

# Payers Transitioned to 5010 - As of 6/4/2012

Below is a list of the payers that Office Ally has transitioned to 5010 as of 06/04/2012.

As payers transition to 5010, additional rejections may be experienced due to new 5010 requirements. With 5010, many payers will no longer allow for PO Box Addresses in the Billing Provider Address (Loop 2010AA N3 segment).

Office Ally recommends that submitters send an actual street address and not a PO Box address in the Billing Provider Address. If that is not possible, please register your physical address with us. More information on registering your physical address with us can be found under Resource Center: 5010 Information: New Ability for Providers to Register Physical Address

Please review all reports for any additional rejections that need correction and resubmission of claims.
