jobs, full-/part-time status, job title, salary, etc.)
- Background (marital status, race/ethnicity, etc.)

Data Processing

Upon completion of the data collection effort, data were processed through several steps to create the final PUF.

Sampling Weights

NORC's sampling team created and applied sampling weights to each complete and partial case. (Partial cases were defined as having responses through Question 47). A final weight was computed for every respondent to support relatively unbiased estimation. The final analysis weights were calculated in four steps, as discussed below.

First, we calculated the household level base weight to account for the sample design. The base weight was calculated for every sample household as the ratio of the total number of households in the frame to the total number of sampled households per stratum.

The base weights were then adjusted to compensate for unknown eligibility, nonresponse among eligible households, and frame under-coverage. To support these adjustments, we classified the full sample into four response categories: eligible respondents, eligible non-respondents, unknown eligibility, and known ineligible cases.

The household level weights then needed to be converted to individual level weight. As part of data collection, we obtained from respondents the number of adults in the households who were 18 to 64 years of age. This information was used to convert the household weight to the individual weight.

Finally, we applied a raking ratio adjustment procedure to adjust the individual weight such that the weighted sample counts matched the population counts by region, age group, gender, race/ethnicity, and education attainment. The population counts were based on the Current Population Survey (CPS) totals.

Data users must use the sampling weights to calculate unbiased estimators of population parameters of interest. Unweighted analyses may be biased because different segments of the population may have very different selection probabilities and/or response rates.

Other processing edits

Some of the items in the survey included open-ended or other specific questions. All open-ended responses were reviewed and backcoded into the existing code frame where possible. Q7b (Please provide the field of study that best describes this degree or certificate?) was coded using the codeframe for Q4 (Which one of the following best describes the field of study for the highest level of school you have completed?). Q11 (What is the name of your most important certification or license?) used the NEES code frame developed for this question during the development of the NEES PUF file³. This code frame was developed using a two-stage coding approach that initially applied the National Survey of College Graduates (NSCG) certification codes⁴ at Stage 1, followed by a combination of NSCG and Adult Training and Education Survey (ATES) Pilot Study⁵ frames for broad category grouping at Stage 2. NORC also applied a two-stage process for Q12 (What kind of work is your most important certification or license used for?) and Q40 (What kind of business or industry was this?). Both questions used the Census 2012 Industry code frame⁶.

NEAS survey respondents were notified of the creation of the Public Use File at the time of data collection. Furthermore, data in the PUF have been treated to protect the privacy of survey respondents and minimize disclosure risk. See *Disclosure Treatment and Data Limitations* in the Analysis section below for more information.

Analysis

Data from the NEAS Public Use File can be used for a variety of analyses concerning the education and attainment of the U.S. population in the target age range. The NEAS captured data on non-degree based education credentials such as certifications, licenses, certificates, and apprenticeships, and their impact on employment outcomes. Specifically, the data can be utilized to look at those with a high-quality certificate, license, certifications, or apprenticeships as their highest credential.

Users should note that numbers from the NEAS published by Lumina Foundation may be based on the final restricted version of the data and therefore will not exactly match the data from the PUF. Differences are attributable to changes involved in the disclosure risk treatment (see below). Although exact numbers may not match, the restricted use NEAS data and the NEAS PUF allow users to draw the same inferences in most cases. The only exceptions may be in some utility and reliability loss for select, recoded and/or suppressed variables (See below section on data limitations).

Disclosure Risk Treatment and Data Limitations

Lumina Foundation and NORC maintain strict confidentiality standards for their survey respondents. Data in the PUF have been treated to protect the privacy of survey respondents and minimize disclosure risk. For the purposes of this PUF, disclosure risk was determined to be very low because the sample was drawn from a national sampling frame, and as such, there are with minimal variables that are assumed to be known to outside parties that could be used to identify and learn information about a respondent.

The primary method to limit disclosure was global recoding of open ended responses. Global recoding is the operation where variables are redefined to be less specific for the purpose of making cases less identifiable. Variables were recoded to reduce the number of values a recoded variable could take and eliminate unique values. Variables recoded in this way for the PUF include: Q11, Q12, and Q40. Q41 and Q42 were removed from the PUF rather than being recoded.

Global recoding is often used in conjunction with local suppression, as was used in the NEES PUF developed in 2016. Global recoding is preferred to local suppression as global recoding makes information less specific while local suppression remove information completely, for a subset of cases. It was determined that local suppression would not be necessary for the NEAS PUF because the entire sampling frame is a national address list constructed from the USPS's Delivery Sequence File (DSF), and that geographic information is limited to broad geographic regions. The scale of the sampling frame and lack of specific geographic information also make the evaluation of equivalency classes unnecessary.

Recommendations

The variables in the NEAS PUF have not been significantly altered, so analysis performed using the NEAS PUF will be representative of the results that would be obtained using the restricted data. The primary change to the data consisted of the recoding of open ended response variables, which also delivers analytic value by standardizing variable values to a limited number of generalized values.

Appendix A. Questionnaire

NATIONAL EDUCATION AND ATTAINMENT SURVEY (NEAS)

2017

Barcode with SUID

Dear Respondent,

Thank you for participating in the National Education and Attainment Survey (NEAS). This survey will be used to gain more knowledge about adults' work-related education, training, and credentials after high school.

Your participation in this survey is completely voluntary and you may choose to skip any question you do not wish to answer, or stop the survey at any time.

What is the purpose of this survey?

The purpose of this study is to learn more about education, training, and employment of adults between the ages of 18 and 64 in the United States.

Who is conducting this survey?

The study is being conducted by NORC at the University of Chicago on behalf of the Lumina Foundation. The study is funded by the Lumina Foundation.

Why should you participate in this survey?

Your participation ensures a sample that is nationally representative. That is to say, sampling methods NORC applied ensure that other people in the U.S. similar to you are represented in the survey results. When selected participants respond to the survey, the summary results are more accurate.

Will your responses be kept confidential?

NORC never releases any identifying information of individuals or organizations that participate in our studies. Your individual responses are kept confidential and seen only by the NEAS study team. Data and reports will be reported in summary form only and individual names will not be included in any summary reports.

For more information about this survey you can contact the research team at <u>NEAS@norc.org</u> or call the survey's toll-free number at 1-888-248-6171.

Please write your answers directly on the questionnaire by marking the appropriate box or by writing your answer in the space given.

Thank you for your help with this very important effort!

CONTACT INFORMATION

Thank you again for taking part in this very important study. Before we begin, please provide your name and contact information so that we can ensure you receive your **Thank You** gift after completing the survey:

	d.	Improving your work skills
		 Not useful Somewhat useful Very useful Too soon to tell

Section C. Certificates

18.	People sometimes earn certificates from an education or training program. These are different from certifications or licenses. Do not include certifications or licenses here.
	Have you ever earned any of the following 4 types of certificates?
	a. A certificate for completing a training program from an employer, employment agency, union, software or equipment manufacturer, or other training provider?
	1 ☐ No 2 ☐ Yes
	b. A certificate for completing a vocational program at a high school?
	1 No
	$_2$ \square Yes \rightarrow What is the name of the school that awarded this vocational certificate?
	Name of Institution:
	Branch or City:
	State or Province:
	Country:
	c. A high school equivalency certificate, such as a GED?
	1 No
	² Yes
	d. A certificate—not a degree—for completing a program at a community or technical college, or other school beyond high school? These will be called "post-secondary certificates." Do <u>not</u> include teaching certificates or college degrees.
	\square No \rightarrow SKIP TO Q27
	2 ☐ Yes → How many post-secondary certificates do you have? ☐

19. We will refer to the certificates in question 18d as "post-secondary certificates." What was the field of study for your <u>last</u> post-secondary certificate?

Mark ONE only.
☐ Accounting, finance, insurance, or real estate
□ Administrative support
□ Agriculture
□ Audio, broadcasting, multimedia, or graphic technologies
Business management, administration, or marketing
Computer science or information technology
Construction trades
Cosmetology
□ Culinary arts □ □ Education
□ Education □ Engineering technologies or drafting
□ Engineering technologies of draiting □ Fine arts or music
□ Funeral service or mortuary science
4 ☐ Healthcare
□ Law enforcement, security, or firefighting
6 ☐ Law or legal studies
⊺ ☐ Liberal arts
8 Manufacturing or production (for example machinist, welder, boilermaker)
Mechanic or repair technologies
□ Transportation
Other — Specify:
Who gave you your last post-secondary certificate?
Name of Institution:
Branch or City:
State or Province:
Country:

20.

21.	About how many hours of instruction did you complete in order to earn your last post-secondary certificate?
	 960 hours (1 full-time school year) or more 480 hours (half a full-time school year) to 959 hours 160 to 479 hours 40 to 159 hours
	5 ☐ Less than 40 hours
22.	Which one of the following was required for enrolling in your last post- secondary certificate program?
	Mark ONE only.
	 □ Being enrolled in or having completed an advanced degree program (Master's or higher) □ Being enrolled in or having completed a Bachelor's degree program □ Having completed high school or a high school equivalency (such as a GED) □ None of the above
23.	To earn your last post-secondary certificate did you have to complete a minimum number of credits or courses?
	1 ☐ No 2 ☐ Yes
24.	Was your last post-secondary certificate part of the training you took for a professional certification or license?
	1 No 2 Yes
25.	Is your current job related to your last post-secondary certificate?
	□ Not applicable, not currently working
	 Not applicable, not currently working No Yes, somewhat related
	2 No

Section D. Apprenticeships

27.	An apprentice is a worker who receives both on-the-job train instruction to learn an occupation while being paid a training you ever completed an apprenticeship?	_	
	 No, and I am not in an apprenticeship now → SKIP TO Q35 No, but I am in an apprenticeship now → SKIP TO Q35 Yes, I have completed an apprenticeship 		
28.	What type of work was your apprenticeship for?		
	 Building or construction (carpenter, electrician, plumber, etc.) Business and administrative support Cosmetology Production (tool maker, machinist, etc.) Science, drafting, and computing 		
	6 ☐ Other – Specify:		
29.	Do the following statements describe your apprenticeship?		
	Mark ONE box for EACH ITEM below.	No	Yes
		No	Yes
			Yes
	a. I was evaluated by a co-worker or supervisor		Yes
	a. I was evaluated by a co-worker or supervisorb. I got college credit		Yes □ □ □ □ □
	 a. I was evaluated by a co-worker or supervisor b. I got college credit c. I received journeyman status at the end of an apprenticeship 		
30.	 a. I was evaluated by a co-worker or supervisor b. I got college credit c. I received journeyman status at the end of an apprenticeship d. I got a state or federal apprenticeship number e. I received instruction (at a school, online, or from my employer) related 		
30.	 a. I was evaluated by a co-worker or supervisor b. I got college credit c. I received journeyman status at the end of an apprenticeship d. I got a state or federal apprenticeship number e. I received instruction (at a school, online, or from my employer) related to my apprenticeship Did your apprenticeship help you earn a professional certific license? 		
30.	 a. I was evaluated by a co-worker or supervisor b. I got college credit c. I received journeyman status at the end of an apprenticeship d. I got a state or federal apprenticeship number e. I received instruction (at a school, online, or from my employer) related to my apprenticeship Did your apprenticeship help you earn a professional certific license? 		

31.	Did your apprenticeship lead to a certificate or degree? □ No
	2 ☐ Yes
32.	Is your current job related to your apprenticeship?
	 □ Not applicable, not currently working □ No
	 Yes, somewhat related Yes, very related
33.	In your current job, how often do you use the skills or knowledge that you learned during your apprenticeship?
	 □ Not applicable, not currently working □ Never or almost never
	 3 ☐ Sometimes 4 ☐ All or most of the time
	7 II of most of the time
34.	How useful was your apprenticeship for each of the following?
	a. Getting a job
	1 ☐ Not useful2 ☐ Somewhat useful
	3 ☐ Very useful 4 ☐ Too soon to tell
	b. Increasing your pay □ Not useful
	2 Somewhat useful
	□ Very useful
	4 Too soon to tell
	c. Improving your work skills
	Not useful Somewhat useful
	3 Uery useful
	4 🔲 Too soon to tell

Section E. Employment

35.	<u>Last week</u> , were you employed for pay at a job or a business?
	If you were temporarily absent from a job or business (on vacation, temporarily ill, on maternity leave, etc.), answer "Yes".
	\square No \rightarrow SKIP TO Q37
	² Yes
36.	Last week, did you work full time (35 hours or more per week)?
	1 No
	2 ☐ Yes
37.	During the <u>past 12 months</u> (52 weeks), how many weeks did you work, including paid vacation, paid sick leave, and military service?
	1 ☐ 50 to 52 weeks
	2 ☐ 48 to 49 weeks 3 ☐ 40 to 47 weeks
	4
	5 ☐ 14 to 26 weeks
	6 🔲 1 to 13 weeks
	7 □ 0 weeks → SKIP TO Q44
38.	During the <u>past 12 months</u> , in the <u>weeks you worked</u> , how many hours did you usually work each WEEK?
	usual hours worked each WEEK
39.	Which category best fits your earnings from wages, salary, commissions, bonuses, or tips, from all jobs over the <u>past 12 months</u> ?
	Report amount before deductions for taxes, bonds, dues, or other items.
	1 🔲 \$0 to \$10,000
	2 □ \$10,001 to \$20,000
	3 □ \$20,001 to \$30,000 4 □ \$30,001 to \$40,000
	5
	6
	7 ☐ \$60,001 to \$75,000
	8
	9 ☐ \$150,001 or more

0.	The next few questions ask about your current or last job. If you had more than one job, describe the one at which you worked the most hours. What kind of business or industry did you work for?
	(For example: hospital, newspaper publishing, mail order house, auto engine manufacturing, bank)
1.	What kind of work did you do, that is, what was your occupation?
	(For example: plumber, typist, farmer)
2.	What were your usual activities or duties at this job?
	(For example: typing, keeping account books, filing, selling cars, operating printing press, laying brick.)
3.	Did you have a license that was required by a federal, state, or local government agency to do this job?
	1 ☐ No 2 ☐ Yes

Section F. Background

44.	Have you ever served on active duty in the U.S. Armed Forces, Reserves, or National Guard?
	 No, never served in the military Yes, but only on active duty for training in the Reserve or National Guard Yes, now on active duty On active duty in the past but not now
45.	Are you male or female?
	1 ☐ Male 2 ☐ Female
46.	What is your current marital status?
	Mark ONE only.
	 Now married Widowed Divorced Separated Never married
47.	How old are you?
	years old
48.	Are you of Hispanic, Latino, or Spanish origin? □ No
	2 ☐ Yes

What is your race?
Mark one or more.
 □ White □ Black or African American □ American Indian or Alaska Native □ Asian □ Native Hawaiian or Other Pacific Islander
 Native Hawaiian or Other Pacific Islander □ Other
Do you have Internet access at home on a computer or tablet?
1 □ No 2 □ Yes
What is your citizenship status?
 □ U.S. citizen since birth □ Naturalized U.S. citizen □ Non-U.S. citizen
U NOTI O.O. CIUZCII

FUTURE FOLLOW UP

Thank you very much for participating in this survey. As part of ongoing research on education and training, you may be contacted in the future to participate in related or follow-up studies. Please note that if you choose to participate in future studies, you will be compensated. However, you always have the right to refuse.

For future contact purposes, please include your email and phone number below. If you do not want to be contacted, please select the appropriate response below.

Email:	
Phone number:	
☐ Please do not contact me to participate in related or follow up studies	
If you have any additional comments about the survey please enter them in the box below	W.
☐ I have no additional comments☐ My additional comments are below:	

Thank you for your responses!

Thank you for completing the National Education and Attainment Survey!

PLEASE RETURN this survey in the pre-paid envelope you received with your copy of the survey.

NORC Attn: NEAS 55 E. Monroe Ave. 19th Floor Chicago, IL 60603

You can expect to receive your thank you gift in the next 3 to 4 weeks. If you have questions about this survey or need assistance, please contact NORC by...

- Calling toll free at 1-888-248-6171, or
- Sending an email to NEAS@norc.org.

If you have questions about your rights as a study participant, you may call the NORC **Institutional Review Board Administrator, toll free, at 1-866-309-0542.**
