

An Overview of Medicaid Non-Emergency Transport (NET)

Overview

People enrolled in the Medicaid program need to get to and from health care services, but many do not have any means of transportation. The Georgia Department of Community Health's (DCH) Non-Emergency Transportation Program (NET) provides a way for Medicaid recipients to get that transportation so they can receive necessary medical services covered by Medicaid.

How do I get non-emergency transportation services?

If you are a Medicaid recipient and have no other way to get to medical care or services covered by Medicaid, you can contact a transportation broker to take you. In most cases, you must call three days in advance to schedule transportation. Urgent care situations and a few other exceptions can be arranged more quickly. Each broker has a toll-free telephone number to schedule transportation services, and is available weekdays (Monday-Friday) from 7 a.m. to 6 p.m. All counties in Georgia are grouped into five regions for NET services. A NET Broker covers each region. If you need NET services, **you must contact the NET Broker serving the county you live in** to ask for non-emergency transportation. See the chart below to determine which broker serves your county, and call the broker's telephone number for that region.

What if I have problems with a NET broker?

The Division of Medicaid monitors the quality of the services brokers provide, handling consumer complaints and requiring periodic reports from the brokers. The state Department of Audits also performs on-site evaluations of the services provided by each broker. If you have a question, comment or complaint about a broker, **call the Member Contact Center at 1-866-211-0950.**
