

AVAYA PARTNER ACS VOICE MESSAGING PC LARGE CARD RELEASE 3.0 (2 Port x 16 Mailboxes) June 2000 (6108-548/700226525)

Lucent cleverly introduced Partner Voice Messaging PC Card in 1997, allowing Endeavor and ACS installations to add inexpensive voice mail without consuming slots in a carrier. By using flash memory and PC Card technology, the entire voice mail system plugs into the expansion PC Card slot on the Partner processor.

Features:

2-Port x 16-Mailbox System with 110 Minutes total storage. Handles up to two calls simultaneously and provides service for up to 16 subscribers. Can be configured for 2, 4, 6, 8, 10, 12, 14, or 16 mailboxes.

Automated Attendant Service. Answers your company's outside calls and transfers them to the destination selected by the caller (i.e. "Press 1 for sales...Press 2 for technical...etc."). The auto attendant has only 1 greeting that plays for day and night.

Call Answer Service. Prompts caller to leave a message or transfer to another extension when the called party does not answer. Release 3.0 also provides Answer Only Mode that a personal greeting to be played with a subsequent disconnect.

Voice Mail Service. Allows subscribers to listen to messages, delete or save messages, fast forward or rewind while listening to a message, record a personal greeting, change their password, replay messages, skip messages, change mailbox call answer mode

Compatibility:
