PDF Document Editor

Make major changes to a PDF document such as adjusting content and document formatting.

Add Text

Type and insert text anywhere on a PDF document. Click where you need to add text and start typing.

To format text, use this toolbar :

A. Change font

B. Change text size

C. Apply bold formatting

D. Italicize

E. Underline

F. Normal / Extended font

G. Color

H. Link text to a webpage

If the beginning of the word you are typing matches the first letters of a word or a phrase that you've already entered in the current or any other document, those words or phrases will appear below.

To save time, select the phrase you need instead of typing it again.

Spellchecker

The spellchecker checks only what you type and underlines misspelled, unknown or uncapitalized words.

You can activate the spellchecker at any time before or after you start typing. Click the **Spelling** icon in the main toolbar.

The spellchecker panel will appear below the main toolbar, just click on the toggle.

Apart from English, you can check French, German, Italian, Norwegian, Portuguese and Spanish texts. Select the language you need from the dropdown list.

To correct a word, right-click it and choose a replacement from the dropdown list.

The spellchecker underlines words that it does not recognize. If the word is spelled correctly, you can add it to your dictionary. The spellchecker will recognize it the next time you type it.

Linking Videos to Documents

Add instructional, marketing or welcome videos to your documents.

Open a document, type a phrase that you want to link to the video and click the **Hyperlink** icon.

In the dialog window that will open, insert the URL address of the video and press **Save**. Please note that the video must be published on Youtube. Whoever opens the document will be able to watch the video.

Mini Toolbar

The mini toolbar appears above any content you add to the document including text, checkmarks, pictures, etc.

To change the position of the content, click the arrow icon and, while holding down the mouse button, drag the content where you need to place it. OK confirms your action and activates the Text tool. To resize the content, use the tree icons. To delete content, click the trash can icon.

Add a Checkmark

Select the checkmark, “X” or circle in the main toolbar and click where you would like to place it.

Add the Date

Click the **Date** icon in the main toolbar and click where you want to place the date. The current date appears by default. You can change it to any date you want.

Add a TextBox

Select the **Textbox** icon in the main toolbar, click where you want to place the text box and type your comment.

To resize the text box, drag its corners or edges.

Change the vertical and horizontal alignment of the text using the vertical and horizontal alignment tools.

To change the background color, click the **Background** icon and select the color from the palette.

To change the color of the borders, click the **Box** icon and select the color from the palette.

Folders

To optimize your workflow, you can create folders and organize your documents more effectively.

Creating Folders and Subfolders

To create a folder, go to **MY DOCS > MYBOX** and click the **folder** icon.

In the dialog box that will open next, type in a name for the new folder, for instance **001_Sample_Folder**, and press **Create**.

The newly created folder will be placed alphabetically among the other folders.

To create a subfolder, select the parent folder and click the **folder** icon above. In the dialog box, enter a name for the new subfolder, for instance **01_Subfolder**, check the box under the name, and press **Create**.

Moving Documents

You can easily move any document to any folder.

First, select one or more documents that you want to move and click **Move**.

Then, select the destination folder and press the **Move** button.

Tagging Documents

You can attach color-coded tags to your documents. Tagging enables you to group documents into categories and makes search for documents easier. To add a tag, select the document and click the **Tag** icon above or the dot next to the document's name.

You can create a new tag or attach an existing one. To create a new tag, select a color dot and enter a name for the new tag. To attach an existing tag, select it from the list.

Tags [Close]

Add tags to document(s)

Enter a tag

Tag color: [Grey] [Red] [Orange] [Yellow] [Green] [Blue] [Purple] [Brown] [Dark Blue]

Select existing tag(s)

[Blue] #Contracts [Yellow] #To edit [Orange] #To send

Done

You can attach more than one tag to any document by repeating these steps. Press **Done** to close the dialog box.

<input type="checkbox"/>	<input type="radio"/>		publication 1281 form	03:02
<input checked="" type="checkbox"/>	<input checked="" type="radio"/>		QUESTIONNAIRE_0000...	02:20
<input type="checkbox"/>	<input type="radio"/>		2016 1099 form	05/15/17

To find documents with the same tag, click the search icon, enter # followed by the tag name, and press **Enter** on your keyboard.

The screenshot shows a document management interface. At the top, there are two buttons: "Add New Document" and "Create Document". To the right is a search bar containing the text "#To send". Below the search bar is a dropdown menu with the text "Find a document either by title or # followed by the tag". Below the search bar is a toolbar with icons for Copy, Rename, Delete, Move, Tag, and More. Below the toolbar is a list of documents:

Document Name	Duration/Date
publication 1281 form	03:02
QUESTIONNAIRE_0000010	02:20
2016 1099 form	05/15/17

On the right side of the interface, there is a vertical menu with options: Open, Print, Email, SMS, and Fax.

Documents with the same tag will appear in the search results.

The screenshot shows search results for "QUESTIONNAIRE_0000010". The interface includes a search bar with "Search Results (6)" and a "Close" button. On the left, there is a "MYBOX" section with a list of folders: "Unsorted" (4 items), "Contracts_20170509" (1 item), and "INVOICES" (1 item). The main area shows a list of documents sorted by "Date Modified-Newest":

Document Name	Duration/Date
Sample_Document_001	03/28/17
QUESTIONNAIRE_0000010	02:20
New_Document	12/05/16
DOCUMENT_007	11/30/16

On the right side, there is a vertical menu with options: Open, Print, Email, SMS, Fax, and Save As.

Preview

Using the **Preview** feature, you can find documents much faster because you don't have to open them. To open the preview pane, click **Show Preview** on the right.

To see the previous or the next page, click < or > respectively.

Importing Documents from Cloud Storage

You can import documents directly from Dropbox, Google Drive, Box or OneDrive to PDFfiller. This can save you a lot of time because you don't have to download documents to your local drive and upload them to PDFfiller.

In **MY DOCS**, open the **CLOUD** tab.

Select your cloud storage, for instance, Google Drive.

Log in.

The image shows a Google login interface. At the top left is the Google logo. Below it, the text "Hi" is displayed next to a circular profile icon containing the letter "I". A password input field is labeled "Enter your password" and contains several dots. To the right of the input field is a small icon of a password manager. At the bottom left, there is a link for "Forgot password?". At the bottom right, there is a blue button labeled "NEXT".

If you're already logged in, this step will be omitted.

Click on the document that you'd like to import and press **Select**.

The document will open immediately in the PDFfiller editor and remain unchanged in **Google Drive**.

Synchronizing

Use the **Synchronize** feature to refresh the **MYBOX** page or the **CLOUD** page to get the latest version. Click **More** and select **Synchronize** from the dropdown menu.

The page will be instantly updated.

Trash Bin

To remove a file from your storage, you can put it in the TRASH BIN.

Select the files you want to delete and click **Move to Trash**.

Your deleted files will stay in the TRASH BIN until you delete them permanently or empty your trash. The left pane reminds you where you kept the files before moving them to the TRASH BIN.

Once you put a file in the TRASH BIN, you can either restore or delete the file forever.

To restore files, select them and click **Put Back** in the right pane. To delete the selected files permanently, click **Delete Selected**.

The screenshot displays a file management interface with the following elements:

- Tabs:** OUTBOX and TRASH BIN (selected).
- Buttons:** Add New Document and Create Document.
- Sorting:** Sorted by: File Name: A-Z.
- File List:**

Selection	File Name	Size
<input checked="" type="checkbox"/>	Sample_PDF_000001	01:50
<input checked="" type="checkbox"/>	Sample_PDF_000002	01:50
<input type="checkbox"/>	Sample_PDF_000003	01:50
- Right Pane:** Put Back, Delete Selected, Empty Trash Now.

To remove all the files from the TRASH BIN, click **Empty Trash Now**.

Collaborate and Versions

Give limited access to your forms to others, track their activity, and restore earlier versions of your documents.

Sharing Documents

Work together on any device to access, edit, collaborate and comment on a single document. Click the **Done** button and select **Share** from the dropdown menu.

Alternatively, select the document in **MY DOCS** and click **Share** in the right pane.

Enter the first recipient's name and email address and press **Add Recipient**. Use your address book or import your contacts from Gmail, Yahoo, Hotmail or Outlook. You can share any document with up to 10 people. Set permissions for each recipient by selecting **Can Edit**, **Can View** or **Can Sign** from the dropdown list.

Select the notification settings for each user by choosing **Notify** or **Don't Notify** from the dropdown.

 Michael @pdffiller.team	 Notify ^	 Can Sign v
 Derek @pdffiller.team	 Notify  Don't Notify	 Can View v

If you choose **Notify**, the user will receive an email every time other recipients edit the document.

[Contact Support](#)

Hello Michael,
Your Shared document has been edited by Anya.
Thank you for using PDFfiller, and feel free to contact support if you have any questions
The PDFfiller Team

Last Edited: [07/06/17](#)

[Open Document](#)

Write a message to your recipients inviting them to edit or sign the document.

Click **Personalize Your Invitation to Share**.

+  Personalize Your Invitation to Share More details

For your convenience, PDFfiller offers three invitation templates: **Casual**, **Formal** and **Informal**.

-  Personalize Your Invitation to Share Less details

Select Template

 Casual

 Formal

 Informal

Subject

[your_name] [from_your_company] has shared the document(s) with you.

Message

Dear [recipient_name],

[your_name] [from_your_company] has shared document(s) with you using PDFfiller.

Now you can collaborate on the document(s). Any changes you make on the document(s) will be visible to all participants. You can also print, email and fax the document(s) to anyone.

If you have any questions, please email to: [your_email]

Create your business card by filling the fields with your contact information.

Your Business Card

	<input type="text" value="First Name"/>	<input type="text" value="Last Name"/>
	<input type="text" value="Job Title"/>	<input type="text" value="Company"/>
	<input type="text" value="Email Address"/>	<input type="text" value="Phone Number"/>
	<input type="text" value="Fax Number"/>	<input type="text" value="Website"/>

PDFfiller can automatically remind your recipients to edit or sign a document.

Click **Reminder for Recipients** and select when you want the reminder to be sent.

The screenshot shows a user interface for setting reminders. At the top, there is a button labeled '+ Reminders for Recipients' with a bell icon and a 'More details' link. Below this, there are several sections. One section is titled '+ Personalize Your Reminders' with a clipboard icon. Another section is titled '- Reminders for Recipients' with a bell icon. A dropdown menu is open over the 'Reminders for Recipients' section, showing options: 'Never', 'in 1 day', 'in 2 days' (which is highlighted), and 'in 3 days'. Below this, there is a section for 'Automatic Reminder' with a dropdown menu showing 'Never' selected.

In addition, you can set another reminder if the recipient ignores the first one.

The screenshot shows a user interface for setting reminders. At the top, there is a button labeled '- Reminders for Recipients' with a bell icon and a 'Less details' link. Below this, there are several sections. One section is titled 'Automatic Reminder' with a dropdown menu showing 'after 2 days' selected. Another section is titled 'Repeat a Reminder' with a dropdown menu showing 'after 2 days' selected. To the right of these sections, there is text: 'Send a reminder if the document has not been opened by 7/8/2017.' and 'Repeat the reminder if the document has not been opened by 7/10/2017.'

Finally, press **SHARE** at the bottom of the page.

An email with a direct link to the document will be sent to each recipient.

Collaborators can make changes based on the permissions you've set for each. They will be able to print, save or send the document after they've edited or signed it.

To view the settings and changes made to a shared document, go to **MY DOCS > OUTBOX > Share**. If you send the document to three recipients, three copies of the same document will appear in the Share folder. To add or remove collaborators or to modify their permissions, select the document and click **Settings**.

You can also revoke editing privileges.

On the **Share Status** page, press the **Unshare** button. The document will be removed from the **Share** folder and the recipients will no longer be able to access the document.

Role Template

When you share or send a document for signature, you can assign a fillable field to a particular person so that nobody other than this person will be able to fill in the field.

First, create fillable fields in the document. Please refer to the **Add Fillable Fields** section of this Guidebook.

Then, select the document, click **More** and choose **Role Template**.

Type in the name of the first person who will sign the document and press **Enter** on your keyboard. Repeat this step for each signer and press **Assign Roles** in the bottom right corner.

Click on the field you want to assign, open the dropdown list under **Who Needs to Fill This Out** and select the name of the person who will have the exclusive right to fill in the field. Repeat this step for each person signing the document and press **Save** in the top right corner.

Please note, that if you don't assign a fillable field to anyone, any recipient will be able to fill it.

Transferring Documents

Send copies of documents to any PDFfiller customer.

Select one or more documents, click **More** and choose **Transfer** from the dropdown menu.

Enter the recipient's email in the address field, check the box under the field and press **Transfer**.

Transfer Documents ✕

This functionality allows you to create a copy of the selected document(s)
And transfer this copy to any other user that has an account on PDFfiller.

You are about to transfer the following document(s):

 Sample_PDF_000001	11:55 am
 Sample_PDF_000002	11:55 am
 Sample_PDF_000003	11:54 am

Please enter the email address of the user to whom you would like to transfer the document(s):

I agree with the transfer of document(s) to another user

The recipient will receive an email requesting transfer. To complete the transfer, the recipient has to press **Confirm**.

A new folder will be automatically created in the recipient’s account. The documents will be saved in that folder.

StickyNotes and Annotations

Leave comments on PDF documents with sticky notes and annotations.

Select the **Sticky** icon in the main toolbar, click where you want to place the note and type your comment.

To resize the sticky note, drag its corners or edges.

To change the color of a sticky note, click the **Box** icon and select the color from the palette.

Add a comment

To add a comment, select **Comment** in the main toolbar.

Press the blue **Add comment** button and click on the text or image you want to comment on.

Type your comment and click **Comment**.

Edit, delete or reply to a comment

Click on the comment you want to edit, delete or reply to, click **More [...]** and select **Edit**, **Delete**

Edit the comment and click **Save**.

Type your response and click **Reply**.

After you've selected **Delete**, click **OK** to confirm your action.

Resolving comments

To resolve a comment, click **Resolve**. This will remove the comment.

View Changes and Versions

Track all edits in automatically saved versions of the same document.

While editing a document, open the **Versions** tab on the right.

Here, you can view each saved document state (documents are saved each time you hit **DONE**).

Versions ?
Current Version
September 20, 2016 03:19 PM
Restore this version
June 01, 2016 02:37 PM

Restore a Previous Version

Clicking on **Restore this version** will revert your document to that previous state. You can undo this restore by returning to the **Versions** panel and choosing the most recent version.

To exit the versions preview, click **Close** in the top right corner of the page.

✕ Close

Audit Trail

Browse authentication records for all activities in your account.

Audit Trail

The audit trail shows when you logged in and out, opened, sent, deleted, downloaded documents, etc. You can make an inquiry for any period of time you are interested in.

To check your activities, go to **My Docs** and click the **Audit Trail** icon in the top right corner.

Select the period you would like to check.

Audit Trail

The Audit Trail is a log of your actions and changes in PDFfiller.

09/09/2016 - 12/27/2016 

Today	October 2016							
	Su	Mo	Tu	We	Th	Fr	Sa

To save the audit trail as a PDF file to your local drive, click the **Save** icon.

Encryption and Security

Protect your documents and keep important information confidential with advanced encryption and authentication.

Encrypted Folder

Protect your documents with two-factor authentication in your **Encrypted** folder.

To activate the Encrypted folder, select it in **MYBOX** and enter your cell phone number.

The screenshot shows a user interface with a top navigation bar containing 'MYBOX', 'INBOX' (with a red notification badge '4'), and 'OUTBOX'. Below this are two buttons: 'Add New Document' and 'Create Document'. On the left, a 'FOLDERS' sidebar lists 'All Documents' (348), 'Unsorted' (259), and 'Encrypted' (1), with 'Encrypted' highlighted. The main content area displays a modal dialog with a lock icon and the following text:

The encrypted folder allows you to protect sensitive documents with an additional password.

Please enter your phone number to receive an activation code for this folder.

Phone Number

Send

You will immediately receive an activation code via text message. Enter the activation code and click **Verify** to create a password.

A verification code entry screen. At the top is a yellow padlock icon. Below it, the text "Please enter verification code." is centered. There are two input fields: the first is empty, and the second contains the number "69221". Below the input fields is a large orange button labeled "Verify". At the bottom, there is a red link that says "Send the code again".

Create and confirm your password — this will open the folder.

The PDFfiller interface is shown. The top navigation bar includes "PDFfiller", "MY DOCS", "FOR BUSINESS", "SUPPORT", and "MY ACCOUNT". The main area has tabs for "MYBOX", "INBOX", and "OUTBOX", along with "Add New Document" and "Create Document" buttons. A sidebar on the left shows "FOLDERS" with "All Documents" (348), "Unsorted" (259), and "Encrypted" (1). The main document area shows a file named "a348 - da 348 2011 form" dated "11/03/16". A right-hand menu contains options like "Open", "Print", "Email / SMS", "Fax", "Save As", "Fill in Bulk", "Share", "SendToSign", and "LinkToFill". At the bottom, a modal window titled "Encrypted Folder" explains that the data is protected with an extra layer of encryption and is accessible with an additional password set on a mobile phone.

To add documents to the Encrypted folder, drag them from any other folder. After you've finished working with your protected documents, close the Encrypted folder by clicking the key icon. It will also automatically lock after 10 minutes of inactivity.

To access the documents in the Encrypted folder, you will have to enter your password again.

HIPAA Compliance

Protect medical records with security that meets HIPAA standards.

Go to **MY ACCOUNT** and select **Account Information**.

The screenshot shows the PDFfiller 'Manage your account' page. The navigation bar includes 'MY DOCS', 'FOR BUSINESS', 'SUPPORT', and 'MY ACCOUNT'. The main content area is titled 'Manage your account' and features a grid of account management options: 'Subscription & Payment', 'Personal Information', 'Account Information', 'Custom Branding', 'Address Book', and 'API Settings'. The 'Account Information' option is highlighted with a green arrow. To the right, the 'Account Information' section displays the following details:

Account Information	
Account Number:	
Registration date:	05/25/2016
Subscription expired:	06/29/2017
Count Documents:	423
Count folders:	18

A 'Subscribe Now!' button is located at the bottom of the 'Account Information' section.

Check the box in **HIPAA Compliance** section and click **Save**.

The screenshot shows a settings panel titled "HIPAA Compliance". Inside the panel, there is a checkbox labeled "Use HIPAA" which is currently unchecked. Below the checkbox is a grey button labeled "Save".

Login with Phone

Use your phone instead of the email to access your account.

Select the **Login with Your Phone** option.

The screenshot shows a "Log In" form. It features two input fields: "Email" and "Password". The "Password" field has an eye icon to toggle visibility. Below the fields are two options: a checkbox for "Don't Remember Me" and a link for "Forgot password". A large orange button labeled "Log In" is positioned below these options. At the bottom of the form, there is a link labeled "Login with Your Phone" accompanied by a green circular arrow icon.

Enter your cell phone number. You will receive a single-use login PIN via SMS.

Please enter your mobile phone number to receive a single-use login PIN via SMS.

Enter the PIN and click **Log in**.

Please enter the PIN you received via SMS.
Each PIN is unique and may only be used once.

[Resend PIN](#)

Please note that prior to using this feature, you have to save your cell phone number in **My Account**.

Host Fillable Forms

Interactive fillable documents available to anyone to fill out from any device.
No coding or hosting necessary.

Attach Video Greeting Help

Introduce recipients to your fillable document by adding a help or welcome video.

While customizing the link to a document, insert a link to the video that you need to attach to the document. Please note that the video should be published on YouTube.

Video URL 

Whoever opens the document for filling will be able to watch the video.

The screenshot displays the PDFfiller interface. At the top, there is a toolbar with icons for Text, Cross, Check, Circle, Sign, Date, Picture, Erase, Highlight, Blackout, More (5), Spelling, Search, 127%, and Help. A prominent orange 'DONE' button is on the right. Below the toolbar, a message box reads: 'To enter data on this form, click anywhere and begin typing. Click "DONE" to proceed.' In the bottom right corner, a video greeting help message is shown, featuring a play button icon and the text: 'Please make sure all information on this form is correct before submitting. If you have any questions about using PDFfiller, please click the question mark.' Below this text is a video player with a play button and the caption: 'To better understand how to use this feature watch the video'.

Publish on Website

Make your document publicly accessible. Create a link to the document and publish the link on your website as a button or an HTML link.

You can start creating the link directly from PDFfiller's editor. Click **Done** and select **LinkToFill** from the drop-down menu.

Alternatively, go to **My Docs**, select the document in its folder and click **LinkToFill** on the right.

Customize the embeddable HTML link.

Add fillable fields to the document. Create checkboxes and fillable fields for various types of data including text, numbers, signatures, dates, and photos. For more information, please refer to the **Add Fillable Fields** section of this Guidebook.

Add Fillable Fields

Add fillable fields such as text, checkboxes, signature, and date. This ensures the document is filled in properly and fully completed, while making it easier for others to do so.

[Add Fields](#)

Customize the link's text. Type your own text in the text field. It cannot be longer than 50 characters.

FILL NOW

You can also choose whether or not to use the **document** icon, just check or uncheck its checkbox.

Choose the link colors by clicking the colored squares.

The screenshot displays the configuration interface for a link or button. It includes the following elements:

- Link or Button Text:** A text input field containing "FILL NOW" with a "max 50 characters" limit.
- Link Style:** Three radio button options: "Link", "Small Button", and "Large Button".
- Use Icon:** A checked checkbox with a document icon.
- Link Colors:** "Text Color" set to blue and "Button Color" set to green. A color picker is open, showing a blue color with the hex code "#2a6dde".
- Custom Logo and Branding:** A section with a "Logo" placeholder and the PDFfiller logo. A note below reads: "Replace the default PDFfiller logo with your own (optional)."
- Preview:** A box labeled "PREVIEW" showing a green button with the text "FILL NOW" and a document icon.

Upload a custom logo for your document. Click the **Add New Logo** button and follow your browser's tips to upload an image from your device. The image should be in JPEG, GIF, or PNG format and its size cannot exceed 5 MB.

The screenshot shows the "Custom Logo and Branding" section of the configuration interface. It features a dashed box containing a plus sign and the text "Add New Logo". To the right is the PDFfiller logo. Below the logo area, a note states: "Replace the default PDFfiller logo with your own (optional). Recommended dimensions: 160x50 px. Acceptable file types: JPG, GIF, or PNG. Max file size: 5 MB."

Whoever fills the document will see your logo in the top left corner of the page. If you choose not to use this option, PDFfiller's logo will appear by default.

Provide the name, company and job title of the document's author.

Author's Info 

To request recipients' consent to use their electronic signatures and records, switch on the toggle.

Welcome Agreement 

On Off

Write a message to those who will fill the form, for instance, an instruction or request. Add a video as mentioned above and proceed by clicking **Select Options** in the bottom right corner of the page. This will open the tab where you can select the following options:

Password Protection and HIPAA compliance. Create a password to restrict access to the document. You will have to provide the password to those who need to access the document. To comply with the standards of data protection under the Health Insurance Portability and Accountability Act, check the box.

Password Protection 

Security  HIPAA compliance

Permissions. Select **Full Access** to enable the recipients to edit the document using all PDFfiller tools or select **Signature Only** to limit the editing capabilities to signature and date only.

Signature Stamp. To turn on the “Verified by PDFfiller” stamp that will appear next to every signature, check the **Enforce** box.

Permissions 

Full Access

Signature Only

Enforce

Request Additional Documents. You can request the documents that should be sent along with the filled document.

Request Additional Documents 

 Add document name

Submission Requirements. You may request a name and email address from a person submitting the document.

Submission Requirements 

Require email address

Require name

Download Options. If you permit downloads, whoever fills the document will be able to get a copy of it.

Download Options 

Allow downloads

Redirect After Submission. As soon as visitors of your site fill and submit the document, you can redirect them to any webpage you like — just insert the URL address of the web page in the text field.

The screenshot shows a settings panel with the title "Redirect After Submission" and a help icon. Below the title is a text input field containing the URL "https://www.pdfFiller.com".

Notifications. You can choose whether or not to receive an email notification every time somebody submits the document. Enter email addresses of those who need to receive notifications.

The screenshot shows a settings panel with the title "Notifications" and a help icon. Below the title are three radio button options: "No notification", "Notification only" (which is selected), and "Notification with PDF copy of document". Below these options is a text input field labeled "Notification Email(s)" with a help icon and a placeholder text "Add Email Address".

Document ID. If you choose to use this option, PDFfiller will generate a unique ID that can be used to track the document.

The screenshot shows a settings panel with the title "Document ID" and a help icon. Below the title are two checked checkboxes: "Generate document tracking ID" and "Display tracking ID on document".

After you've selected all the relevant options, click **Activate** at the bottom of the page; this will open the **Activate** tab.

The screenshot shows the "Activate" tab in the PDFfiller interface. At the top, there are three tabs: "1. Customize", "2. Select Options", and "3. Activate". Below the tabs, there is a "Document Status" section with a help icon. It contains two buttons: "Inactive" and "Active" (which is highlighted in orange). To the right of these buttons is a "Test Your Document" button. Below the "Document Status" section, there is a "Distribute your form" section.

Set the Document Status. Change the document's status to "Active" or "Inactive".

Document Status 

Inactive

Active

Test Your Document

Once the document is active, you will be able to distribute it using its URL address, HTML code, or QR code.

2 Add the Fill Form button to your website.

Copy and paste this code into your website's HTML to display the button or text link you have designed:

```
<link rel="stylesheet" type="text/css" href="https://www.pdfFiller.com/css_v2/link2fill-0.1.min.css">
<a href="http://pdf.ac/4JJVV1" target="_blank" title="PDFfiller.com: " style="color:#2e72e7;background:#00ff9c" class="pdfFiller-
fill_form_btn pdfFiller_fill_form_btn_large"><i class="pdfFiller_fill_form_btn_icon">
```

Your website's visitors will be able to open the document in the PDFfiller editor where they can easily fill, sign, and submit the document with just a few clicks.

QR Code

Share your fillable document via QR code to allow instant access from any mobile device. Download the QR code and add it to any printed document, booklet, leaflet, etc.

Download

Smartphone users will be able to scan the code with their cameras to easily access the document on their devices.

Social Networks

You can also share your document through social networks such as Facebook, Twitter or Google+.

3 Share your form to Social networks.

Click one of the buttons below and log into Facebook, Twitter, or Google+ to share your document's URL through these social networks.

[f Share on Facebook](#) [Share on Twitter](#) [g+ Share on Google](#)

Mobile Version

A separate downloadable application allows your forms to be available at all times on any mobile device. To install the **Form Filler App** on your mobile device, use the links to the App Store or Google Play.

NEW

 **Form Filler**
Save Time Editing PDF Documents Online

- ✓ You can use the built in QR Code scanner to open your form
- ✓ Identify your form with this Unique Form ID

 3800-8539-3424

To fill and submit a hosted fillable form, all you'll have to do is just open the link or scan the QR code.

Extract Data into Excel

Export data from filled PDF documents as an Excel spreadsheet.

To access the completed document, go to **MY DOCS > INBOX > LinkToFill**. Select the document and click **Filled forms**.

To export information from the document as an Excel spreadsheet, click **Export**.

Notifications when Filled

Every time somebody fills and submits the document, you'll receive an email notification.

You can access the document using the link included in the notification.

Store and Access All Filled Forms

Access your filled forms anytime and from any device by keeping them in secure cloud storage.

Go to **MY DOCS > INBOX > LinkToFill** and select the document you need.

The screenshot displays a document management interface. At the top, there are navigation tabs: MYBOX, INBOX (highlighted), and OUTBOX. An 'Add New Document' button is located to the right of these tabs. A search icon is in the top right corner. On the left side, there are two main sections: 'RECEIVED' and 'COLLABORATION'. Under 'RECEIVED', there are sub-items: Email (2), Faxes, Shared with Me, and Signature Requested. Under 'COLLABORATION', there is 'SendToSign' (19) and 'LinkToFill' (highlighted with a red notification badge). The main area shows a list of documents with columns for document name and date. The document 'DOCUMENT_0011' is selected, indicated by a checkmark and a highlighted row. The date for this document is 10/28/16. Other documents in the list include 'Employment_001' (10/31/16), 'DOCUMENT_0015' (10/31/16), 'DOCUMENT_0013' (10/28/16), and two instances of 'SAMPLE_DOCUMENT_007_195159' (10/27/16 and 10/26/16). On the right side, there are buttons for 'Filled forms' and 'Settings'.

Document Name	Date
<input type="checkbox"/> Employment_001	10/31/16
<input type="checkbox"/> DOCUMENT_0015	10/31/16

<input type="checkbox"/> SAMPLE_DOCUMENT_007_195159	10/26/16

Add Fillable Fields

Transform any document or form into a fillable form with smart digital fields using our drag and drop wizard.

Drag and Drop Fields

The technique for adding fields is the same for all field types. While editing a document, open the **Add Fillable Fields** tab on the right.

Select the field you need, then drag and drop it where it should be in the document. Resize the field by dragging its corners or edges.

Required Fields

You can mark any field as Required. Check the box and a red asterisk will appear in the top right corner of the field.

It is impossible to submit a form if a required field is empty.

Checkboxes

To add a checkbox field, click the **Checkbox** icon and click where you want to place it.

When you resize a checkbox, the next one will be of the same size so you will not have to resize each checkbox.

To customize a checkbox, select it, then click **Advanced** to expand options:

Type of Checkbox. You can format the checkbox to be filled with a simple checkmark, “X”, or circle.

Default. Select whether the default setting for a checkbox is checked or unchecked.

Note. Enter instructions or tips for filling the field. Users will see the note when they hover their mouse over the field.

Database Field Name. Create a name for the field that will appear when you export filled data to a spreadsheet or when you use a PDFfiller API.

Group Name. Group checkboxes together by entering the same group name for each box. When filling the document, only one checkbox within a group can be checked at any time.

Text Field

To add a text field, click **Text**, then click where you want to place the field.

Use the text formatting tools to preset the field's text format including the font, size, color and alignment of text. It will be impossible to change text format while filling the field.

To customize the text field further, click **Advanced** to expand options.

Default Text is the text that will appear in the field when others fill the form. If you lock the field, nobody will be able to replace the default text.

Note. Here you can enter any instructions or tips for filling the field. Users will see the note when they hover their mouse over the field.

Max Characters. Set the maximum number of characters allowed in the field. The "auto" setting will limit that number to what can physically fit into the field.

Max Lines. Set the maximum number of lines allowed in the field.

Database Field Name. Create a name for the field that will appear when you export filled data to a spreadsheet or when you use a PDFfiller API.

Date Field

To add a date field, click **Date**, then place the field where it should be in the document.

To customize a date field, click **Advanced** to expand options.

Format. Select one of many date formats.

Default. Choose the date that the field will display before the user changes it.

Note. Enter any instructions or tips for filling the field.

Database Field Name. Create a name for the field that will appear when you export filled data to a spreadsheet or when you use a PDFfiller API.

Signature Field

To add a signature field, click **Signature** and drag the field where you want to place it.

Anyone filling the document can click the signature field and use PDFfiller's signature tool to sign the document.

Drop-down Field

To add a fillable drop-down field, click **Dropdown** and drag the field where it should be in the document.

To help users choose an item from the list, provide a suggestion in the **Add Some Text to Help** textbox.

To add an item to the list, type a new value in the empty field and click **+ Add**. To allow users to provide their own alternative, check the respective box.

To customize a drop-down field, click **Advanced** to expand options.

Default. Select the default item from the list you've created.

Note. Enter any instructions or tips for filling the field.

Database Field Name. Create a name for the field that will appear when you export filled data to a spreadsheet or when you use a PDFfiller API.

Use the text formatting tools to preset the field's text format including the font, size, color and alignment of text.

Number Field

To add a number field, click the **Number** icon, then click where you want to place the field.

You can customize a number field just like a text field. To learn more, please refer to the **Text Field** section above.

Photo Field

To add a photo field, click the **Photo** icon, then click where you want to place it.

Anyone filling the document will be able to click the photo field and either upload a photo from their device or take one with their webcam.

Formula Field

You can make simple calculations using the formula field.

First, you need to create number fields that will be used as operands. Then, click **Formula** and place the formula field where you need it.

Write the formula in the **formula box** just above the document using the number fields as operands. A click on a number field adds it to the formula.

Alternatively, you can use the **Formula builder** to create formulas. Add a formula field, click the **fx** button to activate the **Formula builder**. Press **New Number Field** to add the first operand. Repeat this step to add as many number fields as you want.

Select the first operand from the list and the first operator by pressing +, -, * or /, then select the

When you fill number fields, the formula field will automatically show the result of the calculation.

Initials Field

To add a fillable field for initials, click the Initials icon and drag the field where you want to place it.

Wizard Control

There are three modes of filling a document containing fillable fields: **Wizard**, **Fields** and **Off**. To activate the mode you need, click the **Wizard** icon in the main toolbar and use the selector that

The **Wizard** mode allows you to go from field to field following the default sequence or in any other order that might appear more appropriate. You don't have to go through the document in search of fillable fields, save time selecting fields from a convenient list.

The **Wizard** shows you the fields you've already filled, the current field and the remaining fields, so you can easily estimate the progress you are making. To expand the Wizard, click the **Wizard** icon.

As soon as you fill a field, the corresponding box in the Wizard will be checked and the instructions

To go to the next field following the default sequence, either click the **Next** button under the field or press **Enter**, **Tab** or the **Right/Down Arrow** key on your keyboard. You can fill the document in any other order by selecting fields from the list.

In the Fields mode, you can select fields by pressing the **Tab** or arrow keys on your keyboard or using your mouse.

Use the selector to deactivate fillable fields. Be careful - the data you've already entered in the fields will be deleted and will not reappear even if you return to the **Wizard** or **Fields** mode.

To restore the data, use the **Undo** button or press **Ctrl+Z** (**Command + Z** on a Mac) on your keyboard.

Sign

Create legally binding eSignatures faster than ever before.

Add a signature on Mobile

Sign documents on the go by drawing your signature on any mobile device.

Tap the Signature icon, then tap the document where you need to put your signature. Create a signature using your finger or select a signature if you have already uploaded it. The signature you create will be saved for future use.

Add a Signature from your Computer

Draw a signature with your mouse or touchpad and add it to your document.

Click the **Sign** icon in the main toolbar to open the Signature Wizard that allows you to type, draw, sign, upload, or capture a signature.

To type a signature, click the T icon and type your name. Click **Save and Use** to use the signature immediately or **Save** to use it later. In both cases the signature will be saved in the Signature Wizard.

Click where you need to place the signature. Use the mini-toolbar to resize the signature or change its position.

To draw, click the fountain pen icon and use your mouse or trackpad to draw your signature by clicking and dragging. You can also change the color and thickness of the signature.

Save and place the signature exactly where you want it to appear.

Real Signature with a Photo

Make it easy to add a legally binding signature to a document by capturing a handwritten signature with a webcam.

Click the webcam icon and allow PDFfiller access to your camera.

Sign a piece of paper and hold it up to the camera, so the signature fits inside the blue box, then click **Take**.

You can then choose to make adjustments to the scan or use the signature as-is.

Verified by PDFfiller Stamp

PDFfiller verifies your signature with a stamp showing the date when you signed the document.

To show the stamp, click its icon.

Legal in 50 States

All signatures added in PDFfiller are legally binding under the E-Sign Act (2000).

Erasing, Highlighting, Redacting and Drawing

Easily customize documents to fit your needs with a variety of tools.

Erasing

Quickly Erase any content from a PDF document with precision.

Clicking the **Erase** button will cause the eraser toolbar to appear under the editing tools.

The screenshot shows the PDFfiller software interface. The top toolbar includes icons for PDFfiller, Text, Cross, Check, Circle, Sign, Date, Erase (highlighted with a green play button), Highlight, More (6), Comment, Spelling, Search, 150%, and Help. An orange 'DONE' button is on the right. Below the toolbar, a message box says: "To enter data on this form, click anywhere and begin typing. Click 'DONE' to proceed." The main document area contains the following text: "3. Select the level of access to the document that visitors will have, from full editing permissions to just a signature option. You also have the option to require each visitor to include their email address and name before they can submit the document. Then select the 'Notification' checkbox if you'd like PDFfiller to notify you each time a copy of the document is filled." On the right side of the document, there is a vertical toolbar with 'ADD FILLABLE FIELDS' and 'MARK' buttons.

Use the slider to change the thickness of the eraser.

Navigate to the content you want to erase, press and hold down the mouse button, drag the eraser across the content, then release the button and click **OK**.

If the page color or background is not white, use the color selector to change the eraser's color. Click the color selector icon, then click once anywhere on the page or background.

Navigate to the content you want to erase, click and drag the eraser across it and then click **OK**.

You can also delete content within a rectangle of any dimensions.

Click the **rectangle** icon, place the cursor at any corner of the rectangle you need to delete, press down the mouse button, drag it to the opposite corner and release the button.

Highlighting

Highlight text in documents with a simple swipe of the cursor.

Click the **Highlight** button in the main toolbar, navigate to the content you want to highlight, press and hold down the mouse button, drag the cursor across the content, then release the button and click **OK**. Use the slider to change the thickness of the highlighter before or after highlighting.

If you want to highlight an entire paragraph, click the **rectangle** icon, place the cursor in the top left corner of the paragraph, press down on the mouse button, drag the cursor to the bottom right corner and release the button.

If you need to highlight specific words or phrases, use the **Search** tool and its highlighter.

To delete a highlight, select the highlight and then click the trash can icon.

Redacting

Use the **Blackout** tool to redact sensitive information.

Click the **Blackout** button in the main toolbar, navigate to the content you want to redact, then click and hold down the mouse button while dragging your cursor across it. Use the slider to change the thickness of the black line before or after redacting.

You can blackout content within a rectangle of any dimensions.

Click the **rectangle** icon, place the cursor at any corner of the rectangle you need to blackout, press down the mouse button, drag the cursor to the opposite corner and release the button.

If you need to redact specific words or phrases, use the **Search** tool.

Drawing

Use powerful tools to draw any shape.

Select the **Draw** icon, the drawing toolbar will appear under the editing tools. Use the slider to set the thickness of the line. Click the color square and choose the color from the palette.

Click where you want to start and draw any shape by dragging. Release the mouse button to stop drawing and click **OK**.

You can change the thickness and color of the line after you've completed the drawing. Select it in the document and use the slider and the color palette.

New Form and Document Creator

Create new documents and customize their layout with a feature-rich web-based online editor.

Create a New Form

Create forms and add text, tables, graphics, images and drawings.

In **My Docs**, select a folder where you need to create a document and click **Create Document**.

This will open a sample document in the **PDFfiller Document Creator**.

To rename the document, delete its default name, enter the name you would like, and press **Enter** on your keyboard.

Delete the sample content before creating yours.

The screenshot shows the PDFfiller interface with a document titled "Questionnaire". The document content is as follows:

QUESTIONNAIRE

Personal Information:

First Name: _____ Last Name: _____

How many books did you read last year? _____

Please provide information about the book you are currently reading:

Author: _____

Title: _____

Format: EPUB PDF HTML other, please specify: _____

Add Text and Checkboxes

Adding text is easy. Just type it directly into the document or copy it from any other document. To paste text, press **Ctrl+V** or right-click and select **Paste** from the menu. You can also paste unformatted text by selecting **Paste as plain text** from the menu or pressing **Ctrl+Shift+V** on your keyboard.

To change the writing direction, select **Left to Right** or **Right to Left** from the menu.

Format text using these tools.

A. Font Size

B. Bold

C. Italic

D. Underline

E. Align

F. Numbered List

G. Bulleted List

H. Increase Indent

I. Decrease Indent

To add a checkbox, click **Insert Checkbox** in the toolbar. The check box will appear at the text cursor's position.

Add Tables

Enrich your documents by adding images and tables.

To insert a table, click **Insert Table** in the toolbar and move the cursor over the grid until you highlight the number of rows and columns you need.

When you click in the table, the table tools will appear.

To add a header, select **H**.

You can insert and delete rows and columns.

To merge cells, select the cells you want to combine, click **Cell** in the table tools and select **Merge cells**. You can merge cells located in the same row or in the same column.

You can split a cell in two either vertically or horizontally. Click in the cell you need to split and select **Vertical split** or **Horizontal split** from the table tools.

To change the cell background, click in the cell, click **Cell Background** and select the color you want.

Use the alignment tools to change position of text in cells.

Add Images

To add an image to the document, click in the toolbar or press **Ctrl+P** on your keyboard and then either drag-and-drop the image from your device into the box or click in the box to upload the image.

To replace the image, click Replace and then upload another image.

Turn the Form into a PDF

To save the newly created document as a PDF file, click **Done** and select **Save As** from the drop-down menu.

Select the **PDF** icon to save the document as PDF to your local drive.

Save Document As

How would you like to save: Questionnaire.htm

PDF

Save a copy of this document to your computer as a PDF

Word

Save a copy of this document to your computer as a Word document (.doc)

Excel

Save a copy of this document to your computer as an Excel spreadsheet (.xls)

PowerPoint

Save a copy of this document to your computer as a Powerpoint presentation (.ppt)

Add Watermarks, Images and Video

Customize your documents with visual content using simple, but powerful tools.

Add a Watermark

Add a custom watermark to PDF documents.

ADD WATERMARK

Click on the **Add Watermark** tab on the right to expand the panel.

Check the box and add the text that you want to appear in the watermark.

After the orientation, size, and opacity of the watermark have been defined, you can see the changes to your document in real time — simply select the pages you'd like to apply your watermark to see how it looks.

To remove the watermark, uncheck the box.

Add Page Numbers

Number the pages of a document with just one click.

ADD WATERMARK

While editing a document, open the **Add Watermark** tab on the right.

Select the **Page Numbering** dropdown menu to change the format, size and position of the numbers on the page.

To hide page numbers, uncheck the box.

Add an Image

Enhance documents with images or pictures that have been uploaded or taken with a webcam.

Select the Picture icon in the main toolbar to open the Image Wizard. You can either upload a picture that you already have or take a new one using your webcam.

To upload a photo from your computer, click the **Upload** button.

Before inserting the image in the document, you can crop, rotate and flip it, change its background, and adjust its brightness and contrast.

To place the image on the document, just click on it in the **Image Wizard**. Move or resize it for a perfect fit using the mini toolbar.

You can also take a picture using your webcam and add it to the document. Select a photo size to the right of your camera image, click **Take**, then click **Use** to proceed.

The window that will open next allows you to crop the image, adjust its brightness and contrast, flip and rotate it, or enhance it otherwise. After you've finished editing your picture, click **Save and Use** to add it to your document immediately or select **Save** to use the picture later.

Add Video

Add instructional, marketing or welcome videos to the documents that you host using our LinkToFill feature.

While customizing a link to a document, insert a link to the video that you want to attach to it. Note that the video should be published on YouTube.

Video URL 

Whoever opens the document will be able to watch the video.

The screenshot shows the PDFfiller editor interface. The toolbar includes icons for Text, Cross, Check, Circle, Sign, Date, Picture, Erase, Highlight, Blackout, and More (5). There are also icons for Spelling, Search, 127% zoom, and Help. A yellow 'DONE' button is visible in the top right. A notification box is overlaid on the editor, containing a message: "Please make sure all information on this form is correct before submitting. If you have any questions about using PDFfiller, please click the question mark." Below the message is a video player thumbnail with the text "To better understand how to use this feature watch the video".

Search Text in PDF

Find specific words or phrases in PDF documents.

Search

Use the **Search** tool to find a word or a phrase in the currently open document.

To activate the Search tool, click its icon in the main toolbar or press **CTRL +F** on your keyboard.

If a PDF document is not searchable, the dot on the Search icon will be red.

A. Search field

B. Counter

C. Previous

D. Next

E. Erase

F. Highlight

G. Blackout

Type the text you want to find in the search field. The counter will show you the number of the current search term and the total number of search terms found in the document. The current search term is highlighted in green, the others are highlighted in red.

ADD WATERMARK

Erase the found text

Search and Highlight

To highlight the current search term in yellow, click **Highlight**.

The screenshot shows the PDFfiller software interface. The top toolbar includes icons for Text, Cross, Check, Circle, Sign, Date, Picture, Erase, Highlight, Blackout, Text Box, and More (4). The search bar contains the text "watermark" and shows "5 of 10" results. A green checkmark icon is highlighted in the toolbar. The main document content is titled "8. Document **Watermark** and Page Labels" and includes the text "Add a Custom Your Document, Page Number or Date to" and "Underneath the Versions tab is the 'Watermark' tab, where you can add custom watermarks, page numbers and dates to any of your documents." The word "Watermark" in the text is highlighted in yellow. A tooltip "Highlight the found text" points to the highlighted text. The interface also shows a "DONE" button and a "Find Another Form" button.

Search and Redact

To redact the search term, click **Blackout**.

The screenshot shows the PDFfiller software interface. The top toolbar includes icons for Text, Cross, Check, Circle, Sign, Date, Picture, Erase, Highlight, Blackout, Text Box, and More (4). The search bar contains the text "watermark" and shows "7 of 10" results. A green checkmark icon is highlighted in the toolbar. The main document content is titled "8. Document **Watermark** and Page Labels" and includes the text "Add a Custom Your Document, Page Number or Date to" and "Underneath the Versions tab is the 'Watermark' tab, where you can add [redacted] page numbers and dates to any of your documents." The word "Watermark" in the text is highlighted in yellow. A tooltip "Blackout the found text" points to the highlighted text. The interface also shows a "DONE" button and a "Find Another Form" button.

Forms Security and Authentication

Protect your documents with two-factor authentication, encrypted folders and HIPAA compliance.

Use a PIN

Secure recipients' access to documents by applying a 4-digit PIN.

While sending a document for signature, you can add an extra layer of security to the document. Enable the recipient's authentication and enter his cell phone number.

The screenshot shows a user interface for adding recipients. At the top, it says "2. Add Your Recipients". Below this, there are two input fields: "Recipient Email" and "Recipient Name". To the right of the "Recipient Name" field is a trash icon and an "Options" dropdown menu. Below these fields, there is a section titled "Authenticate Signer" with a help icon. Underneath, there are two buttons: "Disable" and "Enable". To the right of these buttons is a "Phone Number" input field with a phone icon.

The recipient will receive a text message containing a 4-digit PIN. To access the document, the recipient will have to enter the PIN.

Use 2-Factor Authentication

Protect a folder or a form by adding 2-factor authentication, just like many bank accounts demand.

To activate the Encrypted folder, select it in **MYBOX** and enter your cell phone number.

The screenshot shows the MYBOX interface. On the left, under the 'FOLDERS' section, the 'Encrypted' folder is selected. The main content area features a large lock icon and the following text: 'The encrypted folder allows you to protect sensitive documents with an additional password. Please enter your phone number to receive an activation code for this folder.' Below this text is a text input field labeled 'Phone Number' and an orange 'Send' button.

You will receive immediately an activation code via text message. Enter the activation code and click **Verify** to create a password.

The screenshot shows the verification step. It features a large lock icon and the text: 'Please enter verification code.' Below this is a text input field containing the code '69221' and an orange 'Verify' button. At the bottom, there is a red link that says 'Send the code again'.

Create and confirm your password, this will open the folder.

To add documents to the Encrypted folder, drag them from any other folder. After you've finished working with your protected documents, close the Encrypted folder by clicking the key icon. It will also automatically lock after 10 minutes of inactivity.

To access the documents in the Encrypted folder, you will have to enter your password again.

Unique Document ID for Each Document

Secure the authenticity of the document with the help of a unique Document ID.

While sending a document for signature, create its tracking ID. You can also activate the **Document ID** option for the fillable forms that you host on your website or via QR code using the **LinkToFill** feature.

4. Document Security

To see the document's ID, go to its folder and select **Document ID** on the right.

If you choose to display the tracking ID on the document, it will appear at the page bottom.

Copy the document's ID and save it in a file for tracking the document.

Find Your Documents Using Document ID

Document ID is a personal tracking code of your document that enables you to monitor and manage a wide variety of analytical features.

Require Filler Email and Name

Identify recipients of the documents by requesting their names and emails.

While setting the options for a fillable form that you are going to host on your website using the **LinkToFill** feature, go to the **Submission Requirements** and mark the respective checkbox.

Submission Requirements

Require email address

Require name

Send Documents out to Be Signed

SendToSign is an easy and efficient way of requesting signatures.

Invite up to 20 Signers

Make up to 20 copies of a document and send them for signature. Each recipient signs his own copy and submits it to you.

You can start directly from the PDFfiller editor. When you've finished editing your document, click the **Done** button and select **SendToSign** from the drop-down menu.

On the next page, select **SendToEach**.

1. Choose how you want this document to be signed?

SendToEach :

Each recipient gets their own document to sign.

Send up to 20 unique copies of this document to be individually signed by each recipient. You will receive a confirmation after each copy is signed.

SendToGroup :

Sign in Order ?

Everyone signs one document.

Send a single copy of this document to be signed by up to 20 recipients, in any order or in a specific order. You will receive a confirmation email once the document has been signed by all recipients.

Add recipients' email addresses and names, set authentication options and editing permissions, and write a message to each of them. Add as many recipients as you need by clicking on Add Another Recipient.

2. Add Your Recipients

Authenticate Signer ?

Editing Permissions ?

Require a photo for signature authentication ?

Request Additional Documents ?

Message

Subject: Please sign this document with PDFfiller

Please sign and return the linked document with PDFfiller. If you have any questions, please contact me.

Finally, click **SendToSign** in the bottom right corner of the page.

Any **SendToEach** recipient can refuse to sign the document and write a message to you explaining why they would not sign it or requesting changes to the document. Click **Decline** in the top right corner to alert the sender that you have declined to sign the document.

You can add a message to the sender in the text box. The recipient can delete all the data they

Multiple Signers

Send a single copy of a document to be signed by up to 20 recipients.

Select **SendToGroup** and create an envelope name to label the group of signers.

Request Additional Documents

Ask a recipient to send you up to five documents as attachment to the document that he signs.

Required Fields

Required fields ensure that all the necessary information is provided and nothing is missing.

If the document you are sending for signature does not contain any fillable fields, but you need to add them, click **Add Fillable Fields**.

3. Add Fillable Fields to your document

Create a fillable template by adding fillable fields to:  New Document.htm

This tool allows you to easily place fillable text fields, number fields, checkbox fields, date fields, signature and photo fields anywhere on a document. The resulting document template allows anyone to type in the information directly into the fields, making it even easier and faster to fill the document.

[Add Fillable Fields](#)

You can add fillable fields to the document before you start preparing it for signature request.

However, if you decide to create more fillable fields or to modify the existing ones in the midst of preparation, click **Modify Fillable Fields**.

3. Modify Fillable Fields

Your document  Sample.pdf has fillable fields.

To modify, add or delete fillable fields click the button below. Once you modify the fields, we will return you to this screen to finish Sending out the document for signature.

[Modify Fillable Fields](#)

You can mark any field as **Required**. Check the box, and a red asterisk will appear in the top right corner of the field.

It is impossible to submit a form if a required field is empty.

For more information about fillable fields, please refer to the **Add Fillable Fields** section of this Guidebook.

Notifications When Done

Once all the recipients sign the document that you requested to sign through **SendToGroup**, you will receive a confirmation email.

You will receive a similar message every time a recipient signs the document that you requested to sign through **SendToEach**. To review the document, use the link in the message.

Signer Authentication and Security

Verify signer identity with multiple levels of authentication before giving access to documents.

Photo Verification

While sending a document for signature, you can ask the recipient to prove his identity with a photo. **Check** the box that activates this option.

2. Add Your Recipients

Recipient Email Recipient Name

Authenticate Signer ⓘ

Editing Permissions ⓘ

Require a photo for signature authentication ⓘ

The recipient will receive a request to identify himself with a photo.

The recipient should photograph himself using his webcam.

As soon as you have received the signed document, you will be able to check the signer's identity. Go to **MY DOCS > INBOX > SendToSign**, select the document and click **Status**.

On the document status page, you will see the signer's photo. You can **download** it to your local drive.

Recipient Actions

2-Factor Authentication

You can add one more level of security to your document by having a recipient enter a password sent by SMS.

While sending a document for signature, enable recipient's authentication and enter his cell phone number.

The recipient will receive a text message containing a 4-digit PIN. To get access to the document, the recipient will have to enter the PIN.

Verified by PDFfiller Stamp

PDFfiller verifies your signature with a stamp showing the date when you signed the document. To show the stamp, click its icon.

Add Your Own Branding

Reflect the company brand on the emails and web pages the recipients see when completing documents.

Brand the Look and Feel

Make a document template correspond to company branding by adding a logo, watermark and branded colors.

Add your company's logo to the fillable documents that you host on your website using our LinkToFill feature. Click the **Add New Logo** button and follow your browser's tips to upload an image from your device. The image should be in JPEG, GIF, or PNG format, its size cannot exceed 5 MB.

Whoever fills the document will see your logo in the top left corner of the page. If you choose not to use this option, PDFfiller's logo will appear by default.

Add a custom watermark to PDF documents.

Check the box and add the watermark text.

After the orientation, size, and opacity of the watermark have been defined, you can see the changes to your document in real time — simply select the pages you'd like to apply your watermark to to see how it looks.

Brand the Communication

Customize emails and communications with logos, videos and unique messages to clients. Go to **MY ACCOUNT** and select **Custom Branding**.

Choose a template for emails that you will send with the purpose of requesting signatures or sharing documents. Upload your company’s logo, the image should be in JPEG, GIF or PNG format, its size cannot exceed 5 MB.

Create a signature and click **Done** to save your template.

Description

Get All Filled Documents in Your Folder

Save all prefilled documents in a folder to access at any time from any device.

After you've created a new job, a list of all your jobs will open. Click **Save to MY DOCS** above the list to save the prefilled documents.

Job Name	Description	Files [Tasks]	Created
Questionnaire		QUESTIONNAIRE_V.3.htm [7]	01/12/2016

Job List Edit Job Copy Job Delete Job Save to MY DOCS Download

As soon as your documents are saved, you will receive a confirmation email.

To open the folder that contains the prefilled documents, use the link in the message or just go to **MY DOCS > MY BOX > Fill in Bulk** and open the subfolder that has the job's name.

Any of the documents that you've created contains the fillable fields that you added and the data you exported from the Excel spreadsheet.

PDF Converter

Convert PDFs to DOCX, XLS, PPT, TXT and JPG formats, or make the reverse conversions.

Convert to DOCX

Convert your PDF file to .docx format when saving the completed document.

Click **Done** and select **Save As** while the document is open in the editor.

Select the **Word** icon.

Open the document in Word or any other program supporting the .docx format for further editing.

Convert to Excel

Convert your PDF file to .xlsx format when saving the completed document.

Click **Done** and select **Save As** while the document is open in the editor.

To convert a PDF file to an Excel spreadsheet, select the **Excel** icon.

Open the document with any program supporting the .xlsx format if you need to make any calculations.

The screenshot shows a Microsoft Excel spreadsheet titled "New_Document.xlsx". The spreadsheet contains a table with columns for days of the week and rows for suppliers, with a total row at the bottom.

	A	B	C	D	E	F	G
1		Monday	Tuesday	Wednesday	Thursday	Friday	Total
2	Supplier 1	150	175	165	148		163
3	Supplier 2	215	210	220	205		208
4	Supplier 3	148	166	155	169		150
5						Total	

Convert to PPT

Convert your PDF file to .pptx format when saving the completed document.

Click **Done** and select **Save As** while the document is open in the editor.

To convert a PDF file to a PowerPoint presentation, select the **PowerPoint** icon.

Open the presentation with any program supporting the .pptx format for further editing.

Merge and Pages PDFs

Create a new document from existing PDF files and rearrange document pages.

Merging PDF Files

Combine pages from multiple PDF documents to create a new PDF.

Select the documents that you'd like to merge, click **More** and select **Merge** from the dropdown menu.

To change the sequence of documents, drag and drop them where you'd like them. The order of documents in the list reflects their order in the combined PDF. Enter a name for the merged document and click **Merge**.

The combined document will appear in the folder that contains the original PDFs.

Rearrange Pages

Change the order of pages in your PDF document.

In PDFfiller editor, click **PAGES** on the left to open the navigation pane.

Select the thumbnail of the page you would like to move; then, use the **Move Up** or **Move Down** icon at the top of the navigation pane.

Every time you click the **Move Up** or **Move Down** icon, the page will move respectively one step up or down.

Insert Pages

Insert additional pages into your PDF document and format them according to your needs. Select the document in its folder, then choose **More > Add Blank Pages**.

In the **Add Blank Pages** dialog box, select the number of pages you need to insert and click **Add Pages**.

If you need to insert more than five pages, repeat the procedure.

Delete Pages

To delete a page, select its thumbnail in the navigation pane and click the trash can icon above.
