# Telephone Entry Controller
P-0920

The P-0920 is a telephone entry controller that works with Channel Vision's IU and DP series door stations to create an elegant door intercom system. When the doorbell button is pressed, the phones will ring. Simply answer the phone and you will be able to speak to the person at the door.

Features	Benefits
RJ-45 & Screw Terminal Connections	Easy & Versatile connection options
Distinctive Telephone Ring	Distinguish between front door visitors or incoming calls
Works without an active phone line	Easily test the system before the homeowner moves in or for households that rely mainly on cell phones yet still want the phone access to the front door
Compatible with door intercom stations	Works with Channel Vision IU and DP door stations - (Does not support Panasonic KSU System IU & DP stations)
Door Bell Chime Option	Front door notification via telephone ring and standard door bell chime
2-Wires to the front door	Retrofit IU or DP intercom door station easily with existing door bell chime wiring
3 Active LED status indicators	When phones ring; When door intercom station is in use; When door strike is activated
Doorbell Tone at Door Station	Visitors hear a tone when they press the doorbell button to acknowledge it's ringing throughout the house
Supports Door Strike Relay Module TE110DS	Unlocks doors or gates remotely by the phone

Features	Benefits
Power Supply	12VAC, 500mA
Cable Requirements	18-24 AWG, CAT3 or CAT5
REN	.01
Dimensions	6.5" x 5.5" x 1.5"
Operating Temperature	-10C to + 50C
Ring Output	>5 (capable of ring > 10 phones with REN of .5)
Compliances	FCC Part 15, subpart B & FCC Part 68 Requirements RoHs; Power supply meets UL1210 & CSA Standards
